01

Introduction

When treating acne, topical treatments are the basis in many mild cases and complement systemic treatments in more severe cases. In addition to the topical medications themselves, it is very important to know which cosmetics are the most suitable for acne-prone skin. Throughout the program you will acquire the skills of a first-level professional with the management and mastery of the most advanced procedures and techniques of the current medical panorama.

A close-up photograph of human skin showing several acne lesions, including whiteheads and small red bumps. The skin is fair-toned and the lighting is soft, highlighting the texture of the skin and the details of the acne.

“

Management of acne specifically developed in a highly efficient Postgraduate Diploma, with a practical approach of high-educational effectiveness”

The appearance of bacterial resistance is a serious and growing problem in the environment, and it is essential to improve topical antimicrobial prescribing habits in order to try to minimize this complication.

In recent years, new topical therapeutic agents are being developed and it is necessary to be aware of them.

The magistral formulation allows for individualized treatment, which is very interesting in such a polymorphous condition as acne. It will be possible to adapt both the active ingredients and the administration vehicles to the current situation of each patient, increasing our effectiveness. In addition, some very effective treatments are only available through the master formulation. For all these reasons, it is essential to incorporate the formulation into the therapeutic repertoire.

Oral antimicrobials are the mainstay of treatment in many moderate to severe cases in which inflammatory lesions are predominant. As with their topical application, the treatment of acne with oral antibiotics is one of the causes of the increase in the rate of bacterial resistance. This is why we must optimize our treatment regimens, combining with other drugs that reduce the risk of resistance and minimizing the duration of cycles.

Hormonal treatment is very effective in women with acne, especially when there is more evidence of hyperandrogenism.

Numerous oral hormonal contraceptives are available, most of them with combinations of two active ingredients. It is necessary to know them, as some will be very beneficial in these patients, but others may significantly worsen their acne.

A comprehensive compendium of knowledge that will cover these and other essential issues in the treatment of acne.

This **Postgraduate Diploma in Main Acne Treatments** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ Development of a Large Number of Case Studies Presented by Experts
- ♦ Graphic, schematic, and highly practical contents
- ♦ The latest developments and cutting-edge advances in this field
- ♦ Practical exercises where the self-evaluation process can be carried out to improve learning
- ♦ Innovative and highly efficient methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

With this Postgraduate Diploma you will be able to combine a high intensity specialization with your professional and personal life, achieving your goals in a simple and real way"

“

The latest advances in the field of Acne compiled in a Postgraduate Diploma with high-educational efficiency, which will optimize your effort with the best results”

All the necessary methodology for an effective approach in the field of acne, in a specific and concrete Postgraduate Diploma.

A program designed to allow you to implement the knowledge that you acquire almost immediately in your daily practice”

This Postgraduate Diploma is focused on the practical applications of the theories covered herein. With the most effective teaching systems, proven methods imported from the most prestigious universities in the world, the students will be able to acquire new knowledge in an eminently practical way. In this way, TECH strives to convert effort into real and immediate skills.

Our Online System is Another of the Strengths of our Educational Proposal With an interactive platform that has the advantages of the latest technological developments, the most interactive digital tools are placed at the student's service. In this way, the student is offered a way of learning that is totally adaptable to their needs, so that they can perfectly combine this program with their personal or work life.

02 Objectives

The objective of this Postgraduate Diploma in Main Acne Treatments is to offer medical professionals a complete pathway to acquire neurological knowledge, and skills for routine clinical practice, or to update on the latest advances in this field. A practical and effective way to keep you at the forefront of a constantly evolving profession.

“

TECH's goal is yours: to help you get the most complete update in the area of Acne treatment in a Postgraduate Diploma fully compatible with your work and personal obligations"

General Objectives

- ♦ Gain a fully up-to-date knowledge of the different therapeutic options available for the treatment of acne
- ♦ Diagnose those cases of acne secondary to systemic pathologies or external agents that require specific management
- ♦ Know and be able to indicate and apply the different modalities of available physical therapies
- ♦ Know the paths of research and possible future directions of treatment
- ♦ Know how to treat obstinate cases resistant to the usual therapies
- ♦ Detect and anticipate possible complications and side effects of each treatment
- ♦ Be able to diagnose psychopathological alterations that are secondary to the disease itself or to treatments, which affect the patient's life in relationships and the fulfilment of the patient as a person
- ♦ Individualize the management of the esthetic after-effects of acne, choosing and combining the best options from among the multiple techniques available

