01
Introduction

The history of the Church is intimately linked to the history of humanity. In depth knowledge of its development throughout the Middle Ages, including the emergence of new philosophical systems and political changes, is the central focus of this training program. A a highly impactful education, not only in spiritual developments, but also in political, artistic and social developments. An in depth understanding of these transformations, and the processes that came with them, will equip students with specific knowledge and analytical skills in History of the Medieval Church.

A solid foundation of the transcendent evolution that the Catholic Church experienced during the medieval period, one of the most intense in its history, in a course of high educational impact"

Students will be able distinguish, understand and explain the major chronological periods into which Church History is divided, the reason for this division and its chronology so as to better understand the main events that influenced the transformation of Christian world in Europe.

They will also be able to understand, use and explain the language of church history, as well as the specific language of the period, identify the defining structural features of the Church in the Middle Ages, including their chronological evolution, and explain the current behaviors of the Church as a result of a historical process, relating them to events, phenomena, problems and behaviors of the past.

The labor market demands increasingly qualified professionals. Specialized and educated individuals who are able to face the challenges that work, and the social relationships that surround it, present on a daily basis.

Acquiring this level of training is an essential step in the process. But it is also an important milestone in personal growth, which will open paths of development and achievement.

This Postgraduate Certificate has been created so students can acquire the essential knowledge in the field in an intensive and efficient manner. An opportunity to improve your specialization, with the convenience of the most effective online method in the teaching market. TECH offers the opportunity to incorporate knowledge in the discipline into this academic program. With this program, students will also gain access to a way of working in which the scientific method is incorporated into religious thought, in favor of a global analysis of all its implications and developments.

If you want to excel as a professional, achieve a positive change at a professional level, interact with the best through an interesting online universe and belong to the new generation of future theologians, able to develop their work anywhere in the world, this may be your path.

This **Postgraduate Certificate in History of Medieval Church** contains the most complete and up-to-date educational program on the market. The most important features include:

* Practical cases that apply the theoretical content through real life situations
* The graphic, schematic, and eminently practical content with which they are conceived
* The great variety of practical exercises where the self evaluation process can be carried out to improve learning
* An algorithm-based interactive learning system that enables decision-making in the situations that are presented
* Its intensive focus on practical learning
* High quality theoretical lessons, with questions to the expert, discussion forums on controversial topics and individual reflection work
* Content that is accessible from any fixed or portable device with an Internet connection

Improve your qualifications and you will improve your professional future. Now is always the best time"

"

The major milestones and developments of the Church during the turbulent medieval period, developed over a highly intensive program"

The greatest University in the technological age puts itself at the service of current social needs at a global level and individual needs in particular, with a transforming spirit and vocation for social change.

The most technologically developed university in the area of e-learning, offers you the technical and human solvency of the largest Spanish-speaking, 100% online university in the world.

TECH Technological University offers the most innovative, creative and distinctive proposal, in a dynamic, talented and internationally recognized institution.

Furthermore, TECH offers all the resources so students can balance their education with their professional and personal activities. They will be able to balance their studies with a full time job, adapting the training process to their obligations and successfully completing the program without having to sacrifice everything else.

With a virtual space to exchange ideas and reflections, students will be able to share their study experience through forums and other collaborative tools, in a 100% online environment.

Students will be supported at all times thanks to an involved and committed teaching staff. The teaching team transmits their expertise of their professional performance, working from a real, lively and dynamic context.

But, above all, the program explores the critical side of thought, the ability to question things, problem-solving competence, and interpersonal skills.

02
Objectives

The main objective of this educational program is to provide students with a complete and reliable vision of the evolution and changes that took place in the Church during the Middle Ages, with this highly specialized Postgraduate Certificate: An indispensable discipline for professional theologians. Therefore, TECH has developed a program that focuses on concrete, measurable and useful objectives that will allow students to grow both on a professional and a personal level. And thus creating useful professionals for an improved society.

"At TECH Technological University you will learn to enhance your skills, increase your critical capacity and think in a humanistic way. With the guarantee that only the best educational foundation can bring professionals"
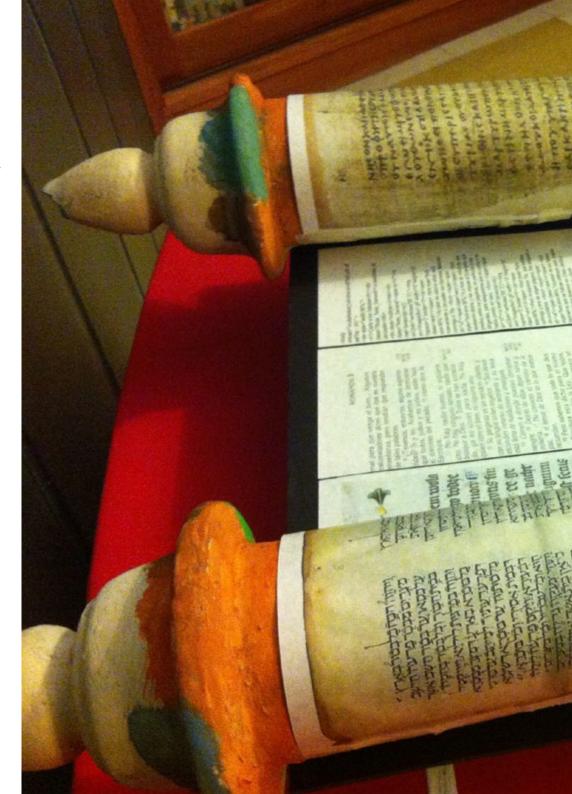

