Introduction

The Old Testament is a crucial stage in understanding the foundations of the Christian faith and identifying its historical context, reviewing such essential topics as the creation of the world and the life of the Hebrew people. Its proper teaching in the classroom is essential for students to assimilate the history of Catholic Religion and understand its subsequent evolution over time. Because of this, philosophy teachers must master the approaches to efficiently deliver this phase to their students, which is why TECH has designed this program. In this way, you will identify the best strategies to expose the role of the prophets or explain the Hellenistic period, in a completely online way.

“

Enjoy enjoyable and effective learning through didactic materials in formats such as video or interactive summaries"

The Bible, comprised in two parts, begins with the Old Testament, which covers from the origin of the planet to the birth of Jesus Christ, and within this period of time, crucial events are developed to understand the evolution of the Catholic religion, such as the appearance of laws on sacrifice, holiness and purity, or the offering of the 10 commandments to Moses. Therefore, handling the most sophisticated tools to transmit this knowledge to young people is indispensable for the philosophy teachers to be able to enrich their students' cultural background with respect to religions.

Faced with this situation, TECH has promoted the creation of this program, through which the students will learn the best educational approaches to disseminate the facts produced in the Old Testament to adolescents. During 6 weeks of intensive teaching, you will learn to explain in an understandable and enjoyable way the intervention of God in the History of Israel or you will successfully approach the description of the contributions made by Abraham, Isaac and Jacob. It will also dominate the phase of liberation from the slavery suffered by the Hebrews in Egypt.

Thanks to the 100% online mode in which this Postgraduate Certificate is taught, students will achieve effective learning by managing their own time as they wish. You will also have access to didactic resources available in cutting-edge formats such as the self-assessment test, the interactive summary or the explanatory video. As a result, you will obtain an education adapted to your study preferences and perfectly compatible with all your personal and professional obligations.

This **Postgraduate Certificate in Old Testament and its Educational Focus** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of case studies presented by experts in Catholic Education
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

It solvently explains, with this Postgraduate Certificate, all the contributions made by Abraham, Isaac and Jacob in the evolution of the Catholic Religion"

“

The syllabus of this program will provide you with the best tools to explain the Old Testament with a cutting edge Educational Focus”

The program's teaching staff includes professionals from the industry who contribute their work experience to this program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

Achieve teaching excellence in just 6 weeks through this Postgraduate Certificate offered by TECH.

Master, with this program, the most optimized educational approaches to explain the liberation of the Hebrew people in Egypt from a philosophical and religious perspective.

02

Objectives

The design of this Postgraduate Certificate has been made with the idea in mind to provide the student with the best knowledge and competencies to adequately adapt the Educational Focus of the Old Testament popularization. Throughout this educational journey, you will delve into the different stages of this text and the methods for transmitting knowledge to the young. In addition, it will preserve exquisite learning by following a series of general and specific objectives.

“

Follow the general and specific objectives that TECH has designed for this program and acquire unparalleled professional growth in your industry”

General Objectives

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

“

Adopt in your work methodology the best educational approaches to transmit the values of the Old Testament thanks to this program”

Specific Objectives

- ◆ Know part of the Holy Scriptures
- ◆ Delve into God's revelation to the People of Israel
- ◆ Address the teaching of the apostles and the Church Fathers
- ◆ Discover the Old Testament through the History of Israel

03

Structure and Content

The syllabus of this program is composed of 1 module through which the students will master the particularities of the Old Testament to improve their educational approach in the field of teaching. The didactic resources that you will have access to during the duration of this Postgraduate Certificate are available in different formats, such as, for example, the explanatory video, the interactive summary or the complementary readings. Thanks to this, you will get a 100% online, enjoyable and completely individualized education.

“

Enroll now in this program to gain access to the most up-to-date knowledge in Old Testament and its Educational Approach”

Module 1. Old Testament and its Educational Approach

 - 1.10.4. Independence of the Maccabees
 - 1.10.5. Conquest of Rome
 - 1.10.6. The Book of Wisdom: Last Book of the OT

“

Enjoy the 100% online methodology offered by this program and achieve optimized learning from your own home"

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Certificate in Old Testament and its Educational Focus guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Old Testament and its Educational Focus** contains the most complete and up-to-date educational program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Postgraduate Certificate in Old Testament and its Educational Focus**

Official N° of hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
