Introduction

Geriatric specialties are increasingly in demand due to the growing social awareness of this population group. Thus, the care of the elderly has acquired great importance, making this area of work one of the most highly valued, due to its complexity and social impact. For this reason, this program is a great opportunity for those nursing professionals who wish to update their knowledge in the field or who want to access this interesting field of work, since it offers them the best tools and the best content to become true experts.

“

Get up to date on the procedures and care that the nursing professional should apply to geriatric patients in any of their clinical circumstances”

Social evolution demands, within the healthcare context, that healthcare centers be more competitive and oriented towards improving the healthcare response given to geriatric patients. The volume of these changes and the speed with which they occur demand qualified professionals, competent and capable of responding to the new times by providing expert care.

Geriatric patient care has a very broad and innovative field of action with the introduction of new technologies in the detection of pathologies, their attention and the necessary care for each process and each person, in which the nursing professional is a key player in the multidisciplinary approach in each and every one of its aspects.

Therefore, this program in Geriatric Nursing is oriented to update the knowledge and skills of the nursing professional, bringing theoretical knowledge closer to practical work, since professional qualification in this area is of vital importance for all health professionals working within the health system.

One of the most significant aspects that make this Master's Degree stand out from others in the sector is its modality, which allows it to be taken online from any device with Internet access. In this way, the students will have access to the contents at any time and from any place, being able to self-regulate their learning according to their needs.

This **Master's Degree in Geriatric Nursing** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The development of practical cases presented by experts in Geriatric Nursing
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*You will be the most valued
nurse in your environment
thanks to your geriatric care”*

“

With this Master's Degree, you will be able to update your knowledge in geriatric patient care, improve the prognosis and reduce the complications and sequelae of the user”

The program's teaching staff includes professionals from the sector who contribute their work experience to this program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. This will be done with the help of an innovative system of interactive videos made by renowned experts.

A degree that will allow you to become a highly competent professional working in the field of Geriatric Nursing.

A program created and directed by experts in this area of work, which makes this degree a unique opportunity for professional growth.

02 Objectives

The Master's Degree in Geriatric Nursing offers in detail the most relevant advances in the specialty from an eminently practical point of view, at a time when the accreditation of knowledge, including the latest technological advances and new drugs, plays a fundamental role. The objective of this degree is to provide professionals with the knowledge and skills necessary to perform their activity using the most advanced protocols and techniques of the moment.

“

*Learn the best techniques and procedures
in Geriatric Nursing and prepare yourself
for rapid professional improvement”*

General objectives

- ♦ Update the professional in nursing procedures and interventions for proper care of geriatric patients in the internal medicine hospitalization unit
- ♦ Acquire a series of skills aimed at improving the skills of nursing professionals dedicated to the geriatric field
- ♦ Provide the best treatments, from the nursing professional's point of view, for geriatric patients, taking into account the particularities of each case

A boost to your CV that will give you the competitiveness of the best professionals in the labor market"

Specific objectives

Module 1. Aging: Considerations for Nursing Care

- ♦ Differentiate which risk factors we can modify and how to modify them
- ♦ Update nursing procedures in comprehensive patient assessment
- ♦ Explain the most relative illnesses and types of care in Internal Medicine

Module 2. Nutritional sphere in the elderly

- ♦ Understand the importance of nutrition in the elderly
- ♦ Adapt nutrition to different patients, depending on their pathology
- ♦ Update on the complications that can appear in diabetes, to be able to anticipate them and prevent them from occurring, or to know how to act if they have already appeared
- ♦ Incorporate the procedures for dealing with the different diseases associated with the metabolic syndrome in daily practice

Module 3. Skin in the Elderly

- ♦ Developing proper skin care for the elderly
- ♦ Knowledge of the most common skin pathologies in this type of patient

Module 4. Functional Sphere in the Elderly

- ♦ Update expert nursing care related to patient safety

Module 5. Neurological Alterations: Cognitive Impairment and Dementia

- ♦ Understand the complexity of neurological disorders in elderly patients
- ♦ Identify the most common health problems in chronic illnesses
- ♦ Recognize the clinical changes in different situations

Module 6. Most Prevalent Neurological and Sensory Organ Disorders in the Elderly

- ♦ Provide a response to neurological alterations affecting the senses
- ♦ Describe nursing care before and after diagnostic procedures and techniques in the internal medicine inpatient unit
- ♦ Assess the importance of the proper use of the nursing record in the internal medicine service, and describe the implementation procedures

