Introduction

Although doctrines consider the Old Testament as the original Holy Book, the differences between the number of books that compose it and its content create the need for a deeper analysis of these different developments. From the biblical origin of the universe and human beings, to the events of the New Testament, this Postgraduate Diploma will guide you through the analysis of the events and texts that lay the dogmatic foundations for the Abrahamic religions. With the clear objective to provide a high-level specialization program, it has been created to bring together the broadest and most relevant knowledge in this area of work in a single study process. With the help of the most developed study systems used in online training, to guarantee the experience is of the highest quality on the road to professional excellence.

The keys to hermeneutics and the indispensable elements to understand the Old Testament, in a high-level academic training”

This program will guide students through the study of the formal theological principles involved in the theological reading of Sacred Scripture: canonicity, inspiration and inerrancy, as well as the main historical and geographical elements that serve as an aid to the study of the Bible. Students will be able to propose hermeneutical principles to correctly understand it, identify the places and events referred to in Sacred Scripture and review the different versions of the Bible.

From this knowledge, the fact of divine revelation will be introduced, describing the historical, cultural and religious framework in which the divine revelatory action took place, and it will become clear how the Holy Scripture presents the history of humanity in a linear sense and not as a cyclical process.

The program also comprehensively focuses on the structure and content of the Pentateuch, approaches to historical criticism of its syllabus, Pentateuchal value and historical books as a reference to a Christian reading of its texts. With all this background knowledge, students will understand the relationship between the Pentateuch and the rest of the biblical message, including the most important schools of thought in current and historical theological interpretation and scientific thought. Students will then be able to trace the development of salvation history throughout the entire period contemplated to understand the action of God on His people at each moment in time.

Likewise, it is essential to study the theological content of the book of Psalms and wisdom literature. At the end of the program, students will be able to indicate the historical, social and religious context of the Psalms and wisdom literature, as well as explain its value and meaning for the people of Israel and Christianity today. This will enable students to assess the importance of this reading for the process of personal and community growth in the contemporary practice of faith and for the evangelical work of the Church.

This **Postgraduate Diploma in The Old Testament** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Practical cases that apply the theoretical content through real life situations
- ♦ The graphic, schematic, and eminently practical content with which they are conceived
- ♦ The great variety of practical exercises where the self-evaluation process can be carried out to improve learning
- ♦ An algorithm-based interactive learning system that enables decision-making in the situations that are presented
- ♦ Its intensive focus on practical learning
- ♦ High-quality theoretical lessons, with questions to the program, discussion forums on controversial topics and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

This Postgraduate Diploma has been created with the best educational materials in online training, and it offers the maximum professional growth you are looking for”

“

Acquire the necessary overview and fundamental historical data to contextualize the theological thought of the prophets in the general field of biblical revelation”

The teaching staff includes professionals from the field of Theology and other related fields, who bring their experience to this program, as well as renowned specialists from leading scientific societies.

The multimedia content developed with the latest educational technology will provide students with situated and contextual learning, i.e., a simulated environment that will provide immersive learning programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the course. For that purpose, professionals will be assisted by an innovative, interactive video system created by renowned and experienced experts in the Old Testament who also have extensive teaching experience.

A complete analysis of the educational approaches and the value of the Pentateuch and historical books.

The most technologically developed university in the area of eLearning puts at your disposal the technical and human solvency of the largest online university in the world in Spanish.

02 Objectives

The main objective of this educational program is to provide students with a complete and current vision of the discipline. Therefore, it focuses on concrete, measurable and useful objectives that will allow students to grow both in their professional and personal lives, turning the knowledge they acquire into real competences.

“

At TECH Technological University, you will learn to enhance your skills, increase your critical capacity and think in a humanistic way. With the guarantee that only the best educational foundation can bring professionals”

Structure and Content

This curriculum is designed for those who want to increase their professional competence in religious sciences or deepen their humanistic side. Created with high-quality content, it prepares students to reach the highest levels in their profession. The program has been developed in a comprehensive manner to achieve the most complete competencies in each of its areas. The teaching staff is highly qualified at both the theological and teaching levels, and they implement the best educational methodology. Because learning from the best is the easiest way to become the best.

CHAPTER 10.

1 Christ sendeth out his twelve apostles, enabling them with power to do miracles, 5 giveth them their charge, teacheth them, 16 comforteth them against persecutions: 40 and promiseth a blessing to those that receive them.

