tech 06 | Introduction

The use of information requires specific knowledge that delves into concepts such as confidentiality, modesty or intelligence. When dealing with a field as particular as politics, it is necessary to unravel all the processes of analysis and interpretation, because when dealing with personal data, political information and personal names, the professional must be specific with what is going to be said, avoiding making a punctual mistake or something that may play against them when analyzing the information.

On the other hand, the professional must identify the main data collection techniques, as well as analyze them for the benefit, in this case, of a political party, a cabinet or society itself.

That is why, given the shortage of journalists in the political sector, this program in Political Data Analyst has arisen, which is aimed at helping professionals to identify the main techniques of data collection for a subsequent critical analysis, where they can respond to everything that happens within a government.

This is a 100% online program, where the professional will have a virtual campus to attend the sessions at the time that best suits them, without the need to travel to an on-site location. On the other hand, the professional will have a teaching staff that will help them to solve all their doubts and concerns, making this Postgraduate Certificate a first-class academic experience.

This **Postgraduate Certificate in Political Data Analyst** contains the most complete and up-to-date educational program on the market. Its most notable features are:

- The latest technology in online teaching software
- A highly visual teaching system, supported by graphic and schematic contents that are easy to assimilate and understand
- Practical cases presented by practising experts
- State-of-the-art interactive video systems
- Teaching supported by telepractice
- · Continuous updating and recycling systems
- Autonomous learning: full compatibility with other occupations
- Practical exercises for self-evaluation and learning verification
- Support groups and educational synergies: questions to the expert, debate and knowledge forums
- Communication with the teacher and individual reflection work
- Content that is accessible from any fixed or portable device with an Internet connection
- Supplementary documentation databases are permanently available, even after the program

The experience of a solvent and expert university is available to you in this complete program"

Introduction | 07 tech

A Postgraduate Certificate supported by the best technology, which will allow you to learn in a fluent and efficient way"

Or teaching staff is made up of practising specialists. A multidisciplinary team of trained and experienced professionals in different environments, who will develop the theoretical knowledge efficiently, but, above all, will contribute the practical knowledge derived from their own experience to the program.

This mastery of the subject matter is complemented by the effectiveness of the methodological design, developed by a multidisciplinary team of e-learning experts who integrate the latest advances in educational technology.

In order to achieve success in this program, the professional will have the help of an innovative interactive video system, through which they will be able to put into practice the telepractice and learning from an expert systems. A concept that will allow them to integrate and fix learning in a more realistic and permanent way.

An exciting educational process that will allow you to work in one of the most dynamic and exciting areas of current journalism.

With professors who are experts in this area of work, this program is a unique opportunity for professional development.

tech 10 | Objectives

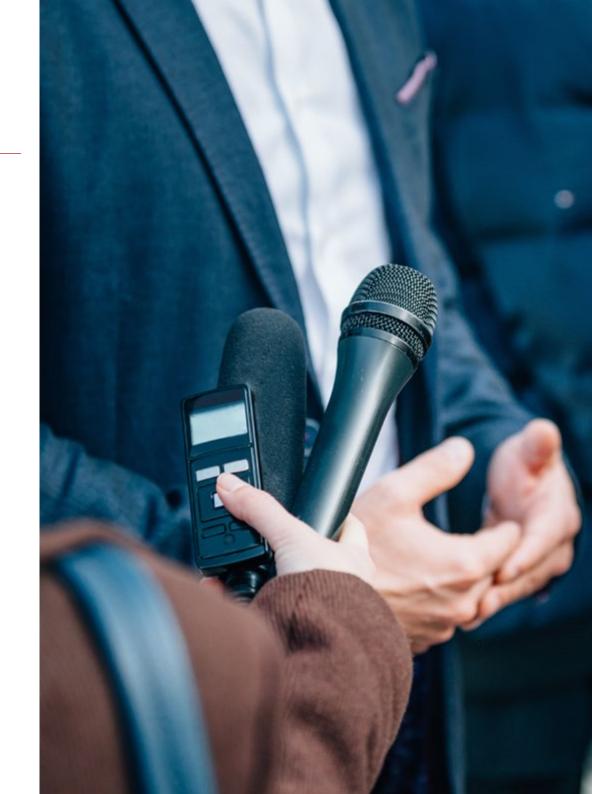

General Objectives

tech 18 | Structure and Content

Module 1. Analysis and Management of Social Media for Influencing and Communicating

