01

Introduction

Nowadays, the importance of aesthetics has increased dramatically all over the world. Patient wellness is no longer limited to the treatment and management of ailments, but also encompasses the patient's self-image and self-perception. This has promoted a favorable field of action for all Aesthetic Medicine professionals, since advances such as Regenerative Medicine have boosted the demand for this type of treatment. The specialist is driven to a complete updating process, both theoretical and practical, which is why TECH has developed this program. In this program, the student will perfect their skills in areas such as facial implants or laser treatments, first relying on a theoretical content 100% online and then getting involved in a practical way, for 3 weeks, with a group of experts in the field.

“

The importance given to image nowadays and the demand for medical-aesthetic changes make this program your best choice to position yourself in the Aesthetic Medicine sector"

The rise of social networks and the increased importance of personal image have led Aesthetic Medicine to experience a true golden age. Patients are no longer satisfied with just feeling good, they also want to look good. Part of this increase is explained by the emergence of increasingly sophisticated interventions, including methods that allow the detection and prevention of the effects of long-term rejection of *fillers* or the use of novel laser techniques for the rejuvenation of facial wrinkles, among countless other examples.

Since these advances generate greater safety and agility in operations, specialists in this branch of medicine must know them inside out in order to develop their activity based on the needs of the market. The theory based on the latest scientific studies is essential, but it is even more useful if it is complemented by the appropriate practical application of all the new advances and discoveries studied.

For these reasons, TECH has created this program, with the aim of promoting the updating of these professionals and ensuring a reliable update in the field of Aesthetic Medicine. Throughout 12 months of intensive learning, students will learn about the new techniques for the treatment of expression wrinkles, properly identifying the adverse effects, as well as reviewing the complications that can experience the most commonly used filler materials in aesthetic operations. They will also master the most avant-garde methods for facial diagnosis of patients and will delve into the use of hair mesotherapy to promote hair health, among other valuable issues.

To all this is added a practical period in a prestigious clinical center, where a team of highly experienced professionals in Aesthetic Medicine will guide the student throughout the process. In this way, you will be able to get involved in a real environment and examine in situ all the theoretical novelties seen previously. This is undoubtedly the most effective and distinctive way to position yourself at the forefront of Aesthetic Medicine.

Thanks to its 100% online methodology, students will be able to manage their own study time as they wish in order to achieve effective learning. Likewise, the teaching materials are available in a wide variety of textual and interactive formats to favor an excellent and individualized teaching. On the other hand, during the practical stay you will have a designated tutor, with whom you will be able to consult all the doubts and concerns that arise during the process.

This **Hybrid Master's Degree in Aesthetic Medicine** contains the most complete and up-to-date scientific program on the market. The most important features include:

- Development of more than 100 clinical cases presented by professionals in aesthetic medicine with a high level of experience in this sector
- The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- Innovative techniques for performing regenerative operations for aesthetic purposes
- Learning of up-to-date methods for the treatment of skin pathologies with laser and light sources
- Practical exercises that will allow students to self-assess in order to strengthen their learning process
- All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection
- In addition, you will be able to do a clinical internship in one of the best centers of Aesthetic Medicine

You will learn how to manage the mechanisms of action of topical treatments, peelings, the annotation of cosmetic assessments and the various methods of successful measurement, all through this program"

“

Broaden your knowledge through this Hybrid Master's Degree in Aesthetic Medicine and achieve excellence in this sector after working in a rigorous clinic, where you will learn from the best specialists in the field"

This Master's program, which has a professionalizing nature and a blended learning modality, is aimed at updating medical professionals who perform their functions in aesthetic units, and who require a high level of qualification. The contents are based on the latest scientific evidence, and oriented in a educational way to integrate theoretical knowledge in the medical-aesthetic practice, and the theoretical-practical elements will facilitate the updating of knowledge and allow decision-making in patient management.

Thanks to its multimedia content elaborated with the latest educational technology, it will allow the medical professional to Aesthetics situated and contextual learning, that is to say, a simulated environment that will provide immersive learning programmed to train in real situations. This program is designed around Problem-Based Learning, whereby the physician must try to solve the different professional practice situations that arise during the course. For this purpose, students will be assisted by an innovative interactive video system created by renowned experts in the field of educational coaching with extensive experience.

Thanks to this program, you will master the best and updated anti-aging treatments through a 100% online methodology that will favor a customized learning.

With this Hybrid Master's Degree, you will deepen your knowledge of the correction of volume defects associated with tissue atrophy secondary to aging with experts in the sector.

02

Why Study this Hybrid Master's Degree?

In many areas of work, it is strictly necessary to know the latest developments in the sector and apply them properly in order to grow. This is the case of Aesthetic Medicine, which requires constant renewal and a practical mastery of the techniques and tools to perform numerous operations. For this reason, TECH has created a learning modality that will allow students to combine an excellent theoretical education with a 3-week stay in a first-level clinical center. With this, the expert will obtain the skills required to respond to the most up-to-date medical needs.

“

This TECH program will give you the possibility to combine an excellent theoretical learning in Aesthetic Medicine with 120 hours of practice in a first-level center, in order to update your skills based on the needs of this sector"

1. Updating from the latest technology available

The field of Aesthetic Medicine has undergone an enormous revolution in recent years thanks to the emergence of new techniques in the use of lasers for skin operations, in regenerative gynecology or in the development of facial implants. Therefore, the objective of this TECH Hybrid Master's Degree is to provide knowledge that places the student at the forefront of this sector.

2. Gaining in-depth knowledge from the experience of top specialists

This program has teaching materials developed specifically by professionals in the field of Aesthetic Medicine, so that the contents that the student will study will enjoy a full update and work applicability. In addition, the student will carry out their internship in an aesthetic center surrounded by the best professionals in this field.

3. Entering first-class clinical environments

TECH carefully selects all the centers available for its practical stage. Thanks to this, the specialist will have guaranteed access to a prestigious clinical environment in the field of Aesthetic Medicine. In this way, you will be able to see the day-to-day work of a demanding, rigorous and exhaustive sector, always applying the latest theses and scientific postulates in its work methodology.

4. Combining the best theory with state-of-the-art practice

The educational programs on the market are characterized by a high volume of inefficient content for the professional in their day-to-day work. Because of this, TECH has created a program that will not only provide the student with useful theoretical knowledge, but will also allow them to put these skills into practice in an aesthetic center for 3 weeks.

5. Expanding the boundaries of knowledge

TECH offers the possibility of completing this Internship in centers renown worldwide. In this way, the specialist will be able to expand their frontiers and catch up with the best professionals, who practice in first-class hospitals and clinics in different continents. A unique opportunity that only TECH, the largest online university in the world, could offer.

“

*You will have full practical immersion
at the center of your choice"*

03

Objectives

The general objective of the Hybrid Master's Degree in Aesthetic Medicine is to ensure that the professional updates the knowledge and procedures of the medical-aesthetic specialty in a theoretical-practical way, from the hand of recognized professionals in this field, with the highest scientific quality and technological innovation. Therefore, the professional will address the main interventions of the specialist, which will allow them to improve and enhance their skills in the medical care of their patients.

“

Thanks to this Hybrid Master's Degree at TECH you will be able to specialize in Aesthetic Medicine and learn about the latest advances that are applied in the best clinics"

General Objectives

- ♦ Acquire the best knowledge of all Antiaging modalities and aesthetic treatments, incorporating the necessary tools to exercise this specialty in their daily practice
- ♦ Learn how to control, delay and prevent the existing aging process today

Enroll now and advance in your field of work with a comprehensive program that will allow you to put into practice everything you have learned"

Specific Objectives

Module 1. Basic Principals of Aesthetic Medicine

- ♦ Identify the biological changes of aging, gene analysis and the functions of diagnostic methods
- ♦ Manage the mechanisms of action of topical treatments, peeling, the annotation of cosmetic evaluations and various measurement methods
- ♦ Define and analyze in a global way the structures and functions of each area
- ♦ Analyze the classification of the different lesions that can be identified

Module 2. Peelings. Dermocosmetics

- ♦ Use the different types of peeling in the treatment of rejuvenation and certain skin disorders effectively
- ♦ Perform prior preparation of the patient's skin and prepare a correct follow-up and post peeling treatment prescription
- ♦ Understand the possible adverse effects of peeling and their treatments

Module 3. Applications of Botulinum Toxin in Dermatology and Aesthetics. Regenerative Medicine for Aesthetic Purposes

- ♦ Learn how to use temporary filler materials
- ♦ Gain insight into the correction of volume defects associated with tissue atrophy secondary to aging
- ♦ Be updated on filler materials to create a global rejuvenation protocol, working with absolute safety and detecting their short and long term side effects

