Introduction to the Program

Education has undergone a significant transformation in recent years, driven by factors such as technology. Therefore, Education Policies must adapt quickly to these changes to guarantee quality teaching. In view of this, experts need to incorporate the most innovative strategies into their practice in order to implement programs that promote equity in the field of education. With this idea in mind, TECH has developed a cutting-edge qualification in which, for 3 weeks, graduates will join a team specialized in Education Policy Management to delve into the latest trends in this sector.

“

Thanks to this Internship Program, you will create highly efficient Education Policies that respond to the social, economic and cultural needs of the population”

According to a new report by the United Nations, more than 750 million adults are still unable to read or write. This figure highlights the disparity in access to and quality of education between different regions of the world. In this sense, the Management of Education Policies plays a fundamental role in the design and implementation of strategies that promote equity, improvement in the quality of education and universal access to education. For this reason, specialists need to master the most effective techniques to improve both inclusion and user performance.

In this context, TECH presents an exclusive Internship Program MBA in Education Policy Management, consisting of a 120-hour stay at a leading center in this sector. In this way, over the course of 3 weeks, graduates will form part of a team of top-level specialists, with whom they will actively work on the design, implementation and evaluation of innovative educational initiatives.

Furthermore, during this practical stay, the students will have the support of an assistant tutor, who will ensure that all the requirements for which this Internship Program has been designed are met. Based on this, they will guide graduates in the application of current best practices and methodologies in Education Policy Management, ensuring that each activity is carried out to the highest standards of quality. In addition, they will provide continuous feedback on the performance of graduates, guiding them in making key decisions and solving real problems that they will face in their professional careers.

02

Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it relies on an enormous faculty of more than 6,000 professors of the highest international renown.

“

TECH combines Relearning and the Case Method in all its university programs to guarantee excellent theoretical and practical learning, studying whenever and wherever you want”

“

Study at the world's largest online university and guarantee your professional success. The future starts at TECH”