Module 7. Social Sphere in the Elderly

- ♦ Understand the social needs of the elderly
- ♦ Actively participate in the creation of social habits in geriatric patients

Module 8. Elimination in the Elderly

- ♦ Know the main pathologies related to the excretory system in the field of geriatrics
- ♦ Recognize the material resources necessary to perform the different diagnostic or therapeutic tests

Module 9. Falls in the Elderly

- ♦ Respond to potential injuries resulting from falls and blows
- ♦ Identify emergency situations in patients with VTE and update procedures to deal with them

Module 10. Palliative Care for the Elderly

- ♦ Have the best tools to offer the best palliative treatments applied to geriatrics

03 Skills

This program in Geriatric Nursing has been created as a high education tool for the professional who wishes to specialize in this field or expand their knowledge in it. Its intensive teaching will prepare you to be able to intervene, in an adequate manner, in the different areas of work in this field. A compendium of knowledge that will provide you with the most up-to-date skills to act safely and competently in all procedures in this field of work.

A photograph of a woman with long blonde hair, looking down with a focused expression. She is wearing a teal top. In the foreground, another person's hands are visible, holding a stethoscope. The background is a soft, out-of-focus white. The image is partially covered by a large teal diagonal shape on the right side of the page.

“

This Master's Degree will provide you with the essential personal and professional skills to work in Geriatric Nursing and compete at the highest level”

General skill

- ♦ Provide first level care to the geriatric patient from the nursing area

“

Seize the moment and take the step to get up to speed on the latest developments in anesthesiology, resuscitation and pain management”

Specific skills

- ♦ Perform a comprehensive assessment of the geriatric patient
- ♦ Establish care guidelines for the geriatric multi-pathological patient
- ♦ Exercise nursing care in patients with metabolic syndrome
- ♦ Safely manage patients with venous thromboembolic disease
- ♦ Safely manage and care for acute and critical phase stroke patients
- ♦ Intervene appropriately in all aspects of geriatric emergencies

04

Course Management

The teaching staff of this Master's Degree is composed of a faculty of the highest level in the field of Geriatric Nursing, and will make available to its students all the keys of the subject so that they can apply them later in their professional careers. Thus, this degree has an eminently practical approach with an emphasis on work activity, which makes it a great opportunity for students seeking to update their knowledge and skills in this field.

“

TECH offers you an impressive teaching staff made up of top-level professionals: a unique opportunity not to be missed”

Guest Director

Ms. Hernanz Borrego, Giovanna

- ♦ Head of Nursing Area of medical specialties (Geriatrics, Internal Medicine, Infectious Diseases Unit, Pneumology, Nephrology, Digestive, Neurology, Stroke and Hemodialysis Unit, Multipurpose Medical Day Hospital, Palliative Care Unit, Endoscopy, Home Hospitalization) of the General University Hospital Gregorio Marañón
- ♦ Collaboration as a teacher in the Master's Degree in Health Services Management for Nursing and Nursing Management at CEU Cardenal Herrera University
- ♦ University Diploma in Nursing from the Complutense University of Madrid
- ♦ Master's Degree in Nursing Direction and Management at CEU Cardenal Herrera University
- ♦ Active member of the Environmental Management Committee of the General University Hospital Gregorio Marañón
- ♦ Active member of the Functional Commission of Health Risks of the General University Hospital Gregorio Marañón

Management

Ms. Verano de la Torre, Marina

- ♦ Health Research Nurse - Jiménez Díaz Foundation University Hospital
- ♦ Teaching collaborator in seminars on Comprehensive Geriatric Assessment as part of the Nursing of the Elderly course at the Autonomous University of Madrid
- ♦ Lecturer in the course Update in Nursing Care for the Elderly at the Doctor Rodríguez Lafora Hospital
- ♦ Teacher in the psychogeriatrics course at Doctor Rodríguez Lafora Hospital: role of Nursing in active aging
- ♦ Degree in Nursing. Autonomous University of Madrid
- ♦ Specialist in Geriatric Nursing Ramón y Cajal Hospital Multidisciplinary Teaching Unit
- ♦ Nurse in the Traumatology, Urology and Thoracic Surgery Unit at Getafe University Hospital (Madrid)
- ♦ Nurse in Digestive Unit at Puerta de Hierro University Hospital (Madrid)