Module 4. Facial Implants in Aesthetics

- ♦ Master the facial anatomy in depth
- ♦ Know the most current techniques and procedures in facial implantology
- ♦ Acquire techniques to harmonize facial contours through the use of facial implants

Module 5. Aesthetic and Regenerative Gynecology

- ♦ Address sexual dysfunctions
- ♦ Perform genital regenerative treatments
- ♦ Know the female anatomy to learn how to manage physical alterations after childbirth, menopause or an oncological process

Module 6. Laser and Light Sources in Aesthetic Medicine

- ♦ Use the different and up-to-date types of lasers and light sources in the treatment of rejuvenation and skin disorders in an effective way
- ♦ Know the current situation on the use of lasers in pigmented lesions, rejuvenation, vascular lesions, hair removal
- ♦ Master the indications, contraindications and possible adverse effects of each method in order to establish the most appropriate method for each patient
- ♦ Get up-to-date on the types of authorized botulinum toxin, the precise knowledge of the mechanisms of action of each one, and the detailed indications in each anatomical area

**Module 7. Phlebology and Lymphatic Disorders. Body Aesthetics**

- ♦ Master the anatomy, physiology, pathophysiology and etiopathogenesis of the alterations involving the adipose panniculus and the veno-lymphatic alterations of the limbs
- ♦ Analyze the main etiopathogenic mechanisms of venous and lymphatic limb disease , with special attention to chronic venous disease and lymphatic pathology, as well as diagnosis and treatment
- ♦ Determine the changes related to aging, as well as the main surgical and non-surgical treatments for body contouring
- ♦ Diagnose the main clinical conditions such as cellulite, lipodystrophies, lipedema, localized adiposities and veno-lymphatic alterations in order to differentiate situations that imply a health risk from aesthetic alterations

Module 8. Trichology and Hair Transplantation

- ♦ Understand the medical treatments for different types of alopecia, antiandrogen injections, PRP, immunotherapy and surgical treatments for alopecia with their different techniques (strip technique, FUE technique, SAFER automated device)
- ♦ Learn how to perform adequate clinical diagnoses supported by the best technologies

Module 9. Communication

- ♦ Determine the importance of communication in the health sector
- ♦ Design a business communication plan in the health sector and manage the online reputation of an organization
- ♦ Carry out marketing campaigns and SEO and SEM positioning.
- ♦ Manage the social media of a company

Module 10. Genetics and Epigenetics of Systemic and Skin Anti-Aging. Therapeutic Implications

- ♦ Master the skin aging process and anti-aging treatments
- ♦ Understand the genetic aspects of skin aging
- ♦ Manage nutritional aspects related to medical-aesthetic treatments

04 Skills

After passing the assessments of this Hybrid Master's Degree, the professional will have acquired the necessary skills to offer an excellent up-to-date service in Aesthetic Medicine, based on the latest trends in this sector.

“

*You will master the latest tools
in Aesthetic Medicine to offer
the best results to your patients"*

General Skills

- Apply new Anti-aging techniques, as well as other aesthetic treatments
- Prevent aging in patients

“

*Delve into the most relevant theory
in this field, subsequently applying
it in a real work environment”*

Specific Skills

- ♦ Identify the biological changes of aging in order to be able to use the necessary treatments for its prevention
- ♦ Use of ultrasound in the field of aesthetic-medical treatments
- ♦ Correctly use the different types of peelings in the treatment of rejuvenation and certain skin disorders in an effective manner
- ♦ Know the possible adverse effects of the peel and their treatment, communicate them to patients and be prepared for any possible setbacks
- ♦ Apply the different types of lasers and light sources in the treatment of skin rejuvenation and skin disorders effectively
- ♦ Correct use of the authorized botulinum toxin
- ♦ Treat physical changes in women after childbirth, menopause or an oncological process for example
- ♦ Perform appropriate diagnostics on hair loss using the most advanced technologies in this field
- ♦ Help to prevent and treat alopecia
- ♦ Diagnose the main clinical conditions such as cellulitis, lipodystrophies or lipedema, among others
- ♦ Analyze skin aging and apply appropriate treatments to prevent and delay it

05

Course Management

This program includes in its teaching staff reference experts in Aesthetic Medicine, as well as professionals in related areas that complete this Hybrid Master's Degree such as specialists in communication of clinical beauty centers. All of them are responsible for the elaboration of the teaching materials to which the students will have access during the duration of this program. Therefore, this syllabus has a highly qualified team that will offer the best tools for the development of the student's abilities.

“

Opt for excellence and learn from the best by studying this Hybrid Master's Degree in Aesthetic Medicine with internships in leading clinics"

Management

Dr. Mosquera González, Margarita

- ♦ Assistant Specialist in Preventive Medicine and Public Health at the University Hospital Fundación Alcorcón
- ♦ Medical Director of the Integrative Aesthetic Medicine Area, C&M Clinic
- ♦ Professor of Preventive Medicine and Public Health and Immunology and Medical Microbiology at the Rey Juan Carlos University
- ♦ Specialist in Aesthetic, Cosmetic and Anti-Aging Medicine at the Complutense University of Madrid
- ♦ PhD in Medicine from the University Rey Juan Carlos
- ♦ Specialist in Preventive Medicine and Public Health by the University Hospital of Guadalajara
- ♦ Graduate in Medicine and Surgery from the University of Oviedo

Dr. Lacosta Esclapez, Pilar

- ♦ Head of the Department of Aesthetic Oncologic Medicine at the Clinic Granado Tiagonce
- ♦ Medical Director at the Clinic Dra. Pilar Lacosta
- ♦ Aesthetic Physician at the Clinic Dr. Pilar Lacosta
- ♦ Aesthetic Physician at the Clinic Dr. Rubira
- ♦ Medical Director of the Center for Dependency Sergesa
- ♦ Head of the Aesthetic Medicine Department of the Lipedema Unit at Hospital Viamed Virgen de la Paloma
- ♦ Member of: Group of Experts in Aesthetic Oncological Medicine (GEMEON). Member of the Board of Directors, Spanish Society of Nutrition and Orthomolecular Medicine (SENMO), Spanish Society of Aesthetic Medicine (SEME)

Professors

Dr. Franco Vidal, Amalia

- ♦ Coordinator of Quality and Innovation of the Health Area V of the Health Service of the Principality of Asturias
- ♦ Public Health Technician in SESPA
- ♦ Collaborator with e-Health Asturias
- ♦ Manager of the Health Area in SESPA
- ♦ Medical Director of Primary Health Care in SESPA
- ♦ Quality Coordinator at the Central University Hospital of Asturias
- ♦ Evaluator in the European Union Project of Rare Disease Units for the "European Reference Networks for Rare and Low Prevalence Complex Diseases
- ♦ Graduate in Medicine and Surgery from the University of Oviedo
- ♦ Specialist in Preventive Medicine and Public Health at the University Hospital La Paz
- ♦ Master's Degree in Quality Management in Health Services from the University of Murcia
- ♦ Master's Degree in Health Administration from the National School of Health (Escuela Nacional de Sanidad)
- ♦ University Professional Master's Degree in Health Administration the National University of Distance Education (UNED)

Dr. Esteban Herrero, Margarita

- ♦ Director of the Aesthetic Clinic Dra. Margarita Esteban
- ♦ President of the Group of Experts in Aesthetic Oncologic Medicine (GEMEON)
- ♦ Specialist in Cosmetic Medicine
- ♦ Member of the Spanish Society of Aesthetics Medicine (SEME)

Ms. Arnaiz Urrez, Celia

- ♦ Psychologist in charge of Human Resources Development
- ♦ Psychologist in charge Developmental Disorders of Human Resources at the University Hospital Fundación Alcorcón
- ♦ Director of Human Resources at TCP
- ♦ Responsible for the Training and Recruitment Unit at the University Hospital Fundación Alcorcón
- ♦ Elaboration of a dictionary of skills for healthcare organizations
- ♦ Collaboration in the adaptation of Clinical Psychometric Tests at the Complutense University of Madrid (UCM)
- ♦ Elaboration of Personality Tests (TP-10) in the selection of police scales
- ♦ Instructor in Clinical Simulation at the Center for Medical Simulation of Harvard
- ♦ Specialization in Clinical Psychology and Work Psychology by the International Coach Federation.

