01 Introduction

The work carried out by professionals in the field of Social Work within communities is broad and directed toward different sectors of the population. A society in constant transformation, due to economic, environmental, and technological changes, sometimes produces significant social fractures. In this Internship Program, students will be able to develop group activities and actions in different settings, address conflict resolution, and manage and plan projects, allowing them to grow and progress in their field of practice. In addition, a globalized world requires professionals with communication skills in different languages; therefore, in this practical training students will be able to function in the English language in order to serve different groups. A unique on-site learning process over 3 weeks that will allow them to broaden their perspective on the practical application of Community Social Work.

A 3-week practical phase in a prominent institution will allow you to become involved in projects and social actions that promote social inclusion”

Being able to create, organize, and support diverse groups within the field of Social Work is perhaps one of the most rewarding goals for all professionals who perform this work. A capability that requires solid foundational knowledge before taking action. A skill to function effectively in interpersonal relationships. All of this is possible through the direct and professional practice offered by this Internship Program.

Among the objectives of this program is for students to acquire a series of competencies that will enable them to successfully address the issues that arise in their professional development within public organizations. In addition, they will remain up to date with legal knowledge and its application in diverse and complex environments. Social workers will develop numerous skills, which will facilitate their entry into, or improvement within, the labor market that currently demands this professional profile.

Professionals who decide to take part in this on-site experience will have the opportunity, for 3 weeks, to apply all the techniques and tools, and even expand them, thanks to the contribution of professionals responsible for carrying out Community Social Work within a leading organization in this field. A unique opportunity to learn first-hand about the reality of professionals and the scope of the projects they carry out.

“

Enjoy an intensive 3-week stay in a prestigious center and update yourself on the latest techniques and methodologies of social action in order to grow professionally”

02

Why Study an Internship Program?

With the aim of enhancing the possibilities of individuals within a diverse social system, Community Social Work allows the application of effective methods of approach and intervention in the most complex situations in order to find solutions. For this reason, this professional profile is currently highly demanded, and its specialization lies in practical application. That is why TECH has designed an exclusive and distinctive academic program that will allow professionals to enter a real social environment where they can put into practice the latest procedures and techniques in the field of Community Social Work. As such, for 3 intensive weeks, they will integrate into a multidisciplinary work team, where they will observe first-hand both the latest findings and advances in the field, as well as the way to apply them to their own daily practice. This is learning by doing, an effective method of professional development.

Do you want to test your skills in the field of Community Social Work? With this 100% practical program, you will demonstrate all your potential in a real environment and alongside experts”

1. Update using the latest available technology

The Community Social Work sector requires professionals who master the latest technologies that have been implemented in recent years in order to streamline all interventions. During this Internship Program, students will lead activities typical of the field, where they will handle specialized systems and verify the importance of technological contributions in streamlining processes and providing effective solutions.

2. Learn from the best specialists

The extensive team of professionals who will accompany students throughout the entire practical period represents a first-rate endorsement and an unprecedented guarantee of updated knowledge. With a tutor specifically assigned, students will be able to address real cases in a cutting-edge environment, which will allow them to incorporate the most effective procedures and approaches in Community Social Work into their daily practice.

3. Entering first-class Management environments

Thanks to TECH's commitment to providing training of high value and usefulness for society, it has developed this 100% practical program, for which it collaborates with different national and international organizations and institutions where the curriculum can be applied. These organizations have everything necessary to support the student's learning during the 3-week period.

4. Apply what you learn to your daily practice from day one

This new 100% practical educational model offers multiple advantages. From anywhere in the world, students will be able to choose an organization among those available through TECH in order to carry out their practical activities. From the first day, they will begin working alongside a team of specialists in activities typical of Community Social Workers, expanding their vision and professional perspective.

5. Expand the boundaries of your knowledge

Without geographical limitations, this program allows professionals to choose where to carry out their Internship Program according to their needs and study objectives. In this way, professionals will be able to expand their horizons and stay up to date with leading experts working in diverse environments and across different continents. A distinctive opportunity to acquire new skills and stand out in their professional environment.

You will have full practical immersion at the center of your choice"

03 Objectives

During the 3 weeks of this Internship Program, Social Work professionals will acquire the essential competencies to successfully undertake any project aimed at resolving individual or group conflicts. To achieve this, students will carry out the tasks typical of a Social Worker with a high level of specialization and alongside a team of professionals who will accompany them throughout this training.

