Introduction

To know the Christian doctrine on Reconciliation and Anointing of the Sick is one of the essential bases in which Religious Studies students must deepen their knowledge. Therefore, the study of the Sacraments of Healing, Anointing of the Sick and Reconciliation is the focus of this complete training. A high-level course that will enable graduates to advance in their understanding of and ability to work in this area. For this reason, TECH has designed this exclusive and up-to-date program where students will have access to the most complete theoretical and practical content on the market over four weeks' time. All this with the convenience provided by its 100% online format.

“

The complete analysis of the sacraments of Christian healing and its deep meanings unraveled throughout an intensive, exciting and high-quality course”

This Postgraduate Certificate consists of an intensive development of the capacity of analysis and exposition of the sacraments of reconciliation that are exercised in the Christian doctrine. In it, students will organically learn about the doctrine of Reconciliation and Anointing of the Sick. Through systematized study, students will be able to demonstrate the anthropological anchorage, its biblical foundation, its historical development, gaining a systematic understanding of the current elements of the celebration of Reconciliation and the Anointing of the Sick. This growth will give them the ability to evaluate pastoral practice of Reconciliation and Anointing of the Sick in various ecclesial communities, in order to identify and know the sacraments related to Reconciliation and Anointing of the Sick.

This Postgraduate Certificate has been created so students can acquire the essential knowledge in the field in an intensive and efficient manner. This is a complex area, making knowledge transmission an arduous task. For this reason and in order to provide students with the most efficient and innovative teaching strategies, TECH, together with a team of professionals specialized in Theology, have created this highly intensive training program. In this way, and by paving a theoretical-practical path, students will obtain the best skills and competencies that will make them high-level professionals.

All this makes this 100% online course the best training option available in the academic world. The program utilizes the *Relearning* method, which allows students to advance in a much more natural way while reducing long study hours. Over the course of four weeks, students will discover, through an anthropological vision, human expiration and divine mercy as forms of Christianity, enrolling in a degree that proposes flexible study schedules and that will be available on the virtual campus to streamline their academic experience.

This **Postgraduate Certificate in Reconciliation and Anointing** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Case studies presented by experts in Theology
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Give your career a highly competitive boost with the knowledge and qualification you will gain with this Postgraduate Certificate"

“

The greatest University in the technological era puts itself at the service of the current social needs at a global level and individual needs in particular, with a transforming spirit and vocation for social change”

The program includes, in its teaching staff, professionals from the sector who bring to this training the experience of their work, in addition to recognized specialists from prestigious reference societies and universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive specialization programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. For this purpose, the student will be assisted by an innovative interactive video system created by renowned and experienced experts.

The deepest foundations of the Christian sacraments of Reconciliation and Anointing, developed in an intensive and highly specialized Postgraduate Certificate”

The most technologically developed university in the area of Relearning offers you the technical and human solvency of the largest Spanish-speaking, 100% online university in the world.

02 Objectives

The main goal of this Postgraduate Certificate is to ensure that Theology scholars obtain a successful update on the knowledge of biblical foundations. To do so, TECH provides innovative pedagogical tools that will help students deepen and keep up to date in the theology and liturgy of reconciliation. Students will benefit from the best theoretical and practical content, including supplementary material and self-assessments so they can work on improving their skills.

“

At TECH you will learn to enhance your skills, increase your critical capacity and think in a humanistic way. With the guarantee that only the best educational foundation can bring professionals”

General Objectives

- ♦ Provide the necessary context, ideas and perspectives that will enable students to understand the character of Theology
- ♦ Present the historical and epistemological configuration of Theology as science
- ♦ Justify the recourse of Theology to its sources
- ♦ Demonstrate the basic skills to access the tools to study Theology
- ♦ Present an overview of the various branches of study in Theology
- ♦ Frame fundamental theology as a specialized part of the discipline that seeks to understand the mystery of God in its totality
- ♦ Explain the formal theological principles involved in the theological reading of Sacred Scripture: canonicity, inspiration and infallibility
- ♦ Explore the main historical and geographical elements that serve as an aid to the study of the Bible
- ♦ Propose hermeneutical principles to properly understand the Bible
- ♦ Identify the places and events referred to in Sacred Scripture
- ♦ Review different versions of the Bible

Specific Objectives

- ♦ Organically present the Christian doctrine on Reconciliation and Anointing of the sick
- ♦ Demonstrate the anthropological anchorage, biblical foundation, historical development, systematic understanding and current elements of the celebration of Reconciliation and Anointing of the sick
- ♦ Evaluate the pastoral practice of Reconciliation and Anointing of the sick in various ecclesial communities
- ♦ Identify and know the sacramentals related to Reconciliation and Anointing of the sick

Today more than ever theologians need the endorsement of a solid updated body of knowledge to confront their experience with the real world with guarantees of success"

03

Structure and Content

The syllabus design for this program has been carried out by a team of experts in the area of Humanities, more specifically in theology. Thanks to this, it has been possible to shape an exhaustive and intensive program that gathers the information required to master this discipline in four weeks' of specialization. It also includes a complete syllabus and additional hours of material that graduates can use to work in a personalized way according to their own criteria. All this presented in a convenient, 100%-online program with complete accessibility from any device with an Internet connection.

“

Adaptable, flexible and versatile: Our curriculum is designed so you can decide when, how and the amount of time and effort you wish to devote to your training”

Module 1. Reconciliation and Anointing

- 1.10. Related Sacramentals
 - 1.10.1. Christian Death
 - 1.10.2. Funeral Services

“

*A curriculum designed to make it easy
for you to obtain your Postgraduate
Certificate in Reconciliation and
Anointing with fluency and efficiency”*

04 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

05 Certificate

The Postgraduate Certificate in Reconciliation and Anointing guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Reconciliation and Anointing** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Postgraduate Certificate in Reconciliation and Anointing**

Official N° of hours: **100 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