Dr. Chicón García, Jesús

- ♦ Medical Director of the Chez Jolie Clinic
- ♦ Medical Director of Clinicas Jeisamed
- ♦ Director of Salutae Academy
- ♦ Quality Director at Secoe
- ♦ Degree in Medicine from the University of Alcalá
- ♦ Master's Degree in Aesthetic Medicine, Universidad Rey Juan Carlos, Madrid
- ♦ Master's Degree in Food and Quality Control from the University of Navarra
- ♦ European Expert in Quality Management by the Spanish Agency of Quality
- ♦ European Expert in Research, Development and Innovation by the Spanish Quality Agency

Dr. Ugarte López, Nuria

- ♦ Director of the Esthetic Medical Center Dra. Nuria Ugarte
- ♦ Expert in Quality of Life and Medical Aesthetic Care of Oncology Patients
- ♦ Member of the Board of Directors of the Group of Experts in Aesthetic Oncological Medicine (GEMEON)
- ♦ Member of the Spanish Society of Aesthetic Medicine (SEME), Riojan Society of Aesthetic Medicine (SRME)

Dr. Ibáñez Castresana, Ricardo

- ♦ Founder and Owner of the Law Firm IURISVOX Abogados SL
- ♦ Member of the Arbitration Court of Commerce of Vizcaya
- ♦ Advisor to the Spanish Society of Aesthetic Regenerative Functional Aesthetic Gynecology
- ♦ Legal advisor in the Consumer Affairs Directorate of the Government
- ♦ Selection of staff for the Municipal Consumer Information Offices (OMIC)
- ♦ Legal advisor to the Spanish Commission for Refugee Aid
- ♦ Degree in Law from the University of Deusto

Rodríguez Scheid, Salvador

- ♦ Physician and Manager at Variclinic Aesthetic Clinics
- ♦ Member of Aesthetic Medicine Association of Castilla La Mancha (AMECLM), Spanish Society of Aesthetic Medicine (SEME), Murcian Society of Cardiology (SMC), Spanish Society of Ultrasound (SEECO), Spanish Society of Cardiology (SEC), Spanish Society of Cosmetic Medicine and Surgery (SEMCC), Murcian Association of Aesthetic Medicine and Cosmetic Surgery (AMMECC), Spanish Society of Angiology and Vascular Surgery-Chapter of Phlebology (CF-SEACV), French Society of Phlebology (SFP)

Ms. Gayoso Blanco, Macarena

- ♦ Head of Advertising and Public Relations at Newmonday Agency
- ♦ Communications Manager of ALIA Arquitectura
- ♦ Master's Degree in Event Organization, Protocol, and Institutional Relations
- ♦ Degree in Advertising and Public Relations

Dr. Zetina Toache, Luis Miguel

- ♦ Medical Director, Oncomédica Cáncer Consultants(Guatemala)
- ♦ Affiliated to the MSD Global Lung Scientific Symposium

Dr. Alonso García, Marcos

- ♦ Public Health Technician in the Government of the Community of Madrid (Spain)
- ♦ Specialist of the Preventive Medicine Unit at the Hospital Universitario Fundación Alcorcón (Spain)

Dr. De Toledo Heras, María

- ♦ Head of the Epilepsy Unit in the Neurology Department
- ♦ Head of the Epilepsy Unit of the Neurology Department at La Princesa University Hospital
- ♦ Specialist in Neurology at the University Hospital 12 de Octubre
- ♦ Specialty in cognitive disorders and dementias
- ♦ PhD in Neurosciences

Ms. Vicente Sánchez, Gema María

- ♦ Medical Specialist in Internal Medicine and Public Health
- ♦ Medical Specialist in Internal Medicine and Public Health at the University Hospital Fundación Alcorcón
- ♦ Clinical Management of the Patient with Systemic and Autoimmune Disease

Dr. Martínez Morón, Victoria

- ♦ Coordinator of the Pelvic Floor Unit at the University Hospital Fundación Alcorcón
- ♦ Head of the Gynecological Laser Unit at Clínica Dermatológica MultiLaser
- ♦ Head of the Regenerative and Functional Gynecology Unit at Mediestetic
- ♦ Head of the Gynecological Laser and Intimate Health Unit at the Palacios Institute
- ♦ Degree in Medicine from the Complutense University of Madrid
- ♦ Master in Sexology from the University of Extremadura
- ♦ Member of the Spanish Society of Gynecology and Obstetrics (SEGO), Spanish Society of Functional Aesthetic Regenerative Gynecology (SEGERF). President

Ms. Díaz Martín, María Margarita

- ♦ Nurse of the Preventive Medicine Unit at the University Hospital Fundación Alcorcón
- ♦ Teaching activity on Infection Control, Hospital and Hand Hygiene, Use of Antiseptics and Disinfectants
- ♦ Principal Tutor of Clinical Practices of Nursing Students
- ♦ Expert in Surgical Area Nursing, Anesthesia and Resuscitation

Dr. Arredondo Provecho, Ana Belén

- ♦ Nurse Assistant at the Preventive Medicine Unit
- ♦ Nurse Assistant in the Preventive Medicine Unit of the University Hospital Fundación Alcorcón
- ♦ Doctor in Health Sciences
- ♦ Coordinator and teacher of several continuing education courses in specialized care

Del Cura Rodríguez, José Luis

- ♦ Head of Radiodiagnosis Section at Basurto University Hospital
- ♦ PhD in Medicine from the University of the Basque Country/Euskal Herriko Unibertsitatea (UPV/EHU)
- ♦ Degree in Medicine
- ♦ Member of the Spanish Society of Ultrasound (SEUS). President, Spanish Society of Medical Radiology (SERAM). Former President

Dr. Del Cura Allende, Gorka

- ♦ Medical Specialist of the Radiodiagnostic Department
- ♦ Medical Specialist of the Radiodiagnostic Service at the University Hospital of Galdakao-Usansolo (Spain)
- ♦ Medical Specialist of the Radiology Unit at Clínica Indautxu (Spain)
- ♦ Degree in Medicine and Surgery
- ♦ Radiodiagnosis Specialist
- ♦ Postgraduate Diploma in Breast Diagnosis and Ultrasonography

Dr. Carlos Iriarte, Esperanza

- ♦ Head of Section in Physical Medicine and Rehabilitation
- ♦ Head of Section in Physical Medicine and Rehabilitation at the University Hospital 12 de Octubre
- ♦ European Board of Physical Medicine and Rehabilitation (Paris)
- ♦ Excellence Programme for Exchange Regarding Botulinum Toxin
- ♦ Teacher and organizer of courses on infiltration with Neurotoxin A

Dr. Arroyo Romo, César

- ♦ Head Physician of the Medical Regenerative and Aesthetic Medical Laser Unit
- ♦ Head Physician of the Medical Regenerative and Aesthetic Laser Unit at HM Montepíncipe Hospital (Madrid)
- ♦ President of the Spanish Society of Esthetic, Regenerative, and Functional Gynecology
- ♦ Former International Director of the Iberoamerican Academy of Medical Lasers. AILMED
- ♦ International lecturer in Aesthetic Medicine, Aesthetic and Laser Techniques
- ♦ Member of the American Society of Laser Medical Surgical (ASLMS), Spanish Society of Laser Medical Surgical (SELMQ), Portuguese Society of Aesthetic Medicine (SPME), Scientific Committee of the International Association of Aesthetic Gynecology and Sexual Wellbeing (IAAGSW)

Dr. Zamora Iniesta, Tomás

- ♦ Founder and Medical Director of the Aesthetic Clinics Dr. Tomás Zamora
- ♦ Outpatient Emergency Physician in the Murcian Health Service
- ♦ Member of the Board of Directors of the Aesthetic Medicine and Cosmetic Surgery Association of Murcia (AMMECC)
- ♦ PhD in Medicine from the University of Murcia
- ♦ Degree in Medicine and Surgery from the University of Murcia
- ♦ Master's Degree in Aging and Frailty from the Universidad Nacional de Formación a Distancia (National University of Distance Learning)
- ♦ Teknon Master's Degree in Medical and Surgical Laser by the Polytechnic University of Catalonia
- ♦ Master's Degree in Cosmetic and Aging Medicine from the Autonomous University of Barcelona
- ♦ Member of the Spanish Society of Aesthetic Medicine (SEME), Spanish Society of Medical and Surgical Laser (SELMQ)

Ordiz García, Ignacio

- ♦ Director of the Aesthetic Medicine Area at Clínica El Fontán
- ♦ President of the Iberoamerican Mesotherapeutic Medicine Association, since its foundation
- ♦ Member of prestigious associations, Founding member and speaker of the Asturian Society of Cosmetic and Aesthetic Medicine, Honorary Member of the Spanish to promote one Manual Lymph Drainage Vodder, Spanish Society of Aesthetic Medicine, French Society of Mesotherapy, Italian Society of Mesotherapy, Spanish Society of Homeopathic Medicine

