Introduction

The pharmacy is the ideal setting for phytotherapy. From the possibility of creating galenic preparations suitable for different patients and ailments, to personalized advice, the professional in this field obtains from this way of working therapeutic tools of enormous value. This comprehensive expert has been created to give you the ability to act as a specialist in this field, providing you with the knowledge you need to act safely and successfully backed by the latest scientific evidence.

“

The most extensive knowledge in phytotherapy of the locomotor system conditions with the security of the latest scientific evidence, in a training created for pharmacy staff"

There is now a scientific basis supporting the efficacy of many phytotherapeutic products for certain indications. The place that phytotherapy should occupy in therapeutics should be that for which it has demonstrated its usefulness and safety.

Efficacy is achieved only with the proper use of phytotherapeutic preparations, both in terms of indications and form of administration.

This program offers a current vision of Phytotherapy and its application in the health field, including the latest contributions and advances. The contents are guaranteed by the teaching staff involved in the Expert, since in one way or another they all work in the field of phytotherapy or are related to it. Thus, the student will learn based on the experience of the teachers and experience evidence-based medicine, which results in training the student to be more effective and accurate. On the one hand, the different university training programs generally suffer from a deep and profound lack of

continuously updated training in Phytotherapy, and on the other hand that current health trends are leaning towards the use of safe and effective natural remedies, it is necessary to be able to offer the student the possibility of expanding their knowledge

and therapeutic skills with a greater specialization in the use of medicinal plants, from the professional and academic perspective necessary to adequately face their future in this field.

This ONLINE EXPERT offers you the characteristics of a high level scientific, teaching and technological course. These are some of its most notable features:

- ♦ Latest technology in online teaching software.
- ♦ Highly visual teaching system, supported by graphic and schematic contents that are easy to assimilate and understand.
- ♦ Practical cases presented by practising experts.
- ♦ State-of-the-art interactive video systems.
- ♦ Teaching supported by telepractice.
- ♦ Continuous updating and recycling systems.
- ♦ Self-regulating learning: full compatibility with other occupations.
- ♦ Practical exercises for self-evaluation and learning verification.
- ♦ Support groups and educational synergies: questions to the expert, debate and knowledge forums.
- ♦ Communication with the teacher and individual reflection work.
- ♦ Content that is accessible from any fixed or portable device with an Internet connection.
- ♦ Supplementary documentation databases are permanently available, even after the course.

*Increase your skills in the
Phytotherapy approach to
locomotor system disorders
through this program"*

“

Include phytotherapy among your tools and improve patient care with new ways and alternatives for treatment and prevention"

Our teaching staff is made up of practicing specialists. In this way, we ensure that we provide you with the training update we are aiming for. A multidisciplinary team of doctors trained and experienced in different environments, who will develop the theoretical knowledge in an efficient way, but, above all, will put at the service of the course the practical knowledge derived from their own experience: one of the differential qualities of this training.

This mastery of the subject matter is complemented by the effectiveness of this expert's methodological design. Developed by a multidisciplinary team of e-learning experts, it integrates the latest advances in educational technology. This way, you will be able to study with a range of comfortable and versatile multimedia tools that will give you the operability you need in your training.

The design of this program is based on Problem-Based Learning: an approach that conceives learning as a highly practical process. To achieve this remotely, we will use telepractice: with the help of an innovative interactive video system, and learning from an expert, you will be able to acquire the knowledge as if you were actually dealing with the scenario you are learning about. A concept that will allow you to integrate and fix learning in a more realistic and permanent way.

With a methodological design based on proven teaching techniques, this Expert will take you through different teaching approaches to allow you to learn in a dynamic and effective way.

Our innovative telepractice concept will give you the opportunity to learn through an immersive experience, which will provide you with a faster integration and a much more realistic view of the contents: "learning from an expert"

02 Objectives

This Expert will allow you to define the limits of the use of phytotherapy to be able to manage it safely with the patient, so that you can make the appropriate decisions to use it preventively and therapeutically.

