Index

01 Introduction

Child and Adolescent Psychiatry is not a subspecialty of Psychiatry or Pediatrics. It is a convergence of both, but also of Psychology and Pedagogy, among others. It is not a simple extension of them, and this has been recognized throughout the world for decades.

Introduction | 05 tech

Expand your knowledge of professional skills in child psychiatry through this program, where you will find the best teaching material with real clinical cases. Learn here about the latest advances in the specialty to perform quality medical practice"

tech 06 | Introduction

The WHO in 2005 (Child and Adolescent Mental Health Policies and Plans) launched its global alert:

- "Most psychiatric disorders in childhood are not adequately addressed, resulting in: increased social costs, increased rates of psychiatric morbidity in adulthood, and increased rates of delinquency.
- Individuals with untreated mental disorders represent a disproportionate segment of the population in the juvenile and adult delinquency justice systems.
- These sequelae are particularly tragic because some mental illnesses are preventable, many are treatable, and children with psychiatric disorders could live normal or near-normal lives if given appropriate treatment."

This **Postgraduate Certificate in Professional Skills in Child Psychiatry** is the most complete and up-to-date scientific program on the market. The most important features of the course are:

- Clinical cases presented by experts in psychology. The graphic, schematic, and eminently practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice.
- Diagnostic and therapeutic developments in professional skills in child psychiatry.
- Algorithm-based interactive learning system for decision-making in the presented clinical situations.
- With a special emphasis on evidence-based medicine and research methodologies in emergencies.
- All this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments.
- Content that is accessible from any fixed or portable device with an Internet connection.

Increase your skills in the approach to psychiatric skills in children through this program"

Introduction | 07 tech

66

This Postgraduate Certificate may be the best investment you can make when choosing a refresher program for two reasons: in addition to updating your knowledge of Professional Skills in Child Psychiatry, you will obtain a qualification from TECH - Technological University"

Forming part of the teaching staff is a group of professionals in the world of psychiatry who bring to this course their work experience, as well as a group of renowned specialists recognized by esteemed scientific communities.

The multimedia content developed with the latest educational technology will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive training program to train in real situations.

Problem-Based Learning underpins this program design, and the psychiatry must use it to try and solve the different professional practice situations that arise throughout the course university. For this reason, you will be assisted by an innovative, interactive video system created by renowned and experienced experts in the field of psychiatry with extensive teaching experience. This Postgraduate Certificate offers training in simulated environments, which provides an immersive learning experience designed to train for real-life situations.

It includes clinical cases to bring the program's degree as close as possible to the reality of care in medicine.

02 **Objectives**

The main program objective is to develop theoretical and practical learning, so that psychiatrists can master professional skills in child psychiatry in a practical and rigorous way.

This program will provide you with the skills to carry out your psychiatry praxis with confidence and will help you grow both personally and professionally"

tech 10 | Objectives

General Objective

• This program is aimed at facilitating psychiatrist performance in treating psychiatric pathology in children and adolescents

Specific Objectives

- Acquire the skills to deal with underaged patients
- Develop techniques to achieve the motivation and active participation of a child or adolescent patient in the diagnosis and intervention process
- Establish therapeutic guidelines for each type of disorder detected
- Master the skills for efficient communication and establish leadership in childhood
 psychiatry
- Acquire the skills and strategies for clinical management in psychiatry

Objectives | 11 tech

Seize the opportunity and take the step to get up to date on the latest developments in professional skills in child psychiatry.

03 Course Management

This program includes highly regarded health professionals in the field of psychiatry in its teaching staff, who bring the experience of their work to this training.

In addition, renowned specialists, members of prestigious national and international scientific communities, are involved in designing and preparing the program.

Course Management | 13 tech

Learn the latest advances in professional skills in child psychiatry from leading professionals"

tech 14 | Course Management

International Guest Director

Included as one of the "most influential minds" in the Clarivate list and with more than 40 research awards, Dr. Chirstoph U. Corell is one of the major references in the field of Psychiatry. He has developed his professional, teaching and scientific career in Germany, Great Britain and the United States.

