Introduction

Religions have their own identity and values that they wish to defend and transmit, influencing their cultural environments in an accentuated way. These aspects lay the religious foundations and determine the way of being and living of the practitioners and the spaces in which they coexist, so it is necessary to understand these relationships in order to accurately analyze different movements, social currents and religions from a humanistic or anthropological point of view. This is why TECH has created this program, through which the student will delve into the intricacies of the interpretation of sacred scripture or detect the role of women in Christianity today. 100% online, you will obtain this excellent learning without leaving your home.

Master, with this program, the current vision of Christianity regarding the role of women in religion and in daily life"

The way of observing the creation of the world and of Man, of interpreting biblical passages or of establishing the role of women in today's society are several examples of the numerous cultural facts and Values that define the Catholic Religion. This set of beliefs and principles shared in common by all believers significantly conditions the ethics and morals of each person. Given the relevant magnitude of these, it is essential for philosophers to know them, in order to observe the way of acting and thinking of individuals from a religious point of view.

For this reason, TECH has created this program, through which the student will adopt the most up-to-date knowledge in the field of Religion, its own Culture and the Values it defends and promulgates, paying special attention to Christianity. Throughout this educational itinerary, you will identify the anthropological reality of the religious fact or the main keys to the relationship between Man and God. It will also analyze the particularities of the biblical narratives and determine the Catholic vision regarding various current issues.

Since this Postgraduate Certificate is taught through a 100% online modality, students can manage their own time to achieve effective learning. You will also have access to teaching materials available in a variety of formats, such as readings, explanatory videos or interactive summaries. With this, TECH's intention is to provide you with an education that is completely adapted to your personal and educational needs.

This **Postgraduate Certificate in Religion, Culture, and Values** contains the most complete and up-to-date program on the market. The most important features include:

- The development of case studies presented by experts in Catholic Education
- The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- Practical exercises where the self-assessment process can be carried out to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

It interprets in a solvent way, by means of this program, the Values that the different passages of the Bible wish to transmit"

Thanks to the study facilities offered by TECH, you will be able to combine your learning with your own personal life"

This Postgraduate Certificate will enable you to know the intricacies of the relationship between Man and God, attending to the Culture of the Catholic Religion.

Only in 6 weeks and through didactic supports such as video or interactive summary, you will achieve a very complete learning in Religion, Culture and Values.

The program's teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will allow the professional a situated and contextual learning, that is, a simulated environment that will provide an immersive training programmed to train in real situations.

The design of this program focuses on Problem-Based Learning, in which the professional will have to try to solve the different professional practice situations that will arise throughout the academic course. For this purpose, the student will be assisted by an innovative interactive video system created by renowned experts.

