01

Introduction

Family Sociology is fundamental to understand the transformations in social, economic, political and cultural relations. Therefore, this discipline focuses on the study of the family as a social institution and how it relates to society as a whole. For this reason, TECH has designed a program that allows students to maximize their knowledge of aspects such as the History of the Family, Gender Roles, Love in Modern Societies and Legal Aspects of the Family, among others. All this, thanks to a 100% online modality and with the most dynamic and practical multimedia materials in the educational market.

“

*Acquire new skills on Family Models
and Transformation of Intimacy,
thanks to the largest digital university
in the world, thanks to TECH"*

Family Sociology is so relevant because it allows us to understand how the family is a space for the construction and reproduction of social inequalities. Through it, it is possible to study how gender roles and social expectations influence the distribution of responsibilities in the family and how this affects the work and personal life of each individual.

For this reason, TECH has designed a Postgraduate Certificate in Family Sociology with which it seeks to provide students with the skills with which to exercise their work as professionals, with the maximum possible efficiency. Throughout this program, aspects such as Domestic Work, the Contemporary Family, Family Analysis or Socialization Spheres will be addressed.

All this, through a 100% online mode that allows students to organize their studies, combining them with their other day-to-day work. In addition, this program has the most complete didactic materials on the market, which facilitates the students' study process and allows them to achieve their objectives in a precise and fast way.

This **Postgraduate Certificate in Family Sociology** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Development of practical case studies presented by experts in Family Sociology
- ♦ The graphic, schematic and practical contents of the program provide Sports and practical information on those disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Become an expert in Housing and Family in only 6 months and with total freedom to organize your schedule and studies"

“

Enhance your professional profile in one of the most promising areas in the field of Sociology, thanks to TECH and the most innovative materials"

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

Access all the content about Socialization Processes in the Family from your Tablet, mobile or computer.

Delve into the types of families today from the comfort of your home and at any time of the day.

02 Objectives

The objective of this Postgraduate Certificate in Family Sociology is that the students acquire a precise update of their knowledge and an outstanding improvement of their skills in this area. This update will allow the students to practice their work with the highest possible quality and efficiency. All this, thanks to TECH and a 100% online modality that gives total freedom of organization and schedules to the student.

“

Reach the most demanding professional goals thanks to a 100% online modality that allows you to carry out your studies and combine them with your other occupations”

General Objectives

- ♦ Learn about the current scope of the Family Sociology
- ♦ Understand the Family Sociology in different parts of the world
- ♦ Study current cultural trends

Specific Objectives

 - 1.8.3. Other Types of Families
- 1.9. Family Models
 - 1.9.1. Importance of Family Models
 - 1.9.2. The Concept of Cultural Familism
 - 1.9.3. Other International Family Models
- 1.10. Transformation of Intimacy, Sexuality and Love in Modern Societies
 - 1.10.1. Love in Modern Societies
 - 1.10.2. Types of Love: Passionate Love, Romantic Love, and Confluent Love
 - 1.10.3. The family in the Context of Individualization

150 hours separate you from becoming the expert in Family Sociology that you have always wanted to be"

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05 Certificate

The Postgraduate Certificate in Family Sociology guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Family Sociology** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