An opportunity created for professionals who are looking for an intensive and effective program to take a significant step forward in the practice of their profession"

Specific Objectives

Module 1. Topical Treatments

- ◆ Know the action mechanisms, recommended guidelines, side effects and precautions to be taken with topical and oral antibiotics in acne
- ◆ Know the action mechanisms, recommended guidelines, side effects and precautions to be taken with topical and oral retinoids in acne

Module 2. Oral Antimicrobials

- ◆ Identify the main oral antimicrobials that have a favorable impact on the treatment of acne
- ◆ Understand the mechanisms of oral treatment and to evaluate its efficacy compared to other types of treatment
- ◆ Know the main oral microbial drugs and compare them with antimicrobials, identifying which has the greatest impact on the treatment of acne

Module 3. Hormonal Treatment

- ◆ Know the action mechanisms, recommended guidelines, side effects and precautions to be taken with hormonal treatments for acne
- ◆ Identify the main oral treatments for acne and their repercussions on other pathologies or their emergence

03

Course Management

This very complete Postgraduate Diploma is taught by leading specialists in acne. Trained in different fields of clinical care and practice, all of them experienced in teaching and research in different areas of the nervous system and with the necessary management knowledge to give a broad, systematic and realistic vision within the complexity of this field, this group of experts will accompany the student throughout the specialization putting their real and up-to-date experience at your service.

A close-up photograph of a person's lips, showing the texture of the skin and the color of the lips. The image is partially obscured by a dark blue diagonal shape in the top right corner and a white diagonal shape in the bottom right corner.

“

An impressive teaching staff, made up of professionals from different fields of expertise, will be your teachers during your education: a unique opportunity not to be missed”

International Guest Director

Dr. Joshua Zeichner is an international eminence in the field of Dermatology and Cosmetic Medicine. In both fields he has based his professional career, acquiring the most advanced skills in care and for the development of empirical studies. Based on these skills of excellence, the expert has taken on challenges such as the position of Director of Cosmetic and Clinical Research in the Department of Dermatology at Mount Sinai Hospital in the United States.

He has also been awarded the prestigious Skin Genius Award by Elle magazine for his innovative approaches to the treatment of aging skin and faces. In turn, his peers have voted for his name to fill New York Magazine's Best Doctors lists since 2018. Also, he has had rankings as one of the Top Doctors in the New York Metropolitan Area by Castle Connolly and New York City Super Doctors, renowned catalogs that evidence Dr. Zeichner's dedication to his patients.

In addition to his medical knowledge and practice, often focused on Acne, this expert has therapeutically addressed other pathologies and general skin conditions. Among them, he has stood out for his comprehensive management of Eczema, Rosacea, Psoriasis and Cancer in different areas of the epidermis. At the same time, he has mastered the use of Botox and dermal fillers, as well as Laser and Chemical Peels.

Dr. Zeichner's opinion is also frequently used by the media. For this reason, his name has been mentioned many times in reports published by magazines and newspapers such as Allure, Vogue, Cosmopolitan, Elle, Glamour and The New York Times. Likewise, he regularly participates in congresses and lectures on Dermatology around the world.

Dr. Zeichner, Joshua

- Director of Cosmetic and Clinical Research in Dermatology at Mount Sinai Hospital
- Specialist in Dermatologic Cosmetics, Acne Treatment and Anti-Aging Skin.
- Physician Consultant at Mount Sinai Beth Israel, Mount Sinai Brooklyn, Mount Sinai Queens and Mount Sinai West hospitals
- Officially Board Certified by the American Board of Dermatology
- Specialist Practitioner at St. Vincent Brooklyn Queens Catholic Medical Center
- John Hopkins University, M.D.
- Dermatology Residency and Dermopharmacology Fellowship at The Mount Sinai Hospital
- Graduate of the University of Pennsylvania

“

Thanks to TECH, you will be able to learn with the best professionals in the world”

Management

Leis Dosil, Vicente Manuel

- ♦ Dermatologist at the IDELIA clinic
- ♦ Degree in Medicine and Surgery. Faculty of Medicine and Dentistry University of Santiago de Compostela
- ♦ University Expert Certificate in Medical and Surgical Dermatology by the University of Alcalá de Henares
- ♦ University Expert degree in Health Services Management through the UNED