02

Objectives

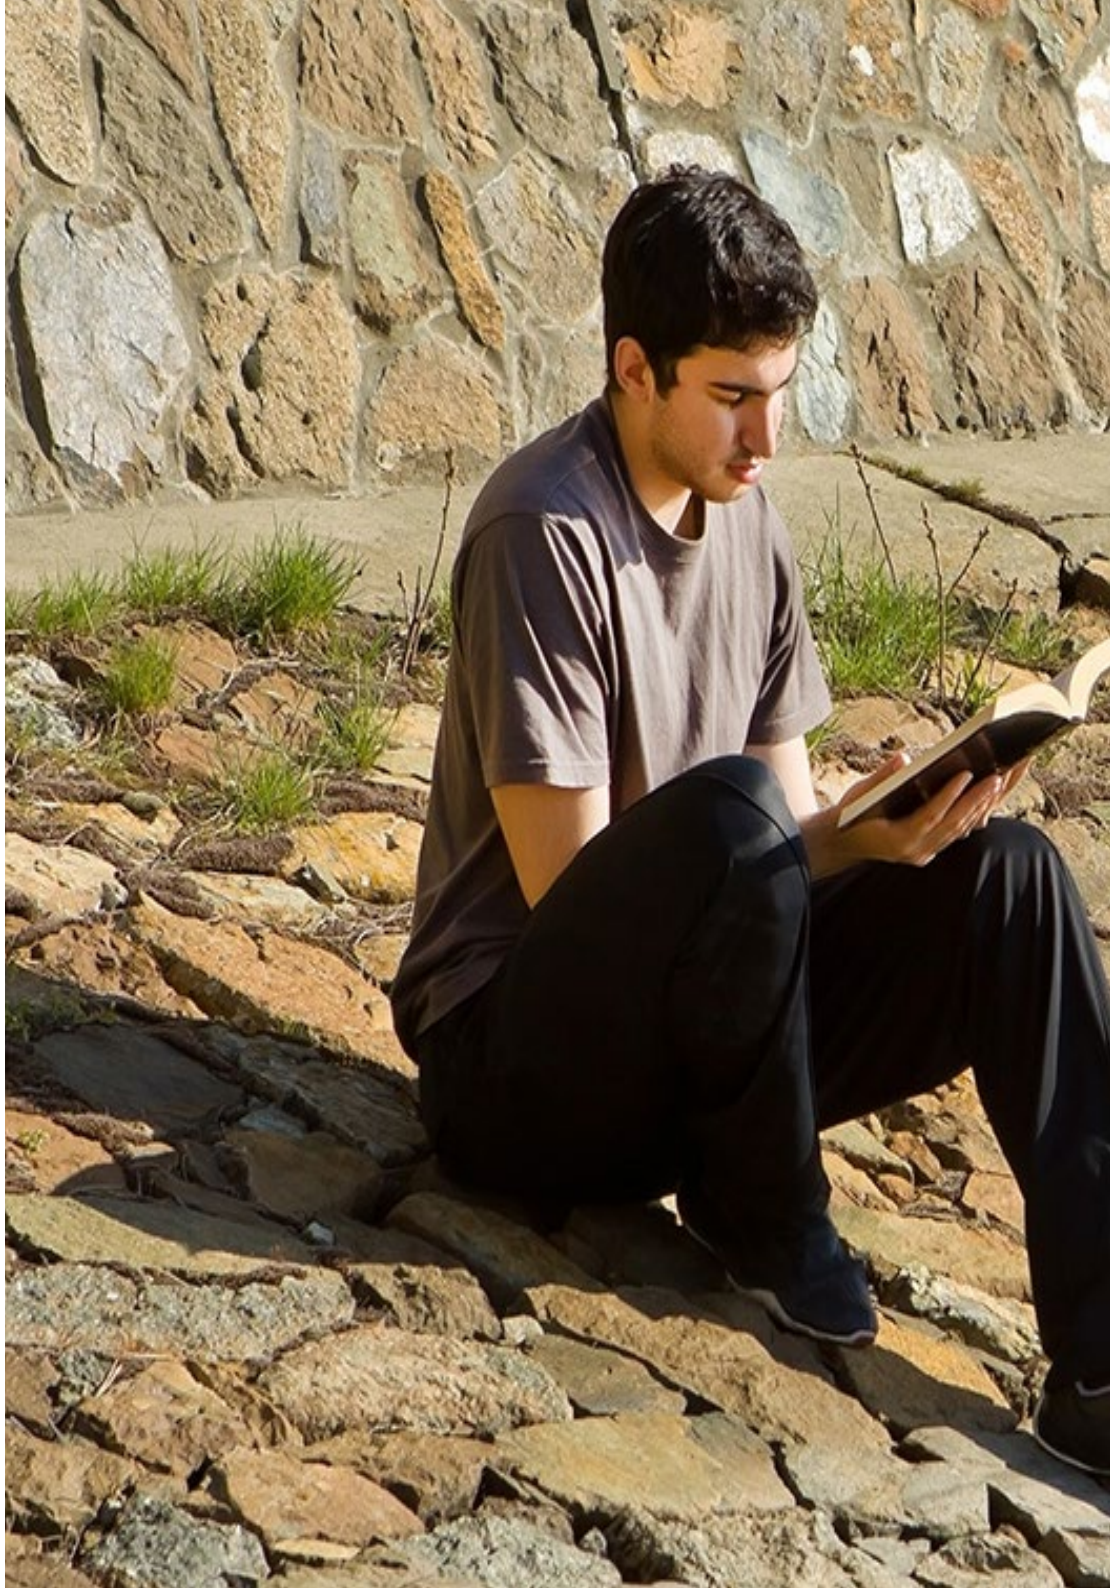
The design of this Postgraduate Certificate has been made with the intention of providing students with the necessary tools to increase their knowledge of Religion, its Culture and Values, with special emphasis on Catholicism. During this educational experience, you will be able to analyze the identity of the morality of Catholicism or to understand the current thinking on various issues. In addition, this learning will be preserved thanks to the general and specific objectives that TECH has outlined.

