01 Introduction

The branch of Gynecological Nursing is a specific area of nursing care that studies all aspects related to the woman's life cycle and all that surrounds the physiological and pathological aspects of women.

The Spanish Society of Gynecology and Obstetrics (SEGO) considers that care for women with gynecological pathologies requires specific knowledge and attention. It is the result of a great deal of care and attention given with generosity and professionalism by different professional categories. Therefore, it requires the acquisition of special knowledge that is different from that of the rest of the population, and it relies on professionals educated in these very specific areas.

“

The Postgraduate Certificate in Gynecological and Obstetric Emergencies for Nurses contains the most complete and updated scientific program on the market"

The general purpose of this educational proposal is to train nursing professionals to meet the health needs of women with scientific rigor and the highest professional standards.

This program arises in response to multiple needs in the hospital environment of all nursing professionals, both those recently incorporated as well as those who have been providing their professional services for some time and who require constant updating in this very specific area of practice.

The aim is to respond to the growing need posed by the new challenges imposed by a changing and increasingly demanding society, in order to raise awareness of the importance of incorporating new values, new work systems and new areas of action in our profession. A social need where women demand specialized and specific attention in the field of gynecology.

This **Postgraduate Certificate in Gynecological and Obstetrical Emergencies for Nursing** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ Development of clinical cases presented by experts in the different areas of multidisciplinary knowledge
- ♦ The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Latest developments on Gynecological and Obstetric Emergencies for Nursing
- ♦ An algorithm-based interactive learning system for decision-making in the clinical situations presented throughout the course
- ♦ With special emphasis on evidence-based nursing and research methodologies in Gynecological and Obstetric Emergencies for Nursing
- ♦ All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Increase your skills in the approach to Gynecological and Obstetric Emergencies for Nurses through this program"

“

This Postgraduate Certificate may be the best investment you can make in the selection of a refresher program for two reasons: in addition to updating your knowledge in Gynecological and Obstetric Emergencies for Nurses, you will obtain a qualification from TECH Technological University"

Increase your confidence in decision making by updating your knowledge through this Postgraduate Certificate in Gynecological and Obstetric Emergencies for Nurses.

Don't miss the opportunity to update your knowledge in Gynecological and Obstetric Emergencies for Nurses to improve patient care.

Its teaching staff includes health professionals belonging to the field of Gynecology and Obstetrics, who bring their work experience to this training, as well as recognized specialists belonging to leading scientific societies.

Thanks to its multimedia content developed with the latest educational technology, they will allow the professional a situated and contextual learning, that is to say, a simulated environment that will provide an immersive learning programmed to prepare in real situations.

The design of this program is based on Problem-Based Learning, by means of which the nursing professional must try to solve the different professional practice situations that arise throughout the program. For this reason, students will be assisted by an innovative, interactive video system created by renowned and experienced experts in the field of Gynecology with extensive teaching experience.

02 Objectives

The main objective of the program is the development of theoretical and practical learning, so that the professional nurse can master in a practical and rigorous way the study of Gynecological and Obstetric Emergencies for Nurses.

“

This refresher program will generate a sense of confidence when practising nursing, which will help you grow both personally and professionally”

General Objectives

- ♦ Acquire specific knowledge in gynecological care
- ♦ Promote work strategies based on a comprehensive approach to the patient as a standard model for achieving excellent care
- ♦ Favour the acquisition of technical skills and abilities through a powerful audiovisual system. Consider the possibility of development through specific education
- ♦ Encourage professional stimulation through continuous education and research

Specific Objectives

- ◆ Acquire knowledge about the different gynecological emergencies
- ◆ Differentiate and know the various gynecologic hemorrhages
- ◆ Provide assistance in precipitated labor

Take advantage of the opportunity and take the step to get up to date on the latest developments in Gynecological and Obstetric Emergencies for Nursing"

03

Course Management

This program includes in its teaching staff health professionals of recognized prestige, who belong to the field of Obstetrics and Gynecology and who bring to this training the experience of their work.

In addition, renowned specialists, members of prestigious national and international scientific communities, are involved in designing and preparing the program.

