tech 06 | Introduction

It is not surprising that in recent times, with a growing concern of the population for appearance and aesthetics, techniques such as Mesotherapy or Peeling have gained special relevance. Being minimally invasive processes that generate good results, patients are increasingly demanding this type of treatment, leading to a succession of advances and developments in this field.

As far as dentistry is concerned, this is an excellent opportunity to refresh and update these methods, in order to continue offering the best possible professional practice. For this reason, TECH has assembled a valuable teaching team with high-level experience in the application of all types of Peeling and Mesotherapies.

They have been in charge of developing all the material found in this Postgraduate Certificate, which has been adapted to the latest scientific postulates and the most recent practical clinical reality. This gives a distinctive value to this program, as it contains the most rigorous scientific theory and the most urgent clinical practice for the specialist.

In addition to all of this, the 100% online format of the program makes it possible to balance it with the most demanding professional and personal responsibilities. There are no fixed schedules or classes, so it is the specialist who decides when to take on the entire teaching load, with free access to the virtual classroom from any device with an Internet connection.

This Postgraduate Certificate in Peeling and Facial Mesotherapy in Aesthetic Medicine and Facial Harmony contains the most complete and up-to-date scientific program on the market. Its most notable features are:

- The development of practical cases presented by experts in Aesthetic Medicine applied to Dentistry.
- The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice.
- Practical exercises where self-assessment can be used to improve learning.
- Its special emphasis on innovative methodologies for the use of Aesthetic Treatments in Dentistry.
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Get up to date on the different types of Mesotherapy applicable in the dental field with the best professionals in the sector"

You will have access to the latest scientific postulates on pre and post peeling treatment care, as well as protocols for dealing with complications and adverse effects"

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the course. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

At TECH you decide your own pace of study, adapting it to your own needs or personal responsibilities as best suits you.

You will delve into the most current legal aspects of Aesthetic Dentistry to complete your professional update.

tech 10 | Objectives

General Objectives

- Delve into the anatomy of the head and neck to reduce complications and consolidate the correct management of the patient who seeks in Aesthetic Medicine the harmonization of tissues.
- Learn about Aesthetic Medicine treatments applicable to the dental clinic, being able to expand the portfolio of services and acquire a specialty whose demand is booming.
- Recommend to each patient the ideal and personalized treatment for each case
- Instill in the student the vital importance of a result that looks as natural as possible in each treatment, for which the most avant-garde materials and techniques will be studied
- Know the business structure of the Dental Clinic from different angles, in order to optimize the necessary resources in the search for maximum profitability of the business
- Be able to replicate models that are profitable and discard those that represent a business deficit
- Understand the power of communication and marketing in attracting, retaining and promoting existing and prospective customers.

Specific Objectives

- Learn about dermatological treatments such as Chemical *Peelings* and Facial Mesotherapies
- Learn the application processes of these treatments, their mechanism of action and expected results
- Delve into the benefits of each treatment and understand why they are beneficial to the dermis
- Learn its medical indications, as well as the pre- and post-care that should be recommended to patients
- Know the Legal Framework in which this type of Dermo-aesthetic Treatments are found

You will incorporate into your daily practice the advances in Peeling and Mesotherapy acquired even before the end of the program"

tech 14 | Course Management

Management

Dr. Delgado Caldera, Carlos Enrique

- Plastic Surgeon expert in Mammoplasty and Lipoabdominoplasty.
- Head of the Department of Plastic and Reconstructive Surgery at the Instituto Docente de Urología.
- Aesthetic Plastic Surgeon at Servicios Mediplan C.A.
- Aesthetic Plastic Surgeon at Grupo Cil Venezuela C.A.
- Postgraduate of General Surgery in Hospital City Doctor Enrique Tejera
- Postgraduate of Aesthetic and Maxillofacial Reconstructive Plastic Surgery at General Hospital Doctor Jesús Yerena.

