01

Introduction

The program in Ocular Pathology will provide the student with the skills and abilities necessary to develop their work activity in a more competent manner, and with the confidence of working with the necessary knowledge. A multidisciplinary approach based on the experience of different areas of Nursing work in the Ophthalmology Department, which will allow you to grow in your profession with the most efficient system on the educational market.

“

*Acquire the necessary skills to
work in the best ophthalmology
units with a high-intensity program"*

The work of the nursing professional is developed in multiple and different areas of intervention. From the patient's reception and accompaniment to the moment of treatment application and follow-up control, the nursing staff must have the capacity of a multifunctional worker.

This is also essential in the Ophthalmic Nursing. The nursing professional requires a solid education that qualifies them in the work areas in which they are going to develop their work. This performance is also affected by the constant technical and technological advances in this field, which means that professionals must be attentive to all updates so as not to become outdated at great speed.

However, achieving this update requires a dedication that is not always compatible with real life.

This program has managed to balance the intensity of a very complete program, which covers all the essential aspects of the specialization of an expert in Ophthalmic Nursing, with the daily life of any professional, even those who are in practice.

By means of a study approach that takes advantage of the most efficient teaching formulas and the most useful and versatile online systems, this Postgraduate Certificate is a highly qualified tool that will lead the professional, little by little, at their own pace but without delay, to the most demanding educational goal.

A luxury program that TECH makes available to you with the best conditions on the educational market.

This **Postgraduate Certificate in Ocular Pathology for Nursing** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The latest technology in online teaching software
- ♦ A highly visual teaching system, supported by graphic and schematic contents that are easy to assimilate and understand
- ♦ Practical cases presented by practising experts
- ♦ State-of-the-art interactive video systems
- ♦ Teaching supported by telepractice
- ♦ Continuous updating and recycling systems
- ♦ Autonomous learning: full compatibility with other occupations
- ♦ Practical exercises for self-assessment and learning verification
- ♦ Support groups and educational synergies: questions to the expert, debate and knowledge forums
- ♦ Communication with the teacher and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection
- ♦ Supplementary documentation databases are permanently available, even after the program

With this Postgraduate Certificate you will be able to combine high intensity education with your personal and professional life, achieving your goals in a simple and real way"

“

A program created and directed by professional experts in Ophthalmic Nursing that make this Postgraduate Certificate a unique opportunity for professional growth”

Our teaching staff is made up of professionals from different fields related to this specialty. In this way, TECH ensures that it delivers the educational update objective it is aiming for. A multidisciplinary team of professionals trained and experienced in different environments, who will impart the theoretical knowledge in an efficient way, but above all, who will bring their practical knowledge from their own experience to the Postgraduate Certificate: one of the differential qualities of this program.

This mastery of the subject matter is complemented by the effectiveness of the methodological design of this program in Ocular Pathology for Nursing. Developed by a multidisciplinary team of experts it integrates the latest advances in educational technology. In this way, the professional will be able to study with a range of comfortable and versatile multimedia tools that will give them the operability they need in their field of focus.

The design of this program is based on Problem-Based Learning: an approach that conceives learning as a highly practical process. To achieve this remotely, TECH will use telepractice: with the help of an innovative, interactive video system, and Learning from an Expert, will be able to acquire the knowledge as if they were facing the case they are learning in real time. A concept that will allow students to integrate and memorize what they have learnt in a more realistic and permanent way.

The learning of this program is developed through the most advanced didactic means in online teaching to guarantee that your effort will have the best possible results.

A Postgraduate Certificate that will enable you to work in the field of Ophthalmic Nursing, with the solvency of a high-level professional.

02 Objectives

The objective of this program is to provide nursing professionals with the necessary knowledge and skills to perform their activity in the field of Ophthalmology. Through a work approach that is totally adaptable to the student, this Postgraduate Certificate will progressively lead him or her to acquire the competencies that will propel him or her to a much higher professional level.

