## tech 06 | Introduction

Postgraduate Certificate pays special attention to teaching Spanish as a Foreign Language, since one of the main objectives is to prepare teachers for teaching in multicultural groups and where several languages coexist.

For all these reasons, different methodological approaches are presented to enhance the teacher's work and help them create activities within this specific framework. Interaction is essential to minimize multicultural differences and enable the transition of the classroom from a teaching space to a social space.

Finally, we will emphasize the relevance of information and communication technologies in the field of teaching. The presence of ICT in the classroom brings wide-ranging benefits and helps in the presentation of content. Once again, the work of the teacher is a fundamental factor in its use since they must create a digital resource database that is reliable and appropriate for pre-school and primary teaching.

In conclusion, the Postgraduate Certificate in Oral Communication in Language Teaching for Pre-School and Primary School focuses on developing oral production skills as well as comprehension skills. The development of a teaching plan and its corresponding units must be geared towards achieving a series of objectives also established at the beginning of the school year.

The teaching of SFL in a multicultural group which has limited contact with the Spanish language, is a priority in this Postgraduate Certificate, as, nowadays, the educator is often faced with this situation.

Finally, we present the benefits of using your own digital resource database that is practical and reliable in terms of its contents.

This Postgraduate Certificate in Oral Communication in Language Teaching for Pre-School and Primary School contains the most complete and up-to-date educational program on the market. The most important features include:

- Graphic, schematic, and practical contents which provide scientific and practical information on the disciplines that are essential for professional practice
- Latest developments on Oral Communication in Language Teaching for Pre-School and Primary School
- Practical exercises where a self-evaluation process can be carried out to improve learning with special emphasis on innovative methodologies in Oral Communication in Language Teaching for Pre-School and Primary School
- All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Update your knowledge with this
Postgraduate Certificate in Oral
Communication in Language Teaching
for Pre-School and Primary School"

This Postgraduate Certificate may
be the best investment you can
make in the selection of a refresher
program for two reasons: in addition
to updating your knowledge in
Oral Communication in Language
Teaching for Pre-School and
Primary Sch ool, you will obtain a
Postgraduate Certificate from TECH
Technological University"

Increase your decision-making confidence by updating your knowledge through this Postgraduate Certificate.

Take advantage of this opportunity to learn about the latest advances in Oral Communication in Language Teaching for Pre-School and Primary School and enhance students' learning.

The faculty is made up of professionals experienced in Oral Communication in Language Teaching for Pre-School and Primary School, who pour their experience into this program, in addition to renowned specialists belonging to leading societies and prestigious universities.

Multimedia content developed with the latest educational technology, will allow professionals a situated and contextual learning, that is to say, a simulated environment that will provide immersive learning designed to prepare them for real situations.

This program is designed around Problem-Based Learning, whereby the teacher must try to solve the different professional practice situations that arise during the course. To do so, the educator will have the help of an innovative interactive video system created by renowned experts in the field of Oral Communication in Language Teaching for Pre-School and Primary School with extensive teaching experience.

## tech 10 | Objectives

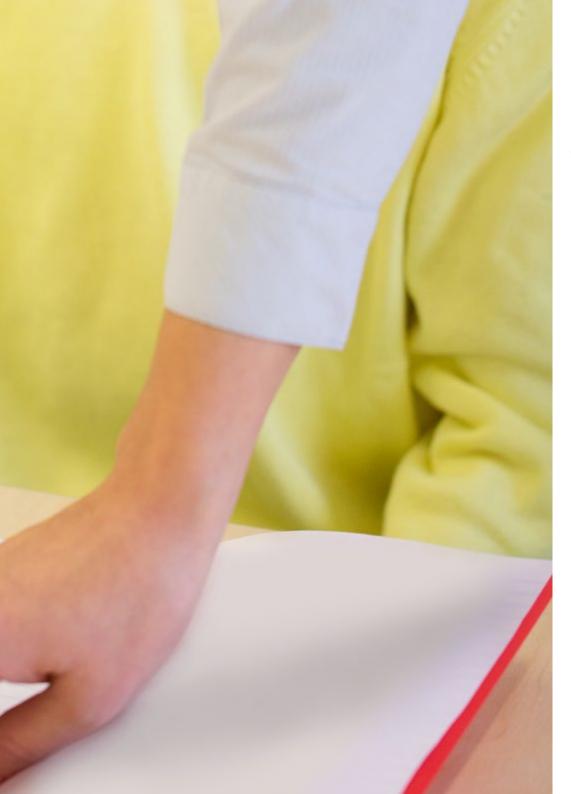

## **General Objective**

• The main objective is to provide future pre-school and primary teachers with essential knowledge on child development, learning, and education that will allow them to optimize their teaching and adapt to the idiosyncrasies of students.