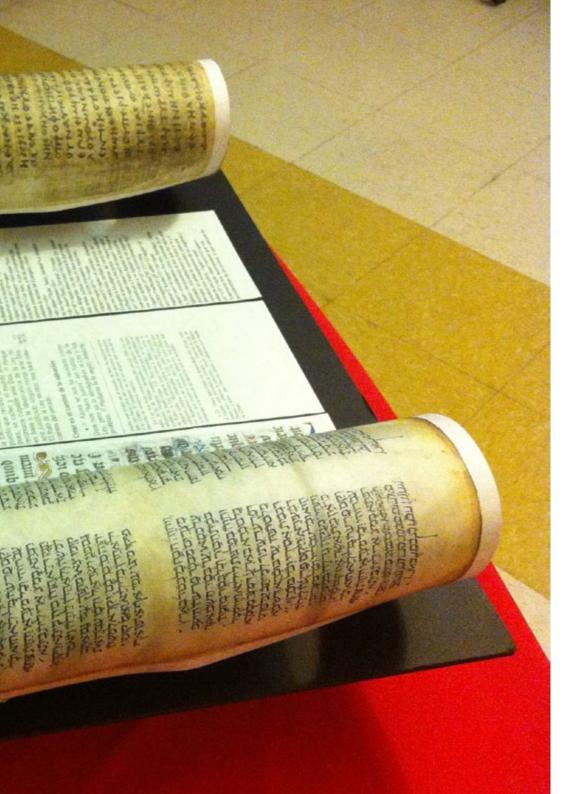

General Objective

- Provide a complete and reliable vision of the evolution and changes that took place in the Church during the Middle Ages

> *Today more than ever theologians need the endorsement of a solid updated body of knowledge to confront their experience with the real world, with guarantees of success"*

Specific Objectives

- Distinguish, understand and explain the major chronological periods into which Church History is divided, the reason for this division and its chronology

- Present the main events that influenced the transformation of the Christian world in Europe, in confrontation with the emergence of new philosophical systems and political changes during the medieval period

- Know, understand, use and explain the language of Church History, as well as the specific language of the period

- Identify the defining structural features of the Church in the Middle Ages explaining their chronological evolution

- Explain the current behaviors of the Church as a result of a historical process, relating them to past events, phenomena, problems and behaviors
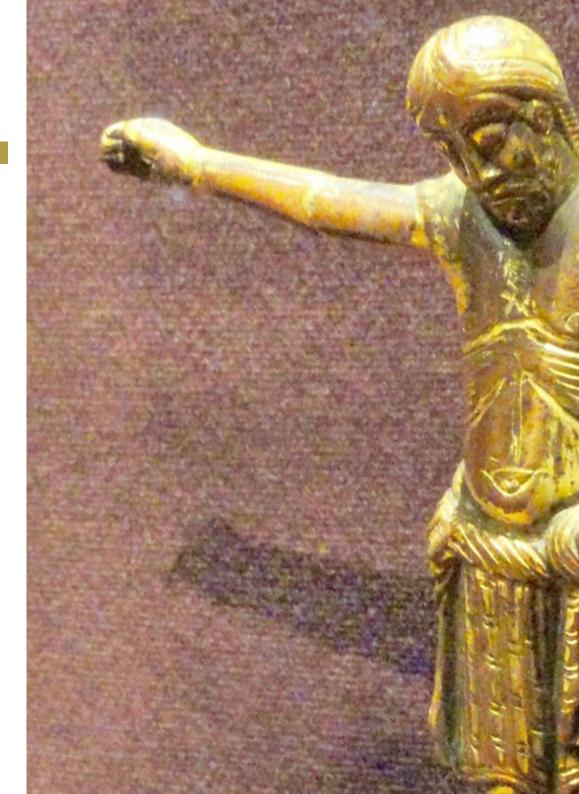

03
Structure and Content

This curriculum is designed for those who want to increase their professional competence in religious sciences or deepen their humanistic side. Created with high quality content, it prepares students to reach the highest levels in their profession. The program has been developed in a comprehensive manner to achieve the most complete competencies in each of its areas. The teaching staff is highly qualified at both the theological and teaching levels, and they implement the best educational methodology. Because learning from the best is the easiest way to become the best.

"

Learn alongside a highly qualified teaching staff at both a scientific and academic level: Successful professionals who work with this subject and face challenges and situations like the ones you will face throughout this Postgraduate Certificate on a daily basis. From theory to the most dynamic and real practice"

A comprehensive and structured analysis of the social, economic and cultural developments surrounding the evolution of the Church during the medieval period"

04
Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**
This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.
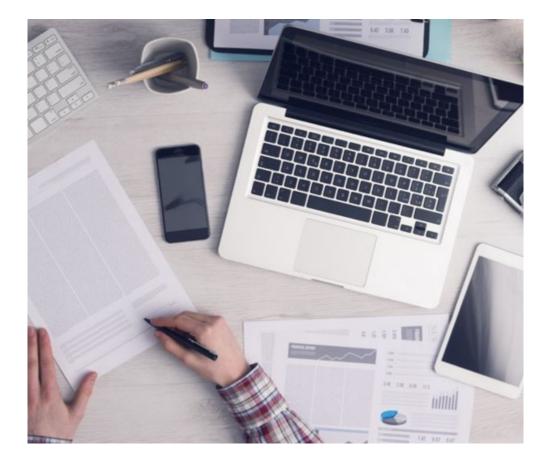

"At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career"

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05
Certificate

The Postgraduate Certificate in History of the Medieval Church guarantees students, in addition to the most rigorous and up to date education, access to a Postgraduate Certificate issued by TECH Technological University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

The **Postgraduate Certificate in History of the Medieval Church** contains the most complete and up to date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained though the **Postgraduate Certificate**, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.
