Index

tech 06 | Introduction

In the Pre-School Education stage, children learn to speak and express themselves with increasing accuracy and clarity, so that in their first six years of life they have developed their mother tongue in a natural way. Later on, they acquire sufficient maturity to learn to read and write.

Therefore, the specialist teacher in this field must know that language and speech are very complex linguistic processes whose acquisition must be observed in order to be able to predict possible limitations in the overall development of children.

Access to communication and the possibility of establishing affective-social relationships that allow children to integrate into their group can be compromised when language development is impaired by various circumstances, such as: a disadvantaged environment without adequate stimulation, an alteration in their normal development or a speech disorder or alterations in any or all components of language that may or may not be associated with a disability.

In this Postgraduate Certificate, all these issues will be studied so that the teacher will be able to provide appropriate educational responses and to know from a practical perspective the possibilities of action and strategies that can be applied in each case.

This program is distinguished by the fact that it can be taken in a 100% online format, adapting to the needs and obligations of the student, in an asynchronous and completely self-manageable way. The student will be able to choose which days, at what time and how much time to dedicate to the study of the contents of the program. Always in tune with the capabilities and skills dedicated to it.

The order and distribution of the subjects and their units is specially designed to allow each student to choose their own schedule and self-manage their time. For this purpose, you will have at your disposal theoretical materials presented through enriched texts, multimedia presentations, exercises and guided practical activities, motivational videos, master classes and case studies, where you will be able to evoke knowledge in an orderly manner and work on decision-making that demonstrates your high-level education within this field of teaching.

This Postgraduate Certificate in Hearing and Language Intervention in Pre-School Education contains the most complete and up-to-date educational program on the market. The most important features include:

- The development of practical cases presented in simulated scenarios by experts in the field of study, where the student will evoke in an orderly manner the knowledge learned and demonstrate the acquisition of the competencies
- The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- Practical exercises where the students undergo the self-assessment process to improve learning, as well as activities at different skill levels
- Special emphasis on innovative methodologies and teaching research
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Children with educational difficulties need personalized attention. For this reason, it is necessary for teachers to have a broad knowledge of this type of pathology"

The program's teaching staff includes professionals from the field of education, who bring to this program their work experience, as well as renowned specialists from prestigious reference societies and universities.

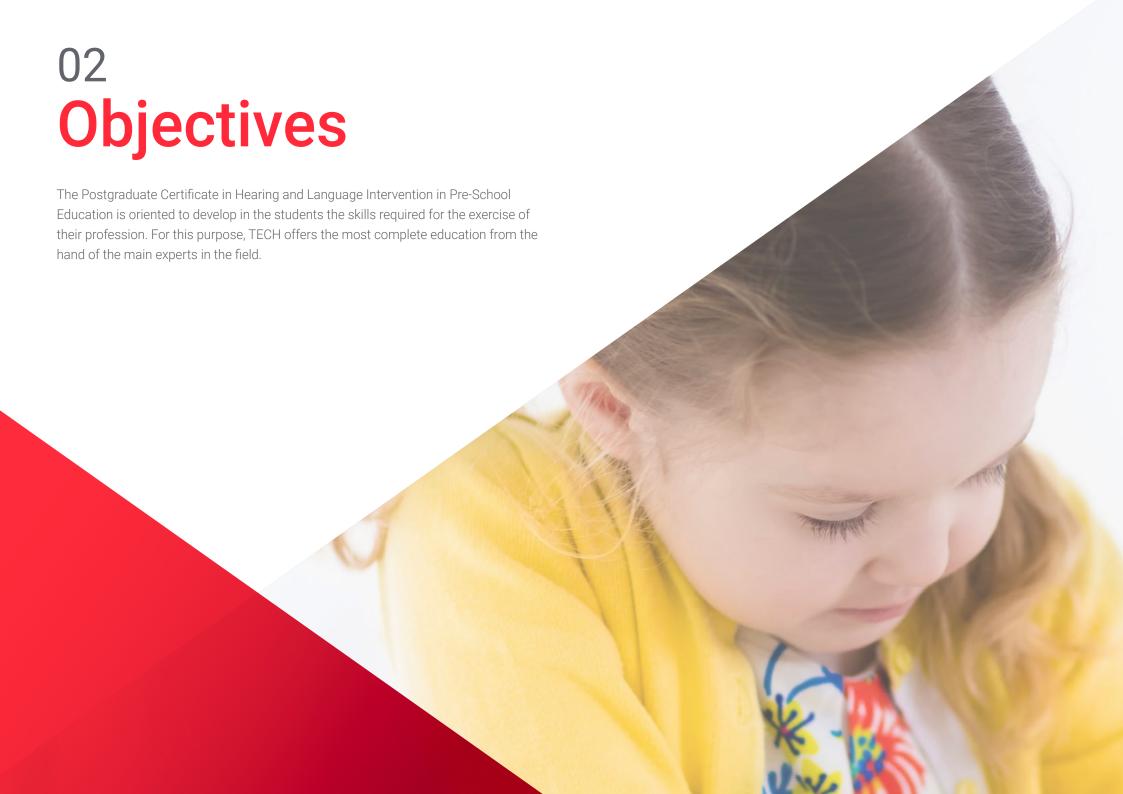

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the teacher must try to solve the different professional practice situations that arise throughout the program. For this purpose, the teacher will be assisted by an innovative interactive video system developed by renowned experts in Hearing and Language and with extensive teaching experience.