Take advantage of this opportunity and take the next step to get up to date on the latest developments in Oral Communication in Language Teaching for Pre-School and Primary School"

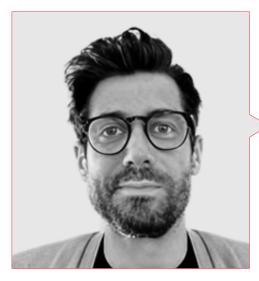

### **Specific Objectives**

- Place human development in its biopsychosocial context and understand the relationships between development, learning, culture, and education
- Define the main theoretical paradigms of human development and learning
- Describe the characteristics and special considerations for the human growth period and understand the perceptual, cognitive and emotional correlates of brain development
- Compare the different theoretical perspectives on perceptual-motor development
- Understand how the interaction between experience and the physical and social environment influences physical and perceptual-motor development
- Understand the strengths and limitations of different constructivist perspectives on cognitive development
- Know how attention, memory, thinking, and executive functions develop from an information processing perspective
- Understand the special considerations for social information processing and identify the contributions of psychometrics to the study of individual differences in children
- Describe the development of attachment, understanding of self and others
- Know the domains of moral development and its different explanatory theories and to identify the elements of prosocial and antisocial behavior
- Situate the main contexts of social development: family and peer relationships.
- Know the cognitive-behavioral approaches to learning and to summarize the sociocognitive approaches to learning
- Interpret the learning processes from the perspective of information processing
- Understand the active role of the learner in the acquisition of knowledge
- Explain learning through the interaction between the processes of accommodation and assimilation

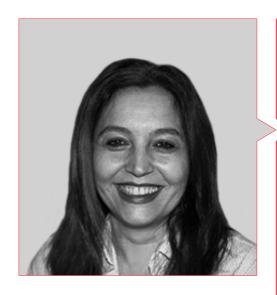

#### Management

## Mr. Arroyo Fernández, Alejandro

- Doctoral candidate in American literature, Complutense University of Madric
- Degree in English Philology, specializing in contemporary American literature and Victorian literature
- Master's Degree in European Literary Studies
- Master's Degree in Teaching Spanish as a Foreign Language
- Contributor to digital magazines of literary criticism and teacher of Spanish as a Foreign Language

#### Ms. Jiménez Romero, Yolanda

- Psychopedagogist and Primary School Teacher with a major in English
- Director of the University Teaching and Educational Coaching programs at TECH Technological University.
- Co-director of the programs in Language Teaching in Pre-School and Primary School, Language and Literature Teaching in Secondary and High School, Bilingual Teaching in Secondary and High School and Bilingual Teaching in Pre-School and Primary School at TECH Technological University.
- Co-director and Professor of the Neurosciences Program at TECH Technological University in the programs in Emotional Intelligence and Career Guidance at TECH Technological University
- Lecturer of the Visual Skills and Academic Achievement program at TECH Technological University
- Teacher in the High Abilities and Inclusive Education program.
- Educational psychologist
- Master's Degree in Neuropsychology of High Abilities
- Master's Degree in Emotional Intelligence
- Neurolinguistic Programming Practitioner

#### Coordinators

#### Mr. Velasco Rico, Guillermo

- Academic Coordinator of the Center for Hispanic Studies in Sarajevo
- Degree in Hispanic Philology from the Complutense University of Madrid
- · Master's Degree in teaching SFL, Complutense University of Madrid

#### Ms. Azcunaga Hernández, Amaia

- Professor of Foreign Languages
- Professional Master's Degree in Teaching Spanish as a Foreign Language, Complutense University of Madrid

## tech 24 | Course Management

#### **Professors**

#### Mr. Gris Ramos, Alejandro

- Technical Engineer in Computer Management
- Master's Degree in Electronic Commerce and Specialist in latest technologies applied to teaching, Digital Marketing, development of web applications, and Internet business

#### Ms. Puertas Yáñez, Amaya

- Primary School Teacher
- Bilingualism and Internationalization Coordinator at JABY College
- Member of SUCAM (University Sub-network of Learning Communities of Madrid)
- Bachelor's Degree in Information Sciences (UCM)
- Postgraduate Diploma in English as a Foreign Language (UAM)
- Master's Degree in Bilingual Education (UAH)
- Master's Degree in Attention to SEN in Pre-school and Primary Education

#### Ms. Mejías, María José

- Teacher in Primary Education, Jaby School
- University volunteer coordinator of interactive groups at Jaby School
- CSEU La Salle. Member of the commission: Participation of Families and the community for educational success
- Expert in Didactic Methodology for the teaching of Mathematics in Primary Education. Fernández Bravo Pedagogical Center

- CES Don Bosco. Madrid. Course on Playful Methodologies as a Didactic and Psychopedagogical Resource in Early Childhood and Primary Education
- Camilo José Cela University. Specialist Course in Literacy
- Foundations and Didactic Strategies, Universidad Camilo José Cela Seminar:
   Programming and Evaluation by Competences in Primary School. JABY School. CTIF ESTE

#### Ms. Panameño, Claudia Lissette

- Graduated with honors in Modern Languages, University of San Salvador
- Second Year as a Spanish Teacher in French National Education
- Spanish Lecturer, University of Lille
- Examiner for the official foreign Language exams of the French Ministry of National Education (CLES) at all levels
- Teacher in an innovative French-Spanish telematic exchange project between the University of Lille and the University of El Salvador
- More than 5 years of experience in teaching English and French, working for the Alliance Fraçaise de San Salvador, the British Institute, and the United Nations Development Program (UNDP)