Dr. Saco Mera, Edmundo

- ♦ Medical Director at Clínica D' Láser
- ♦ Medical Director at Clínica de la Piel in Lima
- ♦ National and International Speaker of Laser and Photoluminescent Platforms for some of the most important laser equipment commercial houses
- ♦ Collaborator of the Editorial Committee of the Scientific Magazine of the Faculty of Medicine at the Ricardo Palma University
- ♦ Licensed in Medicine and Surgery by the University of San Martín de Porres
- ♦ Medical specialist in Aesthetic Medicine by the Kennedy University
- ♦ Diploma in Hemotherapy and Transfusional Medicine at the Peruvian University Cayetano Heredia
- ♦ Master in Laser and Phototherapy in Dermatoesthetic Pathology by the University of Barcelona

Fortes Madrigal, Antonio

- ♦ International Commercial, Technical and Scientific Director at Medikalight
- ♦ Director of CCMIR Technology Division
- ♦ International Commercial, Technical and Scientific Director at Lyposmol Biotech
- ♦ Commercial, Technical and Scientific Director at Alma Lasers
- ♦ Commercial, Technical and Scientific Director of LPG
- ♦ Clinical Director in Private Practice of Pain Therapy and Proprioception

Dr. Del Diego Salas, Jorge

- ♦ Director General of Public Health and Pharmaceutical Management of the Andalusian Regional Government
- ♦ National Coordinator of the Vaccine Network of the Spanish Society of Preventive Medicine, Public Health and Health Management
- ♦ Assistant General Director of Health Promotion and Prevention, Ministry of Health
- ♦ Head of the Support Unit of the General Directorate of Public Health of the Ministry of Health
- ♦ Former Director of the International Epidemiological Alerts and Consulting Service ASISA
- ♦ WHO International Consultant for the Ebola outbreak in West Africa
- ♦ PAHO/WHO International Consultant in the regional Dengue program for the Americas.
- ♦ Member of the ECDC EPIET program
- ♦ National Coordinator of the Vaccine Network of the Spanish Society of Preventive Medicine, Public Health and Health Management

Dr. Rubio Lombraña, Marta

- ♦ Director and Dermatologist of the Dermocapillary Group of Triconorte Clinics
- ♦ Dermatologist at the Hospital of Urduliz Alfredo Espinosa. Bizkaia (Spain)
- ♦ Member of the Spanish Academy of Dermatology and Venereology
- ♦ Degree in Medicine and Surgery from the University of Cantabria
- ♦ Specialist in Dermatology by the University Hospital of Cruces
- ♦ Specialist in Infectious Diseases of the Skin and Sexually Transmitted Diseases from the Dermatological Institute of Jalisco (Mexico)
- ♦ International Master's Degree in Trichology and Hair Transplant from the University of Alcalá

Dr. Ramos Trujillo, María

- ♦ Medical Specialist in Clinical Documentation at the Valencian Health Agency
- ♦ Medical Specialist in Clinical Documentation at the Valencian Health Agency in the General University Hospital of Castellón
- ♦ Freelance Medical Aesthetics Expert in Quality of Life and Medical Aesthetics Care
- ♦ Responsible for the Clinical Coding, Archive and Documentation Management
- ♦ President of the Medical Records and Mortality Committee of the General University Hospital of Castellón
- ♦ Spokesperson of the Patient Safety Committee of the General University Hospital of Castellón
- ♦ Spokesperson of the Drug Research Ethics Committee (CEIM) at the General University Hospital of Castellón
- ♦ Degree in Medicine and Surgery

Dr. Aldana López, Guillermo

- ♦ Director of Aldana Laser Miami
- ♦ Director of Aldana Láser Center (Venezuela)
- ♦ Responsible for the study of Light Technology Applications in Facial Rejuvenation Treatment
- ♦ Best Communication Award at the XXIX Congress of the Spanish Society of Medical and Surgical Laser, Photoepilation with Alexandrite Laser on Skin Grafts after Facial Reconstructive Surgery
- ♦ Member of the American Society of Medical Laser, American Society of Aesthetic Medicine

Dr. Rocés Menéndez, Ana

- ♦ Medical Director of Merz Pharma Pharmaceutical Laboratory
- ♦ Medical Director of Merz Center of Excellence Aesthetic Medicine Clinic
- ♦ Specialist in Aesthetic, Cosmetic and Antiaging Medicine
- ♦ Master in Pharmaceutical Marketing
- ♦ Degree in Medicine and Surgery

Dr. Sans Durán, Cristina

- ♦ Emergency and Urgent Care Physician at SUMMA 112
- ♦ Aesthetic and Cosmetic Physician
- ♦ PhD in Nutrition and Obesity
- ♦ Degree in Medicine and Surgery

Dr. Iglesias Candal, Emma

- ♦ Medical Management at the Quirónsalud University Hospital (Madrid)
- ♦ Medical Director at Svenson Group Aesthetic Clinics
- ♦ PhD in Medicine. from the University of Santiago de Compostela (USC)
- ♦ Degree in Medicine and Surgery from the University of Santiago de Compostela (USC)
- ♦ Hair Surgeon
- ♦ Oral Surgeon at Sanitas
- ♦ Oral and Maxillofacial Surgeon in HM Hospitals
- ♦ Specialization in Management of Health Centers by the University of Deusto
- ♦ Professional Master's Degree in Esthetic and Anti-Aging Medicine at the Complutense University of Madrid
- ♦ Master's Degree in Trichology and Hair Transplant from the University of Alcalá.
- ♦ MBA in Hospital Management from IMF Business School

Leading specialists in the field of Aesthetic Medicine will provide you with the most relevant technological and scientific advances in this field"

06

Educational Plan

The syllabus of this Hybrid Master's Degree is composed of 10 modules through which the student will learn and apply the most efficient new techniques for the realization of numerous aesthetic operations. Likewise, the teaching contents to which you will have access during the duration of this program have been designed and elaborated by specialists who actively work in this sector. Therefore, all the contents provided to the student will be completely applicable in their professional experiences.

“

With teaching contents elaborated expressly by professionals in Aesthetic Medicine, you will acquire the most up-to-date and useful knowledge in this field"

Module 1. Basic Principles of Aesthetic Medicine

- 1.1. Introduction and Perception of Beauty
 - 1.1.1. History
 - 1.1.2. Proportions and Elements of Facial Analysis
 - 1.1.3. General and Specific Facial References
- 1.2. Anatomical Changes: Aging
 - 1.2.1. Aging: a Dynamic Process
 - 1.2.2. Lesions Associated to Aging. Changes in Bony and Soft Facial Structures
 - 1.2.3. Changes in the Ligaments, Muscles and Skin
- 1.3. Theories on Aging
 - 1.3.1. Molecular Theory and Oxidative Stress
 - 1.3.2. Theories on Intrinsic Aging
 - 1.3.3. Theories on Extrinsic Aging
 - 1.3.4. Telomere Shortening. Genes Associated with Longevity and Aging
- 1.4. Evaluation of Aging in Aesthetic Medicine
 - 1.4.1. Scales to Evaluate Aging
 - 1.4.2. Clinical Visual Scale
 - 1.4.3. Diagnostic Imaging Methods
 - 1.4.4. Skin Parameters: Moisturization, Elasticity, Color, Oil Production, Desquamation
- 1.5. Topical Treatments (General)
 - 1.5.1. Global Assessment of Treatment Tools
 - 1.5.2. Managing Loss of Volume. Problems and Solutions
 - 1.5.3. Managing Flaccidity and Loss of Volume. Surgical and Non-Surgical Problems and Solutions
 - 1.5.4. Managing Dyschromia and Texture. Problems and Solutions
 - 1.5.5. Managing Dynamic Wrinkles
- 1.6. Diagnostic Imaging: Introduction to Ultrasound Skin Imaging
 - 1.6.1. Basic Principles of Ultrasound
 - 1.6.2. Structure Recognition
 - 1.6.3. Artifacts
 - 1.6.4. Dermis and Epidermis
 - 1.6.5. Subcutaneous Tissue. Vessels and Other Structures

- 1.6.6. Facial Anatomical Structures
 - 1.6.6.1. Ultrasound of the Periocular Area
 - 1.6.6.2. Ultrasound of the Nasal Region
 - 1.6.6.3. Ultrasound of the Lips
 - 1.6.6.4. Scalp Ultrasound
- 1.6.7. Skin Aging. Identification of Solar Elastosis
- 1.7. Psychological Assessment of the Patient in Aesthetic Medicine
 - 1.7.1. Psychological Disorders Related to Body Image
 - 1.7.2. Psychological Approach to the Patient in Esthetic Medicine
 - 1.7.3. Therapeutic Approach
- 1.8. Preventing Infection When Practicing Aesthetic Medicine
 - 1.8.1. Use of Antiseptics in Aesthetic Medicine Consultations
 - 1.8.2. Hand Hygiene
 - 1.8.3. Use of Disinfectants in Aesthetic Medicine Consultations
 - 1.8.4. Sanitary Waste Management
- 1.9. Quality Management in the Practice of Aesthetic Medicine
 - 1.9.1. Quality Improvement Cycle
 - 1.9.2. What is a Quality Management System?
 - 1.9.3. ISO 9001:2015 Quality Management System. How to Accredite an Aesthetic Medicine Clinic?

