01

Introduction

Knowing the morphology, syntax and semantics of the English language is an essential part of the learning process, since it is the only way to know the language in depth and, therefore, be qualified to teach it. Therefore, it is essential for the teacher of the subject to learn about both the new and already established parameters to teach the language in an adequate way. This has led TECH to create the following program with the aim of providing students with the most up-to-date knowledge in the sector. All this is presented through audiovisual resources, complementary readings and practical exercises with the Relearning methodology, based on reiteration, evidence and experience, leaving behind the conventional model of memorization.

“

The availability of specialized teachers will make it possible to offer a more personalized education to students. Don't miss this opportunity and acquire a quality education"

Having a good base of English is essential to achieve a natural knowledge of the language, where communication is not carried out after a sentence translation, but through a direct thought in English. For this, ideally, learning is started at an early age, and with professionals with a high level of the language, which allows a quality teaching to their students.

This Postgraduate Certificate focuses on the importance of the interaction between morphology, syntax and semantics for effective communication in English and to increase the possibilities of the future teacher to get a job in the field of education.

In this way, morphology, syntax and semantics of the English language will be studied from the point of view of applied linguistics, so that the future teacher will be able to construct and interpret the meaning of expressions in spoken and written English, taking into account the properties of the context.

This program is distinguished by the fact that it can be taken in a 100% online format, adapting to the needs and obligations of the student, in an asynchronous and completely self-manageable way. The student will be able to choose which days, at what time and how much time to dedicate to the study of the contents of the program. Always in tune with the capabilities and skills dedicated to it.

The order and distribution of the subjects and their units is specially designed to allow each student to choose their own schedule and self-manage their time. For this purpose, you will have at your disposal theoretical materials presented through enriched texts, multimedia presentations, exercises and guided practical activities, motivational videos, master classes and case studies, where you will be able to evoke knowledge in an orderly manner and work on decision-making that demonstrates your high-level education within this field of teaching.

This **Postgraduate Certificate in English Language in Pre-School Education** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ The development of practical cases presented in simulated scenarios by experts in the field of study, where the student will evoke in an orderly manner the knowledge learned and demonstrate the acquisition of the competencies
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the students undergo the self-assessment process to improve learning, as well as activities at different skill levels
- ♦ Special emphasis on innovative methodologies and teaching research
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

If you are looking to excel in your profession, don't think twice, at TECH Technological University we offer you the most complete education of the moment"

“

Acquire a higher professional level that will allow you to compete with the best thanks to the completion of this very complete program"

Its teaching staff includes professionals belonging to the field of education, who contribute their work experience to this training, as well as renowned specialists from reference societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. For this purpose, the teacher will be assisted by an innovative interactive video system developed by renowned experts in English semantics and morphology and with extensive teaching experience.

We offer you the best teaching methodology with a multitude of practical cases so that you can develop your study as if you were facing real cases.

The program invites us to learn and grow, to develop as teachers, to learn about educational tools and strategies in relation to the most common needs in our classrooms.

02 Objectives

The Postgraduate Certificate in English Language in Pre-School Education is oriented toward developing in students the skills required for the exercise of their profession. For this purpose, TECH offers the most complete education from the hand of the main experts in the field.

“

We want to develop your skills so that you can, in a short period of time, make the professional leap you deserve”

General Objective

- Develop in the teacher the necessary skills to teach English lessons at the Pre-School Education stage, meeting the educational objectives and emphasizing the teaching of semantics and morphology

Our goal is to achieve academic excellence and to help you achieve it too"

Specific Objectives

- ♦ Make a concise summary of English semantics and morphology
- ♦ Apply this knowledge to the principles of English Language teaching to schoolchildren
- ♦ Communicate in English both orally and in writing

03

Structure and Content

The structure of the contents has been designed by top level professionals within the educational field, with a wide trajectory and recognized prestige in the profession. Backed by their experience, and with extensive knowledge of new technologies applied to teaching.

“

We seek academic excellence and to help you achieve it, and to do so, we have the most up-to-date content on the market”

Module 1. Morphosyntax and Semantics in the English Language

- 1.1. Morphology: The Morpheme
 - 1.1.1. Introduction to Morphology
 - 1.1.2. Word and Word Classes
 - 1.1.3. The Morpheme
 - 1.1.4. Allomorphy
 - 1.1.5. The Root
- 1.2. Morphology: Affixation
 - 1.2.1. Introduction to Affixation
 - 1.2.2. Suffixes
 - 1.2.3. Prefixes
 - 1.2.4. Infixes
- 1.3. Morphology: Derivation Without Affixation and Compounding
 - 1.3.1. Derivation Without Affixation
 - 1.3.2. Compounding
 - 1.3.3. Change of Meaning of the Words
- 1.4. Syntax: Clause Structure
 - 1.4.1. Introduction
 - 1.4.2. Subject
 - 1.4.3. Predicator
 - 1.4.4. Objects
 - 1.4.5. Complements
 - 1.4.6. Adjuncts
- 1.5. Syntax: Syntactic Functions of the Groups I
 - 1.5.1. The Nominal Group
 - 1.5.2. The Verbal Group
 - 1.5.3. The Adjectival Group
- 1.6. Syntax: Syntactic Functions of the Groups II
 - 1.6.1. The Adverbial Group
 - 1.6.2. Prepositional Phrase

- 1.7. Syntax: Clause Types and Clause Combination
 - 1.7.1. Introduction: Speech Acts and Clause Types
 - 1.7.2. Declarative Clause
 - 1.7.3. Interrogative Clause
 - 1.7.4. Imperative Clause
 - 1.7.5. Prepositional Phrase
 - 1.7.6. Clause Combination: Simple, Compound, and Complex Sentences
- 1.8. Semantics: Semantic Roles and Lexical Relations
 - 1.8.1. Introduction to Semantics
 - 1.8.2. Semantic Meaning
 - 1.8.3. Semantic Features
 - 1.8.4. Semantic Roles
 - 1.8.5. Lexical Relations: Synonymy, Antonymy, Homophones and Homonyms, Polysemy, Metonymy, Collocation
- 1.9. Semantics: Pragmatics and Discourse Analysis
 - 1.9.1. Pragmatics
 - 1.9.2. Discourse Analysis
- 1.10. Semantics: Language, Society, and Culture
 - 1.10.1. Sociolinguistics: Social Dialects and Styles
 - 1.10.2. Language and Culture
 - 1.10.3. Second Language Acquisition

This program is the key to advancing your professional career, don't let this opportunity pass you by"

04

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort
and better performance, involving you more in
your specialization, developing a critical mindset,
defending arguments, and contrasting opinions:
a direct equation to success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

05 Certificate

The Postgraduate Certificate in English Language in Pre-School Education guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

*Successfully complete this program and
receive your university qualification without
having to travel or fill out laborious paperwork”*

This private qualification will allow you to obtain a **Postgraduate Certificate in English Language in Pre-School Education** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
