Index

Introduction to the Program

The integration of AI in project management and data analysis has significantly transformed the business ecosystem, optimizing decision making and improving operational efficiency. According to an IDC report, the market for AI applied to project management will reach a value of $98 billion, driven by the growing need for automation and personalization in the customer experience. Taking this digital transformation into account, TECH has designed this Postgraduate Diploma that will offer an in-depth specialization in these ground-breaking technologies. Using a 100% online methodology, specialists will master automation, personalization and data analysis optimization strategies, leading digital initiatives in organizations in any sector.

"

With the most complete and up-to-date program on the educational market, you will master key topics such as Machine Learning, predictive analytics and automation in Salesforce"

Artificial Intelligence in Salesforce, through tools such as Einstein AI, allows companies to anticipate the needs of their customers by predicting behaviors and automating tasks. Thanks to this technology, sales and marketing teams can segment customers more precisely, optimize campaigns and offer personalized recommendations in real time.

To respond to this demand, TECH has developed this program in AI, Project Management and Data Analysis in Salesforce that will provide the most outstanding and up-to-date knowledge in this field. Through an innovative approach, key topics such as the use of predictive models, the personalization of commercial strategies and the optimization of workflows through automation will be addressed. In addition, it will delve into big data management, allowing professionals to apply advanced analysis techniques to maximize organizational performance.

Based on this, graduates will be prepared to assume strategic roles in companies in any sector, accessing job opportunities in areas such as digital transformation consulting, technology project management, and data analytics applied to business decision making. Thanks to the combination of skills in AI and project management, they will be able to lead innovative initiatives that boost the efficiency and competitiveness of their organizations.

In addition, this program has been designed in a 100% online format, which will allow students to access the content from anywhere and at any time. In turn, TECH has implemented the Relearning methodology, based on the reiteration of key concepts to guarantee progressive and effective education. In this way, they will be able to consolidate their knowledge in a dynamic way, improving their capacity to apply it in real environments and enhancing their profile in the technology sector.

This **Postgraduate Diploma in AI, Project Management and Data Analysis in Salesforce** contains the most complete and up-to-date program on the market. The most important features include:

- The development of case studies presented by experts in Salesforce
- The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- Practical exercises where the self-assessment process can be carried out to improve learning
- Special emphasis on innovative methodologies in AI, Project Management and Data Analysis in Salesforce
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

" *Your ability to interpret strategic data and apply AI-based solutions will make you a key player in any organization committed to the digitalization and optimization of its operations"*

" *Be part of the future of project management with TECH! Take the opportunity to learn with this Postgraduate Diploma and become the expert that companies need"*

After completing this comprehensive and dynamic program, you will be prepared to take on leadership roles and bring differential value in the digital age.

With this innovative online diploma, you will master AI and data analytics in Salesforce. By enrolling, you will be able to optimize processes and manage projects!

Its teaching staff includes professionals from the Salesforce field, who bring their work experience to this program, as well as renowned specialists from leading companies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive learning experience designed to prepare for real-life situations.

This program is designed around Problem-Based Learning, whereby the student must try to solve the different professional practice situations that arise throughout the program. For this purpose, the professional will be assisted by an innovative interactive video system created by renowned and experienced experts.

02
Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it relies on an enormous faculty of more than 6,000 professors of the highest international renown.

Study at the world's largest online university and guarantee your professional success. The future starts at TECH"

The world's best online university, according to FORBES

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

The best top international faculty

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

Forbes
The best online university in the world

The most complete **syllabus**

TOP international faculty

The most effective methodology

World's No.1 The World's largest online university

The most complete syllabuses on the university scene

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

A unique learning method

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

4.9/5 ★★★★★ global score

99% maximun employability guaranteed

Google Premier Partner

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

The top-rated university by its students

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

03
Syllabus

Throughout a well-rounded syllabus, professionals will acquire a comprehensive view of the most advanced tools in AI, Project Management and Data Analysis in Salesforce. In this way, they will delve into intelligent automation within Salesforce to lead digital transformation initiatives in various sectors. In addition, they will address key topics such as the use of Machine Learning algorithms for process optimization, the implementation of predictive analysis strategies and the development of agile methodologies for efficient project management.