Acquire a superior vision of the Culture and Values transmitted by the Catholic Religion through this Postgraduate Certificate"

General Objective

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

Achieve your desired professional growth in the field of Philosophy by increasing your knowledge in Religion, Culture and Values"



Specific Objectives

- Know the religious fact in different cultures, as well as its social, ethical and cultural influence
- Identify the essential contents of the Christian faith
- Situate and identify religious education from its own peculiarity in the educational activity of the school as a whole
- Delve into the importance and universality of the religious fact in different cultures
- Discover and link Christianity with other religions

03

Structure and Content

The syllabus of this program consists of 1 module with which the student will significantly increase their knowledge in the area of Religion, its Culture and the Values that it defends and transmits. All the didactic materials that you will access during the duration of this program are available in different formats such as the explanatory video, the interactive summary or the complementary readings. With this, and through a 100% online methodology, you will achieve a learning process that can be carried out 24 hours a day and adapted to your student requirements.

This syllabus will allow you to obtain the most cutting-edge knowledge in Religion, Culture and Values"

Module 1. Religion, Culture, and Values

1.1. Identity of the Catholic Religion and Morals Department
- 1.1.1. The Role of the School in the Formation of New Generations
- 1.1.2. Nature and Identity of the Catholic School
- 1.1.3. The Teaching of Religion in the School
- 1.1.4. Educational Freedom, Religious Freedom and Catholic Education

1.2. The Religious Fact: Anthropological Reality
- 1.2.1. Problem Statement
- 1.2.2. Religion Concept
- 1.2.3. Content Covered by Religion
- 1.2.4. Philosophical Explanation of the Origin and Foundation of Religion
- 1.2.5. Types of Religions

1.3. Universality of the Religious Fact
- 1.3.1. Two Types of Religions
- 1.3.2. Religions are a Universal Fact
- 1.3.3. Causes of Contemporary Unbelief
- 1.3.4. Religious Constants
- 1.3.5. Theories on the Historical Origin of Religion
- 1.3.6. Primitive Religious Monotheism
- 1.3.7. Polytheism Origin

1.4. Man Seeks God
- 1.4.1. Reality and Human Knowledge
- 1.4.2. Itinerary for the Knowledge of God
- 1.4.3. Natural Knowledge of God
- 1.4.4. Supernatural Knowledge of God
- 1.4.5. Anthropological Reasoning
- 1.4.6. The Five Ways of St. Thomas

1.5. Man's Relationship with God
- 1.5.1. Man as a Relational Being
- 1.5.2. Fields of Human Relationships
- 1.5.3. Relationship with God
- 1.5.4. Thought in the 20th Century
- 1.5.5. Foundation of Human Relationships
- 1.5.6. Concupiscence and Benevolence
- 1.5.7. Prayer, Personal Relationship with God
- 1.5.8. The New and Everlasting Covenant
- 1.5.9. Vocation to Beatitude

1.6. The Non-Christian Religious Fact
- 1.6.1. Introduction
- 1.6.2. Hinduism
- 1.6.3. Buddhism
- 1.6.4. Judaism
- 1.6.5. Islam

