Introduction

The world of sexology is one of the most fascinating and complex within medical science. In this field, doctors play a crucial role, as they can help prevent and treat a wide variety of sexual health problems. For this reason, TECH has designed this 100% online university program dedicated to the scientific dissemination of sexology and designed especially for doctors who wish to expand their knowledge in this area. The program is directed by experts in sexology, and offers a complete and up-to-date vision of the most relevant aspects in this field. Students will learn about sexual anatomy and physiology, sexual dysfunctions, contraceptive methods, sexually transmitted diseases, sexual and couple therapy, among other topics.

“

A complete 100% online Postgraduate Certificate dedicated to the scientific dissemination of sexology and designed especially for doctors who wish to expand their knowledge in this area”

Sexology is a field of medicine that is dedicated to the study of human sexuality and addresses biological, psychological and social aspects related to it. In this sense, doctors play a fundamental role, as they can offer comprehensive care to patients with sexual health problems, helping to prevent and treat sexual dysfunctions and sexually transmitted diseases, as well as provide sex and couple therapy.

The 100% online Postgraduate Certificate offers a complete and up-to-date education on the most relevant aspects of human sexuality and its relationship with health. Doctors will be able to learn about sexual anatomy and physiology, the most common sexual dysfunctions, contraceptive methods, sexually transmitted diseases and sex and couple therapy.

The syllabus is designed and directed by experts in sexology and medicine, which guarantees a quality and up-to-date academic education. In addition, the program is developed entirely online, which offers great flexibility and adaptability to the needs and schedules of students, allowing them to study from anywhere and at any time.

The benefits of this Postgraduate Certificate are numerous. First, it will allow doctors to expand their knowledge and skills in sexology, which will enable them to provide more comprehensive and effective care to their patients. Also, this program can be very useful for those nurses who wish to specialize in sexology and expand their career opportunities in this field.

In conclusion, this Postgraduate Certificate is an excellent opportunity for those professionals who wish to expand their knowledge and skills in the field of sexology, which will allow them to offer comprehensive and quality care to their patients.

This **Postgraduate Certificate in Dissemination in Sexology** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The development of case studies presented by experts in Psychology, Medicine and Sexology
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Directed by experts in sexology and medicine, this Postgraduate Certificate offers a complete and up-to-date vision of the most relevant aspects in this field"

“

Thanks to this program, doctors will expand their knowledge on sexual anatomy and physiology, sexual dysfunctions, contraceptive methods, sexual and couple therapy, among other topics”

The program's teaching team includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the student will be assisted by an innovative interactive video system created by renowned and experienced experts.

Thanks to the Relearning method you will be able to advance through the syllabus in a natural way and reduce the long hours of study and memorization.

A unique, key and decisive program to boost your professional career to the top.

02 Objectives

The main objective of the Postgraduate Certificate in Dissemination in Sexology is to provide a complete and up-to-date education on the most relevant methods of scientific dissemination of human sexuality and its relationship with health, in order to enable doctors to expand their knowledge and skills in sexology and to offer comprehensive and quality care to their patients. In addition, the program seeks to provide students with the necessary skills to prevent and treat a wide variety of sexual health problems, as well as to offer sexual and couple therapy to patients with sexual dysfunctions. All this, in a 100% online format, adapted to the students' schedule and led by experts in sexology.

“

This Postgraduate Certificate aims to provide you with a focused knowledge in the methods of Dissemination in Sexology. Don't hesitate and enroll now”

General Objectives

- ♦ Acquire knowledge about sexuality by expanding the vision of sexuality from a biopsychosocial perspective
- ♦ Obtain tools to be able to accompany cases related to difficulties related to sexuality
- ♦ Identify the variables involved in the origin and maintenance of the different sexual dysfunctions (organic, psychological, relational and cultural components)
- ♦ Acquire skills to be able to share information about sexuality in a clear way
- ♦ Understand the aspects involved in the beginning and development of couple relationships (couple's life cycle: establishment and evolution)
- ♦ Describe the dynamics of couple relationships and factors that generate alterations in them
- ♦ Explore complex issues such as gender violence and child sexual abuse
- ♦ Achieve skills to face the multiple incidences and decision-making that may arise in the exercise of their profession
- ♦ Gain an in-depth knowledge of the deontology in sexuality and couple matters, as well as learn to carry out an exercise of introspection on those personal and professional aspects that could collide with their profession and that would produce an impairment of the therapeutic work
- ♦ Carry out research programs in sexuality

Specific Objectives

- Delve into the concepts of Sexology
- Gain in-depth knowledge of informative techniques
- Create your own brand and voice to be able to spread the word

With this qualification you will learn about the evolution of sexology as a science and you will delve into its future prospects"

03

Course Management

The teaching staff of this 100% online Postgraduate Certificate in Scientific Dissemination in Sexology is composed of experts in sexology, with extensive professional and academic experience in the field of human sexuality and its relationship with health. The main objective of the teachers is to provide quality and up-to-date education to the students, through a practical and participatory methodology, which allows them to acquire the necessary knowledge and skills to offer a comprehensive care adapted to the latest scientific postulates. Furthermore, the teachers will be available to solve any doubts or queries that students may have during the program.