AND ^a when he had called unto him his twelve disciples, he gave them power ² against unclean spirits, to cast them out, and to heal all manner of sickness and all manner of disease.

2 Now the names of the twelve apostles are these; The first, Simon, ^b who is called Peter, and Andrew his brother; James the son of Zebedee, and John his brother;

3 Philip, and Bartholomew; Thomas, and Matthew the publican; James the son of Alphaeus, and Lebbeus, whose surname was Thaddeus;

4 ^c Simon the Canaanite, and Judas the Iscariot, who also betrayed him.

5 These twelve Jesus sent forth, and commanded them, saying, ⁶ Go not into the way of the Gentiles, and into any city of the Samaritans enter ye not:

6 ⁷ But go rather to the ⁸ lost sheep of the house of Israel.

7 ⁹ And as ye go, preach, saying, ¹⁰ The kingdom of heaven is at hand.

8 Heal the sick, cleanse the lepers, raise the dead, cast out devils: ¹¹ freely ye have received, freely give.

9 ¹² Provide neither gold, nor silver, nor ¹³ brass in your purses,

10 Nor scrip for your journey, neither two coats, neither shoes, nor yet ¹⁴ staves: ¹⁵ for the workman is worthy of his meat.

11 ¹⁶ And into whatsoever city or town ye shall enter, enquire who in it is worthy; and there abide till ye go thence.

12 And when ye come into an house, salute it.

13 ¹⁷ And if the house be worthy, let your peace come upon it: ¹⁸ but if it be not worthy, let your peace return to you.

14 ¹⁹ And whosoever shall not receive you, nor hear your word, when ye depart out of that house or city, ²⁰ shake off the dust of your feet.

15 Verily I say unto you, what ye do to one of these my brethren, ye do to me.

16 ²¹ Behold, I send you forth as sheep in the midst of wolves: ²² therefore ye must be more tolerable than the Sodom and Gomorrah, for unto them shall be given judgment, than unto you.

17 ²³ And whosoever shall speak against me, and against them which bear witness on me, I will forgive him: ²⁴ but whosoever shall speak against the Son of man, and shall blaspheme him, I will forgive him: ²⁵ but whosoever shall blaspheme the Holy Ghost, he shall not be forgiven, but shall be in everlasting damnation.

20 ²⁶ For it is not ye that speak, but the Spirit of your Father which speaketh in you.

21 ²⁷ And the brother shall deliver up the brother to death, and the father the child: and the children shall rise up against their parents, and cause them to be put to death.

22 And ²⁸ ye shall be hated of all men for my name's sake: ²⁹ but he that endureth to the end shall be saved.

23 But ³⁰ when they persecute you in this city, flee ye into another: for verily I say unto you, Ye shall not ³¹ have gone over the cities of Israel, till the Son of man be come.

24 ³² The disciple is not above his master, nor the servant above his lord.

25 It is enough for the disciple that he be as his master, and the servant as his lord. If ³³ they have called the master of the house ³⁴ Beelzebub, how much more shall they call them of his household?

26 Fear them not therefore: ²⁷ for there is nothing covered, that shall not be revealed; and hid, that shall not be known.

27 What I tell you in darkness, ²⁸ that speak ye in light: and what ye hear in the ear, ²⁹ that preach ye upon the housetops.

28 ³⁰ And fear not them which kill the body, but are not able to kill the soul: but rather fear him which is able to destroy both soul and body in hell.

29 Are not two sparrows sold for a ³¹ farthing? and one of them shall not fall on the ground without your Father's consent.

30 ³² But the very hairs of your head are all numbered.

31 Fear ye not, therefore, ye have more value than many sparrows.

32 ³³ Whosoever shall confess me before men, I will confess him before my Father which is in heaven.

33 ³⁴ But whosoever shall deny me, I will deny him before my Father which is in heaven.

34 ³⁵ Whosoever shall forsake me, and my Father, shall forsake me, and my Father.

35 ³⁶ Whosoever shall forsake me, and my Father, shall forsake me, and my Father.

36 ³⁷ Whosoever shall forsake me, and my Father, shall forsake me, and my Father.

37 ³⁸ Whosoever shall forsake me, and my Father, shall forsake me, and my Father.

38 ³⁹ Whosoever shall forsake me, and my Father, shall forsake me, and my Father.

39 ⁴⁰ Whosoever shall forsake me, and my Father, shall forsake me, and my Father.

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.