“

Learn from leading professionals the latest advances in Gynecological and Obstetric Emergencies for Nursing”

Management

Dr. Luciano Rodríguez Díaz

- ♦ Nursing Specialist in Obstetrics and Gynecology
- ♦ Head of Studies of the Obstetric-Gynecological Nursing Teaching Unit (Midwife) of the University Hospital of Ceuta
- ♦ Midwife at the University Hospital of Ceuta
- ♦ Teacher at the University Centre of Nursing Virgen of La Paz. Ronda, Spain
- ♦ Professor of the Ceuta Midwifery Teaching Unit
- ♦ Member of the Emergencies Group of the Spanish Society of Emergency Nursing (SEEUE)
- ♦ Responsible for Perinatal Health: Reproductive Sexual Health and Normal Childbirth of Ingesa
- ♦ Member of the Clinical Commission for Research and Continuing Education of the University Hospital of Ceuta
- ♦ Member: Instituto de Estudios Ceutíes, Editorial Board of the European Journal of Health Research, Spanish Society of Emergency Medicine
- ♦ PhD from the University of Granada
- ♦ Master's Degree in Physical Education and Health from the University of Granada
- ♦ Master's Degree in Gynecological Nursing from the CEU Cardenal Herrera University
- ♦ Master's Degree in Obstetric Nursing from the CEU Cardenal Herrera University
- ♦ Specialty in Nursing Obstetric and Gynecological from the University of Malaga
- ♦ University Diploma in Nursing, University of Cadiz
- ♦ Postgraduate Diploma in Health Promotion in the Community by the Universidad Nacional de Educación a Distancia (UNED)

Dr. Vázquez Lara, Juana María

- ♦ Primary Care Nurse
- ♦ Emergency Service of 061 Nurse of the Ceuta Health Management Area
- ♦ PhD from the University of Granada
- ♦ Acting midwife for the Delivery Service at the University Hospital of Ceuta
- ♦ Head of Studies of the Ceuta Midwifery Teaching Unit
- ♦ Professor in the Ceuta Midwifery Teaching Unit
- ♦ National Coordinator of the Obstetrical-Gynecological Emergencies Working Group of the Spanish Society of Emergency Nursing (SEEUE)
- ♦ Master's Degree of the Official Doctoral Program in Physical Education and Health
- ♦ University Expert on "Health Promotion in the Community" UNED
- ♦ Specialty in Obstetric and Gynecological Nursing (Midwife) at the Costa del Sol Hospital in Marbella of the University School of Nursing and Midwifery of Malaga by the University of Malaga
- ♦ Postgraduate Certificate in Nursing from the University School of Nursing Salus Infirmorum at the University of Cadiz

Professors

Dr. Noelia Amor Besada

- ♦ Midwife at the pilgrimages Health Center in Pontevedra.
- ♦ Midwife Galician Health Service
- ♦ Workshops

Dr. Carmen Patricia Andrés Núñez

- ♦ Obstetrics and Gynecology Specialist at the University Hospital of Ceuta
- ♦ Gynecology and Obstetrics Specialist at Hospital Quirónsalud Campo de Gibraltar
- ♦ INGESA Specialist Physician
- ♦ Gynecology Clinical Management Unit at the University Hospital San Cecilio. Granada
- ♦ Degree in Medicine and Surgery

Dr. María Mercedes Carrasco Racero

- ♦ Nurse Practitioner in Gynecological Care
- ♦ Internship Coordinator at the University Center for Nursing. Ronda, Spain
- ♦ Degree in Nursing
- ♦ Teacher

Ms. María Isabel De Dios Pérez

- ♦ Midwife at Zaragoza University Hospital
- ♦ Postgraduate Certificate in Nursing
- ♦ Nursing Specialist in Obstetrics and Gynecology

Ms. Llinás Prieto, Lucía

- ♦ Nurse Practitioner in Gynecological Care
- ♦ Teacher
- ♦ Postgraduate Certificate in Nursing

Ms. Paula Díaz Lozano

- ♦ Midwife, University Hospital Virgen de Valme
- ♦ Midwife in the Ceuta Health Area
- ♦ Nurse Specialist in Obstetrics and Gynecology at the University Hospital of Ceuta.
- ♦ Teacher specialized in Obstetrics
- ♦ Postgraduate Certificate in Nursing from the Faculty of Nursing and Physiotherapy of Cádiz

Ms. Patricia Gilart Cantizano

- ♦ Nurse specialized in Obstetrics and Gynecology
- ♦ Specialized Care Midwife in Campo de Gibraltar
- ♦ Midwife in the Hospital Quirónsalud Campo de Gibraltar
- ♦ EIR Midwife in the Andalusian Health Service
- ♦ Critical Care and Emergency Nurse in the Andalusian Health Service.
- ♦ Teacher
- ♦ Postgraduate Certificate in Nursing
- ♦ Diploma in Community Nutrition by the UNED (UNED)
- ♦ Diploma in Cardiovascular Risks III by the UNED (UNED)
- ♦ University Expert in Accidents and Emergencies from the Complutense University of Madrid

