Introduction to the Program

In education, emotional skills play a crucial role in the academic success and well-being of students. In light of this, Educational Coaching emerges as a strategic tool to strengthen these skills, creating more inclusive and productive environments. For this reason, it is essential that professionals handle modern techniques to boost the development of social-emotional skills in academic environments. With this idea in mind, TECH presents this innovative university program, in which in 3 weeks the graduate will be integrated into a team versed in Educational Coaching to get up to date on the latest developments and technologies available in this field.

“

Through this Internship Program, you will handle the most innovative Educational Coaching strategies to promote personal development and emotional management in academic environments”

According to a new report prepared by the International Coaching Federation, 60% of educational institutions that have implemented Educational Coaching programs have reported significant improvements in academic performance, socio-emotional development of students and overall teacher satisfaction. These results highlight the positive impact of this subject in the transformation of educational dynamics, fostering more inclusive and effective learning environments.

In this context, TECH launches a pioneering program that consists of a 120-hour stay in a reference entity in the field of Educational Coaching. As a result, for 3 weeks, students will be part of a team of top-level experts, with whom they will acquire direct experience in real educational environments, enhancing their professional skills and consolidating them as agents of change in the academic field. Upon completion, they will be able to design and lead transformational projects in institutions of any academic level.

During the stay they will be supported by an assistant tutor, who will ensure that all the requirements for which this Practical Internship has been designed are met. On this basis, the specialist will work with total guarantee and security in the management of the most innovative clinical technology.

02

Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs, available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it has a huge faculty of more than 6,000 professors of the highest international prestige.

“

TECH combines Relearning and the Case Method in all its university programs to guarantee excellent theoretical and practical learning by studying when you want and from wherever you want”

“

Study at the largest online university in the world and ensure your professional success. The future begins at TECH”

The world's best online university, according to FORBES

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

The best top international faculty

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

The most complete syllabuses on the university scene

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

A unique learning method

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

**Google Premier Partner**

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

**The top-rated university by its students**

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

03

Teaching Objectives

With this exclusive Practical Internship, graduates will develop advanced skills to manage the most innovative tools and methodologies of Educational Coaching. In this sense, professionals will be able to lead transformative educational processes, promote meaningful learning and manage emotional and relational dynamics effectively. - ♦ Discover and use Storytelling and Metaphors
- ♦ Identify the relationship that Coaching has with the fields of Neuroscience
- ♦ Know what emotional intelligence is
- ♦ Know and enhance social-emotional competencies
- ♦ Identify the importance of motivation
- ♦ Know the characteristics of self-esteem
- ♦ Learn how to apply emotional intelligence in the classroom
- ♦ Discover what identity is
- ♦ Familiarization with in-depth tools such as the Enneagram, and psycho-technical tools such as the MBTI
- ♦ Know the nature of beliefs and how they are formed
- ♦ Know the main cognitive distortions
- ♦ Learn how to generate a growth mindset
- ♦ Generate transformational changes
- ♦ Know how to carry out a team coaching process for the teaching staff and the management team
- ♦ Identify family cycles and know how to accompany families in their process
- ♦ Provide the future coach with tools to identify talent, as well as tools for its development through empowerment and sponsorship

This Internship Program offers you the opportunity to develop in a real work scenario, with the guarantee of an institution at the forefront of technology and maximum level"

04

Internship

The Internship Program period of this Educational Coaching program consists of a practical stay in a reference institution, lasting 3 weeks, from Monday to Friday with 8 consecutive hours of practical training with an assistant specialist.

In this training proposal, completely practical in nature, the activities are aimed at developing and perfecting the skills necessary for the provision of Educational Coaching services.

Undoubtedly, this is a unique opportunity to learn by working in the educational environment of the future, where talent development, emotional management and pedagogical innovation are at the center of its professional culture. This is a new way of understanding and integrating teaching and learning processes, which makes this program the ideal scenario for perfecting skills in Educational Coaching in the 21st century.

The practical part will be carried out with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of teachers and other training partners that facilitate teamwork and multidisciplinary integration as transversal skills for the praxis of Educational Coaching (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the training, and its realization will be subject to the center's own availability and workload, being the proposed activities the following:

Module	Practical Activity
Emotional Management	Design and implement programs that promote self-awareness, emotional regulation, empathy and social skills
	Integrate emotional intelligence concepts into the school curriculum, helping students to understand and manage their emotions
	Organize dynamics and activities that strengthen communication, teamwork and conflict resolution in the school environment
	Teach techniques for dealing with adversity, overcoming frustrations and adapting to change effectively
Learning from a Systemic Approach	Design and lead activities that promote cohesion and harmony in groups, taking into account the relationships and roles of each individual
	Work with students to understand their place within the school and family system, fostering a sense of belonging and self-esteem
	Provide teachers with strategies to manage group dynamics in the classroom, ensuring a climate of respect, inclusion and collaboration
	Design educational strategies that connect academic content with students' daily lives and personal experiences
Development of Talent and Creativity	Create activities and methodologies that stimulate creative thinking and innovation in the educational process
	Create individualized strategies that enable students to achieve their goals related to talent, vocation and creativity
	Offer support for students to believe in their potential, face challenges and overcome creative or emotional blocks
	Facilitate group dynamics that encourage problem solving, teamwork and the generation of innovative ideas
Dynamic Pedagogical Strategies	Advise in the planning and execution of methodologies that actively involve students in their own learning
	Guide teachers in the use of digital tools to foster innovation in the classroom, such as interactive platforms, simulations and collaborative applications
	Design systems to evaluate the effectiveness of the active methodologies implemented, identifying areas for improvement and adapting strategies
	Facilitate dynamics and workshops that promote cooperation between students, teachers and other educational actors

05

Internship Centers

06

General Conditions

Civil Liability Insurance

The university's main concern is to guarantee the safety of the interns, other collaborating professionals involved in the internship process at the center. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, the university commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the stay at the internship center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the Internship Program period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship program agreement shall be as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

07 Certificate

This private qualification will allow you to obtain a diploma for the **Internship Program in Educational Coaching** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification, is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