Module 2. Peelings. Dermocosmetics

- 2.1. Overview
 - 2.1.1. History Definition
 - 2.1.2. Skin Structure
 - 2.1.3. Types of Peelings and Common Indications and Other Indications
 - 2.1.4. Patient Selection: The Importance of the Medical History
 - 2.1.5. Correct Diagnosis: Wood's Light and Dermatoscope
 - 2.1.6. Informed Consent Form
- 2.2. Previous Preparation
 - 2.2.1. Skin Preparation: General Skin Care and Home Treatment
 - 2.2.2. Antiherpetic Prophylaxis
 - 2.2.3. Preanesthetic Assessment Indications

- 2.3. Superficial Peeling
 - 2.3.1. Types of Very Superficial and Superficial Peeling
 - 2.3.2. Mechanism of Action
 - 2.3.3. Indications for Superficial Peeling
 - 2.3.4. Contraindications
 - 2.3.5. Procedure
- 2.4. Medium Peeling
 - 2.4.1. Types of Medium Peelings
 - 2.4.2. Mechanism of Action
 - 2.4.3. Indications for Medium Peelings
 - 2.4.4. Contraindications
 - 2.4.5. Procedure
- 2.5. Deep Peeling
 - 2.5.1. Introduction to Deep Peeling
 - 2.5.2. Deep Peeling Patient Selection
 - 2.5.3. Deep Phenol Peeling
 - 2.5.4. Outpatient Phenol Peeling
 - 2.5.5. Procedure
- 2.6. Post Peeling Care: Adverse Effects and Their Treatment
 - 2.6.1. General Recommendations and Specific Post Peeling Care
 - 2.6.2. Adverse Effects and Their Treatment
- 2.7. Introduction to Dermocosmetics
 - 2.7.1. Skin Types
 - 2.7.2. What is a Cosmetic?
 - 2.7.3. Ingredients in a Cosmetic Product
 - 2.7.4. Cosmetic Forms
 - 2.7.5. Mechanisms of Absorption of Cosmetics
- 2.8. General Cosmetic Skin Care
 - 2.8.1. Hygiene
 - 2.8.2. Hydration
 - 2.8.3. Depigmenting Agents
 - 2.8.4. Photoprotection

- 2.9. Specific Cosmetic Care
 - 2.9.1. Aging
 - 2.9.2. Acne
 - 2.9.3. Other Alterations: Rosacea
- 2.10. Magistral Formulation in Cosmetics

Module 3. Applications of Botulinum Toxin in Dermatology and Esthetics. Regenerative Medicine for Esthetic Purposes

- 3.1. Types of Botulinum Toxin
 - 3.1.1. What is Botulinum Toxin?
 - 3.1.2. Characteristics and Types of Botulinum Toxin
 - 3.1.3. Mechanism of Action
- 3.2. Botulinum Toxins Authorized for Aesthetic Use
 - 3.2.1. Trade Names of Botulinum Toxins Type A
 - 3.2.2. Toxins Authorized for Esthetic Use
 - 3.2.3. Toxins Authorized for Other Conditions. Botulinum Toxin Type B
 - 3.2.4. Toxin Reconstitution. Conservation
 - 3.2.5. Injection Technique
 - 3.2.6. Post-Treatment Recommendations
- 3.3. Indications for Treatment of Expression Wrinkles
 - 3.3.1. Indications for Treatment on Forehead Wrinkles
 - 3.3.2. Indications for Treatment on Glabellar Lines
 - 3.3.3. Indications for Treatment on Periocular Wrinkles
 - 3.3.4. Indications for the Treatment of Eyebrows
 - 3.3.5. Indications for Treatment of the Suborbital Region and Nose
 - 3.3.6. Indications Treatment of Vertical Upper Lip Wrinkles
 - 3.3.7. Indications for Treatment of the Corners of the Mouth
 - 3.3.8. Indications for Treatment of the Chin
 - 3.3.9. Indications for Treatment of the Neck

- 3.4. Treatment of the Upper Third. Anatomy of Facial Marks
 - 3.4.1. Frontal Muscles. Treatment of Horizontal Forehead Wrinkles
 - 3.4.2. Glabellar Muscles. Treatment of Frown Lines and Vertical Forehead Wrinkles
 - 3.4.3. Periorbital Region Muscles. Crow's Feet Treatment
 - 3.4.4. Eyebrow Muscles. Eyebrow Lifting. Lateral Brow Lift.
 - 3.4.5. Infraorbital and Nasal Muscles. Treatment of Lower Eyelid Wrinkles. Nasal Wrinkles
- 3.5. Treatment of the Middle and Lower Third. Neck. Anatomy of Facial Marks
 - 3.5.1. Perioral Muscles. Treatment of Vertical Upper Lip Wrinkles
 - 3.5.2. Perioral Muscles. Marionette Lines. Lifting of the Corner of the Mouth
 - 3.5.3. Chin Muscles. Treatment of Chin Wrinkles
 - 3.5.4. Masseter Muscles. Treatment of Masseter Hypertrophy Bruxism
 - 3.5.5. Neck Muscles. Treatment of Platysma
- 3.6. Treatment of Hyperhidrosis with Botulinum Toxin
 - 3.6.1. Types of Hyperhidrosis: Axillary and Palmar
 - 3.6.2. Technique of Botulinum Toxin Infiltration in Hyperhidrosis
 - 3.6.3. Truncal Anesthesia in Palmar Hyperhidrosis
 - 3.6.4. Results and Duration
- 3.7. Complications from Botulinum Toxin Application
- 3.8. Introduction to Regenerative Medicine
 - 3.8.1. Regenerative Medicine Concept
 - 3.8.2. Growth Factors
- 3.9. Applications of Regenerative Medicine in Dermatology and Esthetics. Other Medical Applications
 - 3.9.1. Application in Rejuvenation
 - 3.9.2. Other Conditions. Burns, Scars, Keloids and Stretch Marks
- 3.10. Practical Considerations and Injection Techniques
 - 3.10.1. Obtaining Growth Factors
 - 3.10.2. Skin Infiltration for Rejuvenation
 - 3.10.3. Other Aesthetic Applications

Module 4. Facial Implants in Aesthetics

- 4.1. Introduction to Filler Materials
 - 4.1.1. The Concept of Filler Material
 - 4.1.2. Tissue Response to Filler Materials
 - 4.1.3. History of the Use of Fillers and Facial Support Threads
 - 4.1.4. Facial Exploration Aimed at the Use of Filler Materials. Risk Zones
- 4.2. Filler Materials
 - 4.2.1. Classification of Filler Materials
 - 4.2.2. Autologous Materials: Autologous Fat, Plasmigel.
 - 4.2.3. Resorbable Filler Materials
 - 4.2.4. Hyaluronic Acid
 - 4.2.5. Calcium Hydroxyapatite
 - 4.2.6. Collagen
 - 4.2.7. Polylactic Acid
 - 4.2.8. Carboxymethyl Cellulose
- 4.3. Non-Resorbable or Permanent Filler Materials
 - 4.3.1. Legal Situation
 - 4.3.2. Polymethylmethacrylate Microspheres
 - 4.3.3. Silicone
 - 4.3.4. Polyalkylimide or Alkylimide Hydrogel
 - 4.3.5. Polyacrylamide Hydrogel
 - 4.3.6. Iatrogenic Allogeneisis
- 4.4. Indications for the Use of Filler Materials
 - 4.4.1. Facial Diagnosis. Objective to Treat
 - 4.4.2. Injection Technique
 - 4.4.3. Approach to Treatment of the Upper Third
 - 4.4.4. Approach to Treatment of the Middle Third
 - 4.4.5. Approach to Treatment of the Lower Third
 - 4.4.6. Skin Revitalization Techniques
 - 4.4.7. Alert Areas

