Introduction

The study and analysis from a philosophical perspective of the cultural and political spheres provides answers to many of the questions that the different forms of growth, behavior and human development raise. Hence, this is the study aim of this interesting Postgraduate Diploma in Political Philosophy and Theory of Culture. A complete and accurate guide to this form of analysis, with an intensive program that will allow you to specialize efficiently and comfortably from your own computer. All this with the guarantee of the most prestigious online university in the world.

“

A comprehensive study of philosophical approaches and analyses of the fields of politics and culture"

The analysis of the different forms of government that have developed throughout history is fundamental to understanding contemporary political processes and the evolution of the different models of state. A body of knowledge that is essential to the development of any philosopher who wants to progress in their career.

With this in mind, the syllabus for this Postgraduate Diploma includes key knowledge about cultural, legal and social developments. Three areas that will raise your understanding to an advanced level and will allow you to engage in philosophical work with the competence of an expert.

In order to provide the best qualification possible, all the essential concepts have been included to propel students to superior levels of philosophy, with the ability to convert this knowledge into effective and practical skills.

A complete compendium of knowledge and developments that will lead to the highest standards of professional training, with the competitiveness of an expert in this field of work.

But, in addition, with this course you will learn with the most effective systems for the study of this subject.

If students want to improve themselves, achieve a positive change on a personal level, relate with the best and belong to the new generation of professionals capable of working anywhere in the world, this may be their path.

A Postgraduate Diploma that is fully compatible with other work, personal, teaching or study commitments. Its system and teaching approach will flexibly adjust to student needs from beginning to end throughout the course. Consequently, the results are much more efficient since the study will not become an unbearable burden, but rather, a stimulating and easy challenge to undertake and bring to fruition.

This **Postgraduate Diploma in Political Philosophy and Theory of Culture** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Case studies to apply the theoretical content to real life situations
- ♦ The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ It contains practical exercises where the self-evaluation process can be carried out to improve learning
- ♦ Algorithm-based interactive learning system for decision-making in the situations which are presented to the student
- ♦ Special emphasis on practical learning
- ♦ All this will be complemented with theoretical lessons, questions to the Course, discussion forums on controversial issues and individual reflection papers
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

A high-quality qualification that will propel you to the highest levels of philosophical capability in these exciting areas of work"

Study with the greatest University of the technological era and you will form part of an institution with a vocation of service, aware of the current needs of society, the world, and particularly of the individual"

This Postgraduate Certificate is created to ensure you can study in a simple, efficient and flexible way, with the superior quality of a high-level academic course.

Study with the technical and human excellence of the world's largest 100% online university.

TECH University offers the most innovative, creative and unique offering, in a dynamic, talented and internationally recognized institution. With a space to exchange ideas, experience and reflections. You will be able to share your academic experience through forums and other collaborative tools 100% online.

We support you at all times thanks to an involved and committed teaching staff. Our teaching team transmit insights taken directly from their professional practice, working in a realistic, lively and dynamic way. But above all, we explore your critical side, your ability to question things, your problem-solving skills, as well as your interpersonal skills.

02

Objectives

With this Postgraduate Diploma, students will be walked through the essential contents to approach this discipline effectively, learning to undertake analyses, dissertations, presentations, debates or publications related to the subject matter, with the support of the most comprehensive knowledge. A program in which professionals will learn while enjoying the benefits of a course designed to optimize their study time.

“

Our goal is to provide you with a new learning experience that will lead you to achieve your professional goals with total assurance and confidence”

General Objectives

- ◆ Acquire a rigorous philosophical method, shaped by ordered thought and the capacity for dialog, putting this into practice
- ◆ Possess adequate tools to study philosophical subjects
- ◆ Conduct fruitful scientific work
- ◆ Build on the various philosophical concepts that will become evident in daily work environments
- ◆ Develop a mental structure and appropriate conceptual frameworks that structure philosophical criteria rooted in Christian tradition, including principles, methods and contents
- ◆ Shape students' unique identity as Christian thinkers

The profile of the humanistic professional has reached the highest levels of professionalism. Activate a growth in your competence and don't get left behind"

- 4.1. Examples of Philosophical Reflections on Society and Politics
 - 4.1.1. Ancient and Medieval Philosophers
 - 4.1.2. Modern and Contemporary Philosophers
- 4.2. Principles of Social Order and Politics
 - 4.2.1. Human Person and Law Person and Freedom. Marriage Family
 - 4.2.2. Law and Legality Solidarity Subsidiarity Common Good Society
 - 4.2.3. Economics and Development. Intermediary Bodies Social Participation Work
- 4.3. State and Social Constitution
 - 4.3.1. Nature and Constitution of the State Definition. Law Legal Powers Legal Authority Territory Nation and Homeland Autonomy Sovereignty
 - 4.3.2. Organs, Limits and Functions of the State Division of Powers. Legitimacy and Legality International Community
 - 4.3.3. Forms of Government Democracy and other Forms of Political Organization Autonomy Sovereignty
- 4.4. Justice and Peace
 - 4.4.1. Poverty, Development and Their Relationships with Justice
 - 4.4.2. Promotion of Peace and International Community Global Entities
 - 4.4.3. War and Conditions for Peace Self-Defence and Community

A fully up-to-date program, with the most relevant and essential aspects organized in a dynamic and structured way”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Diploma in Political Philosophy and Theory of Culture guarantees students, in addition to the most rigorous and up-to-date education, access to a qualification issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Diploma in Political Philosophy and Theory of Culture** contains the most complete and up-to-date scientific program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.