You will progress at your own pace, assimilating the content effectively and applying the knowledge acquired in your professional environment immediately"

Module 1. Declarative Programming in Salesforce

1.1. Declarative Programming
 1.1.1. Declarative Construction Tools
 1.1.2. Formulas and Functions
 1.1.3. Functionalities for E-mail Templates
1.2. Declarative Page Design
 1.2.1. *Page Layout, Lightning App Builder and List Views*
 1.2.2. Buttons, Links and Actions Configuration
 1.2.3. *In-App Guidance*
1.3. *Flow Builder*
 1.3.1. Flow Management
 1.3.2. Flow Life Cycle
 1.3.3. Reuse with Subflows
 1.3.4. *Flow Interview: Paused Flows*
 1.3.5. Flow Bulkification in Transcactions
1.4. *Screen Flow*
 1.4.1. Fields in Screen Flow
 1.4.2. Flow with Stages
 1.4.3. Reactive Screen Flows
1.5. Declarative Automation Tools
 1.5.1. *Autolaunched Flows - Non Triggered*
 1.5.2. *Record Triggered Flows*
 1.5.3. *Platform Event Triggered Flows*
1.6. Flow Orchestration
 1.6.1. Flow Orchestration
 1.6.2. *Autolaunched Orchestration - Non Triggered*
 1.6.3. *Record Triggered Orchestration*
1.7. Management of Exceptions in Flows
 1.7.1. Testing with Flow Builder
 1.7.2. Debugging Errors
 1.7.3. Monitoring Capabilities
 1.7.4. Exception Management Framework
1.8. Approval Processes
 1.8.1. Approval Process Wizard and Required Configuration
 1.8.2. Configuration of the Approval Phases
 1.8.3. Limits and Considerations
1.9. External Services and Outbound Message
 1.9.1. External Service & Flow Action Configuration
 1.9.2. Outbound Message: Configuration, Notification and Monitoring
 1.9.3. External Services and Outbound Message
1.10. Declarative Analytical Tools
 1.10.1. *Custom Record Types*
 1.10.2. Reports Construction
 1.10.3. Dashboard Construction
 1.10.4. Reports and Dashboard Limitations

Module 2. Application Lifecycle Management (ALM) in Salesforce

2.1. Salesforce Development Models
 2.1.1. Declarative Development Model
 2.1.2. Org-Based Development Model
 2.1.3. Source Code Based Development Model
 2.1.4. Package-Based Development Model
2.2. Branching Strategy
 2.2.1. GitFlow and Its Evolution Adapted to Salesforce
 2.2.2. Branching Strategy Limited to User Stories
 2.2.3. Branch Strategy Based on Releases and Major Releases
 2.2.4. Copyleft Approach
2.3. Source Code Repositories (VCS)
 2.3.1. Source Code Repositories (VCS)
 2.3.2. Roles and Responsibilities
 2.3.3. Git Configuration and Command Execution

Module 3. Salesforce Security

3.1.   Security in Apex
    3.1.1.   Security in Apex
    3.1.2.   Best Practices for Secure and Attack Protected Code
    3.1.3.   Data Encryption in Transit and at Rest
3.2.   Security in Visualforce
    3.2.1.   Security in Visualforce
    3.2.2.   Security in Visualforce Framework
    3.2.3.   Best Practices for Secure Code in Visualforce
3.3.   Security in Aura
    3.3.1.   Security in Aura Framework
    3.3.2.   Practical Examples of Protection and Security Evidences in Aura
    3.3.3.   Best Practices for Secure Code in Aura
3.4.   Security in Lightning Web Components
    3.4.1.   Security in LWC Framework
    3.4.2.   Practical Examples of Protection and Security Evidences in LWC
    3.4.3.   Best Practices for Secure Code in LWC
3.5.   *User Access Management*
    3.5.1.   User Profiling and Licensing (Profiles & Custom Permission)
    3.5.2.   Role Hierarchy and Territory Model
    3.5.3.   Team Management (Case, Account and Opportunity)
    3.5.4.   Queues and User Groups
    3.5.5.   Best Practices for External User Access
3.6.   Security at the Registry Level
    3.6.1.   OWD, Sharing Rules, ARSDR and Manual Sharing. Best Practices
    3.6.2.   Blocking of Registries
    3.6.3.   Implicit Sharing and Apex Sharing Reasons
    3.6.4.   *Data Masking*
3.7.   Security at the Field Level
    3.7.1.   Advanced Profiling Modeling
    3.7.2.   Best Practices for Dynamic Forms
    3.7.3.   FLS Control and Record Visibility in Apex and SOQL

With a carefully structured syllabus, you will develop a deep understanding and real-world application of all related concepts, preparing you for the challenges of the business environment"

Teaching Objectives

The main goal of this program is to provide professionals with the necessary skills to lead the digital transformation in their organizations. To this end, a syllabus has been designed to provide an in-depth understanding of the impact of Artificial Intelligence on project management, as well as the application of advanced data analysis techniques within the Salesforce ecosystem. Graduates will be prepared to optimize customer relations, improve operational efficiency and lead innovative projects within their organizations.