His passion for this specialty led him to focus his efforts on the study of the identification and treatment of young people and adults with severe mental illnesses. He has also conducted numerous clinical trials and has delved into areas such as Schizophrenia, Bipolar Disorder, Major Depression and other psychotic disorders.

Corell has also focused on the analysis of mood and autism/behavioral spectrum disorders, ranging from the prodrome to the first episode, patients with multiple episodes and refractory illnesses. The result of his hard work is reflected in the more than 700 journal articles, authored and co-authored, which place him with a Google Scholar Index h 136. He also has numerous publications, active participation in national and international conferences.

A great potential that is evident, in turn, in his performance as a professor in the classrooms of high-level academic institutions. In addition, he is an international reference in his role as a communicator, which has led him to participate in media spaces, where he conveys information in a simple and direct way both to the public and to other experts in the same field.

Dr. Corell, Christoph U.

- Researcher at the Center for Psychiatric Neuroscience Feinstein Institute for Medical Research
- Medical Director at Zucker Hillside Hospital in the Recognition and Prevention Program (RAP)
- Co-Director of the Child and Adolescent Psychiatry Laboratory of the Center for Psychiatric Neuroscience at Feinstein Institute for Medical Research
- Professor of Psychiatry at the Hofstra/Northwell Zucker School of Medicine
- Professor and Head of the Department of Child and Adolescent Psychiatry at Charité University Medicine, Berlin
- Medical degree from the Free University of Berlin and the University of Dundee Medical School

 Member of: International Society for Bipolar Disorders (ISBD), German Association of Child and Adolescent Psychiatry (DGKJP), Lundbeck International Neuroscience Foundation (LINF), Société Médico-Psychologique, Schizophrenia International Research Society (SIRS), American Society of Clinical Psychopharmacology (ASCP), International Early Psychosis Association (IEPA), Nordostdeutsche Gesellschaft für Psychiatrie, Psychotherapie und Psychosomatik des Kindes- und Jugendalters e. V., European College of Neuropsychopharmacology (ECNP)

Thanks to TECH, you will be able to learn with the best professionals in the world"

tech 16 | Course Management

Management

Dr. Cantó Diez, Tomás J.

- Degree in Medicine from the University of Alicante
- Specialist in Psychiatry, Clinical Provincial Hospital in Barcelona
- Master's Degree in Clinical Management and Mental Health, Pablo Olavide University, Seville
- Psychiatrist of the Special Training Unit at the 'Lucentum' Shelter for Minors, in Alicante, dependent on the Department of Equality and Inclusive Policies of the Generalitat Valenciana
- Coordinator of the Childhood Mental Health Unit, Alicante University General Hospital
- Professor for the Master's Degree in Mental Health, Miguel Hernandez de Elche University
- Professor for the Refresher Course in Child and Adolescent Mental Health, Miguel Hernandez de Elche University
- Clinical Practice Tutor, Miguel Hernandez de Elche University
- Member of the Spanish Association of Child and Adolescent Psychiatry (AEPNYA)
- Former President of the Publications Committee of the Spanish Association of Child and Adolescent Psychiatry
- Member of the American Academy of Child and Adolescent Psychiatry (AACAP)
- Member of the Society of Psychiatry of the Valencian Community (SPCV)
- Member of the Spanish Society of Psychiatry (SEP)