Mr. Juan Manuel Mérida Téllez

- ◆ Nurse specialized in Obstetrics and Gynecology
- ◆ Matron at Hospital Costa del Sol. Marbella, Spain
- ◆ Teacher
- ◆ Diploma in Nursing

Dr. Mérida Yáñez, Beatriz

- ◆ Nurse specialized in Obstetrics and Gynecology
- ◆ Midwife in the Andalusian Health Service
- ◆ Midwife at Vithas Hospital
- ◆ Midwife in the Murcia Health Service
- ◆ Doctor in Health Sciences
- ◆ Postgraduate Certificate in Nursing
- ◆ Member of: Scientific Committee of the First International Congress of Research and Innovation in Nursing and Physiotherapy of Ceuta and Melilla, Scientific Committee of the Revista Nacional Sanitaria.

Mr. Francisco Javier Muñoz Vela

- ◆ Nurse specialized in Obstetrics and Gynecology
- ◆ Nursing Internship Coordinator at the Maternity and Infant Care Center of Malaga
- ◆ Midwife at the Carlos Haya Regional University Hospital
- ◆ Matron at Parque San Antonio Hospital
- ◆ Matron in Specialized Care at the Maternity Hospital of Malaga
- ◆ Associate Professor of the Department of Nursing at the University of Malaga
- ◆ Diploma in Nursing from the University of Malaga

Mr. Antonio Márquez Díaz

- ◆ Matron of Primary Care in the Junta de Andalucía
- ◆ Midwife, El Angel Hospital HLA Group
- ◆ Matron at Vithas Hospitals
- ◆ EIR Nursing Plan Tutor
- ◆ OPOSALUD Tutor
- ◆ Emergency DUE at El Angel Hospital
- ◆ DUE of the ICU Pediatrics and Neonatal Unit at El Angel Hospital
- ◆ Resident Midwife in the Junta de Andalucía
- ◆ Matron at Hospital Costa del Sol
- ◆ Matron at the Hospital Quirón Campo de Gibraltar
- ◆ Master's Degree in Health Economics, Health Management and the Rational Use of Health Care Services
- ◆ Medicine by the University of Malaga
- ◆ Master's Degree in New Trends in Health Sciences Research by the University of Malaga, Spain
- ◆ Master's Degree in Public Health, University of Almeria, Spain
- ◆ Master's Degree in Nurse Prescription and Pharmacotherapeutic Monitoring from the University of Valencia
- ◆ Master's Degree in Pharmacotherapy by the University of Valencia
- ◆ Diploma in Nursing from the University of Malaga

Ms. Rocío Palomo Gómez

- ◆ Nurse specialized in Gynecology and Obstetrics
- ◆ Ceuta Specialized Care Midwife
- ◆ Midwife in the Carlos Haya Regional University Hospital. Malaga, Spain
- ◆ Teaching in the Ceuta Midwifery Unit
- ◆ Postgraduate Certificate in Nursing

Ms. María Dolores Revidiego Pérez

- ◆ Nurse specialized in Gynecology and Obstetrics
- ◆ Specialized Care Midwife in Campo de Gibraltar
- ◆ Midwife in the Hospital Quirónsalud Campo de Gibraltar
- ◆ Teacher
- ◆ Postgraduate Certificate in Nursing

Dr. Carmen Rivero Gutiérrez

- ◆ Matron in Primary Care in the Ceuta Health Area
- ◆ Midwife in Ingesa Ceuta
- ◆ Midwife at the Puerta del Mar University Hospital Complex.
- ◆ Professor and Tutor of the Ceuta Midwifery Teaching Unit
- ◆ Postgraduate Certificate in Nursing

Mr. David Rodríguez Díaz

- ◆ Nurse at Nuestra Señora de Candelaria University Hospital
- ◆ Teacher
- ◆ Diploma in Nursing

Dr. Francisco José Vázquez Lara

- ◆ Specialist in Biological Sciences
- ◆ Teacher
- ◆ PhD from the Polytechnic University of Valencia
- ◆ Degree in Biological Sciences

Ms. María Dolores Vázquez Lara

- ◆ Nurse specialized in primary care of pregnant women
- ◆ Campo de Gibraltar Primary Care Nurse
- ◆ Teacher
- ◆ Diploma in Nursing

“

Take the step to get up to date on the latest developments in Gynecologic and Obstetric Emergencies for Nurses”

04

Structure and Content

The structure of the contents has been designed by a team of professionals knowledgeable about the implications of training in daily nursing practice, aware of the relevance of current specialization in order to be able to act before the patient with gynecological problems and committed to quality teaching through new educational technologies.