Professors

Ms. Mendoza Moreno, Virginia

- ♦ Advanced Practice Nursing (APN) in the Hip Fracture Unit. Department of Geriatrics. Gregorio Marañón General University Hospital
- ♦ Clinical internship training for Geriatrics Nursing Resident Students
- ♦ Researcher-Collaborator in the multicenter study: National Hip Fracture Registry
- ♦ Collaborator as randomizer and treatment administrator in "Phase III, multinational, blinded observer, randomized, placebo-controlled study to demonstrate the efficacy of a single dose of the investigational vaccine against Respiratory Syncytial Virus in people over 60 years of age" GSK
- ♦ University Diploma in Nursing. San Juan de Dios University School. Comillas Pontifical University
- ♦ Geriatric Nurse Specialist

Ms. Rodríguez de la Madrid, Eva María

- ♦ Head of Geriatric Nursing Unit and Emergency Department. Gregorio Marañón General University Hospital
- ♦ Nurse in medical, surgical, geriatric and psychiatric hospitalization units.
- ♦ Associate Professor, Faculty of Health Sciences, Rey Juan Carlos University, Madrid
- ♦ Diploma in Nursing. University of Leon
- ♦ Master's Degree in Research in Care. Complutense University of Madrid
- ♦ Occupational Risk Prevention Technician. Training Institute of the Ministry of Labor of the Community of Madrid
- ♦ Participation in posters, papers and articles related to Nursing

Ms. Valadés Malagón, María Isabel

- ♦ Nurse. Acute Geriatrics Unit. Gregorio Marañón General University Hospital
- ♦ University Diploma in Nursing. Pontific University of Salamanca, Madrid
- ♦ Adaptation to the Nursing Degree. Pontific University of Salamanca, Madrid
- ♦ Specialist Nurse in Geriatric Nursing
- ♦ Postgraduate Certificate Diploma in Social Work. Complutense University, Madrid

Ms. Paredes Fernández, Andrea

- ♦ General and Digestive System Surgery Department. Gregorio Marañón General University Hospital
- ♦ Emergency Department. Gregorio Marañón General University Hospital
- ♦ Researcher on Physical training and health education in the prevention of functional deterioration associated with hospitalization in the elderly (AGECAR Plus)
- ♦ Degree in Nursing. Complutense University of Madrid
- ♦ Master's Degree in Care Integration and Clinical Problem Solving in Nursing
- ♦ Nursing Resident, Geriatric Nurse Specialist. Gregorio Marañón General University Hospital

Ms. Aya Rodríguez, Sara

- ♦ Nurse continuity of care - geriatrics at the University Hospital Foundation Alcorcon
- ♦ Geriatric Nurse Residence. Consorci Sanitari
- ♦ Nurse. Palliative Care Unit of the Vianorte Laguna Foundation
- ♦ Degree in Nursing, Alcalá University
- ♦ Master's Degree in Care Integration and Clinical Problem Solving in Nursing
- ♦ Geriatric Nursing Specialty Training Program. UDM Geriatrics. Consorci Sanitari de L'Anoia (Barcelona)

Mr Álvarez Martín, Javier

- ♦ Advanced Practice Nurse in Frailty, Leicester Royal Infirmary, Leicester, UK
- ♦ Nurse in Geriatrics, Red Cross Central Hospital San José y Santa Adela, Madrid
- ♦ Geriatric Nursing Resident, Ramón y Cajal University Hospital, Madrid
- ♦ Specialist in Geriatric Nursing, Ramón y Cajal University Hospital, Madrid
- ♦ Master Advanced Clinical Practice, Montfort University, Leicester, UK
- ♦ Master's Degree in Health Care Research, UCM, Faculty of Nursing, Physiotherapy and Podiatry

Ms. Pérez Panizo, Nuria María

- ♦ Geriatric Nurse Specialist. Ramón y Cajal University Hospital.
- ♦ Nurse. La Paz University Hospital
- ♦ Nurse. Gregorio Marañón General University Hospital
- ♦ Diploma in Nursing. University of Oviedo
- ♦ Geriatric Nurse Specialist. Ministry of Education, Science and Universities
- ♦ Expert in Clinical Management
- ♦ Degree in Social and Cultural Anthropology