Acquire a higher professional level that will allow you to compete with the best thanks to the completion of this very complete program.

The program invites us to learn and grow, to develop as teachers, to learn about educational tools and strategies in relation to the most common needs in our classrooms.

Become a Pre-School Education teacher thanks to the opportunity offered by TECH, the leading online university in Spanish"

tech 10 | Objectives

General Objective

• Develop teachers' skills and competencies to teach lessons in the early years of schooling of children

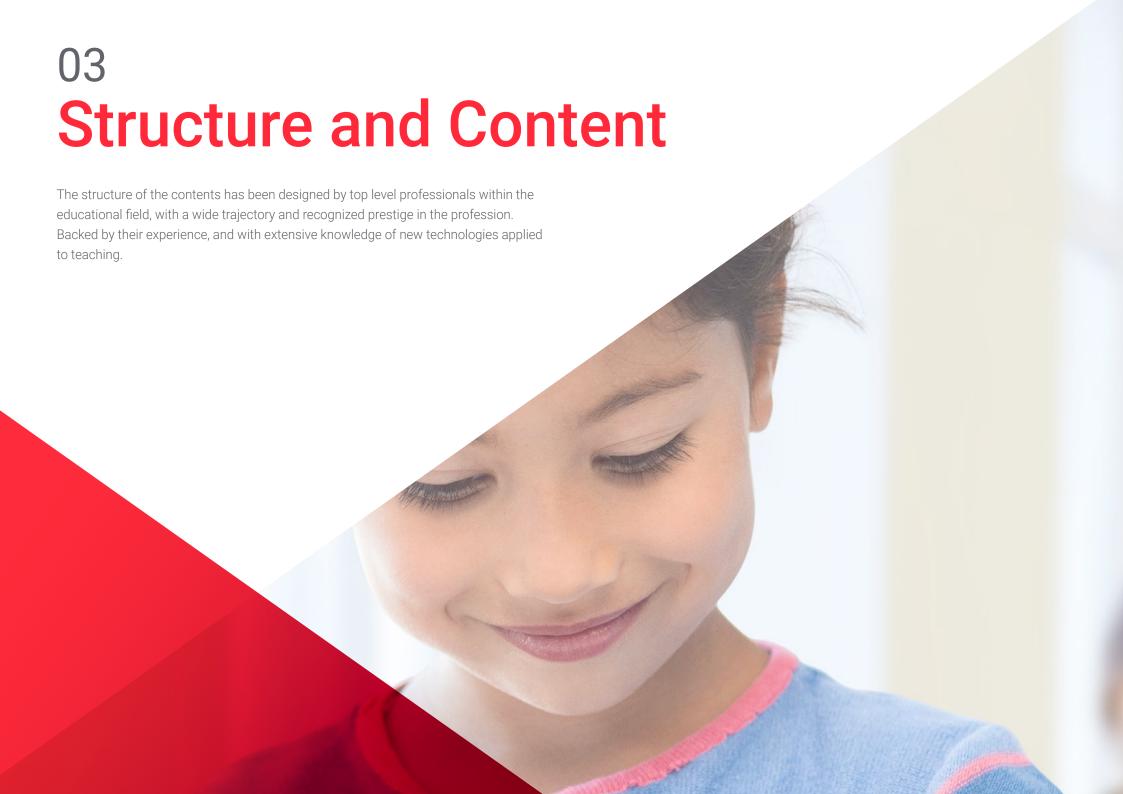

Specific Objectives

- Gain knowledge about the evolutionary process in the development of language and communication from 0 to 6 years old
- Get to know oral and written language disorders in the educational environment
- Know at a theoretical and practical level the teaching and methodological techniques
 of those areas or areas of teaching the subject of hearing and language adapted to the
 needs of students

