Introduction

Philosophy and Phenomenology are two key aspects to understand the origin of the Catholic Religion, as well as to understand the reasons for the religious behavior of its believers around its symbols, books or traditions. Its mastery is, therefore, indispensable for those interested in analyzing and comparing the particularities of the practitioners of Catholicism with those of other religions. Because of this, TECH has created this program, through which the student will identify the components that configure the Religious Fact or manage the characteristics of its language. All this, following a 100% online methodology that will allow you to enjoy an excellent learning experience without the need to depend on uncomfortable and tight schedules.

“

With this Postgraduate Certificate, you will understand and analyze the specific issues that shape Fact in religions such as myths, rites or beliefs”

The Phenomenology of Religion is a discipline that focuses on the analysis of the interrelationship between people and their beliefs and the different ways in which they are linked to religious symbols, institutions or rites. This fact manifests the way of understanding the faith of each believer, coming to explain their interpretation of their own Religion and their way of sharing it with their environment. For this reason, a perfect command of this branch of study is essential for those who wish to understand the motivation of each practitioner, taking into account the differences depending on their religion and their personality.

In view of this situation, TECH has designed this Postgraduate Certificate, with which the students will increase their knowledge in Philosophy and Phenomenology of Religion to position themselves as specialists in this field. During 150 hours of intensive learning, you will handle the typology of the different religions in human history and delve into the specific issues that make up the Fact in Religions. Likewise, it will establish the different existing paths towards religious experience according to the characteristics of each person, in this way acquiring an excellent and avant-garde vision in this field of study.

Thanks to the 100% online methodology in which this program is developed, the student will achieve a completely effective learning through the development of their own study schedules. It will also have teaching materials available in a wide range of textual and multimedia supports, all of them accessible through the use of a device with an Internet connection. Thanks to this, the student will enjoy optimized teaching at any time and place.

This **Postgraduate Certificate in Philosophy and Phenomenology of Religion** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of case studies presented by experts in Catholic Religion
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Master, with this program, the characteristics of the religious language that explain the making of the beliefs and myths of each Religion"

“

Enjoy a very complete syllabus that, in a completely online way, will allow you to increase your competences in the study of religions"

The program includes in its teaching staff professionals from the sector who bring to this training the experience of their work, as well as recognized specialists from leading companies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, recognized experts.

Identify the different paths to religious experience in order to understand each person's way of understanding their beliefs.

Develop your knowledge in Philosophy and Phenomenology of Religion to increase your professional growth in this field.

02 Objectives

This Postgraduate Certificate is designed with the idea in mind to offer the student the most useful knowledge in the area of Philosophy and the Phenomenology of Religion. Throughout this educational itinerary, you will analyze the different theories related to the origin of religion or to the orientation of each person towards religious experiences. All this learning will be preserved by following the general and specific objectives that TECH has outlined for this program.

“

*Become an expert in Philosophy and
Phenomenology of Religion in only 150 hours"*

General Objective

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

Delve into the beliefs and symbols of religions and position yourself as a reference professional in this field"

Specific Objectives

- ♦ Identify the different theories (positivism, evolutionism, etc.) that have dealt with the Religious Fact, and their conclusions
- ♦ Know the specific issues that make up the "Fact" in religions: myths and beliefs, symbols and rites, revelation and sacred texts
- ♦ Have the ability to analyze and synthesize texts, as well as to select the most significant elements in them
- ♦ Signify the answers that man has been giving, from the different geographical and - cultural situations, to the relationship with the divinity

03

Structure and Content

The syllabus of this educational program consists of 1 module through which the student will master the intricacies of Philosophy and the Phenomenology of Religion. The didactic resources that will be available throughout this Postgraduate Certificate are present in an extensive number of textual and interactive formats. With this, and through a 100% online methodology, the students will obtain a learning experience completely adapted to their student preferences.

“

The 100% online methodology characteristic of this program will allow you to learn without the need to depend on uncomfortable tight schedules"

Module 1 Philosophy and Phenomenology of Religion

- 1.1. Basic Presuppositions in the Development of Sciences and Explanation of Some of Them
 - 1.1.1. Paradigms and Traditions of Research
 - 1.1.2. Laudan and Research Traditions
 - 1.1.3. Problem Solving Models
 - 1.1.4. Scientific Changes
- 1.2. Philosophical Reflection on Religion
 - 1.2.1. Interrelations between Philosophy
 - 1.2.2. Religion Throughout the Centuries
- 1.3. Phenomenology
 - 1.3.1. Birth of Science
 - 1.3.2. Phases, Characters and Ideas of Configuration
 - 1.3.3. The Phenomenological Method
- 1.4. Etymology of Religion
 - 1.4.1. Modern Interpretations
 - 1.4.2. Theories of Religion
- 1.5. Theories on the "First Form" of Religion
 - 1.5.1. Typology of the Different Religions in Human History
- 1.6. The Religious Fact in the History of Mankind
 - 1.6.1. Configuring Components of the Religious Fact
- 1.7. The Mystery, Reality that Qualifies the Sphere of the Sacred
 - 1.7.1. Mediations Manifestations of the Mystery: The Hierophanies, Sacred Spaces and Sacred Times
 - 1.7.2. Meanings Common to All Religions and Particular Notes of Judaism, Islam, Hinduism and Buddhism

- 1.8. The Revelation of the Divinity: Source of All Religion
 - 1.8.1. Sacred Texts or Sacred Scriptures of the Religions
- 1.9. The Language of Faith: Religious Language
 - 1.9.1. Characteristics and Forms
 - 1.9.2. The Symbolic Language of Religious Experience: Functions of the Symbol in Religions
 - 1.9.3. The Mythical Expression
 - 1.9.4. Confection of the Beliefs
 - 1.9.5. Characteristics, Function and Types of Myths
 - 1.9.6. Philosophical-Theological Elaborations and Religious Tradition
- 1.10. Human Experience, the Path to Religious Experience:
 - 1.10.1. Concept and Realization of this Experience of Openness
 - 1.10.2. Religious Experience and the Complexity of Attitudes that Make It Up: Existence and Explicitness, Characteristics and Essential Notes of Religious Experience
 - 1.10.3. The Discovery of the Absolute in the Horizon of the Religious Attitude
 - 1.10.4. The Response of Man and Religious Maturity: Definition, Characteristics of the "Mature" Man

Enroll in this program to access the most up-to-date didactic content on the market in Philosophy and Phenomenology of Religion"

04 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05 Certificate

The Postgraduate Certificate in Philosophy and Phenomenology of Religion guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Philosophy and Phenomenology of Religion** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

THE PSALMS
FIRST BOOK

PSALM 1
The man that walketh
in the counsel of the wicked,
shall not stand in the way of
the righteous; he shall not sit in the seat of life.