“

The objective of this training is to offer the professional a compendium of knowledge focused on the practice that allows him/her to support, from phytotherapy, the wellbeing of patients with locomotor system problems"

General Objectives

- ♦ Define the therapeutic limits of phytotherapy and recognize the cases in which it can be used safely.
- ♦ Describe the use of Phytotherapy oriented to the satisfaction of the needs derived from the patient's health problems and the prevention of complications, guaranteeing a safe and quality practice.
- ♦ Solve cases related to the field of phytotherapy.
- ♦ Explain the use and indication of medical devices, food supplements and/or drugs, assessing the expected benefits and associated risks.
- ♦ Apply theoretical knowledge in daily practice.

Specific Objectives by Modules

- ♦ Define what a drug is and distinguish it from an active ingredient.
- ♦ Explain the protocols for drug recognition.
- ♦ Define the main chemical groups of active ingredients, which are responsible for the activity of drugs and by extension of plants.
- ♦ Explain techniques for the cultivation, collection, processing and conservation of medicinal plants.
- ♦ Identify botanical nomenclature and species citation.
- ♦ Classify plant groups according to current regulations.
- ♦ Define the medicinal utility of mushrooms.
- ♦ Explain the legislation and regulation in relation to Phytotherapy.
- ♦ Explain the application of the magistral formulation in Phytotherapy.
- ♦ Explain the industrial processing of herbal medicines.
- ♦ Define the main groups and properties in relation to the active ingredients.
- ♦ Define the therapeutic application of phenols, flavonoids, tannins, isoprenoids, resins, alkaloids and other products.
- ♦ Define the usefulness of Phytotherapy in the treatment of arthritis.
- ♦ Define the usefulness of phytotherapy in the treatment of arthrosis.
- ♦ Define the usefulness of Phytotherapy in the treatment of joint pain.
- ♦ Identify muscle relaxant medicinal plants for the treatment of muscle contractions.
- ♦ Define the usefulness of phytotherapy in the treatment of arthrosis.
- ♦ Identify and classify remineralizing medicinal plants.
- ♦ Explain the phytotherapeutic treatments and therapeutic limits in locomotor system disorders.

Include among your skills the intervention in phytotherapy, including the preparation of galenicals, which only the most updated professional can offer to his patients"

03

Course Management

For our course to be of the highest quality, we are proud to work with a teaching staff of the highest level, chosen for their proven track record. Professionals from different areas and fields of expertise that make up a complete, multidisciplinary team. A unique opportunity to learn from the best.

“

With the direct experience of professionals who will teach you based on the reality of the sector in a contextual and realistic learning"

Professors

Dr. López Castellano, Alicia

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Dean of the Faculty of Health Sciences.
- ♦ CEU Cardenal Herrera University.
- ♦ Professor at Private University, Department of Pharmacy.

Dña. Sanahuja Santafé, Maria Amparo

- ♦ Degree in Pharmacy.
- ♦ Professor of Pharmacy Department.
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.

Dña. Ibars Almonacil, Ana

- ♦ University of Valencia. Botany Teaching Unit.

Dr. Blanquer Hernández, Antonio

- ♦ Degree in Biology.
- ♦ Doctor of Biology (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ Professor of Pharmacy Department.

Dña. D'Ívernois Rodríguez, Araceli

- ♦ Degree in Pharmacy.
- ♦ Technical Director, Drug Information Center.
- ♦ Illustrious Official College of Pharmacists of Castellón.

Dr. Calatayud Pascual, Araceli

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ University Professor of the Department of Pharmacy.

Dr. Navarro Moll, Concepción

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy. University of Granada.
- ♦ Professor of Pharmacology, Department of Pharmacology.

Dr. Balaguer Fernández, Cristina

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ Assistant Professor of the Department of Pharmacy.

Dr. Muñoz-Mingarro, Dolores

- ♦ Degree in Biology.
- ♦ Ph.D. in Biological Sciences.
- ♦ Faculty of Pharmacy.
- ♦ CEU San Pablo University.
- ♦ Full Professor, Department of from Chemistry and Biochemistry.