Professors

Dr. Rodríguez Gil, Claudia Isabel

- Plastic and Aesthetic Surgeon specialized in Breast Body, and Facial Surgery
- Medical Surgeon by the University of Carabobo
- Plastic Surgery Service Assistant Surgeon Dr. Enrique Tejera Hospital City
- Surgeon Assistant at the Plastic Surgery Service Dr. Enrique Tejera
- Surgeon at the Urology Teaching Institute
- Postgraduate in General Surgery at Dr. Enrique Tejera Hospital City
- Postgraduate in Plastic Surgery at the Dr. Jesús Yerena Hospital

Structure and Content

tech 18 | Structure and Content

Module 1. Other Medical-Aesthetic Treatments Peeling and Mesotherapy

- 1.1. Peeling
 - 1.1.1. General Aspects
 - 1.1.2. Types of Peeling
 - 1.1.3. Retinol
- 1.2. Superficial Peeling
 - 1.2.1. Mechanism of Action
 - 1.2.2. Indications
 - 1.2.3. Treatment Protocol
 - 1.2.4. Benefits
 - 1.2.5. Contraindications, Complication and Adverse Effects
- 1.3. Medium Peeling
 - 1.3.1. Mechanism of Action
 - 1.3.2. Indications
 - 1.3.3. Treatment Protocol
 - 1.3.4. Benefits
 - 1.3.5. Contraindications, Complication and Adverse Effects
- 1.4. Deep Peeling
 - 1.4.1. Mechanism of Action
 - 1.4.2. Indications
 - 1.4.3. Treatment Protocol
 - 1.4.4. Benefits
 - 1.4.5. Contraindications, Complication and Adverse Effects
- 1.5. Pre- and Post-care
- 1.6. Complications and Possible Adverse Effects
- 1.7. Mesotherapy
 - 1.7.1. General Aspects
 - 1.7.2. Types of Mesotherapy
 - 1.7.3. Benefits
- 1.8. Indications Techniques and Forms of Application
- 1.9. Complications and Possible Adverse Effects Pre- and Post-care
- 1.10. Legal Aspects
 - 1.10.1. Informed Consent
 - 1.10.2. Medical History
 - 1.10.3. Professional Training

Learn about the most innovative indications, techniques and forms of Peeling and Mesotherapy application thanks to this complete university program"

tech 22 | Methodology

At TECH, we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the dentist's professional practice.

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental

- Dentists who follow this method not only grasp concepts, but also develop their mental capacity by means of exercises to evaluate real situations and apply their knowledge.
- 2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
- **3.** Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
- **4.** Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

tech 24 | Methodology

Relearning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

The student will learn through real cases and by solving complex situations in simulated learning environments.

These simulations are developed using state-of-the-art software to facilitate immersive learning.

Methodology | 25 tech

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 115,000 dentists with unprecedented success, in all specialties regardless of the workload. Our educational methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your education, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then adapted in audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high-quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, the latest educational advances, and to the forefront of medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

We periodically assess and re-assess students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Quick Action Guides

Testing & Retesting

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical and effective way to help students progress in their learning.

This Postgraduate Certificate in Peeling and Facial Mesotherapy in Aesthetic Medicine and Facial Harmony endorsed by TECH Global University, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra (official bulletin). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University title**, is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: Postgraduate Certificate in Peeling and Facial Mesotherapy in Aesthetic Medicine and Facial Harmony

Modality: online

Duration: 6 weeks

Accreditation: 6 ECTS

has successfully passed and obtained the title of:

Postgraduate Certificate in Peeling and Facial Mesotherapy in Aesthetic

with identification document

Medicine and Facial Harmony

This is a private qualification of 180 hours of duration equivalent to 6 ECTS, with a start date of dd/mm/yyyy and an end date of dd/mm/yyyy.

TECH Global University is a university officially recognized by the Government of Andorra on the 31st of January of 2024, which belongs to the European Higher Education Area (EHEA).

In Andorra la Vella, on the 28th of February of 2024

^{*}Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