1.7. Nature and Interpretation of the Scripture
- 1.7.1. Structure and Books that Constitute the Bible
- 1.7.2. Importance of Scripture
- 1.7.3. Nature of Sacred Scripture
- 1.7.4. Divine Inspiration of Sacred Scripture
- 1.7.5. Interpretation of Sacred Scripture
- 1.7.6. Concepts on the Interpretation
- 1.7.7. Errors of Interpretation
- 1.7.8. Exegetical Plans
- 1.7.9. Senses of Scripture

1.8. Creation
- 1.8.1. Creation of the World
- 1.8.2. Creation of Man
- 1.8.3. Primordial Stories

1.9. Biblical Stories and Man's Redemption
- 1.9.1. First Biblical Account of the Creation of Man
- 1.9.2. Second Account
- 1.9.3. The Fall. Man Does Not Love God
- 1.9.4. Deterioration of the Image of God
- 1.9.5. Redemption

1.10. Christian Religious Fact in the Present Culture
- 1.10.1. Analysis and Challenge
- 1.10.2. A Little Imagination
- 1.10.3. Relationship Between Faith and Reason
- 1.10.4. Universities
- 1.10.5. Monks and Culture
- 1.10.6. Women

Take this program to adapt your learning to your educational needs, as it presents didactic content in a wide range of textual and multimedia formats"

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

> *Our program prepares you to face new challenges in uncertain environments and achieve success in your career"*