General Objectives

- ♦ Master the latest techniques, modern approaches, and the application of cutting-edge technologies in Community Social Work
- ♦ Incorporate into daily practice the most effective methods, approaches, and tools in the field of Community Social Work
- ♦ Understand the approaches and interventions for each of the common situations that occur in the current social environment

Perform as a true professional in the face of any conflict and provide effective solutions, thanks to this Internship Program”

Specific Objectives

- ♦ Develop the ability to work with behaviors that represent a risk to individuals, identifying and evaluating the situations and circumstances that shape such behavior and developing strategies to modify them
- ♦ Understand the structural elements of society as an explanatory key to Sociology, especially social institutions, groups, and organizations
- ♦ Acquire the ability to understand spoken English; comprehend written texts in English; and express oneself orally and in writing on topics related to Social Work
- ♦ Visualize and understand the stages of the life cycle, as well as the factors that influence each of them
- ♦ Understand the theories and foundations of Social and Cultural Anthropology and its methodologies
- ♦ Be able to create, organize, and support groups within Social Work
- ♦ Differentiate and be able to use the main methods and techniques to interact with communities in order to promote change and improve their life opportunities
- ♦ Acquire communication skills and abilities for interpersonal relationships in Social Work and professional activity in general
- ♦ Understand the main concepts and assumptions within the field of study of Community Psychology

04 Educational Plan

During the Internship Program of this program in Community Social Work, students will be placed in a center alongside highly qualified professionals in the sector who will allow them to learn first-hand about the work they carry out in favor of a better and more equitable society.

In this context, this practical component will take place over 3 weeks, from Monday to Friday with 8 consecutive hours per day, with tutoring that will guide students and provide the necessary guidance to achieve a useful experience essential for facing the challenges of the labor market in this sector.

This Internship Program will allow students to observe real cases of conflict, actions and projects aimed at coexistence, and the resolution of problems affecting the community or a specific group within it. All of this with the objective of progressing in a field that in recent years has required more specialized social workers.

In this training proposal, each activity is designed to strengthen and refine the key competencies required for specialized practice in this field. In this way, the professional profile will be enhanced, driving a strong, efficient, and highly competitive performance.

Practical training will be carried out with the active participation of students, performing the activities and procedures of each area of competence (learning to learn and learning to do),

with the support and guidance of professors and other trainees, facilitating teamwork and multidisciplinary integration as transversal competencies for the practice of Social Work (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the Internship Program, and its realization will be subject to the center's own availability and workload, being the proposed activities the following:

Receive specialized education in an institution that can offer you all these possibilities, with an innovative academic program and a team that will help you develop your full potential"

Module	Practical Activity
Foundations of Human Behavior	Work with behaviors that represent a risk to individuals, identifying and evaluating the situations and circumstances that shape such behavior and developing strategies to modify them
	Use mediation as an intervention strategy aimed at the alternative resolution of conflicts
	Analyze the information of each case from a sociological perspective
	Identify, develop, and understand the key concepts of cultural theories in order to achieve a better understanding of the person as a social and cultural being
Psychology for Social Work. Interaction Processes	Practice active listening and observation of the behavior of the person receiving assistance
	Write reports that record the results of the interviews
	Address various social problems using the methodology of community psychology and approaches different from individual interventions
	Design and plan interventions in the different contexts of the field of community psychology
Social Work with Groups and Communities	Address and intervene in groups in order to help them make informed decisions about their needs, circumstances, risks, preferred options, and resources, and to promote user participation
	Create, organize, and support groups within Social Work
	Facilitate individuals' access to different support networks to address their needs and work toward planned outcomes
	Use methods and techniques to evaluate the needs, capacities, opportunities, and risks of groups, incorporating the participation of interested individuals or groups in the process
Social and Communication Skills in Social Work	Use the main methods and techniques to interact with communities in order to promote change and improve their life opportunities
	Apply assertive communication techniques
	Implement verbal, paralinguistic, and nonverbal skills and techniques to guide the intervention
	Establish an empathetic relationship and effective communication with others
Basic English Applied to Social Work	Apply active listening strategies, being able to understand both the objective and subjective dimensions of the problem presented
	Understand written texts in English and express ideas in writing on topics related to Social Work
	Work in an international context and communicate information, ideas, problems, and solutions to both specialized and non-specialized audiences
	Express ideas correctly and fluently at an oral level on topics related to the field of specialization
	Use specific terminology for Social Work in English

05

Where Can I Do the Internship Program?

TECH has selected an organization that responds to the needs of students seeking comprehensive learning in the field of Social Work. For this reason, this Internship Program will take place at Empoderar Sociedad Civil, whose highly qualified professionals will accompany students throughout the 3 weeks of this eminently practical training. During this stage, students will be able to perform functions within the sector through actions, programs, and projects aimed at community well-being.

A professional Third Sector team will guide you throughout this Internship Program so that you can achieve the best possible learning experience at all times”

06

General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures aimed at achieving this objective is the provision of coverage in response to any incident that may occur throughout the entire teaching–learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the Internship Program period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Internship Program, students will be assigned two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center, informing the professional duly and in advance, with sufficient time in advance in order to in advance to facilitate their organization.

3. ABSENCE: If the student does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the internship department at TECH so that the assignment of the chosen center can be confirmed.

7. 3.- DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed

However, students may consult their academic tutor regarding any questions or recommendations in this respect. The tutor will provide all necessary information to facilitate the corresponding procedures.

07 Certificate

This private qualification will allow you to obtain a **Internship Program in Community Social Work** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)).