Ms. Rubio Sánchez, Bárbara

- ♦ Geriatric Nursing Residency at Ramón y Cajal University Hospital
- ♦ Emergency service, endoscopy service, hospitalization service, cystoscopy service and specialized consultation service at the León University Hospital
- ♦ Emergency department, internal medicine department and surgery department at the HM La Regla Hospital
- ♦ Emergency service and primary care management at Sierrallana Hospital
- ♦ Degree in Nursing. University of Leon
- ♦ Geriatric Nurse Specialist. Jiménez Díaz foundation Ramón y Cajal
- ♦ University Expert in Nursing Processes and Interventions in the General Care Environment

Ms. Veras Basora, Mally

- ♦ Fundación Alcorcón University Hospital. Nurse continuity of care - geriatrics
- ♦ Ramón y Cajal Hospital. Geriatric Service
- ♦ Foundation San José Institute: hospitalization
- ♦ Hospital Quirón San José: outpatients. S. emergency department (pediatrics/gynecology)
- ♦ Degree in Nursing (Complutense University of Madrid)
- ♦ Master's Degree in Integration of Care and Clinical Problem Solving in Nursing
- ♦ Geriatric Nurse Specialist. H. Ramón y Cajal

Ms. Vázquez Prudencio, Carolina

- ♦ Geriatrics Nurse in Henares University Hospital
- ♦ Hospitalization and Home Hospitalization Nurse at Torrejón University Hospital
- ♦ Nurse Resident Intern of Geriatric Nursing in UDM Geriatrics of the U.H. Ramón y Cajal
- ♦ Edalia Residence for the Elderly Torrejón de Ardoz
- ♦ Degree in Nursing (Alcalá de Henares University Hospital)
- ♦ Geriatric Nurse Specialist
- ♦ Official Master's Degree in Health Care Research. Complutense University of Madrid

05

Structure and Content

The contents of this Master's Degree have been developed by the different experts of this program with a clear purpose: to ensure that students acquire each and every one of the skills necessary to become true experts in this field, a very complete and well-structured program that will lead students to become true experts in Geriatric Nursing, thanks to a complete and profound syllabus and an innovative teaching method.

“

This Master's Degree in Geriatric Nursing contains the most complete and up-to-date program on the market”

Module 1. Aging: Considerations for Nursing Care

- 1.1. Geriatrics and Gerontology
- 1.2. Demographics and Economics Associated with Aging
- 1.3. Aging: Biological Dimension
- 1.4. Aging: Psychological Dimension
- 1.5. Aging: Social Dimension
- 1.6. Geriatric Syndromes
- 1.7. Pharmacology in the Elderly
- 1.8. Nursing Assessment in Geriatrics
- 1.9. Care Resources for the Elderly
- 1.10. Coexistence Forms with the Elderly

Module 2. Nutritional sphere in the elderly

- 2.1. Nutritional Assessment of the Elderly
- 2.2. Nutritional Requirements, Overweight and Obesity
- 2.3. Malnutrition and Nutritional Supplements
- 2.4. Sarcopenia
- 2.5. Oral Health: Evaluation and Recommendations (Xerostomia, Candidiasis)
- 2.6. Therapeutic Devices, Indications and Care
- 2.7. Dehydration and Ionic Disturbances in the Elderly
- 2.8. Diabetes in the Elderly
- 2.9. Therapeutic Diets
- 2.10. Technical Aids for Feeding

Module 3. Skin in the Elderly

- 3.1. Skin Organ Changes in Aging
- 3.2. Dependency-Related Injuries: Pressure Ulcers
- 3.3. Dependency-Related Injuries: Moisture-Associated Skin Damage (MASD)
- 3.4. Vascular Ulcers
- 3.5. Diabetic Foot
- 3.6. Kennedy's Ulcers
- 3.7. Scales for Assessing the Risk of Developing Dependency-Related Injuries
- 3.8. Treatment of Skin Injuries: Cures
- 3.9. Treatment of Skin Lesions: Pressure Relieving Surfaces
- 3.10. Care of the Elderly with Loss of Skin Integrity

Module 4. Functional Sphere in the Elderly

- 4.1. Skeletal Muscle System Changes in Aging
- 4.2. Functional Assessment
- 4.3. Fragility
- 4.4. Most Prevalent Musculoskeletal Diseases in the Elderly
- 4.5. Hip Fracture
- 4.6. Immobility and its Consequences for the Elderly
- 4.7. Hospital Functional Impairment
- 4.8. Prehabilitation and Rehabilitation
- 4.9. Mobilization and Ergonomics
- 4.10. Technical Aids

