01

Introduction

English is now the primary foreign language taught in many countries. Moreover, in several of them, so-called linguistic varieties have developed, using English as a base but blending it with features of the national languages. A clear example of this is the difference between British and American English. This 100% online qualification offers a comprehensive overview of the history of English-speaking countries from their origins to the contemporary period, with particular emphasis on the political and cultural aspects that have contributed to Britain's prominent role in the current global context.

“

This program offers you the fundamental theoretical and conceptual tools for the critical analysis of the historical, social, political, and cultural evolution of English-speaking countries”

It is estimated that there are 7,097 distinct languages in the world, but only 10% are spoken by more than 100,000 people. Among them, English is the third most spoken language globally. However, it ranks first in terms of the number of countries where it is spoken. For this reason, and with the aim of providing the best possible knowledge for the work of translators and interpreters, TECH Global University has designed this Postgraduate Certificate, which addresses topics ranging from cultural awareness and intercultural communication to issues related to the gender gap.

In this way, graduates will have access to the most comprehensive content covering the cultural and civilizational aspects of Britain, the United States, Ireland, Australia, and the English-speaking countries of Africa and Asia. All of this is presented while examining the basic notions of geography, history, and politics in each region.

A 100% online program that will be fundamental for the professional growth of the Translators and Interpreters and a program that they will be able to self-manage as they wish. They have full freedom to choose their study schedule, the topics they wish to explore each day, and the place from which they prefer to learn. Thanks to this flexibility, graduates will be able to balance their studies perfectly with their daily responsibilities, whether personal or professional.

This **Postgraduate Certificate in History, Politics, and Culture of English-Speaking Countries** contains the most complete and up-to-date program on the market.

The most important features include:

- ♦ Practical cases presented by experts in translation and interpreting
- ♦ The graphic, schematic, and practical contents with which they are created, provide exhaustive and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an internet connection

You will be able to identify and analyze the discourse of cultural identity in English-speaking countries and use this skill as a tool in translation and interpreting tasks"

“

You now have access to this Postgraduate Certificate to acquire foundational knowledge of current international issues related to the environment and gender equality”

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the course. For this purpose, students will be assisted by an innovative interactive video system created by renowned experts.

Through this qualification, you will learn to view the recognition of cultural differences as a challenge within the translator's and interpreter's profession.

You will also address the fundamental political concepts of the United Kingdom, the United States, Ireland, Australia, and the English-speaking countries of Africa and Asia.

02 Objectives

This Postgraduate Certificate has been designed with the primary objective of providing graduates with the knowledge necessary to improve their level of English through the study of the history, politics, and culture of the countries where it is spoken. In this way, students will deepen their understanding of cultural and civilizational aspects, enhancing their competence in both the comprehension and written production of the language.

“

Acquire foundational knowledge of current international issues related to the environment and gender equality”

General Objectives

- ♦ Deepen the study of the different ways of life in the main English-speaking geographic areas
- ♦ Deepen the study of the cultures and civilizations of the various English-speaking countries around the world

Through this Postgraduate Certificate, you will acquire fundamental notions of political systems in English-speaking countries worldwide"

Specific Objectives

- ♦ Introduce the basic political concepts of English-speaking countries
- ♦ Raise awareness of the relevance of cultural and intercultural communication aspects and their impact on the translator's and interpreter's profession
- ♦ Acquire foundational knowledge of current international issues related to the environment and gender equality

03

Structure and Content

The syllabus of this Postgraduate Certificate in History, Politics, and Culture of English-Speaking Countries has been designed to present graduates with the main cultural and civilizational aspects of the English-speaking world, enabling them to achieve a higher level of qualification and perform more confidently in their professional environment. Accordingly, the curriculum covers the basic political concepts of English-speaking countries, the environment and humanity as international topics of interest, and the issue of equality in the 21st century.

“

Pursue a high-quality academic journey through the cultural and civilizational aspects of Britain, the United States, Ireland, Australia, Africa, and Asia”

Module 1. History, Politics, and Culture of Language B (English) Countries

- 1.1. Cultural Awareness and Intercultural Communication

 - 1.1.2. Student Exchange Programs
 - 1.1.3. Recognition of Cultural Differences as a Challenge for the Translator's and Interpreter's Profession
- 1.2. British Cultural and Civilizational Aspects
 - 1.2.1. General Features Characterizing British Culture
 - 1.2.2. Basic Notions of the Geography of the United Kingdom
 - 1.2.3. Basic Notions of the History of the United Kingdom
- 1.3. United States Cultural and Civilizational Aspects
 - 1.3.1. General Features Characterizing United States Culture
 - 1.3.2. Basic Notions of the Geography of the United States
 - 1.3.3. Basic Notions of the History of the United States
- 1.4. Irish Cultural and Civilizational Aspects
 - 1.4.1. General Features Characterizing Irish Culture
 - 1.4.2. Basic Notions of the Geography of Ireland
 - 1.4.3. Basic Notions of the History of Ireland
- 1.5. Australian Cultural and Civilizational Aspects
 - 1.5.1. General Features Characterizing Australian Culture
 - 1.5.2. Basic Notions of the Geography of Australia
 - 1.5.3. Basic Notions of the History of Australia
- 1.6. Cultural and Civilizational Aspects of English-Speaking African Countries
 - 1.6.1. General Features Characterizing the Culture of English-Speaking African Countries
 - 1.6.2. Basic Notions of the Geography of English-Speaking African Countries
 - 1.6.3. Basic Notions of the History of English-Speaking African Countries

- 1.7. Cultural and Civilizational Aspects of English-Speaking Asian Countries
 - 1.7.1. General Features Characterizing the Culture of English-Speaking Asian Countries
 - 1.7.2. Basic Notions of the Geography of English-Speaking Asian Countries
 - 1.7.3. Basic Notions of the History of English-Speaking Asian Countries
- 1.8. Basic Political Concepts in English-Speaking Countries
 - 1.8.1. United Kingdom and United States
 - 1.8.2. Ireland
 - 1.8.3. Australia
 - 1.8.4. English-Speaking Countries of Africa and Asia
- 1.9. Environment and Humanity as International Topics of Interest
 - 1.9.1. Current Issues Related to the Environment
 - 1.9.2. Global Concerns and Commitments
 - 1.9.3. Skills Related to the Translation of Expressions Containing Numerical Information and Statistics
- 1.10. Equality in the 21st Century
 - 1.10.1. Issues Related to the Gender Gap
 - 1.10.2. Gender Stereotypes
 - 1.10.3. Access to International Resources

You are presented with a top-level program that will be essential for improving your English skills for your work as a translator and/or interpreter”

04

Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“

TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want”

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule"

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

05 Certificate

This Postgraduate Certificate in History, Politics, and Culture of English-Speaking Countries guarantees students, in addition to the most rigorous and up-to-date education, access to a diploma for the Postgraduate Certificate issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This private qualification will allow you to obtain a diploma for the **Postgraduate Certificate in History, Politics, and Culture of English-Speaking Countries** endorsed by TECH Global University, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.