“

This Postgraduate Certificate, directed by experts in sexology and medicine, offers a complete and up-to-date vision of the most relevant aspects in this scientific field”

Management

Ms. Ramos Escamilla, María

- ♦ Sexologist and Couple Therapist
- ♦ Director of Destination Kink
- ♦ Degree in Psychology from the Complutense University of Madrid
- ♦ Master's Degree in Sexology, Sex Education and Sexological Counseling from Camilo José Cela University

Professors

Ms. Cilveti Lapeira, Margarita

- ♦ Psychologist in Psychology and Sexology Office
- ♦ General Health Psychologist by the Autonomous University of Madrid
- ♦ Master in Sexology: education and sexual counseling by INCISEX and the University of Alcalá
- ♦ Expert in Brief Systemic Therapy in the Centro Soluciones

04

Structure and Content

The syllabus of the Postgraduate Certificate addresses the fundamental pillars of sexology and its informative framework, providing a complete and up-to-date vision of the most relevant aspects of human sexuality and its relationship with health. Topics such as sexuation and gender identity, desire orientation and erotic peculiarities will be studied in depth, offering practical tools for the diagnosis and treatment of sexual dysfunctions. Aspects related to sexual and couple therapy will also be studied, and the importance of sexological dissemination for an informed society without taboos will be analyzed. All this, in a 100% online format, adapted to the students' schedule and led by experts in sexology.

“

A syllabus that will take you on a journey through the evolution of Sexology as a science and human affective development”

Module 1. Assessment and Treatment of Community Infections

- 1.1. Pillars of Sexology and Dissemination Framework
 - 1.1.1. Referents (Masculine and Feminine) in Sex Education
 - 1.1.2. Map of the Human Sexual Fact
- 1.2. Conceptual Fields
 - 1.2.1. Sexuation and Sexuality
 - 1.2.2. Erotic and Amatory
 - 1.2.3. Couple and Procreation
- 1.3. Sexuation: Identity
 - 1.3.1. Conceptualization: ALO and Autosexuation
 - 1.3.2. Transsexuality and Cissexuality
- 1.4. SPH: Sexuality: Orientation of Desire
 - 1.4.1. Conceptualization
 - 1.4.2. Sexual Orientations
 - 1.4.3. Erotic and Desire
- 1.5. Erotic and Amatory. Erotic Peculiarities
 - 1.5.1. Conceptualization
 - 1.5.2. Idea and Meaning of Sex in History
 - 1.5.2.1. Normative Erotics
 - 1.5.2.2. Non-Normative Erotics
- 1.6. The Idea of Sex: Locus Genitalis
 - 1.6.1. Sexological View in History
 - 1.6.2. Pleasure Beyond Reproduction

- 1.7. Relationships
 - 1.7.1. Love: Concept of the Ars Amandi
 - 1.7.2. Relational Diversity
 - 1.7.3. Stages of Relationships
 - 1.7.4. Marriage and Living Together
 - 1.7.5. Sex without Love and Love without Sex
- 1.8. Sexological Dissemination
 - 1.8.1. General Principles
 - 1.8.2. Ethics in Dissemination
 - 1.8.3. Sexological Historical Overview
- 1.9. Current Dissemination Techniques
 - 1.9.1. Press, Television and Radio
 - 1.9.2. Social Media
 - 1.9.3. Creation of Material
- 1.10. Personal Branding Development
 - 1.10.1. Brand Models
 - 1.10.2. Content Composition and Creation
 - 1.10.3. Personal Branding Creation

An academic option that will allow you to get into the new methods of Dissemination in Sexology”

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gervas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the physician's professional practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that evaluate real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

Professionals will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 250,000 physicians have been trained with unprecedented success in all clinical specialties regardless of surgical load. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Surgical Techniques and Procedures on Video

TECH introduces students to the latest techniques, the latest educational advances and to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

06 Certificate

The Postgraduate Certificate in Dissemination in Sexology guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Dissemination in Sexology** contains the most complete and up-to-date scientific program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Dissemination in Sexology**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
