Introduction

Learning to read the Bible, accessing the deep meanings and the most transcendent message that emanates from them, requires advanced knowledge in hermeneutics and theological reading. For this program, a compendium of tools has been created that will place students on the line of work required to conduct a solvent analysis of sacred texts. A high-level program for the best professionals in the field, which includes the necessary knowledge to intervene at the highest level.

“

The formal theological principles involved in the theological reading of Sacred Scripture developed in a program created to boost your humanistic and professional development”

This Postgraduate Certificate has been created so students can acquire the essential knowledge in the field in an intensive and efficient manner.

Students will be guided through the study of the formal theological principles involved in the theological reading of Sacred Scripture: canonicity, inspiration and inerrancy, as well as the main historical and geographical elements that serve as an aid to the study of the Bible. Students will be able to propose hermeneutical principles to correctly understand it, identify the places and events referred to in Sacred Scripture and review the different versions of the Bible.

An opportunity for students to improve their qualifications, with the convenience of the most effective online method in the teaching market. TECH offers the opportunity to incorporate knowledge in the discipline into an academic specialization program with this Postgraduate Certificate. With this program, students will also gain access to a way of working in which the scientific method is incorporated into religious thought, in favor of a global analysis of all its implications and developments.

Those who wish to excel professionally, achieve a positive change at a professional level, interact with the best through an interesting online universe and belong to the new generation of the future by being able to work anywhere in the world, may find their path here.

This **Postgraduate Certificate in Introduction to Sacred Scripture** contains the most complete and up-to-date program on the market. Its most notable features are:

- ♦ Practical cases that apply the theoretical content through real life situations
- ♦ The graphic, schematic, and eminently practical content with which they are conceived
- ♦ The great variety of practical exercises where the self-evaluation process can be carried out to improve learning
- ♦ An algorithm-based interactive learning system that enables decision-making in the situations that are presented
- ♦ Its intensive focus on practical learning
- ♦ High quality theoretical lessons, with questions to the program, discussion forums on controversial topics and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

10 And it came to pass, as
Jesus sat at meat in the house,
behold, many publicans and sinners
came and sat down with him and
his disciples.

11 And when the Pharisees saw
it, they said unto his disciples, Why
eateth your Master with ^vpublicans
and ^hsinners?

12 But when Jesus heard ^{that}, he
said unto them, They that be whole
need not a physician, but they that
are sick.

13 But go ye and learn what ^{that}
meaneth, ⁱI will have mercy, and
not sacrifice: for I am not come
to call the righteous, ^hbut sinners
to repentance.

14 ¶ Then came to him the dis-
ciples of John, saying, ^lWhy do we
and the Pharisees fast oft, but thy
disciples fast not?

15 And Jesus said unto them, Can
^mthe children of the bridechamber
mourn, as long as the bridegroom
is with them? but the days will
come, when the bridegroom shall
be taken from them, and ⁿthen
shall they fast.

16 No man putteth a piece of
^onew cloth unto an old gar-
ment, for that which is put in
to fill it up taketh from the
garment, and the rent is made
worse.

17 Neither do men put new wine
into old bottles: else the bottles
break, and the wine runneth out,
and the bottles perish: but they
put new wine into new bottles, and
both are preserved.

18 ¶ ^pWhile he spake these

26 And ²the fame hereof went
abroad into all that land.

27 ¶ And when Jesus departed
thence, two blind men followed
him, crying, and saying, ^uThou son
of David, have mercy on us.

28 And when he was come in-
to the house, the blind men came
to him: and Jesus saith unto
them, Believe ye that I am able
to do this? They said unto him,
Yea, Lord.

29 Then touched he their eyes,
saying, According to your faith be
it unto you.

30 And their eyes were opened;
and Jesus straitly charged them,
saying, ^aSee that no man know
it.

31 ¶ But they, when they were de-
parted, spread abroad his fame in
all that country.

32 ¶ ^zAs they went out, behold,
they brought to him a dumb man
possessed with a devil.

33 And when the devil was cast
out, the dumb spake: and the mul-
titudes marvelled, saying, It was
never so seen in Israel.

34 But the Pharisees said, ^aHe
casteth out devils through the
prince of the devils.

35 ^bAnd Jesus went about all the
cities and villages, ^cteaching in
their synagogues, and preaching
the gospel of the kingdom, and
healing every sickness and every
disease among the people.

A curriculum designed to make it easy for you to achieve your Postgraduate Certificate in Introduction to Sacred Scripture with fluency and efficiency”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“Our program prepares you to face new challenges in uncertain environments and achieve success in your career”

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.