Dña. López Briz, Eduardo

- ♦ Graduate in Pharmacy.
- ♦ Specialist Pharmacist in Hospital Pharmacy.
- ♦ the Athlete Specialist in Industrial and Galenic Pharmacy.
- ♦ Valencian Community, Spain.
- ♦ Head of Pharmacy Section at Consellería de Sanidad

Dña. Buendía Sánchez, Esmeralda

- ♦ Technical Pharmaceutical Director. Arkopharma Laboratories.

Dr. Beltrán Montalbán, Estanislao

- ♦ Doctor of Medicine.
- ♦ Specialist in obstetrics and gynecology.

Dr. González Rosende, Eugenia

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ Full Professor, Department of Pharmacy.

Dña. Tejerina Tébe, Eva

- ♦ Apdena Consult S.L.

Dr. Les Parellada, Francisco

- ♦ Doctor of Pharmacy.
- ♦ Research teaching staff of the San Jorge University.
- ♦ Member of the research group Plant Bioactive Principles.

Dr. García-Fontestad, Gema Alejandra

- ♦ Doctor of Pharmacy.
- ♦ Pharmacist in pharmacy office.

Dr. León Bello, Gemma

- ♦ PhD in Public Health.
- ♦ Degree in Pharmacy.
- ♦ Associate Professor of Pharmacology at the CEU Cardenal Herrera University.

Dña. Reigada Ocaña, Inés

- ♦ Degree in Pharmacy.
- ♦ Researcher at the University of Helsinki.

Dr. Güemes Heras, Jaime

- ♦ Degree in Biology.
- ♦ Doctor of Biology (PhD).
- ♦ University of Valencia.
- ♦ Curator of the Botanical Garden, Cavanilles Institute of Biodiversity and Evolutionary and Biology

Dr. Merino Llorens, Jose Luis

- ♦ Graduate in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy. University of Valencia.
- ♦ Professor of Pharmacology, Department of Pharmacology.

Dr. Allué Creus, Josep

- ♦ Graduate in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Autonomous University of Barcelona.
- ♦ Professor in the Department of Animal Biology, Plant Biology and Ecology.

Dña. Ibañez Torres, Lidia

- ♦ Professor CEU - UCH University

Dr. Moreno Royo, Lucrecia

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ Professor at Private University, Department of Pharmacy.

D. Bachiller Rodríguez, Luis Ignacio

- ♦ Degree in Medicine and Surgery.
- ♦ University Diploma in Phytotherapy and Medicinal Plants.
- ♦ Montpellier University.
- ♦ President of the Asturian Society of Phytotherapy.

Dr. Noguera Romero, María Antonia

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Full Professor, Department of from Pharmacology
- ♦ Faculty of Pharmacy. University of Valencia.

Dr. Guerrero Masiá, María Dolores

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ University Professor of the Department of Pharmacy.

Dña. Alonso Osorio, María José

- ♦ Degree in Pharmacy.
- ♦ Specialist in Galenic and Industrial Pharmacy.
- ♦ Postgraduate Diploma in Phytotherapy from the University of Montpellier.
- ♦ Member of Medicinal Plants and Homeopathy, College of Pharmacists of Barcelona.

Dr. Martín López, Teresa

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy, University of Alcalá.
- ♦ Full Professor, Department of from Pharmacology.

Dr. Carretero Accame, María Emilia

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy. Complutense University of Madrid.
- ♦ Full Professor, Department of from Pharmacology.

Dña. Dea Ayuela, María Auxiliadora

- ♦ University Professor, Department Pharmacy. CEU Cardenal Herrera University.

Dr. Bejarano, María

- ♦ Doctor of Pharmacy.
- ♦ Pharmacist in pharmacy office.

Dr. Sanfeliu Alonso, María Carmen

- ♦ Doctor of Pharmacy. University of Valencia.
- ♦ University professor CEU Cardenal Herrera University

Dr. García Giménez, María Dolores

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy, University of Seville.
- ♦ Professor in Pharmacy, Department of Pharmacology.

Dr. Marín Vázquez, Marta

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ University Professor of the Department of Pharmacy.