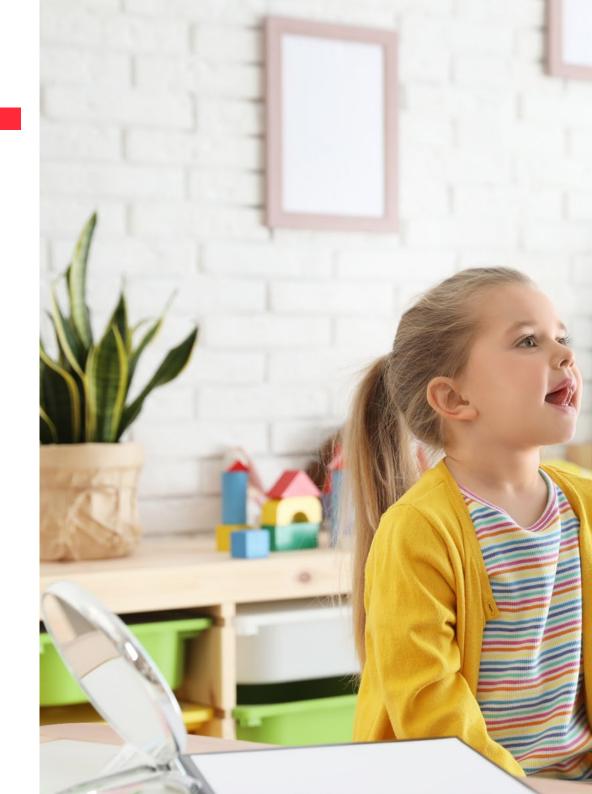

The best content to create the best teachers"

tech 14 | Structure and Content

Module 1. Methodologies and Strategies in Language Intervention

- 1.1. Language Components
 - 1.1.1. Definition of Language
 - 1.1.2. Language Components
 - 1.1.3. Language Dimensions
 - 1.1.4. Definition of Language Difficulty
- 1.2. Models of Intervention in Language Difficulties
 - 1.2.1. Classical Models of Intervention in Language Difficulties
 - 1.2.2. Inclusive Models of Today's Schools
 - 1.2.3. Language Facilitation Systems
- 1.3. Intervention Strategies in Language Components
 - 1.3.1. Pre-Intervention Considerations
 - 1.3.2. Intervention in the Phonological Component
 - 1.3.3. Intervention in the Morphosyntactic Component
 - 1.3.4. Intervention in the Semantic Component
 - 1.3.5. Intervention in the Pragmatic Component
- 1.4. Language Delays
 - 1.4.1. Classification
 - 1.4.2. Etiology
 - 1.4.3. Intervention Strategies
- 1.5. Address Fluency Disorders
 - 1.5.1. General Characteristics
 - 1.5.2. Classification
 - 1.5.3. Models of Intervention in Dysphemia
- 1.6. Dysphonia
 - 1.6.1. Factors influencing Incorrect Phonation
 - 1.6.2. Phonic Rehabilitation
 - 1.6.3. Vocal Hygiene
 - 1.6.4. Dysphonia in the Classroom
 - 1.6.5. The Teacher's Role in Working with Students with Dysphonia

Structure and Content | 15 tech

- 1.7. Intervention in Reading Disorders
 - 1.7.1. Factors influencing Incorrect Phonation
 - 1.7.2. Phonic Rehabilitation
 - 1.7.3. Psychological Processes involved in the Acquisition of Reading
 - 1.7.4. Tasks for Recovery of Each Affected Process
 - 1.7.5. Specific Learning Difficulties (Dyslexia) and Reading Delay
- 1.8. Intervention in Writing Disorders
 - 1.8.1. Processes Involved in the Learning of Writing
 - 1.8.2. Recovery of the Affected Processes in Writing Difficulties
 - .8.3. Dysgraphia and Dysorthography
- 1.9. The Hearing and Language Intervention Plan
 - 1.9.1. Intervention Plan Contents, Materials and Timeline
 - 1.9.2. Types of Intervention that can be Carried Out by the Hearing and Language Teacher in the School Setting
 - 1.9.3. Language Stimulation Program
- 1.10. Collaborative Work in the Detection and Assessment of Communication and Language Disorders
 - 1.10.1. Collaborative Work in the Assessment and Detection of Language Disorders
 - 1.10.2. Other Professionals
 - 1.10.3. The Family

This program is the key to advancing your professional career, don't let this opportunity pass you by"

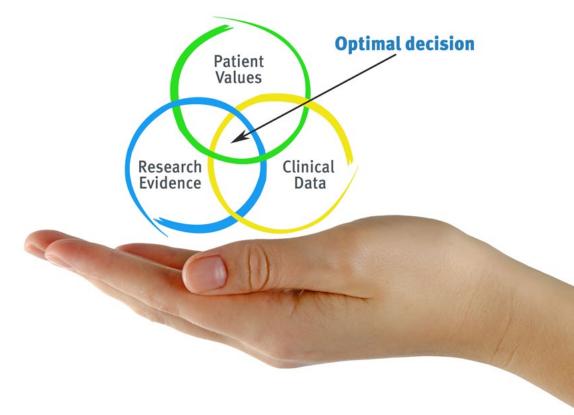

tech 18 | Methodology

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method"

The effectiveness of the method is justified by four fundamental achievements:

- Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
- 2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
- **3.** Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
- 4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

tech 20 | Methodology

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Methodology | 21 tech

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

tech 22 | Methodology

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

tech 26 | Certificate

This **Postgraduate Certificate in Hearing and Language Intervention in Pre-School Education** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: Postgraduate Certificate in Hearing and Language Intervention in Pre-School Education

Official No of Hours: 150 h.

^{*}Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