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

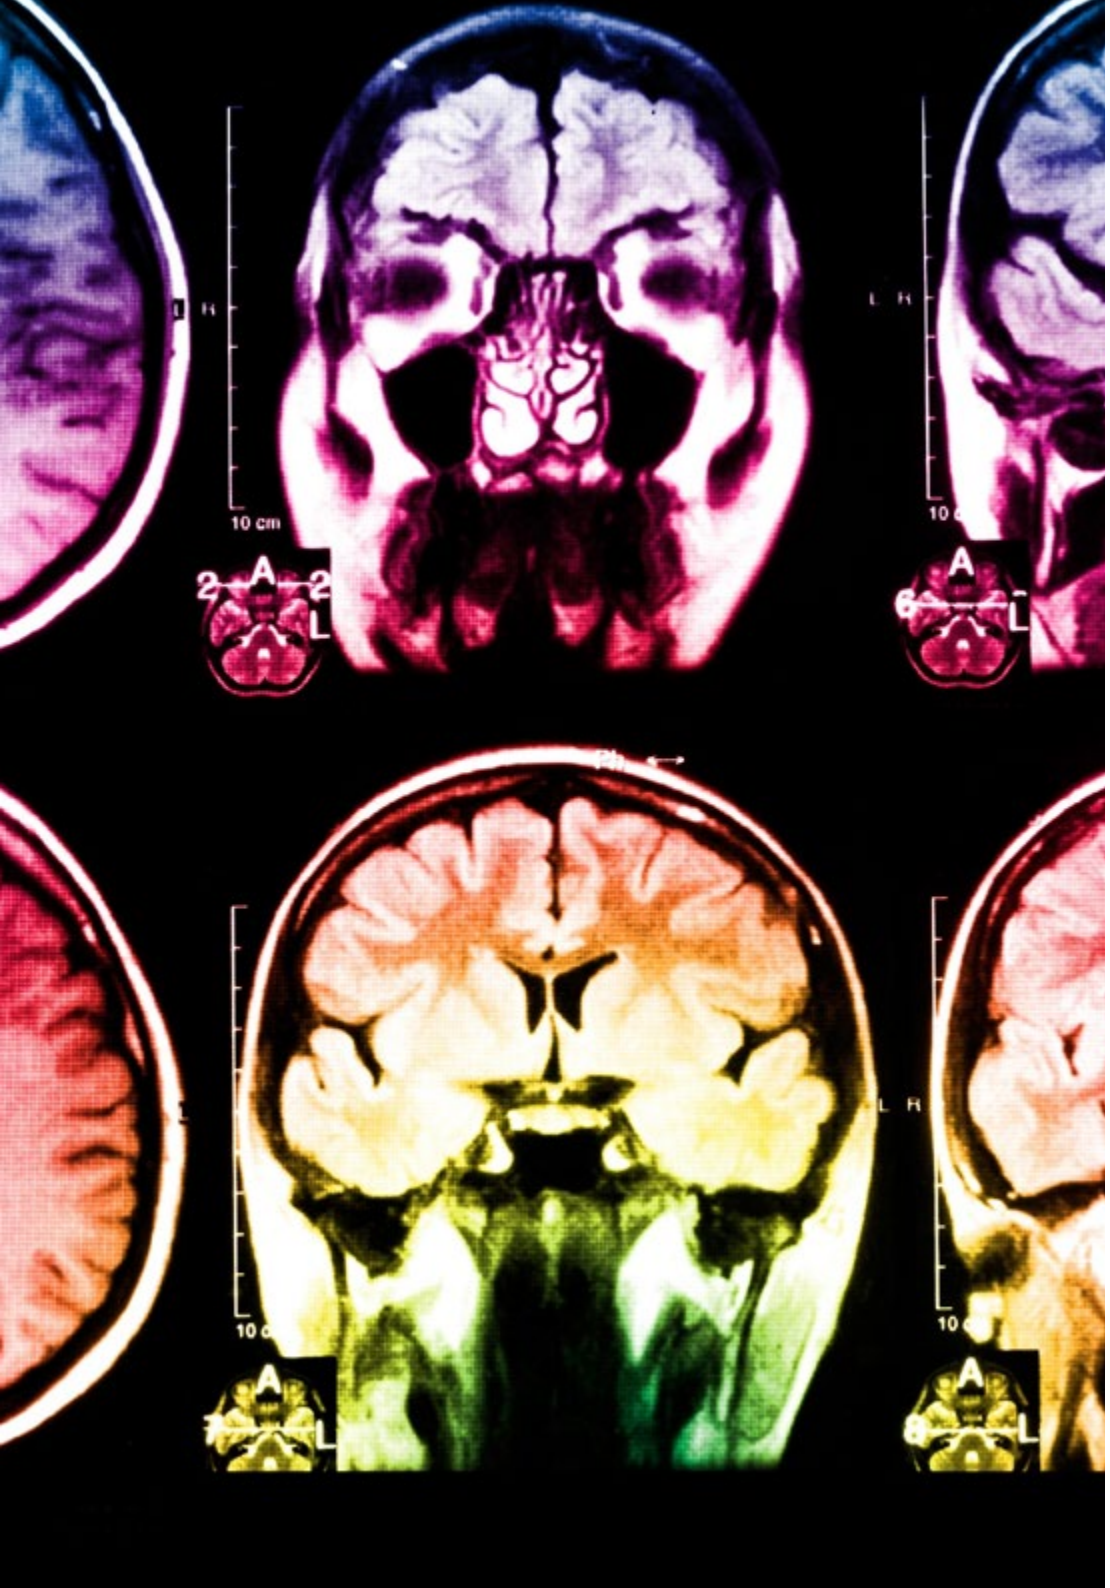
TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.