D. Martín Almendros, Miguel

- ♦ Degree in Medicine and Surgery.
- ♦ Specialist in the HLBO blood diagnostic test.
- ♦ Diploma in Natural Therapy in Biological Medicine.
- ♦ Secretary of the Working Group on Phytotherapy SEMERGEN.

Dr. Acero de Mesa, Nuria

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy.
- ♦ CEU San Pablo University.
- ♦ Professor of the Department of Pharmaceutical and Health Sciences.

Dr. Palomino Ruiz-Poveda, Olga María

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy, Complutense University, Madrid.
- ♦ Associate Professor of the Department of Pharmacology.

Dr. Sánchez Thevenet, Paula

- ♦ Degree in Biology.
- ♦ Doctor in Biochemistry (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ Professor of degree the Department of Biomedical Sciences.

Dr. Catalá, Pedro

- ♦ Graduate in Pharmacy.
- ♦ Specialist in Cosmetology.
- ♦ Founder of Twelve Beauty.
- ♦ Doctor in Pharmacy (PhD).

Dr. Soriano Guarinos, Pilar

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy, University of Valencia.
- ♦ Full Professor, Department of from Pharmacology.

D. Folgado Bisbal, Ricardo V.

- ♦ Graduate in Pharmacy.
- ♦ Member of the Very Illustrious Official College of Pharmacists of Valencia.

Dña. Izquierdo Palomares, Rosa

- ♦ Degree in Pharmacy.
- ♦ Drug Information Center.
- ♦ Illustrious Official College of Pharmacists of Castellón.

Dr. Máñez Aliño, Salvador

- ♦ Graduate in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy, University of Valencia.
- ♦ Professor of Pharmacology, Department of Pharmacology.

Dr. Puchol Enguádanos, Santiago Vicente

- ♦ Doctor of Pharmacy.
- ♦ Pharmacist in pharmacy office.

Dr. Ortega Hernández-Agero, Teresa

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Pharmacy, Complutense University, from Madrid.
- ♦ Full Professor, Department of from Pharmacology.

Dr. Beltrán Sanz, Vicente

- ♦ Doctor of Pharmacy.
- ♦ Pharmacy office holder.

Dr. Rodilla Alama, Vicente

- ♦ Degree in Biology.
- ♦ Doctor of Biology (PhD).
- ♦ Faculty of Health Sciences. CEU Cardenal Herrera University.
- ♦ Professor of Pharmacy Department.

Dr. López Ramos, Víctor

- ♦ Graduate in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Faculty of Health Sciences, San Jorge University of Zaragoza.
- ♦ Professor of Pharmacy Department.

Dr. Villagrasa, Victoria

- ♦ Degree in Pharmacy.
- ♦ Doctor in Pharmacy (PhD).
- ♦ Facultad de Ciencias de la Salud, Universidad CEU Cardenal Herrera.
- ♦ Professor of Pharmacy Department.

04

Structure and Content

The contents have been developed by the different experts of this course, with a clear purpose: to ensure that our students acquire each and every one of the skills necessary to become true specialists in this field.

“

A development of knowledge and techniques of phytotherapy in the field of locomotor system disorders, essential for the pharmacist, created to enable him/her to provide a high quality intervention”

Module 1. Phytotherapy and Herbal Medicines

- 1.1. Phytotherapy: Definition and Scope of Application.
- 1.2. Botanical Nomenclature and the Citation of Species in Phytotherapy.
- 1.3. Current Classification of Plant Groups.
- 1.4. Legislation and Registration of Herbal Medicines in Spain.
- 1.5. Regulation of the European Market for Medicinal Herbal Preparations: Legal Regulations and Scope of Application.
- 1.6. Cultivation, Collection, Processing and Preservation of Medicinal Plants.
- 1.7. Plant-Based Drugs: Impact of Drug Recognition on the Quality of Phytotherapeutic Products.
- 1.8. Mushrooms with Medicinal Utility.

Module 2. Active Ingredients of the Plants, Pharmaceutical Forms and Galenic Preparations.