The world's best online university according to FORBES

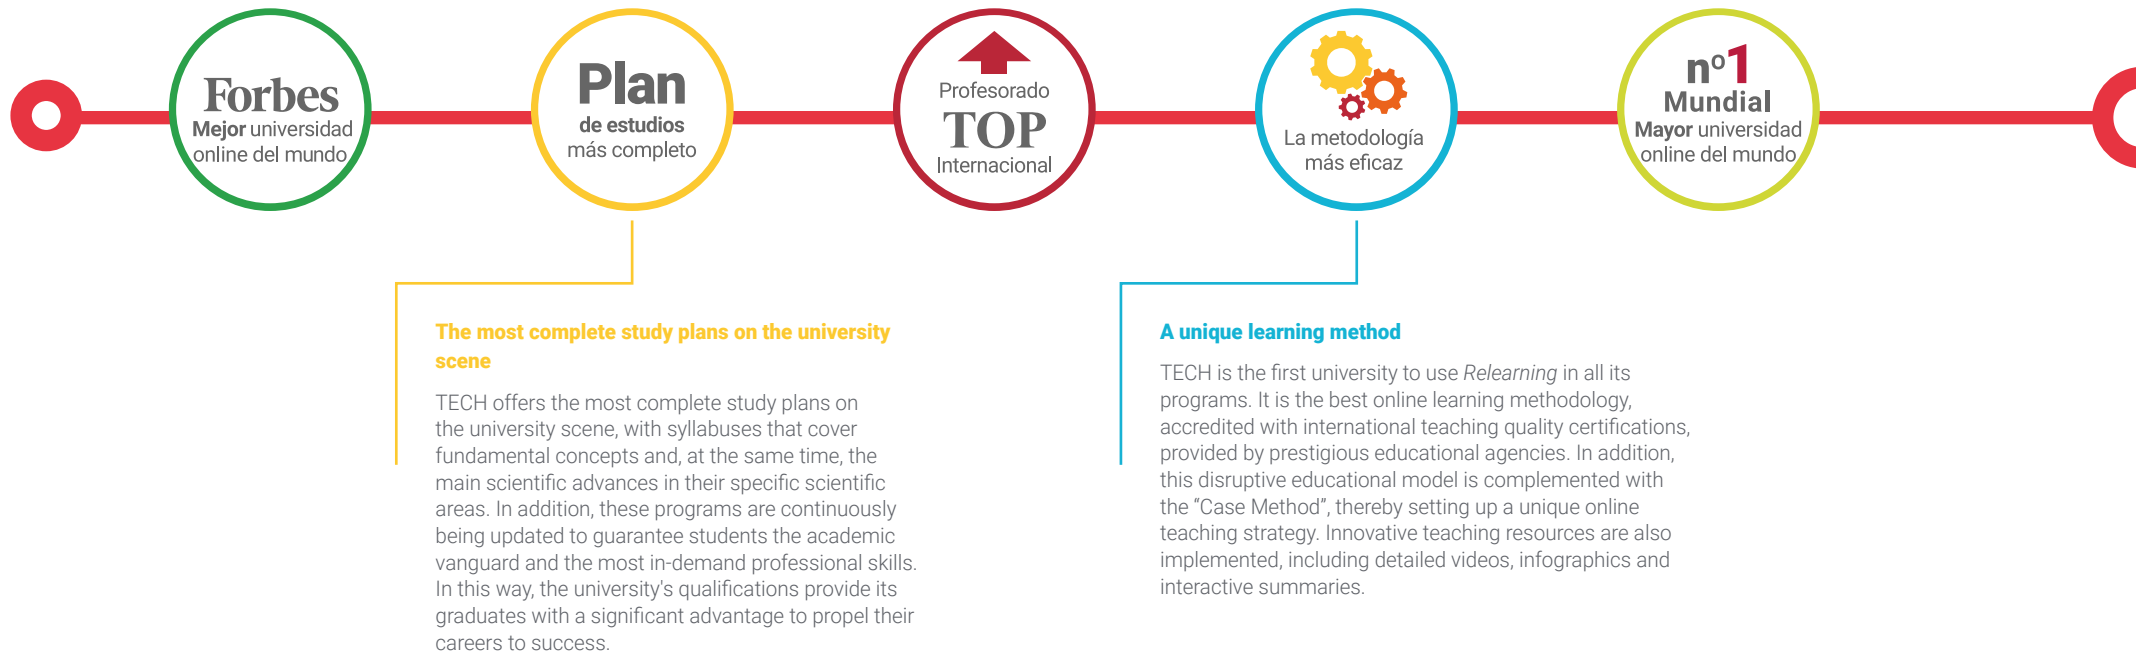

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the world's best online university" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method aimed at educating the professionals of the future"

A world-class teaching staff

TECH's teaching staff is made up of more than 6,000 professors with the highest international recognition. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest online educational catalog, one hundred percent online and covering the vast majority of areas of knowledge. We offer a large selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university degrees, in eleven different languages, make us the largest educational largest in the world.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has managed to become the leading university in employability. 99% of its students obtain jobs in the academic field they have studied, within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

**Google Premier Partner**

The American technology giant has awarded to TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition as a Google Premier Partner not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

**The top-rated university by its students**

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model. These ratings place TECH as the absolute international university reference.

03

Teaching Objectives

Thanks to this university program, professionals will keep up to date with the latest approaches and methodologies in educational management and public policy in an exclusively practical way, through an internship in a leading educational center, designed with academic and strategic rigor. This experience will be carried out under the supervision of experts in the field, in an innovative educational environment that promotes the integration of information and communication technologies, allowing graduates to apply and evaluate the most advanced education policies and programs in real time to improve quality and equity.