“

This Postgraduate Certificate in Gynecological and Obstetric Emergencies for Nurses contains the most complete and updated scientific program on the market"

Module 1. Gynecological and Obstetric Emergencies

- 1.1. Gynecological Abdominal Pain
 - 1.1.1. Concept
 - 1.1.2. Nursing Care
- 1.2. Trauma and Injuries of the Genital Tract
 - 1.2.1. Types
 - 1.2.2. Nursing Care
- 1.3. Sexual Aggressions
 - 1.3.1. Concept
 - 1.3.2. Diagnosis
 - 1.3.3. Nursing Care
- 1.4. Gynecological Hemorrhage
 - 1.4.1. Classification
 - 1.4.2. Nursing Care
- 1.5. Threat of Preterm Labor
 - 1.5.1. Concept
 - 1.5.2. Treatment
 - 1.5.3. Nursing Care
- 1.6. Hypertensive States of Pregnancy
 - 1.6.1. Classification
 - 1.6.2. Treatment
 - 1.6.3. Nursing Care
- 1.7. Obstetric Hemorrhage
 - 1.7.1. Hemorrhages in the 1st Trimester of Pregnancy
 - 1.7.2. Hemorrhages in the 2nd and 3rd Trimester of Pregnancy
 - 1.7.3. Postpartum Hemorrhage

“

A unique, key, and decisive educational experience to boost your professional development”

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Nursing School we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Nurses learn better, faster, and more sustainably over time.

With TECH, nurses can experience a learning methodology that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the real conditions in professional nursing practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Nurses who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process has a clear focus on practical skills that allow the nursing professional to better integrate knowledge acquisition into the hospital setting or primary care.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine case studies with a 100% online learning system based on repetition combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The nurse will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 175,000 nurses with unprecedented success in all specialities regardless of practical workload. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Nursing Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Certificate in Gynecological and Obstetrics Emergencies for Nursing guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

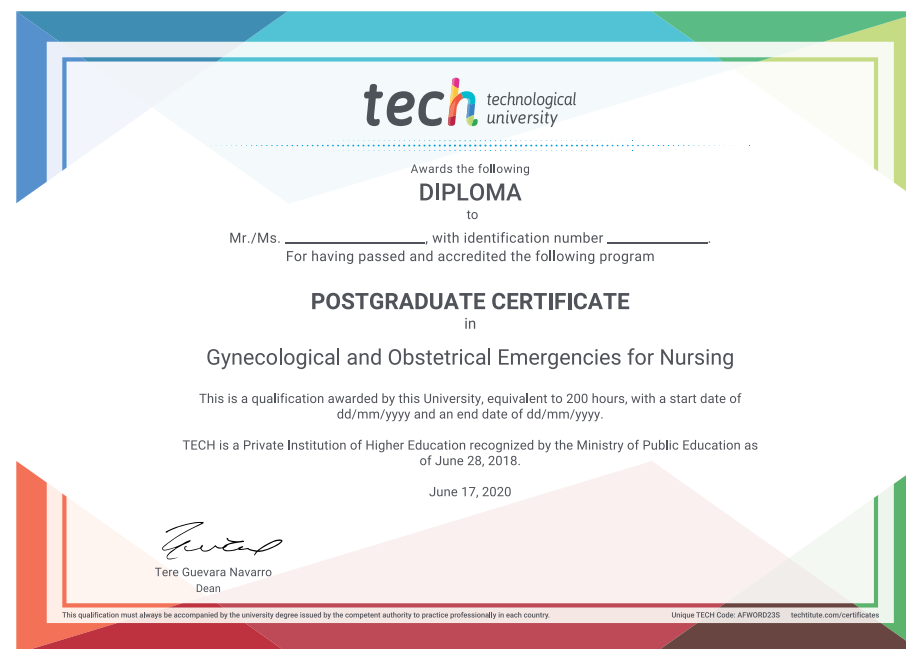

This **Postgraduate Certificate in Gynecological and Obstetrical Emergencies for Nursing** contains the most complete and up-to-date scientific on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Gynecological and Obstetrical Emergencies for Nursing**

Official N° of Hours: **200 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
