Introduction

Divine Revelation, with the contextualization and analysis of the philosophical, humanistic, historical and political aspects that compose a global framework of understanding, is the object of this program in The History of Salvation. From the initial approach to the fact of divine revelation, through the analysis of the historical context in which it took place. Essential knowledge for qualified theologians, in a higher education program designed for scholars in this area of work.

“

The context, the global vision and the historical framework necessary to understand and analyze the fact of divine revelation, presented in a high quality program”

Student will recognize the fact of divine revelation, will be able to describe the historical, cultural and religious framework in which the divine revelatory action took place and show how the Holy Scripture presents the history of humanity in a linear sense and not as a cyclical process.

Acquiring this knowledge is an essential step in the process of learning and analysis of this Postgraduate Certificate in The History of Salvation. But it is also an important milestone in personal growth, which will pave the way to further development and achievement.

This Postgraduate Certificate in The History of Salvation has been created so students can acquire the essential knowledge in the field in an intensive and efficient manner. An opportunity to improve your specialization, with the convenience of the most effective online method in the teaching market. TECH Technological University offers the opportunity to incorporate the knowledge of the discipline into the academic training of our students. With this Postgraduate Certificate, students will also gain access to a way of working in which the educational method is incorporated into religious thought, in favor of a global analysis of all its implications and developments.

Those who wish to excel professionally, achieve a positive change at a professional level, interact with the best through an interesting online universe and belong to the new generation of the future by being able to work anywhere in the world, may find their path here.

This **Postgraduate Certificate in The History of Salvation** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ Practical cases that apply the theoretical content through real life situations
- ♦ The graphic, schematic, and eminently practical content with which they are conceived
- ♦ The great variety of practical exercises where the self assessment process can be carried out to improve learning
- ♦ An algorithm-based interactive learning system that enables decision-making in the situations presented
- ♦ Its intensive focus on practical learning
- ♦ High quality theoretical lessons, with questions to the expert, discussion forums on controversial topics and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Improve your qualifications and you will improve your professional future. Now is always the best time”

“ *TECH Technological University puts itself at the service of current social needs at a global level and those of the individual in particular, with a transforming spirit and vocation for social change*”

TECH also makes it easy for students to balance their education with their professional and personal activities. They will be able to balance their studies with a full time job, adapting the process to their obligations and successfully completing the program without having to sacrifice everything else.

With a virtual space to exchange ideas and reflections, Students will be able to share their learning experience through forums and other collaborative tools, 100% online.

We support you at all times, thanks to an involved and committed teaching staff. The teaching team transmits their expertise of their professional performance, working from a real, lively and dynamic context.

But above all, TECH explores students' critical side, their ability to question things, their problem solving skills, as well as their interpersonal skills.

The most interesting analysis of The History of Salvation, in a focused Postgraduate Certificate with a high density of content, which will allow you to master this relevant issue.

Study with the greatest university in the technological age to be part of an entity with a vocation of service, aware of current social needs, at a global level, and individual needs in particular.

02

Objectives

The main objective of this program is to provide students with a complete and reliable vision of The History of Salvation, its origin, its evolution and its deep meaning, with this highly specialized Postgraduate Certificate, an essential knowledge for any professional theologian. Therefore, this program is focused on concrete, measurable and useful objectives that will allow students to grow both on a professional and a personal level. And thus creating useful professionals for a better society.

“

At TECH Technological University you will learn to enhance your skills, increase your critical capacity and think in a humanistic way. With the guarantee that only the best educational foundation can bring professionals”

General Objectives

- Provide the necessary context, ideas and perspectives that will enable students to understand the character of Theology
- Present the historical and epistemological configuration of Theology as a science
- Justify the recourse of Theology to its sources
- Demonstrate the basic skills to access the tools to study Theology
- Present an overview of the various branches of study of Theology
- Frame fundamental theology as a specialized part of the discipline that seeks to understand the mystery of God in its totality
- Explain the formal theological principles involved in the theological reading of Sacred Scripture: canonicity, inspiration and infallibility
- Explore the main historical and geographical elements that serve as an aid to the study of the Bible
- Propose hermeneutical principles to properly understand the Bible
- Identify the places and events referred to in Sacred Scripture
- Review different versions of the Bible

Specific Objectives

- Recognize the fact of divine revelation
- Describe the historical, cultural and religious framework in which the divine revelatory action took place
- Show how Sacred Scripture presents the history of humanity in a linear sense and not as a cyclical process

Today more than ever theologians need the endorsement of a solid updated body of knowledge to confront their experience with the real world with guarantees of success"

OF MOSES, CALLED

ESIS.

whose seed *was* in itself, after his kind: and God saw that *it was* good.

13 And the evening and the morning were the third day.

14 ¶ And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years:

15 And let them be for lights in the firmament of the heaven to give light upon the earth: and it was so.

16 And God made two great lights; the greater light to rule the day, and the lesser light to rule the night.

03

Structure and Content

This curriculum is designed for those who want to increase their professional competence in religious sciences or deepen their humanistic side. Created with high quality content, it prepares students to reach the highest levels in their profession. The program has been developed in a comprehensive manner to achieve the most complete competencies in each of its areas. The teaching staff is highly qualified at both the theological and teaching levels, and they implement the best educational methodology. Because learning from the best is the easiest way to become the best.

“

Adaptable, flexible and versatile: Our curriculum is designed so you can decide when, how and the amount of time and effort you wish to devote to your studies. And without compromising educational efficiency”

Module 1. History of Salvation

- 1.1. Patriarchal Traditions: The Origins of Israel

 - 1.9.3. The Reign of Herod Agripa I
 - 1.9.4. Palestine under Roman Authority
 - 1.9.5. The Great Jewish Revolt and the Destruction of Jerusalem in 70 AD
 - 1.9.6. Jesus and His Paschal Mystery, the Center and Summit of History of Salvation: The Christian Perspective of the History of Salvation
 - 1.9.7. The First Christian Community: From Jerusalem to the Ends of the Earth

“

A curriculum designed to make it easy for you to achieve your Postgraduate Certificate in The History of Salvation with fluency and efficiency”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Certificate in The History of Salvation guarantees students, in addition to the most rigorous and up to date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

The **Postgraduate Certificate in The History of Salvation** contains the most complete and up to date program the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** diploma issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the **Postgraduate Certificate**, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Postgraduate Certificate in The History of Salvation**

Official N° of hours: 100 h.

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