Course Management | 17 tech

Dr. Alda, José Angel

- Degree in Medicine from the University of Zaragoza
- Specialist in Psychiatry
- Doctor of Medicine and Surgery from the University of Zaragoza
- Head of the Child and Adolescent Psychiatry Department at Sant Joan de Déu Hospital, Barcelona
- Head of the ADHD Unit at Sant Joan de Déu Hospital, Barcelona
- Professor for the Master's Degree in Clinical Child and Adolescent Psychopathology in the faculty of Psychology at the Autonomous University of Barcelona
- Professor for the Master's Degree in Clinical Child and Adolescent Psychopathology in the faculty of Psychology at the Autonomous University of Barcelona
- Professor on the Adana Foundation Master's Postgraduate Course Specialization in ADHD, Learning Disorders and Behavioral Disorders
- Professor for the Training Master's in Paidopsychiatry Autonomous University of Barcelona
- Professor for the Master's Degree in Neuropediatrics University of Barcelona
- Professor of the Master's Degree in Nursing Care in Childhood and Adolescence Sant Joan de Déu University
- Professor of the degree subject "Mental Health Nursing" Sant Joan de Déu University Esplugues
- Director of Doctoral and Master's Thesis
- Collaborating Researcher in the Research Group "Etiopatogènia i tractament dels trastorns mentals greus" ("Etiopathology and treatment of severe mental disorders") recognized as Consolidated Research Group by the Generalitat de Catalunya.Referencia 2013-SGR-1603 Coordinator Dr. Judith Usall i Rodié
- Collaborating Researcher in the Research Group "Etiopatogènia i tractament dels trastorns mentals greus" ("Etiopathology and treatment of severe mental disorders") recognized as Consolidated Research Group in the Parc Sanitari Sant Joan de Déu Group Coordinator Dr. Judith Usall i Rodié
- Member of the Spanish Association of Child and Adolescent Psychiatry (AEPNYA)
- Member of the Medical Sciences Academy of Cataluyna
- Coordinator of the Clinical Practice Guide on ADHD for the Ministry of Health (2010)
- Member of the creation group of the Clinical Practice Guide on ADHD for the Ministry of Health (2016)
- Vice president of the Spanish Association of Child and Adolescent Psychiatry (AEPNYA)

04 Structure and Content

The content structure has been designed by a team of professionals who recognize the implications of training in daily medical practice in child psychiatry, who are aware of the current relevance of specialization to be able to treat patients with psychiatric pathology, and who are committed to quality teaching through new educational technologies.

This Postgraduate Certificate in Professional Skills in Child Psychiatry is the most complete and up-to-date scientific program on the market"

tech 20 | Structure and Content

Module 1. Professional Skills in Child Psychiatry

- 1.1. The Clinical Interview
 - 1.1.1. Types of Interviews
 - 1.1.2. Parent Interview
 - 1.1.3. Interview and Examination Elements in Children
 - 1.1.4. Child Play and Drawing
 - 1.1.5. Adolescent Interview
 - 1.1.6. Interview of Other Adults
- 1.2. Child Examination
 - 1.2.1. Physical Exploration
 - 1.2.1.1. Physical Examination
 - 1.2.1.2. Medical Examination
 - 1.2.1.3. Significance of Lesser Neurological Symptoms
 - 1.2.1.4. Neuroimaging Studies in Child and Adolescent Psychiatry
 - 1.2.2. Psychological/Mental Health Examination
 - 1.2.2.1. Cognitive Examination
 - 1.2.2.2. Emotional Examination
 - 1.2.2.3. Social Examination
 - 1.2.2.4. Instrumental Examination
 - 1.2.2.5. Interpretive Instruments
 - 1.2.3. Psychopathological Examination
- 1.3. Neuroimaging and Other Complementary Studies
 - 1.3.1. Magnetic Resonance
 - 1.3.2. Neuroimaging Techniques Using Radiotracers PET/SPECT
- 1.4. The Diagnostic Process and Reasoning
 - 1.4.1. Diagnostic Evaluation What and Why?
 - 1.4.2. Functional Analysis of Behavior

66

A unique, key, and decisive training experience to boost your professional development"

05 **Methodology**

This training program provides you with a different way of learning. Our methodology uses a cyclical learning approach: *Re-learning.*

This teaching system is used in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Re-learning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

tech 24 | Methodology

At TECH we use the Case Method

In a given situation, what would you do? Throughout the program, you will be presented with multiple simulated clinical cases based on real patients, where you will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

> With TECH you can experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching potential or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in professional medical practice.