Thanks to this comprehensive program, you will make a difference in the digital world. What are you waiting for to enroll?" Do it now and boost your career with AI and data analysis on Salesforce"

General Objectives

- Implement artificial intelligence in Salesforce to optimize business decision making
- Manage digital transformation projects with agile methodologies and Salesforce tools
- Analyze strategic data in Salesforce to improve business performance and competitiveness
- Automate business processes by integrating AI and CRM in Salesforce
- Design data-driven marketing strategies based on predictive models and advanced analytics
- Optimize the customer experience with artificial intelligence and personalized interactions
- Apply machine learning techniques to customer segmentation and loyalty programs
- Develop interactive dashboards for real-time monitoring of key metrics
- Improve operational efficiency by automating workflows in Salesforce
- Integrate AI tools into project management to boost productivity and results

Specific Objectives

Module 1. Declarative Programming in Salesforce
- Automate business processes without writing code through declarative programming
- Configure custom applications in Salesforce using visual tools

Module 2. Application Lifecycle Management (ALM) in Salesforce
- Delve into the complete life cycle of Salesforce applications, from planning to implementation
- Optimize solution implementation and launch processes using ALM tools and strategies

Module 3. Salesforce Security
- Implement and manage security controls in Salesforce to protect sensitive company data
- Manage user authentication and platform security settings

With this program you will not only be able to study from anywhere, but you will also develop skills that will open the door to new job opportunities"

Career Opportunities

This program will enable professionals to perform strategic functions in companies in various sectors, from e-commerce to technology consulting. In this sense, one of the main fields of application will be data analysis and intelligent process automation in Salesforce, facilitating access to roles such as Data Analyst, CRM Consultant or AI Business Strategist. In addition, the combination of knowledge in project management and agile methodologies such as Scrum and Kanban will promote access to leadership positions in the management and execution of technology projects, both in startups and in large corporations.

"

You will benefit from expert teachers, up-to-date content and a flexible methodology based on Relearning. Become a leader in AI, project management and data analysis in Salesforce!"

Graduate Profile

Graduates will be able to integrate innovative solutions in digital environments and optimize processes through the advanced use of Salesforce. Thanks to a solid theoretical and practical foundation, they will be prepared to face the challenges of today's market and add value in various sectors. They will master data management, the implementation of AI models, and the optimization of the customer experience through advanced CRM tools. In addition, their analytical and strategic skills will give them the opportunity to develop innovative data-based solutions and have an impact on business decision making.

> *You will have access to a 100% online program, with an innovative syllabus and the latest Salesforce trends. Enroll now and take your career to the next level!*

- **Analytical Thinking and Data-Driven Decision Making:** interpret large volumes of information, apply predictive models and use advanced analysis tools to optimize business management

- **Leadership and Project Management:** coordinate multidisciplinary teams, implement agile methodologies and lead digital transformation initiatives in dynamic and highly competitive environments

- **Adaptability and Technological Innovation:** integrating new technologies based on Artificial Intelligence, automation and data analysis, facilitating process optimization and improving the customer experience

- **Effective Communication and Collaborative Work:** presenting technical information clearly, interacting with different areas of an organization and promoting collaboration in strategic projects of digitalization and business optimization

After completing the program, you will be able to use your knowledge and skills in the following positions:

1. **Data Analyst at Salesforce:** responsible for interpreting large volumes of data within the Salesforce ecosystem to optimize decision making and improve the customer experience.

2. **AI Solutions Architect:** designer of Artificial Intelligence solutions at Salesforce to improve process automation and service personalization.

3. **CRM Consultant:** business advisor in the configuration and optimization of Salesforce, ensuring efficient customer management and strategic data integration.

4. **Project Manager in Digital Transformation:** leader of technological projects that integrate Artificial Intelligence and data analysis in Salesforce, guaranteeing the optimization of business processes.

5. **Business Intelligence Specialist:** strategic data analyst to provide key insights that enable companies to improve their performance and competitiveness in the market.