- 4.5. Rhino-Modeling
 - 4.5.1. Indications and Contraindications for Rhinomodeling
 - 4.5.2. Specific Anatomy. Nasal Proportions
 - 4.5.3. Materials Used for Rhino-Modeling
 - 4.5.4. Rhino-Modeling Technique
 - 4.5.5. Secondary Rhino-Modeling
 - 4.5.6. Complications and Adverse Effects
- 4.6. Lip Implants
 - 4.6.1. Anatomy and Proportions of the Lips
 - 4.6.2. Materials Used for the Lips
 - 4.6.3. Features of Male and Female Lips
 - 4.6.4. Lip Contouring
 - 4.6.5. Lip Volume Enhancement
 - 4.6.6. Rejuvenation of Lips and Peribuccal Area
 - 4.6.7. Lip Moisturizing Technique
 - 4.6.8. Complications and Adverse Effects
- 4.7. Identifying Filler Materials Using Ultrasound
 - 4.7.1. Resorbable Fillers
 - 4.7.2. Semi-Permanent Fillers
 - 4.7.3. Permanent Fillers
 - 4.7.4. Ultrasound in the Management of Complications of Filler Substances
- 4.8. Facial Support Threads
 - 4.8.1. Sutures Features and Mechanism of Action
 - 4.8.2. Indications
 - 4.8.3. Insertion Plan and Insertion Patterns
 - 4.8.4. Insertion Procedure
 - 4.8.5. Types of PDO Threads
 - 4.8.6. APTOS Threads
 - 4.8.7. Coned Threads, Double Needle
 - 4.8.8. Treatment Plan
 - 4.8.9. Approach to Complications and AE
 - 4.8.10. Combination with Other Tightening Treatments

- 4.9. Adverse Effects and Complications of Filler Materials
 - 4.9.1. Early General Complications, Prevention, and Treatment
 - 4.9.2. Late General Complications, Prevention, and Treatment
 - 4.9.3. Complications Associated with Hyaluronic Acid Injections
 - 4.9.4. Complications Associated with Calcium Hydroxyapatite Injections
 - 4.9.5. Complications Associated with Deep Sutures and PDO Threads
 - 4.9.6. Complications Associated with the Use of Permanent Materials
 - 4.9.7. Hyaluronidase
- 4.10. Suture and Implant Approach to the Male Patient
 - 4.10.1. Aging Process in Male Patients
 - 4.10.2. General Considerations for Filler Treatment in Male Patients
 - 4.10.3. Volume Restoration in the Middle Third
 - 4.10.4. Volume Restoration in the Lower Third
 - 4.10.5. Facial Masculinization

Module 5. Aesthetic and Regenerative Gynecology

- 5.1. Anatomy
 - 5.1.1. Vulva. Histology, Anatomy and Relationships
 - 5.1.2. Vagina. Histology, Anatomy and Relationships
 - 5.1.3. Female Pelvic Floor Anatomy
 - 5.1.3.1. Muscular Structures
 - 5.1.3.2. Urogenital Diaphragm
 - 5.1.3.3. Superficial and Deep Perineum
 - 5.1.3.4. Vasculonervous Relations of the Lesser Pelvis
 - 5.1.3.5. Anatomy of the Clitoris

- 5.2. Treatment of Anatomical Alterations
 - 5.2.1. Mons Pubis. Mons Pubis Reduction: Liposuction, Laser Lipolysis. Enlargement of the Mons Pubis: Fillers (Fat, Fillers)
 - 5.2.2. Labia Minora. Classification of Anatomical Defects. Types of Labiaplasty. Pre and Postoperative Recommendations
 - 5.2.3. Labia Majora. Classification of Anatomical Defects. Surgical Techniques
 - 5.2.4. Vaginal Introitus and Hymen Classification and Etiology of Introitus Pathology. Hymen Pathology (Rigid Hymen, Imperforate Hymen). Surgical Treatment
 - 5.2.5. Vaginal Introitus. Pathology Due to Stenosis. Amplitude of the Introitus
 - 5.2.6. Superficial Perineum and Anal Musculature. Perineal Obstetric Tears. Obstetric Tears of the Anal Sphincter
 - 5.2.7. Female Genital Ablations. Social and Cultural Management. Surgical Management. Psychological Handling
- 5.3. Treatment of Vaginal Hyperlaxity Syndrome
 - 5.3.1. Definition and Aetiology
 - 5.3.2. Symptoms and Signs
 - 5.3.3. Management and Treatments
- 5.4. Management of the Genitourinary Syndrome of Menopause
 - 5.4.1. Definition and Prevalence
 - 5.4.2. Symptoms and Signs
 - 5.4.3. Alternative Treatments
- 5.5. Menopause
 - 5.5.1. Definition of Menopause
 - 5.5.2. Definition of Climacteric Syndrome
 - 5.5.3. Symptoms, Risks and Pathologies Associated with Climacteric Syndrome
 - 5.5.4. Management and Advice
 - 5.5.4.1. Lifestyle Recommendations
 - 5.5.4.2. Hormone Replacement Therapy (indications and contraindications) and Introduction to Bioidentical Hormones
 - 5.5.5. Sexuality in Menopause
- 5.6. Regenerative and Functional Gynecologic Pathology
 - 5.6.1. Vulvar Lichen Sclerosus
 - 5.6.1.1. Definition and Symptoms
 - 5.6.1.2. Medical Treatment and Regenerative Treatments
 - 5.6.2. Urinary Incontinence
 - 5.6.2.1. Definition, Etiology and Classification
 - 5.6.2.2. Medical Treatment
 - 5.6.2.3. Physiotherapy Treatment
 - 5.6.2.4. Surgical Treatment (Indications, Contraindications, and Complications)
- 5.7. Energy-Based Devices
 - 5.7.1. Laser Technology
 - 5.7.1.1. Physical and Therapeutic Foundations
 - 5.7.1.2. Biological Effects of Thermotherapy
 - 5.7.1.3. Types of Lasers and Uses
 - 5.7.1.4. Indications and Contraindications
 - 5.7.1.5. Available Evidence
 - 5.7.1.6. Procedure
 - 5.7.2. Radiofrequency Technology
 - 5.7.2.1. Radiofrequency Technology
 - 5.7.2.2. Physical and Therapeutic Foundations
 - 5.7.2.3. Biological Effects of Radiofrequency
 - 5.7.2.4. Indications and Contraindications
 - 5.7.2.5. Procedure
 - 5.7.2.6. Available Evidence
- 5.8. Sexual Dysfunctions
 - 5.8.1. Hypoactive Desire Dysfunction (definition)
 - 5.8.1.1. Sexological Approach
 - 5.8.1.2. Medical Treatment
 - 5.8.2. Stimulation and Orgasm Dysfunctions (Definition)
 - 5.8.2.1. Sexological Approach
 - 5.8.2.2. Medical Treatment

- 5.8.3. Pain Dysfunctions (definition)
 - 5.8.3.1. Vaginismus. Definition and Classification
 - 5.8.3.2. Dyspareunia. Definition and Classification
 - 5.8.3.3. Vulvodynia. Definition and Classification
- 5.8.4. Therapeutic Approach
 - 5.8.4.1. Sexological Approach
 - 5.8.4.2. Medical Treatment: Analgesia: Antidepressant Effects of Botulinum Toxin
- 5.8.5. Sexual Evaluation Questionnaires
- 5.9. Genital Regenerative Treatments (alternatives)
 - 5.9.1. Platelet-rich Plasma
 - 5.9.2. Hyaluronic Acid Application in Female Genitalia
 - 5.9.2.1. Aesthetic Medical Indications
 - 5.9.2.2. Functional Medical Indications
 - 5.9.2.3. Complications
 - 5.9.3. Vulvo Vaginal Carboxytherapy
 - 5.9.4. Possibilities for the Use of Stem Cells in Regenerative Gynecology
- 5.10. Local Anesthesia, Locoregional Anesthesia and Sedation in Cosmetic Genital Surgery
 - 5.10.1. Anesthetic Techniques in Gynecoesthetics
 - 5.10.2. Sedation
 - 5.10.3. Pudendal Nerve Block
 - 5.10.4. Local Anesthesia of Cutaneous Nerves
 - 5.10.5. General Anesthesia

Module 6. Laser and Light Sources in Aesthetic Medicine

- 6.1. History of the Use of Light Sources. Current Indications
 - 6.1.1. History of the Use of Light Sources
 - 6.1.2. What is Light? What is Wavelength? What is a Chromophore?
 - 6.1.3. Fabric Optics
 - 6.1.4. Interaction of Light and Tissue: Biological Effects
 - 6.1.5. Therapeutic Effects: Theories of Action
 - 6.1.6. Light Emission Systems: Laser, Intense Pulsed Light and LEDs
- 6.2. Treatment of Vascular Lesions
 - 6.2.1. Main Indications: Most Commonly Used Laser Types and Light Sources
 - 6.2.2. Contraindications
 - 6.2.3. Side Effects