“

Become one of the most sought-after professionals of the moment, with this Postgraduate Certificate in Ocular Pathology for Nursing"

General Objectives

- ♦ Specialize quality nurses to offer high-level ophthalmic nursing care
- ♦ Acquire knowledge and skills that will enable nurses to practice their profession autonomously within the field of ophthalmic nursing

A boost to your CV that will give you the competitiveness of the best prepared professionals in the labor market"

Specific Objectives

- ♦ Be able identify the main problems of ophthalmologic pathology
- ♦ Know the theoretical basis of diagnostic methods in ophthalmologic pathology
- ♦ Know the diagnosis and medical-surgical therapeutics of the main diseases of the visual apparatus
- ♦ Recognize the ocular manifestations of systemic diseases
- ♦ Detect and assess the main ophthalmologic disorders in order to refer patients to an ophthalmologist for study and treatment
- ♦ Know the epidemiological patterns of the main visual pathologies

03

Course Management

Within the concept of total quality of this program, TECH is proud to offer the professional a teaching staff of the highest level, chosen for their proven experience. Professionals from different areas and fields of expertise that make up a complete, multidisciplinary team. A unique opportunity to learn from the best.

“

An impressive teaching staff, made up of professionals from different fields of expertise, will be your teachers during your education: a unique opportunity not to be missed”

Management

Mr. Medina Andana, Francisco Javier

- ♦ Nurse in charge of operating rooms
- ♦ University Diploma in Nursing, University School Virgen del Rocío
- ♦ University Diploma in Nursing, University of Seville
- ♦ Member of the Spanish Society of Ophthalmic Nursing

Professors

Mr. Molina Lepe, Esteban

- ♦ Ophthalmologist specializing in anterior pole, cataract surgery and refractive surgery at Clínica Virgen de Luján
- ♦ Degree in Medicine and Surgery from the Faculty of Medicine, University of Córdoba
- ♦ Specialist in Ophthalmology through MIR at the Puerta De Jerez Hospital of la Frontera
- ♦ Full member of the Spanish Society of Ophthalmology (SEO)

04

Structure and Content

The contents of this program have been developed by the different experts on the course, with a clear purpose: to ensure that our students acquire each and every one of the necessary skills to become true experts in this field.

A comprehensive and well-structured program that will lead our student to the highest standards of quality and success.

“

*A comprehensive teaching program,
structured in well-developed teaching units,
oriented towards learning that is compatible
with your personal and professional life"*

Module 1. Ocular Pathology

- 1.1. Lens. Cataracts
 - 1.1.1. Definition
 - 1.1.2. Types of Cataracts
 - 1.1.3. Treatment
- 1.2. Macular and Retinal Pathology
 - 1.2.1. Definition of Macular and Retinal Pathology
 - 1.2.2. Types of Macular and Retinal Pathology
 - 1.2.3. Treatment
- 1.3. Glaucoma
 - 1.3.1. Definition
 - 1.3.2. Types of Glaucoma
 - 1.3.3. Treatment
- 1.4. Strabismus
 - 1.4.1. Introduction
 - 1.4.2. Types of Strabismus
 - 1.4.3. Treatment
- 1.5. Eyelids and Eyelashes
 - 1.5.1. Introduction
 - 1.5.2. Types of Eyelid Pathologies
 - 1.5.3. Treatment
- 1.6. Conjunctiva and Sclera
 - 1.6.1. Introduction
 - 1.6.2. Types of Conjunctivitis
 - 1.6.3. Epiescleritis Scleritis
 - 1.6.4. Treatment
- 1.7. Orbit
 - 1.7.1. Introduction
 - 1.7.2. Types of Diseases

- 1.8. Uveitis
 - 1.8.1. Introduction
 - 1.8.2. Types of Uveitis
 - 1.8.3. Treatment
- 1.9. Lacrimal Duct
 - 1.9.1. Introduction
 - 1.9.2. Types of Obstructions
 - 1.9.3. Treatment
- 1.10. Cornea
 - 1.10.1. Introduction
 - 1.10.2. Types of Corneal Diseases
 - 1.10.2.1. Keratitis
 - 1.10.2.2. Ectasias
 - 1.10.2.3. Dystrophies
 - 1.10.3. Treatment

*This program will allow you to
advance in your career comfortably"*

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Nursing School we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Nurses learn better, faster, and more sustainably over time.

With TECH, nurses can experience a learning methodology that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the real conditions in professional nursing practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Nurses who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process has a clear focus on practical skills that allow the nursing professional to better integrate knowledge acquisition into the hospital setting or primary care.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine case studies with a 100% online learning system based on repetition combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The nurse will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 175,000 nurses with unprecedented success in all specialities regardless of practical workload. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Nursing Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

06 Certificate

The Postgraduate Certificate in Ocular Pathology for Nursing guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program and
receive your university qualification without
having to travel or fill out laborious paperwork"*

This **Postgraduate Certificate in Ocular Pathology for Nursing** contains the most complete and up-to-date scientific on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Ocular Pathology for Nursing**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