6. **Salesforce Developer:** developer and implementer of technical solutions in Salesforce, customizing the platform to meet the specific needs of organizations.

7. **Customer Experience Manager**: responsible for implementing data analysis and Artificial Intelligence tools in Salesforce to improve interaction with customers and increase loyalty.

8. **Data Strategy Consultant:** designer of strategies based on the exploitation of data in Salesforce, helping companies to maximize the value of their information.

Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career"

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.
The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

"

At TECH you will NOT have live classes (which you might not be able to attend)"
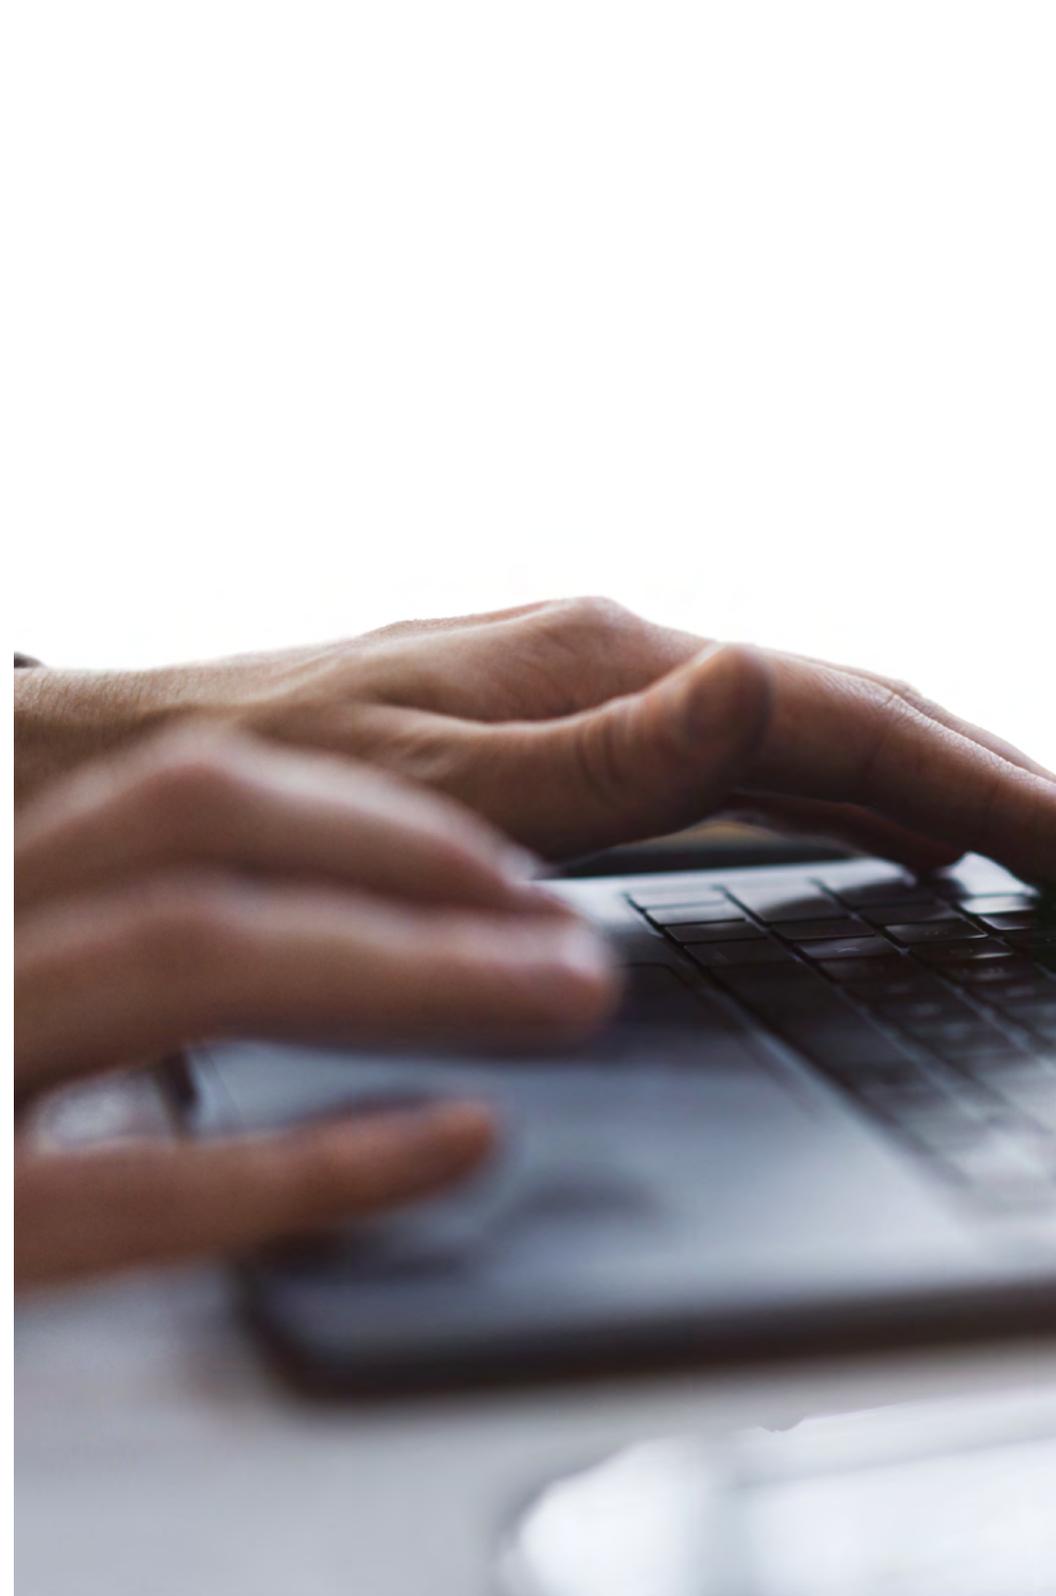