- 6.3. Treatment of Pigmented Lesions and Tattoos
 - 6.3.1. Differential Diagnosis of Pigmented Lesions. Importance of the Use of Wood's Light and Dermatoscope
 - 6.3.2. Laser and light Source Treatment of Pigmented Lesions
 - 6.3.3. Laser Treatment of Tattoos
 - 6.3.4. Contraindications
 - 6.3.5. Side Effects
- 6.4. Laser Photoepilation and Light Sources
 - 6.4.1. Patient Selection and Types of Treatment
 - 6.4.2. Treatment of Particular Cases
 - 6.4.3. Contraindications
 - 6.4.4. Side Effects
- 6.5. Treatment of Acne, Scars, and Stretch Marks with Lasers and Light Sources
 - 6.5.1. Acne: Laser Treatment and Light Sources, Contraindications and Side Effects
 - 6.5.2. Scars: Qualification, Treatment Types, Contraindications and Side Effects
 - 6.5.3. Stretch Marks: Types of Treatment, Contraindications and Side Effects
- 6.6. Rejuvenation
 - 6.6.1. Ablative
 - 6.6.2. Non-Ablative
 - 6.6.3. Fractional Treatment
 - 6.6.4. Combination of Treatments
 - 6.6.5. Contraindications
 - 6.6.6. Side Effects
- 6.7. Localized Fat Treatment
 - 6.7.1. Laser Lipolysis
 - 6.7.2. LLLT
- 6.8. Photobiomodulation
 - 6.8.1. What is Photobiomodulation?
 - 6.8.2. Indications
 - 6.8.3. Contraindications
 - 6.8.4. Side Effects

- 6.9. Photodynamic Therapy
 - 6.9.1. Definition
 - 6.9.2. Indications
 - 6.9.3. Contraindications
 - 6.9.4. Side Effects
- 6.10. Safety of Use of Light Sources
 - 6.10.1. Standards
 - 6.10.2. Eye Protection
 - 6.10.3. Occupational Hazards

Module 7. Phlebology and Lymphatic Disorders. Body Aesthetics

- 7.1. Anatomy, Physiology, and Pathophysiology of the Venous System. Diagnosis and Treatment of Chronic Venous Disease
 - 7.1.1. Anatomy and Physiology of the Venous System
 - 7.1.2. Pathophysiology of the Venous System. Varices. Venous Hypertension
 - 7.1.3. Etiopathogenesis of Varicose Veins. Aggravating Factors
 - 7.1.4. Clinical and Instrumental Diagnostics. CEAP Classification
 - 7.1.5. Treatment of Chronic Venous Disease
- 7.2. Anatomy, Physiology, Pathophysiology of the Lymphatic System. Diagnosis and Treatment of Lymphedema
 - 7.2.1. Anatomy and Physiology of the Lymphatic System
 - 7.2.2. Pathophysiology of the Lymphatic System and Edema
 - 7.2.3. Diagnosis and Classification of Lymphedema
 - 7.2.4. Conservative Treatment of Lymphedema
 - 7.2.5. Surgical Treatment of Lymphedema
- 7.3. Embryology, Anatomy, Physiology and Pathophysiology of Adipose Tissue
 - 7.3.1. Embryology of White Adipose Tissue and Brown Adipose Tissue
 - 7.3.2. Anatomy of Adipose Tissue
 - 7.3.3. Adipose Tissue as an Endocrine Organ.
 - 7.3.4. Adipose Tissue Physiology. Lipogenesis and Lipolysis
 - 7.3.5. General Overview of Overweight and Obesity. Epidemiology
- 7.4. Diagnostic Methods in Body Contouring Disorders
 - 7.4.1. Medical History
 - 7.4.2. Anthropometry
 - 7.4.3. Bioimpedance
 - 7.4.4. Imaging Techniques Applied to the Study of Body Contouring
 - 7.4.5. Analytical and Complementary Techniques
- 7.5. Definition, Etiopathogenesis and Diagnosis of Body Contouring Disorders
 - 7.5.1. Cellulite
 - 7.5.2. Localized Adiposities
 - 7.5.3. Lipedema
 - 7.5.4. Flaccidity
 - 7.5.5. Body Changes Related to Aging
- 7.6. Non-Surgical Techniques for the Treatment of Body Contouring Alterations
 - 7.6.1. Home Treatment
 - 7.6.2. Physical Techniques to Treat Body Contouring: Electrotherapy, Ultrasound, Radiofrequency, Pressotherapy, etc.
 - 7.6.3. Infiltration Techniques in the Treatment of Body Contouring Mesotherapy/ Intradermotherapy. Hydrolipoclasia
 - 7.6.4. Carboxytherapy
 - 7.6.5. Treatment Protocols
- 7.7. Surgical Techniques for the Treatment of Body Contouring Alterations
 - 7.7.1. Surgical management of Venous Refluxes
 - 7.7.2. Liposuction and Assisted Liposuction Techniques
 - 7.7.3. Plastias
 - 7.7.4. Surgical and Minimally Invasive Techniques for the Treatment of Excess Weight and Obesity (Gastric Balloon, Bariatric Surgery)
 - 7.7.5. Pre and Postoperative Protocols in Lipedema
- 7.8. Lipedema and Lipodystrophies
 - 7.8.1. Epidemiology and Etiopathogenesis of Lipedema
 - 7.8.2. Clinical and Instrumental Diagnosis of Lipedema
 - 7.8.3. Conservative Treatment of Lipedema
 - 7.8.4. Surgical Treatment of Lipedema
 - 7.8.5. Congenital and Acquired Lipodystrophies

- 7.9. Cellulite
 - 7.9.1. Diagnosis and Classification
 - 7.9.2. Treatment Protocol
 - 7.9.3. Medical-Aesthetic and Surgical Treatments
 - 7.9.4. Home Treatment
 - 7.9.5. Recommendations for the Control of Aggravating Factors
- 7.10. Treatment Protocols for Body Contouring Alterations
 - 7.10.1. In Overweight and Obesity
 - 7.10.2. In Localized Adiposity
 - 7.10.3. In Body Flaccidity
 - 7.10.4. In Chronic Venous Disease
 - 7.10.5. In Lymphatic Pathology of the Limbs

Module 8. Trichology and Hair Transplantation

- 8.1. Anatomy and Physiology of the Scalp Skin and Hair Follicle
 - 8.1.1. Anatomical Structure and Function of the Skin Entity
 - 8.1.2. Anatomy of the Hair Follicle
 - 8.1.3. Hair Growth Cycle
 - 8.1.4. Physiology of the Pilosebaceous Follicle
 - 8.1.5. Factors Influencing Follicle Growth
 - 8.1.6. Physical Properties of Hair
 - 8.1.7. Variations by Age, Gender and Race
- 8.2. Medical History. Diagnostic Techniques and Capillary Analysis
 - 8.2.1. Clinical History in Trichology
 - 8.2.2. Non-Invasive Diagnostic Methods: Physical Examination; Photography; Trichoscopy. Confocal Microscopy and Scanning Electron Microscopy
 - 8.2.3. Methods of Semi Invasive Diagnosis: Trichogram and Trichoscan
 - 8.2.4. Invasive Methods: Skin Biopsy
 - 8.2.5. Complementary Examinations and Analytical Protocols
- 8.3. Main Pathologies of the Scalp
 - 8.3.1. Seborrheic Dermatitis and Pityriasis Capitis
 - 8.3.2. Atopic Dermatitis and Scalp Psoriasis
 - 8.3.3. Contact Dermatitis and Sensitive Scalp
 - 8.3.4. Benign Skin Tumors
 - 8.3.5. Skin Cancer and Precancer
 - 8.3.6. Scalp Infections and Infestations
- 8.4. Alopecia: Concepts and Classification. Effluvia. Alopecia Areata
 - 8.4.1. Concept and Classification of Alopecia
 - 8.4.2. Acute and Chronic Telogen Effluvium
 - 8.4.3. Anagenic Effluvium
 - 8.4.4. Alopecia Areata
- 8.5. Male and Female Androgenetic Alopecia
 - 8.5.1. Concept and Classification of Androgenetic Alopecia
 - 8.5.2. Hormonal Metabolism in Androgenetic Alopecia
 - 8.5.3. Alopecia femenina (FAGA)
 - 8.5.4. Therapeutic Protocols
- 8.6. Hypertrichosis and Hirsutism
 - 8.6.1. Differences Between Hypertrichosis and Hirsutism
 - 8.6.2. Approach to Hirsutism. SAHA Syndrome
- 8.7. Medical Treatment of Alopecia. Active Therapeutic Principles Used in Trichology
 - 8.7.1. Minoxidil
 - 8.7.2. 5alpha-reductase Inhibitors and Other Antiandrogens
 - 8.7.3. Prostaglandin Analogs
 - 8.7.4. Corticosteroids and Other Anti-inflammatory Drugs
 - 8.7.5. Immunosuppressive Drugs
 - 8.7.6. Keratolytic and Antimicrobial Agents
- 8.8. Capillary Mesotherapy and its Utility in Aesthetic Medicine Consultations
 - 8.8.1. Manual and Assisted Hair Mesotherapy Techniques. Microneedling Techniques. Use of Roller and Capillary Multifunction Devices
 - 8.8.2. Allopathic Hair Mesotherapy. Indications, Drugs, and Medical Devices
 - 8.8.3. Homeopathic Capillary Mesotherapy, Update
 - 8.8.4. Complications and Adverse Effects of Hair Mesotherapy