- 1.1. Welcome to the Matrix. History of Social Media
 - 1.1.1. A Very Recent History: Where does Social Media Come From?
 - 1.1.2. How Have They Been Used in Political History?
- 1.2. What is a Social Media Platform?
 - 1.2.1. Advanced Concepts of Social Media
 - 1.2.2. What is There to Know about Social Media Algorithms?
 - 1.2.3. One Algorithm for Each Social Media Platform. How Do They Work?
 - 1.2.4. Social Media Theory
- 1.3. Which Social Media Platforms are Political?
 - 1.3.1. Main Social Media for Political Communication
 - 1.3.2. Messaging: WhatsApp, Telegram, Signal and Others
 - 1.3.3. Mass Networks: Facebook, Twitter, Instagram
 - 1.3.4. What's Next: Tik Tok
 - 1.3.5. Ideological Networks: GAB
- 1.4. Has Social Media Been Put to Good Use?
 - 1.4.1. Manual for the Use of Different Social Media
 - 1.4.2. Common Mistakes on Social Media
 - 1.4.3. Examples of Good Communicative Use of Social Media
- 1.5. Explore and Manage Social Media
 - 1.5.1. What is the Purpose of Exploring and Managing Social Media?
 - 1.5.2. How to Do It?
 - 153 Practical Tools
- 1.6. T Influencers. Network Verification
 - 1.6.1. How has the Diffusion of Politics Changed with Social Media?
 - 1.6.2. Everything is True Until you Can Prove It
 - 1.6.3. How to Verify and Contrast Fake News on Social Media
 - 1.6.4. Tools for Verification
 - 1.6.5. How Does Each Social Media Platform Deal with Politics?

- 1.7. Measuring and Informing Social Media
 - 1.7.1. Why Measure Social Media
 - 1.7.2. How to Measure the Impact We Have on Social Media
 - 1.7.3. Tools for Measuring and Monitoring
 - 1.7.4. Explain What We Have Explaining What We Have Measured to Experts and Non-Experts
- 1.8. Advertising on Social Media
 - 1.8.1. Is Advertising Useful on Social Media
 - 1.8.2. Political Advertising on Social Media
- 1.9. Innovation in Social Media
 - 1.9.1. Innovation in Political Communication on Social Media
 - 1.9.2. An Approach to Politics on Tik Tok and Other Apps that are Already the Communicative Present of Politics
- 1.10. The Future of Social Media
 - 1.10.1. Technology of the Future, Innovation Networks in Communication
 - 1.10.2. Prospecting Political Communication in Social Media

Module 2. Analysis of Political Data and Polls

- 2.1. Data and Politics
 - 2.1.1. Introduction of Data in Politics
 - 2.1.2. First Election Polls and Surveys
 - 2.1.3. The 20th Century and the Expansion of Data
 - 2.1.4. Types of Data: Structured and Non-Structured
 - 2.1.5. Demoscopy and Public Opinion
 - 2.1.6. Data Sources: From Administration to Networks
- 2.2. Creating Surveys
 - 2.2.1. Data Extraction: The Survey and Election Polls
 - 2.2.2. Methods and Tools
 - 2.2.3. The Sample
 - 2.2.4. Sample Representation and Randomization

Structure and Content | 19 tech

2.3.	Survey Predictive Capability	
	2.3.1.	What Does the Survey Tell Us?
	2.3.2.	Confidence Intervals and Margins of Error
	2.3.3.	Trend and Climate of Opinion
	2.3.4.	Recent Examples
		2.3.4.1. Brexit
		2.3.4.2. Trump
		2.3.4.3. Colombia
2.4.	Electoral Kitchen	
	2.4.1.	Elements for the Electoral Kitchen
		2.4.1.1. Voting Intentions
		2.4.1.2. Sympathy
		2.4.1.3. Voting Recall
	2.4.2.	The Loyal Vote
	2.4.3.	Indecisive Vote
	2.4.4.	Other Useful Indications of Votes
	2.4.5.	Is it a Mistake to "Cook" the Data?
2.5.	Big Data	
	2.5.1.	What is Big Data?
	2.5.2.	Data on Social Media
	2.5.3.	Bridging and Bonding Social Capital
	2.5.4.	Disinformation
		2.5.4.1. Bots
		2.5.4.2. Echo Chamber

Electoral Data			
2.6.1.	Data as a Political Tool		

2.6.1.1. Segmentation2.6.2. Electoral Campaigns in the Data World

2.6.3. Hyperinformation: Problem or Advantage?

2.6.4. Towards an Ethical Use of Data

2.5.4.4. NLP. And Beyond

2.5.4.3. Lies

2.6.

2.7. Data and Public Opinion

- 2.7.1. The Public Debate as a Board
- 2.7.2. Objective: Conditioning the Agenda
- 2.7.3. Data and Communication Media
- 2.7.4. Voters
- 2.7.5. Loss of Confidence
- 2.7.6. Other Ways of Analyzing Public Opinion: Qualitative Studies
- 2.8. Data Visualization
 - 2.8.1. Effective Communication of Data
 - 2.8.2. Aesthetic Recommendations for Graphs and Illustrations
 - 2.8.3. Geographical Maps and Visualizations
 - 2.8.4. Bad Practices in Data Visualization
- 2.9. The World in the Age of Data
 - 2.9.1. Fake News
 - 2.9.2. More Information and More Polarized2.9.2.1. New Forms of Protest2.9.2.2. Globalization: The Elephant in the Room
 - 2.9.3. Two Crises Which Define Us: Economy and Culture

Learn all the keys to political discourse, its text and subtext, and analyze it with the critical eye of an objective and independent journalism professional"

tech 22 | Methodology

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn, through collaborative activities and real cases, how to solve complex situations in real business environments.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career"

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

tech 24 | Methodology

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

Methodology | 25 tech

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

This methodology has trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, and financial markets and instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

20%

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

25%

tech 30 | Certificate

This program will allow you to obtain your **Postgraduate Certificate in Political Data Analyst** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003.