## tech 28 | Structure and Content

#### Module 1. ICT and its Practical and Interactive Application

- 1.1. New Technologies in Education
- 1.2. ICT in the Classroom and its Application
- 1.3. ICT on the Web and its Application
- 1.4. Social Networks and their Applications in Teaching
- 1.5. ICT for Language and Literature
- 1.6. Design of Collaborative Activities for Language and Literature
- 1.7. Evaluation with ICT in Language and Literature
- 1.8. Possible Risks of the Web
- 1.9. My ICT Resources for Language and Literature with TN

A unique, key, and decisive educational experience to boost your professional development"

## tech 24 | Methodology

#### At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method"

#### The effectiveness of the method is justified by four fundamental achievements:

- Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
- 2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
- **3.** Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
- **4.** Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

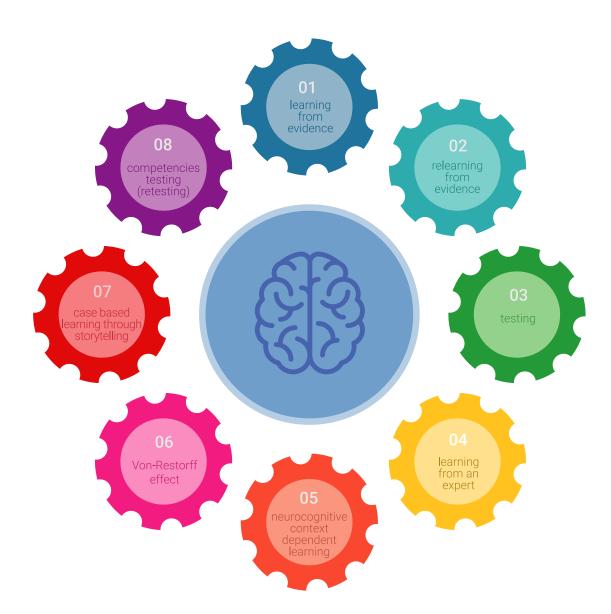

## tech 26 | Methodology

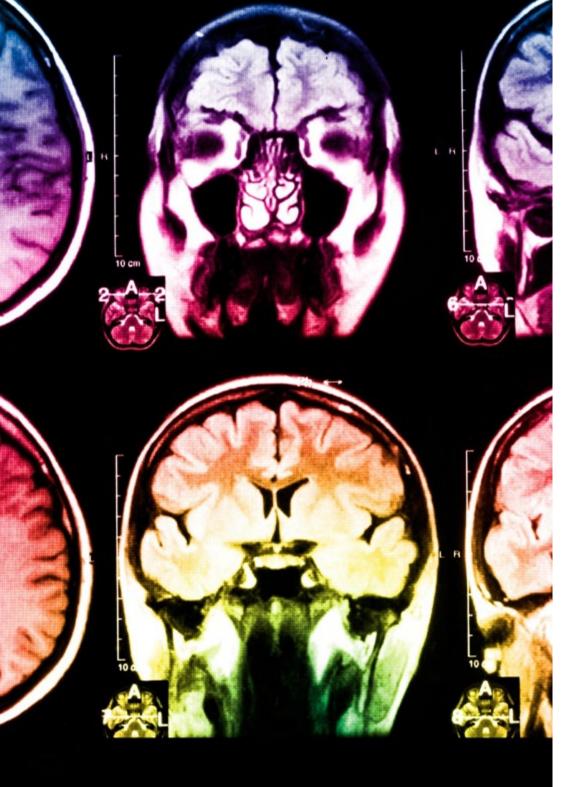

#### **Relearning Methodology**

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

## Methodology | 27 tech

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

## tech 28 | Methodology

This program offers the best educational material, prepared with professionals in mind:

#### **Study Material**

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

#### **Educational Techniques and Procedures on Video**

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

#### **Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

#### **Additional Reading**

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

# **Expert-Led Case Studies and Case Analysis**

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

#### **Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

#### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

#### **Quick Action Guides**

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

## tech 40 | Certificate

This program will allow you to obtain your **Postgraduate Certificate in Oral Communication in Language Teaching for Pre-School and Primary School** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: Postgraduate Certificate in Oral Communication in Language Teaching for Pre-School and Primary School

Modality: online

Duration: 6 weeks

Accreditation: 7 ECTS

Mr./Ms. \_\_\_\_\_, with identification document \_\_\_\_\_ has successfully passed and obtained the title of:

## Postgraduate Certificate in Oral Communication in Language Teaching for Pre-School and Primary School

This is a program of 210 hours of duration equivalent to 7 ECTS, with a start date of dd/mm/yyyy and an end date of dd/mm/yyyy.

TECH Global University is a university officially recognized by the Government of Andorra on the 31st of January of 2024, which belongs to the European Higher Education Area (EHEA).

In Andorra la Vella, on the 28th of February of 2024

<sup>\*</sup>Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH Global University will make the necessary arrangements to obtain it, at an additional cost.