In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

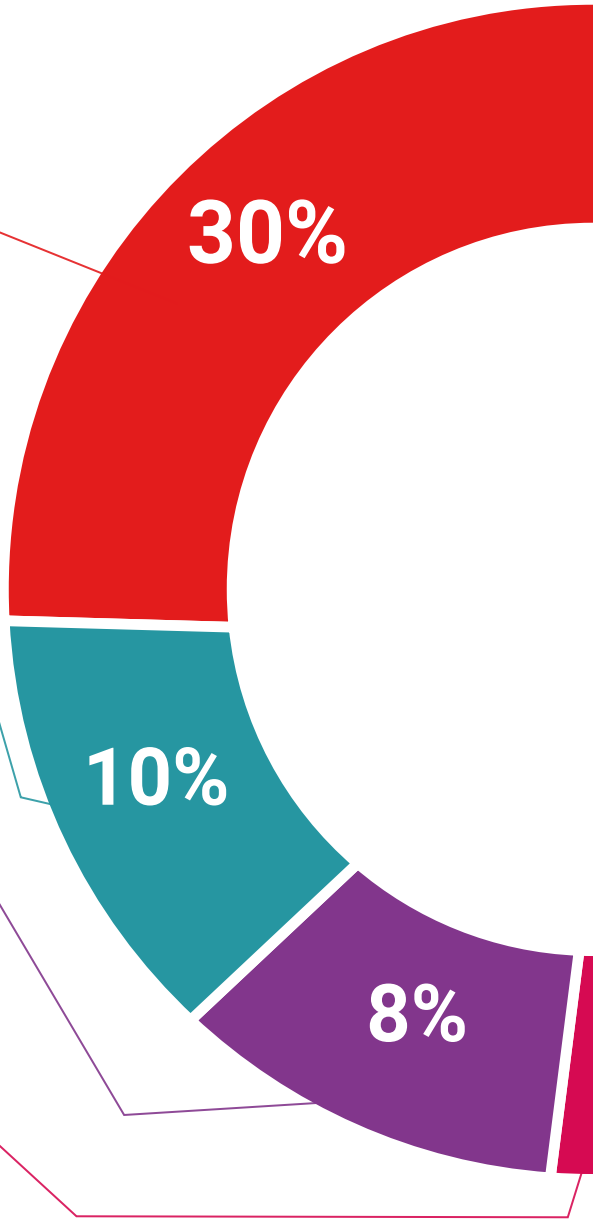
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

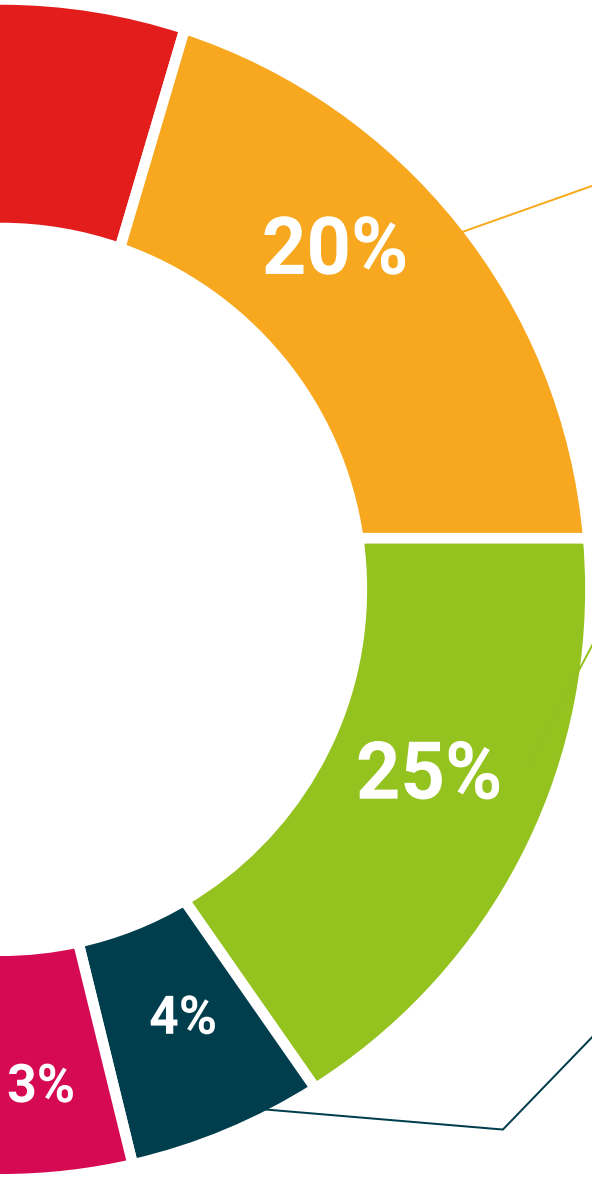
Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.





Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Certificate in Religion, Culture and Values guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Religion, Culture and Values** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Religion, Culture and Values**