- 2.1. Active Ingredients: Main Groups and Properties, as a Basis that Justifies the use of Phytotherapy.
- 2.2. Carbohydrates, Lipids, Proteins, and Sulfocyanogenetic Heterosides and their Therapeutic Application.
- 2.3. Simple Phenols, Coumarins and Lignans and their therapeutic application.
- 2.4. Flavonoids and their Therapeutic Application.
- 2.5. Tannins and Quinones and their Application.
- 2.6. Isoprenoids, Saponins and Cardiotonic Heterosides and their Application.
- 2.7. Resins and their Application.
- 2.8. Alkaloids and their Application.
- 2.9. Magistral Formulation in Phytotherapy.
- 2.10. Other Pharmaceutical Forms in Phytotherapy.
- 2.11. Industrial Processing of Herbal Medicines.

Module 3. Phytotherapy for Disorders of the Locomotor System

- 3.1. Phytotherapy in Arthritis.
- 3.2. Phytotherapy in Arthrosis.
- 3.3. Phytotherapy for Joint Pain: Anti-Inflammatory and Analgesic.
- 3.4. Medicinal Plants Muscle Relaxants for the Treatment of Muscle Contractions.
- 3.5. Phytotherapy in the Treatment of Rheumatism.
- 3.6. Phytotherapy in the Treatment of Gout: Uricosuric Plants.
- 3.7. Phytotherapy in the Treatment of Sarcopenia.
- 3.8. Remineralizing Medicinal Plants.

A comprehensive teaching program, structured in well-developed teaching units, oriented toward a high impact learning and training"

05

Methodology

This training provides you with a different way of learning. Our methodology uses a cyclical learning approach: ***Re-learning***.

This teaching system is used in the most prestigious medical schools in the world, and major publications such as the ***New England Journal of Medicine*** have considered it to be one of the most effective.

“

Discover Re-learning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization".

At TECH we use the Case Method

In a given clinical situation, what would you do? Throughout the program, you will be presented with multiple simulated clinical cases based on real patients, where you will have to investigate, establish hypotheses and, finally, resolve the situation. There is abundant scientific evidence on the effectiveness of the method. Pharmacists learn better, more quickly and more sustainably over time.

With TECH you can experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gervas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching potential or because of its uniqueness or rarity. It is essential that the case is based on current professional life, attempting to recreate the actual conditions in a pharmacist's professional practice.

“

Did you know that this method was developed in 1912 at Harvard for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental achievements:

1. Pharmacists who follow this method not only achieve the assimilation of concepts, but also develop their mental capacity through exercises to evaluate real situations and apply their knowledge.
2. The learning process has a clear focus on practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Re-Learning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Re-learning.

Our University is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Pharmacists will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Re-learning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best Spanish-speaking online university (Columbia University).

With this methodology we have trained more than 115,000 pharmacists with unprecedented success, in all clinical specialties. Our pedagogical methodology is developed in a highly demanding environment, with a university student body with a high socioeconomic profile and an average age of 43.5 years old.

Re-learning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (we learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

In this program you will have access to the best educational material, prepared with you in mind:

Study Material

All teaching material is created specifically for the course by specialist pharmacists who will be teaching the course, so that the didactic development is highly specific and accurate.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Video Techniques and Procedures

We bring you closer to the latest techniques, to the newest educational advances, to the forefront of current pharmaceutical care procedures. All this, in first person, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides. in our virtual library you will have access to everything you need to complete your training.

06

Certificate

This Postgraduate **Diploma in Phytotherapy of locomotor system disorders** guarantees you, in addition to the most rigorous and updated training, access to a Postgraduate Diploma issued by **TECH - Technological University**.

“

Successfully complete this training and receive your university degree without travel or laborious paperwork".

This **Postgraduate Diploma in Phytotherapy for Disorders of the Locomotor System disorders** contains the most complete and up-to-date scientific program on the market. After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH - Technological University** via tracked delivery.

The certificate issued by **TECH - Technological University**, specifies the qualification obtained through the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Diploma in Phytotherapy for Disorders of the Locomotor System**

18 ECTS Credits

Official Number of Hours: **450 hours**.