General Objectives

- ♦ Have an in-depth knowledge of the current socio-educational reality
- ♦ Acquire the anthropological knowledge bases necessary to understand the evolution of education
- ♦ Learn what are and how are the aspects of the economics of education developed
- ♦ Delve the current legislation and the legal regime applicable to educational institutions BORRAR

Specific Objectives

- ♦ Integrate the skills acquired during the program in practical situations of design, implementation and evaluation of educational policies
- ♦ Make informed and strategic decisions based on the analysis of educational data and the specific contexts of the institutions
- ♦ Actively participate in the evaluation of educational programs and policies, using analysis tools and performance metrics to generate recommendations for improvement
- ♦ Manage financial, human and technological resources in educational institutions, optimizing their use to improve educational outcomes and guarantee sustainability
- ♦ Create educational programs aligned with the social, economic and cultural needs of the environment, promoting equity and educational quality
- ♦ Implement and promote the use of Information and Communication Technologies in educational management, optimizing teaching-learning processes and institutional administration
- ♦ Participate in the formulation of policies that promote educational inclusion and equity, guaranteeing access to education for all students, regardless of their socioeconomic context or specific needs
- ♦ Develop effective communication and negotiation skills with different actors involved in the education system

04

Internship

The Internship Program period of this Education Policy Management program consists of a 3-week practical stay at a leading organization, from Monday to Friday with shifts of 8 consecutive hours of practical training alongside an assistant specialist. This internship will allow graduates not only to acquire technical and practical skills, but also to develop skills in complex decision making, teamwork and real-time case management.

In this completely practical Internship Program, the activities are aimed at developing and honing the skills necessary for the provision of Education Policy Management.

It is, without doubt, a unique opportunity to learn by working in an innovative educational center of the future, where digitalization and real-time data analysis of academic performance and student needs are at the heart of the educational culture of its professionals. This new way of understanding and integrating educational processes makes this center the ideal setting for a transformative experience in improving educational leadership and management skills for the 21st century.

The practical teaching will be carried out with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of teachers and other fellow trainees that facilitate teamwork and multidisciplinary integration as transversal competencies for the practice of Education Policy Management (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the program, and their implementation will be subject to the center's own availability and workload, the proposed activities being the following:

Module	Practical Activity
Educational Strategies	Design and formulate policies at the national, regional or local level to improve the quality of and access to education
	Develop regulatory frameworks and strategies to guide the management of the education system
	Evaluate the impact and effectiveness of implemented education policies
	Conduct impact studies on specific programs, such as inclusive education or gender equity in education
Design of teaching materials	Create teaching resources such as guides, textbooks, videos, digital learning platforms and interactive materials
	Create innovative educational projects that promote teaching in specific areas such as science, technology and the arts, among others
	Ensure that materials are culturally relevant, accessible and appropriate to the diverse needs of learners
	Design exams, tests and other assessment tools to measure individual learning
Use of technology tools in the classroom	Plan, implement and supervise projects that use Information and Communication Technologies to improve the quality of education, such as e-learning platforms
	Assess the impact of technology tools on students' academic performance and the quality of education
	Develop policies that guarantee equal access to technologies for all users, especially in rural areas or areas with limited resources
	Supervise the implementation of technological infrastructures in educational institutions, such as internet networks, computer equipment and educational software
Educational Performance Measurement	Create and implement systems and methodologies to assess the effectiveness of educational programs at different levels
	Use data analysis tools to assess trends, identify areas for improvement and present detailed reports on findings
	Continuously monitor educational programs to ensure they are meeting established objectives
	Evaluate the impact of educational programs on academic performance, skills development and the social inclusion of individuals

05

Internship Centers

06

General Conditions

Civil Liability Insurance

The university's main concern is to guarantee the safety of the interns, other collaborating professionals involved in the internship process at the center. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, the university commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the Internship Program period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship program agreement shall be as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

07 Certificate

This private qualification will allow you to obtain a diploma for the **Internship Program MBA in Education Policy Management** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra (official bulletin). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.