Did you know that this method was developed in 1912 at Harvard for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method"

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only grasp concepts, but also develop their mental capacity by evaluating real situations and applying their knowledge.

2. The learning process has a clear focus on practical skills that allow the student to better integrate into the real world.

3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.

 Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

tech 24 | Methodology

Re-learning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Re-learning.

Our University is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

The physician will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-theart software to facilitate immersive learning.

Methodology | 25 tech

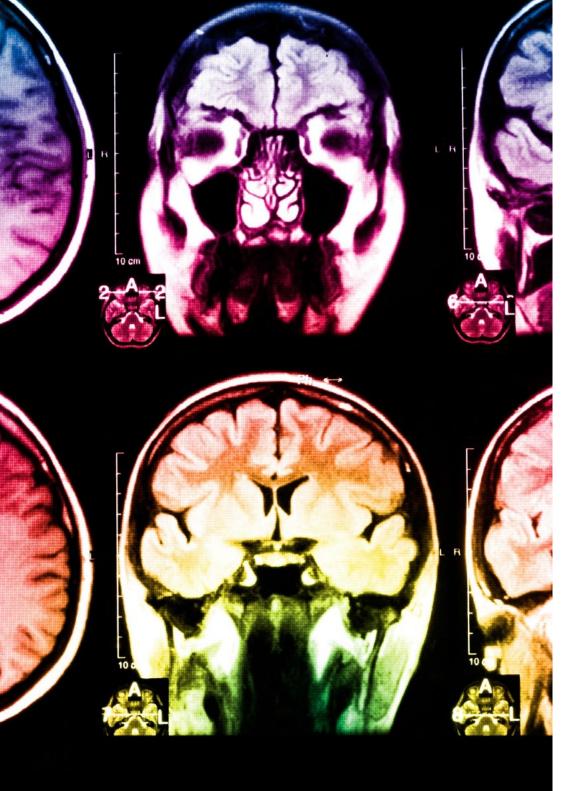

At the forefront of world teaching, the Re-learning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best Spanish-speaking online university (Columbia University).

With this methodology we have trained more than 250,000 physicians with unprecedented success, in all clinical specialties regardless of the surgical load. All this in a highly demanding environment, where the students have a strong socioeconomic profile and an average age of 43.5 years.

Re-learning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (we learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

tech 26 | Methodology

In this program you will have access to the best educational material, prepared with you in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

20%

15%

3%

15%

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Latest Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current medical techniques. All this, in first person, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides. in our virtual library you will have access to everything you need to complete your training.

Methodology | 27 tech

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, we will present you with real case developments in which the expert will guide you through focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the program, through assessment and self-assessment activities and exercises: so that you can see how you are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an expert strengthens knowledge and memory, and generates confidence in our difficult future decisions.

Quick Action Guides

We offer you the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help you progress in your learning.

06 **Certificate**

The Postgraduate Certificate in Professional Skills in Child Psychiatry guarantees, in addition to the most accurate and updated specialization, access to a qualification issued by TECH - Technological University.

Successfully complete this training and receive your diploma without the hassle of travel or paperwork"

tech 32 | Certificate

This **Postgraduate Certificate in Professional Skills in Child Psychiatry** is the most complete and up-to-date scientific program on the market.

After the student has passed the evaluations, they will receive their corresponding **certificate** issued by **TECH Technological University by tracked mail**.

The diploma issued by **TECH Technological University** will express the qualification obtained in the Postgraduate Certificate, and will meet the requirements commonly demanded by labour exchanges, competitive examinations and professional career evaluation committees.

Title: Postgraduate Certificate in Professional Skills in Child Psychiatry