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want"

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule"

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.

2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.

3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.

4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:
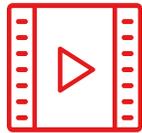

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.
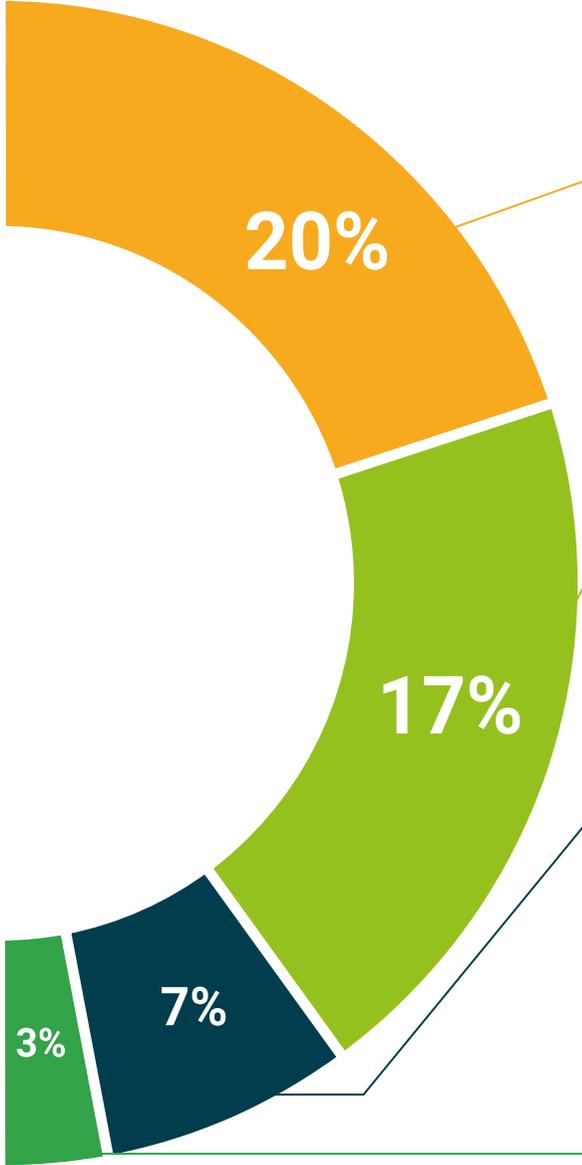

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

Case Studies

Students will complete a selection of the best case studies in the field. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Testing & Retesting

We periodically assess and re-assess your knowledge throughout the program. We do this on 3 of the 4 levels of Miller's Pyramid.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an expert strengthens knowledge and memory, and generates confidence for future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical and effective way to help students progress in their learning.