Module 5. Neurological Alterations: Cognitive Impairment and Dementia

- 5.1. Nervous System Changes in Aging
- 5.2. Cognitive Assessment
- 5.3. Acute Confusional Syndrome
- 5.4. Cognitive impairment and dementia
- 5.5. Psychobehavioral Symptoms of Dementia: Definition and Assessment
- 5.6. Psychobehavioral Symptoms of Dementia: Non-Pharmacological Treatment
- 5.7. Psychopharmaceuticals in the Elderly
- 5.8. Mechanical Restraints in the Elderly
- 5.9. Cognitive Stimulation
- 5.10. The Carer of the Person with Dementia

Module 6. Most Prevalent Neurological and Sensory Organ Disorders in the Elderly

- 6.1. Stroke
- 6.2. Parkinson's Disease
- 6.3. Dysphagia: Definition and Classification
- 6.4. Swallowing Assessment
- 6.5. Adaptation of Diet and Technical Aids
- 6.6. Rehabilitative Treatment of Dysphagia
- 6.7. Sleep Disorders in the Elderly
- 6.8. Anxiety and Depression in the Elderly
- 6.9. Changes in Vision and Prevalent Diseases in the Elderly
- 6.10. Changes in Hearing and Prevalent Diseases in the Elderly

Module 7. Social Sphere in the Elderly

- 7.1. Social Determinants of Health
- 7.2. Social Image of Aging
- 7.3. Social Appraisal
- 7.4. The Caregiver
- 7.5. Incapacitation: Legal Guardian
- 7.6. Loneliness in the Elderly
- 7.7. Leisure in the Elderly
- 7.8. Abuse of the Elderly
- 7.9. Sexuality in the Elderly

Module 8. Elimination in the Elderly

- 8.1. Changes in the Excretory System in Aging
- 8.2. Incontinence in the Elderly
- 8.3. Incontinence Care: Incontinence Pads, Therapeutic Devices and Technical Aids
- 8.4. Incontinence Rehabilitation
- 8.5. Neurogenic Bladder
- 8.6. Urinary Tract Infections
- 8.7. Acute Urinary Retention
- 8.8. Constipation and Fecal Impaction
- 8.9. Diarrhea in the Elderly
- 8.10. Pharmacotherapy of Elimination Disorders

Module 9. Falls in the Elderly

- 9.1. Immediate Attention to the Fall
- 9.2. Fall Assessment
- 9.3. Consequences of the Fall
- 9.4. Cardiovascular Causes of the Fall
- 9.5. Neurology Causes of the Fall
- 9.6. Infectious Causes of the Fall
- 9.7. Respiratory and Endocrine Causes of the Fall
- 9.8. Digestive Causes of the Fall
- 9.9. Musculoskeletal Causes of the Fall
- 9.10. External Aspects of the Fall

Module 10. Palliative Care for the Elderly

- 10.1. Introduction to Palliative Care
- 10.2. Complexity Palliative Care Criteria
- 10.3. Main Symptoms in Palliative Care I
- 10.4. Main Symptoms in Palliative Care II
- 10.5. Routes of Administration of Pharmacological Treatment
- 10.6. Psychological Care in Palliative Care Grief and Family
- 10.7. Advance Care Planning
- 10.8. End-of-life Care, Limiting Therapeutic Effort, and Palliative Sedation
- 10.9. Euthanasia and Assisted Suicide
- 10.10. Ethical Conflicts in Palliative Care

06 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Nursing School we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Nurses learn better, faster, and more sustainably over time.

With TECH, nurses can experience a learning methodology that is shaking the foundations of traditional universities around the world.

According to Dr. Gervas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the real conditions in professional nursing practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Nurses who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process has a clear focus on practical skills that allow the nursing professional to better integrate knowledge acquisition into the hospital setting or primary care.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine case studies with a 100% online learning system based on repetition combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The nurse will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 175,000 nurses with unprecedented success in all specialities regardless of practical workload. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and relearn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then adapted in audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high-quality pieces in each and every one of the materials that are made available to the student.

Nursing Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

07 Certificate

The Master's Degree in Geriatric Nursing guarantees you, in addition to the most rigorous and updated training, access to a Master's Degree issued by TECH Global University.

“

*Successfully complete this program
and receive your university degree
without travel or laborious paperwork”*

This private qualification will allow you to obtain a **Master's Degree diploma in Geriatric Nursing** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