Professors

Dr. Antonio Clemente Ruiz de Almirón

- ♦ Dermatologist from the University of Granada

Dr. Teresa Olivares Rueda

- ♦ Degree in Medicine and Surgery from the University of Murcia

Dr. Nicolás Iglesias Pena

- ◆ Degree in Medicine and specialist in Medical-Surgical Dermatology and Venereology
- ◆ Dermatologist at the Lucas August university hospital (Lugo)
- ◆ Resident Medical Intern in Dermatology, Medical-Chirurgic Dermatology and Venereology in Complejo
- ◆ A Coruña University Hospital
- ◆ Degree in Medicine from the Faculty of Medicine (Santiago de Compostela university)
- ◆ International Master's Degree in Aesthetic Dermatology at the University of Alcalá de Henares (Madrid)
- ◆ Member of the Spanish Academy of Dermatology and Venereology

Dr. Lucía Barchino

- ◆ Degree in Medicine. Autonomous University of Madrid
- ◆ Specialist in Medical-Surgical Dermatology and Venereology, via MIR. Gregorio Marañón General University Hospital, Madrid
- ◆ Doctoral courses in Medical-Surgical Dermatology and Venereology. Complutense University of Madrid
- ◆ Attending physician specializing in Dermatology and Venereology, Dermatology Department, Gregorio Marañón General University Hospital, Madrid
- ◆ Head of the gynecological dermatology practice at the Gregorio Marañón General University Hospital, Madrid
- ◆ Tutor of Dermatology residents at the Gregorio Marañón General University Hospital, Madrid
- ◆ Collaborating Physician in Dermatology Teaching Practice at the Gregorio Marañón University Hospital of the UCM

04

Structure and Content

The structure of the contents has been designed by a team of professionals, aware of the relevance of current specialization in order to advance in the labor market with confidence and competitiveness, and to practice your profession with the excellence that only the best program provides.

“

This Postgraduate Diploma contains the most complete and up-to-date scientific program on the market"

Module 1. Topical Treatments

- 1.1. Benzoyl Peroxide
- 1.2. Topical Antibiotics
- 1.3. Topical retinoids
- 1.4. AHA
- 1.5. Azelaic Acid
- 1.6. Dapsone
- 1.7. New Drugs
- 1.8. Magistral Formulation in Acne
- 1.9. Acne Skin Care
 - 1.9.1. Specific Cosmetics
 - 1.9.2. Supportive Cosmetics to the Treatments
 - 1.9.3. Corrective Makeup

Module 2. Oral Antimicrobials

- 2.1. Tetracyclines
 - 2.1.1. Doxycycline
 - 2.1.2. Minocycline
- 2.2. Azithromycin
- 2.3. Erythromycin
- 2.4. Clindamycin
- 2.5. Cotrimoxazol
- 2.6. Amoxicillin and Cephalosporins
- 2.7. Sulfone
- 2.8. Antibiotic Resistance
- 2.9. Optimization of the Guidelines
- 2.10. Treatment Combinations

Module 3. Hormonal Treatment

- 3.1. Candidates for Hormonal Treatment
- 3.2. Complementary Studies, Hormonal Profile
- 3.3. Oral Hormonal Contraceptives
- 3.4. Hormonal Contraceptives in Other Devices
 - 3.4.1. Hormonal Contraceptive Devices
 - 3.4.2. Effectiveness in the Treatment of Acne
- 3.5. Cyproterone Acetate
- 3.6. Spironolactone
- 3.7. Metformina
- 3.8. Corticoids
 - 3.8.1. Systemic Corticoids
 - 3.8.2. Intralesional Corticoids
- 3.9. Acne in Men with Hormonal Treatments

“

A unique, key, and decisive educational experience to boost your professional development”

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the physician's professional practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that evaluate real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

Professionals will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 250,000 physicians have been trained with unprecedented success in all clinical specialties regardless of surgical load. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

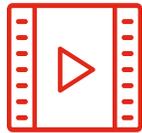

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Surgical Techniques and Procedures on Video

TECH introduces students to the latest techniques, the latest educational advances and to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06 Certificate

The Postgraduate Diploma in Main Acne Treatments guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Diploma in Main Acne Treatments** contains the most complete and up-to-date scientific on the market.

After the student has passed the evaluations, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Diploma in Main Acne Treatments**

Official No. of Hours: **750 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