Teaching Staff

This academic itinerary includes a teaching staff made up of professionals of renowned prestige in the field of Artificial Intelligence, project management and data analysis. Thanks to their experience in leading companies and their participation in digital transformation projects, the lecturers will offer an up-to-date and practical vision on the implementation of advanced technologies in Salesforce. In this way, students will have the opportunity to learn directly from experts who have developed innovative strategies in key sectors such as banking, telecommunications, retail and healthcare.

Thanks to the combination of professional experience and academic excellence, this program will guarantee cutting-edge preparation, providing the knowledge and strategies necessary to excel in this field"

Management

Ms. Carrillo Pineda, Carmen

- CDP Data Specialist at Boehringer Ingelheim
- Degree in Journalism and Communication from the Universidad del Istmo
- Degree in Philosophy and Theology from the Ponifical University of the Holy Cross
- Master's Degree in Business Administration and Management from the IMF Business School
- Expert in Salesforce
- Specialist in Outbound Marketing from the Business School (Madrid)
- Expert in Business Intelligence (Power BI and Tableau) from the Center for Financial Studies

Professors

Mr. Téllez Luna, Jesús Eduardo

- Salesforce Marketing Cloud
- Master's Degree in Web Design and Programming (HTML5, CSS3 and JavaScript), CEI from the School of Design and Marketing
- Master's Degree in Digital Business and Digital Marketing, CEI from the School of Design and Marketing
- Degree in Finance and Public Accounting from Anáhuac University

Ms. Guillem Doménech, Ana

- Senior Consultant and Project Leader at LLYC
- Account Executive Trainee at The & Partnership
- Expert in Digital Marketing from the University of Nebrija
- Specialist in Big Data and Marketing from the University of Nebrija
- Expert in Protocol from the Popular University of Alcobendas
- Specialist in Transversal Team Management
- Expert in Salesforce Associate

A unique, crucial and decisive learning experience to boost your professional development"

Certificate

This Postgraduate Diploma in AI, Project Management and Data Analysis in Salesforce guarantees students, in addition to the most rigorous and up-to-date education, access to a diploma for the Postgraduate Diploma issued by TECH Global University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This private qualification will allow you to obtain a diploma for the **Postgraduate Diploma in AI, Project Management and Data Analysis in Salesforce** endorsed by TECH Global University, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra *(official bulletin)*. Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.
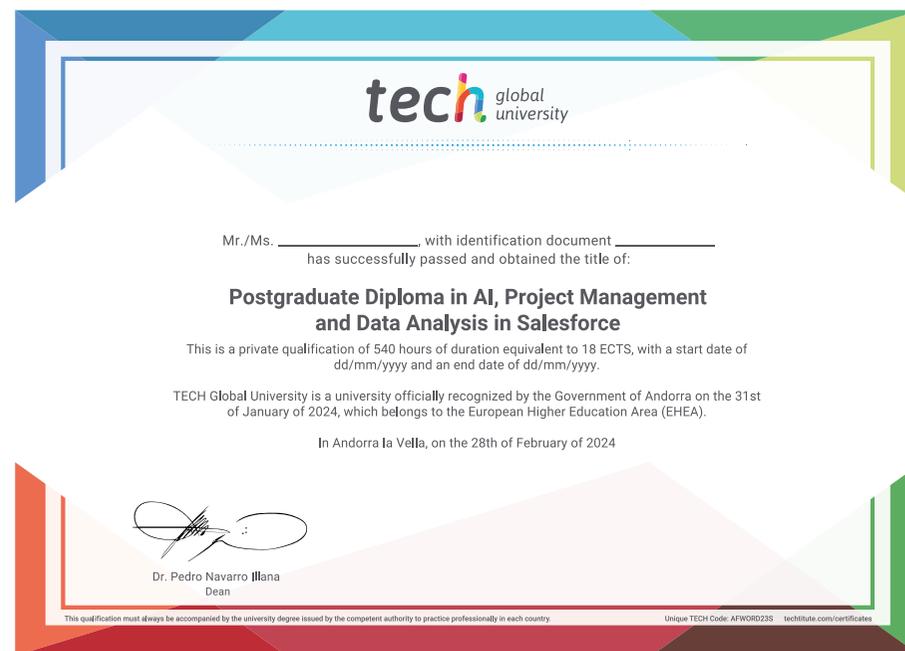

This **TECH Global University** private qualification, is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Diploma in AI, Project Management and Data Analysis in Salesforce**

Modality: **online**

Duration: **6 months**

Accreditation: **18 ECTS**