- 8.9. Cosmetic Treatments in Trichology
 - 8.9.1. Hair Care and Hair Cosmetic Products
 - 8.9.1.1. Cosmetic Shampoos and Therapeutic Shampoos
 - 8.9.1.2. Conditioners and Finishing/Styling Products
 - 8.9.2. Coloring and Bleaching Dyes
 - 8.9.3. Curling or Permanent Waving of Hair; Straightening of Hair
 - 8.9.4. Hair Nutricosmetics
 - 8.9.5. Micropigmentation and Microblading
 - 8.9.6. Hair Integration Systems and Keratin Microfibers
 - 8.9.7. Hair Removal Methods
- 8.10. Hair Transplant, Techniques, Indications, Stages and Postoperative Care
 - 8.10.1. Types and Techniques. Strip and FUE Type Transplant. Assisted FUE
 - 8.10.2. Indications and Patient Selection. Design
 - 8.10.3. Material and Phases of the Hair Transplant Technique
 - 8.10.4. Postoperative Care and Complications

Module 9. Communication

- 9.1. Introduction to Business Communication: Importance in the Health Sector
 - 9.1.1. A New Communication Paradigm
 - 9.1.2. The New Consumer
 - 9.1.3. Marketing 3.0
 - 9.1.4. The Evolution of the Health Sector
- 9.2. Communication Plan Design
 - 9.2.1. The Importance of History
 - 9.2.2. PESTEL Analysis
 - 9.2.3. DAFO Analysis
 - 9.2.4. From the Strategic Plan to the Tactical Plan
 - 9.2.5. The Definition of Target
 - 9.2.6. Action Plan

- 9.3. Online Reputation and Crisis Management. The Importance of Being Prepared
 - 9.3.1. What is a Crisis and How Can I Detect It?
 - 9.3.2. Difference Between Brand Crisis and Brand Reputation
 - 9.3.3. How to Build Brand Reputation on Social Media
 - 9.3.4. Brand Reputation Management
 - 9.3.5. Crisis Prevention
 - 9.3.6. Crisis Management
- 9.4. Inbound Marketing and the Importance of a Content Marketing Strategy
 - 9.4.1. What Is Inbound Marketing?
 - 9.4.2. Difference with Traditional Marketing
 - 9.4.3. Attract. Convert. Close. Delight
- 9.5. Organic Positioning (SEO) and Paid Positioning (SEM)
 - 9.5.1. What is SEO?
 - 9.5.2. SEO Objectives
 - 9.5.3. SEO Process
 - 9.5.4. Popularity and Link Building
 - 9.5.5. SEO vs. SEM
 - 9.5.6. The Google Network
 - 9.5.6.1. Search Network
 - 9.5.6.2. Display Network
- 9.6. Social Media and Community Management
 - 9.6.1. Social Media and its Evolution in the Recent Years
 - 9.6.2. Should a Brand be on Social Media?
 - 9.6.3. The User of Social Networks: Profiles and Types
 - 9.6.4. Main Social Channels and their Characteristics
- 9.7. Digital Strategy Fundamentals
 - 9.7.1. Paid, Owned and Earned Resources
 - 9.7.2. The Conversion Cycle
 - 9.7.3. The Definition of Objectives
 - 9.7.4. A/B Experiments

- 9.8. Main Marketing Strategies
 - 9.8.1. E-mail Marketing
 - 9.8.2. Affiliate Marketing
 - 9.8.3. Loyalty Marketing
 - 9.8.4. Relationship Marketing
- 9.9. Social Media Marketing and Communication
 - 9.9.1. Social Media Communication. What Does it Involve?
 - 9.9.2. Definition of Brand Objectives
 - 9.9.3. The Brand's Mission in Social Networks
 - 9.9.4. Definition of the Target in Social Media: Social Persona
 - 9.9.5. Social Media Campaigns
- 9.10. Social Media Reporting and Optimization. Monitoring and Measuring Results
 - 9.10.1. Measurement and Reporting
 - 9.10.2. Basic Concepts
 - 9.10.3. Measurement Tools
 - 9.10.4. Native Tools

Clinical Internship

After passing the theoretical learning period, the program includes a Internship Program period in a reference clinical center. The student will have at their disposal the support of a tutor who will accompany them during the whole process, both in the preparation and in the development of the clinical practice.

“

*Do your clinical internship in one of
the best medical beauty centers,
accompanied by a group of
professionals committed to your update"*

The internship program in Aesthetic Medicine consists of a practical stay in a rigorous aesthetic medicine clinic, lasting 3 weeks, from Monday to Friday with 8 consecutive hours of Internship Program with an assistant specialist. This stay will allow you to see real patients alongside a team of leading professionals in the field of plastic, reconstructive and aesthetic medicine, applying the most innovative diagnostic procedures.

In this completely practical internship program, the activities are aimed at developing and perfecting the skills necessary to provide medical care in areas and conditions that require highly qualified professionals, and are oriented towards specific expertise for practicing the activity, in a safe environment for the patient and with highly professional performance.

It is, without a doubt, an excellent opportunity to learn by working in the most innovative clinics in this field, getting to know a wide range of personalized treatments for each patient, both facial and body, which allow to obtain the best results to achieve the expectations of the client. This is a new way of understanding and integrating the processes of medicine and aesthetics so that the student reaches a high level of perfection in the most useful medical-aesthetic skills of the 21st century.

Practical teaching will be carried out with the accompaniment and guidance of teachers and other training colleagues who facilitate teamwork and multidisciplinary integration as transversal competencies for medical practice (learning to be and learning to relate).

The procedures described below will be the basis of the training, and their realization will be subject to the center's own availability, to its usual activity and and its workload, the proposed activities being the following:

Module	Practical Activity
Regenerative Medicine for Aesthetic Purposes	Use the latest in techniques such as facial mesotherapy for the treatment of expression wrinkles
	Manage the technique of botulinum toxin infiltration in hyperhidrosis
	Apply regenerative medicine in treatments aimed at rejuvenating hands or healing burns and scars
	Apply hyaluronic acid fillers and botox fillers
Facial Implants in Aesthetics	Use techniques such as rhinomodeling, lip implants, fox eyes or hyaluronidase to address different situations
	Use up-to-date techniques for lip hydration in the process of creating lip implants
	Overcome possible complications that may arise in the use of filler materials
	Perform the process of lower third volume replacement for male patients
Lasers and Light Sources in Esthetic Medicine	Use laser treatment and light sources for healing pigmented lesions
	Perform laser and light source treatment of acne, scars and stretch marks
	Manage the safety conditions for the use of light sources that preserve the physical integrity of the patient
Phlebology and Lymphatic Disorders. Body Esthetics	Apply mesotherapy techniques as a method of treatment against cellulite
	Execute the process of implementing a gastric balloon in a patient with obesity
	Use the most avant-garde techniques for the reduction of body flaccidity
	Treat body contouring alterations through non-surgical techniques such as coolsculpting
Trichology and Hair Transplantation	Apply the latest diagnostic techniques and hair analysis to detect the health of a patient's hair
	Use the latest techniques for performing strip and FUE type hair transplants
	Use manual and assisted hair mesotherapy techniques to improve the health of patients' hair

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Hybrid Master's Degree, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Hybrid Master's Degree, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Hybrid Master's Degree will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: the Hybrid Master's Degree shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Hybrid Master's Degree. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Hybrid Master's Degree will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

08

Where Can I Do the Clinical Internship?

In order to offer a unique experience to students in the development of their skills in the field of aesthetic medicine, TECH offers them the opportunity to put into practice the theoretical knowledge learned in a highly prestigious clinic. This way, they specialize alongside the best professionals in aesthetic medicine, propelling their career to the top of the profession. In addition, TECH adapts to the needs and preferences of the student, allowing them to choose the destination that best suits their requirements.

“

*Bet on your professional development
alongside the medical-aesthetic elite
with this TECH internship program and
expand your career possibilities"*

The student will be able to complete the practical part of this Hybrid Master's Degree at the following centers:

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The case method is the most widely used learning system in the best faculties in the world. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology, we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

10 Certificate

The Hybrid Master's Degree in Aesthetic Medicine guarantees, in addition to the most rigorous and updated knowledge, access to a Hybrid Master's Degree issued by TECH Global University.

“

*Successfully complete this program and
receive your university qualification without
having to travel or fill out laborious paperwork”*

This private qualification will allow you to obtain a **Hybrid Master's Degree in Aesthetic Medicine** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
