Introduction

Migration processes are complex social phenomena that have a significant impact on the migrants' societies of origin and destination. In fact, Sociology is of great interest to understand the factors that drive migration and the social consequences of such processes. This way, this degree offers an introduction to migration processes and their analysis from a sociological perspective. The main concepts and theories that explain Migration, migration policies and the integration of migrants in the receiving societies will be discussed. The consequences of Migration for the countries of origin and transnational dynamics will also be analyzed. All this in a 100% online way and with the flexibility to organize the academic resources according to the needs of the student.

“

Become an expert in Migratory Processes thanks to TECH”

Currently, migration processes are one of the hottest topics in society, especially in the political and social sphere. In this sense, there is no doubt that Migration is a global phenomenon that affects both countries of origin and destination and has a significant impact on the social and economic structure of societies.

From the perspective of Sociology, the analysis of migration processes is essential to understand migration patterns, the causes and consequences of migration, as well as the integration processes of migrants in the receiving societies. In this context, the Postgraduate Certificate in Migration Processes is presented as a relevant and necessary academic option.

The program's main objective is to provide a solid and updated vision of migration processes from a sociological perspective. To achieve this objective, the degree offers a curriculum that addresses topics such as contemporary migration processes, theories of Migration, migration policy or the integration of migrants.

This Postgraduate Certificate is taught 100% online and has an innovative pedagogical methodology based on Relearning. This methodology encourages autonomous and critical specialization, reflection on the contents and the application of the knowledge acquired. In addition, students have access to a wide variety of didactic resources, such as interactive diagrams, videos or case studies.

This **Postgraduate Certificate in Migration Processes** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of practical cases presented by experts in Migration Processes
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*Be a part of the global change
in the management of migration
processes through TECH"*

“

Determine with expert precision the effects of migration on economic and labor factors in the host countries”

The program's teaching staff includes professionals from the sector who bring to this training the experience of their work, as well as renowned specialists from reference societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

The design of this program focuses on Problem-Based Learning, by means of which the professional must try to solve the different professional practice situations that are presented throughout the academic course. This will be done with the help of an innovative system of interactive videos made by renowned experts.

Get up to date on the sociological consequences of migration processes.

Benefit from the advantages of specializing in migration processes with the largest online university in the world.

02

Objectives

In order to ensure that graduates of this program have a broad vision of migration processes, TECH establishes a series of predefined objectives in each of the points of the syllabus. This implies that students will develop a high analytical capacity of the current social reality and will discover multiple practical applications in terms of managing migration processes.

“

Boost your career by tracing the historical trends of migration to gain a comprehensive perspective of this area”

General Objectives

- ♦ To study the phenomenon of Gentrification and how it affects contemporary societies
- ♦ To analyze the migratory and tourist processes from a modern sociological perspective
- ♦ To understand the role of sociologists in the face of new developments in communities, with a diverse and pluralistic approach

Reach all your professional goals in the management of migration processes with a unique specialization in the market"

Specific Objectives

- ♦ To analyze contemporary migration processes and the macro-sociological factors that distinguish them
- ♦ To study the sociological consequences of Migration Processes, both in the populations of origin and destination
- ♦ To examine the effects of migration on economic and labor factors in the host countries

03

Structure and Content

In order to strengthen all the theoretical-practical content presented in this program, TECH provides a wide variety of audiovisual and complementary resources, such as detailed videos, interactive diagrams or case studies. This will allow the student to delve deeper into the topics of greatest interest, ensuring that the time dedicated to study is as effective as possible. Likewise, with Relearning as a methodological substrate, a natural and progressive updating process is guaranteed, reiterating the most important concepts throughout the throughout the syllabus.

“

*A curriculum with all the keys to Migration
in the contemporary world”*

Module 1. Migratory Processes

- 1.1. Migration in the Contemporaneous World
 - 1.1.1. Conceptual Basic Framework
 - 1.1.2. Historical and Contemporary Trends in International Migrations
 - 1.1.3. Registration: Statistics and Demographic Sources
 - 1.1.4. Recent Trends and Issues, Global Problems and Challenges
- 1.2. Explanatory Models and Macro-Sociological Factors
 - 1.2.1. The Attraction-Expulsion Model
 - 1.2.2. The Historical-Structural Perspective
 - 1.2.3. The Center-Periphery Model
 - 1.2.4. Theories of Polarization
- 1.3. The Theory of Labor Market Segmentation
 - 1.3.1. Evidence of Segmented Migration
 - 1.3.2. The Logics of Adjustment Processes
 - 1.3.3. The Dynamics of Accumulation
- 1.4. Micro and Meso Factors of Migrations
 - 1.4.1. Rational Choice Theory and Individual Action
 - 1.4.2. Theories of Social Ties and Social Capital
 - 1.4.3. Theories of Social Mobility and Social Ties
 - 1.4.4. Inequality and Migration
- 1.5. Consequences of Migratory Movements
 - 1.5.1. On Migrants and their Families
 - 1.5.2. On the Receiving Societies
 - 1.5.3. In the Societies of Origin
 - 1.5.4. In the international and Transnational Sphere
- 1.6. Management of Migration Flows
 - 1.6.1. Border Control
 - 1.6.2. Recruitment at Origin
 - 1.6.3. Circular Migration and Co-Development
 - 1.6.4. Residence and Work Permits
 - 1.6.5. Reception and Settlement Policies

- 1.7. Social Integration and Frameworks for Analysis
 - 1.7.1. Importance of Multiculturalism
 - 1.7.2. Assimilation, *Melting Pot* and Multiculturalism
 - 1.7.3. Cultural Pluralism, Segmented Assimilation, Transnationalism
- 1.8. Indicators of Integration in the Short and Long Term
 - 1.8.1. Importance of the Integration. in the Social Context
 - 1.8.2. Case Studies: Integration in the Socioeconomic and Community Environment
 - 1.8.3. Integration of First- and Second-Generation Migrants
- 1.9. Citizenship and Participation
 - 1.9.1. Importance and Concept of Participation in the Field of Citizenship
 - 1.9.2. Immigration, Participation and Citizenship
 - 1.9.3. Transnational Citizenship, Dual Nationality and Transnationalism
- 1.10. Effects of Globalization on International Migration
 - 1.10.1. What is Globalization?
 - 1.10.2. About Economy
 - 1.10.3. About the Labor Market

“ Enroll in a Postgraduate Certificate that will take you through the effects of Globalization on international migration”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05 Certificate

The Postgraduate Certificate in Migratory Processes guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Migratory Processes** contains the most complete and up-to-date scientific program the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate diploma** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Diversity Sociology**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
