Introduction to the Program

The management of sports entities has gained a strategic dimension in the global context, where sport not only represents a social and cultural phenomenon but also a high-impact economic sector. According to the Sports Global Market Report compiled by The Business Research Company, it is estimated that the sports industry will exceed a value of 700 billion dollars in the coming years, driven by the professionalization of management, digitalization, and the increasing demand for events and sports products. In this scenario, TECH has designed this postgraduate degree, which is presented as a 100% online academic offering, designed to prepare physiotherapists capable of leading sports organizations with a strategic vision, talent management, regulatory knowledge, and mastery of technological tools.

“

A comprehensive and 100% online program, exclusive to TECH, with an international perspective backed by our membership in the Business Graduates Association”

The increasing complexity of the sports sector demands professional profiles capable of integrating clinical knowledge with managerial skills. In this context, the physiotherapist specializing in sports must not only master therapeutic techniques, but also understand the management processes that ensure the effective operation of a sports organization. Accordingly, professionals in the field must also develop advanced competencies in organizational decision-making, leadership of multidisciplinary teams, and efficient resource management.

To address this need, TECH has developed this revolutionary MBA in Sports Entities Management. Through a comprehensive and in-depth curriculum, the program will cover essential topics such as corruption, violence, and precautionary measures in sports. It will also delve into the interpretation and analysis of harmful practices affecting athletes, including doping and gambling.

Additionally, this university program is delivered in a 100% online format, providing graduates with the flexibility to study anytime, anywhere, at their own pace and convenience. All they need is a device with internet access to take their career one step further. This will be further enhanced by the innovative Relearning methodology, which promotes a more progressive and efficient learning process. In addition, graduates will have the opportunity to attend exclusive masterclasses delivered by renowned International Guest Directors.

Furthermore, thanks to TECH's membership in the **Business Graduates Association (BGA)**, students will have access to exclusive and up-to-date resources that will strengthen their continuous learning and professional development, as well as discounts on professional events that will facilitate networking with industry experts. Additionally, they will be able to expand their professional network by connecting with specialists from different regions, fostering the exchange of knowledge and new job opportunities.

This **Professional Master's Degree MBA in Sports Entities Management** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The development of practical case studies presented by experts in Sports Entities Management
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Special emphasis on innovative methodologies in Sports Entities Management
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an internet connection

Renowned international guest directors will deliver cutting-edge masterclasses focused on the latest trends in Sports Entities Management"

“

You will gain a global and integrative perspective on the management of sports organizations, with a strong emphasis on strategic planning and organizational structure”

The faculty includes professionals actively working in the field of Sports Entities Management, who bring to the program the practical experience of their careers, along with renowned specialists from leading organizations and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive learning experience designed to prepare for real-life situations.

The design of this program is centered on Problem-Based Learning (PBL), through which the graduate will be challenged to resolve various professional practice scenarios presented throughout the academic year. To support this process, participants will benefit from an innovative system of interactive video resources, developed by renowned experts in the field.

You will gain an in-depth understanding of the sports disciplinary system, with a particular focus on anti-doping regulations.

A syllabus tailored to your needs and designed under the most effective teaching methodology: Relearning.

02

Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it relies on an enormous faculty of more than 6,000 professors of the highest international renown.

“

*Study at the world's largest online university
and guarantee your professional success.
The future starts at TECH”*

The world's best online university, according to FORBES

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

The best top international faculty

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

The most complete syllabuses on the university scene

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

A unique learning method

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

Google Premier Partner

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

The top-rated university by its students

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

03 Syllabus

The content of this MBA has been developed by a distinguished team of experts in Sports Management, who have designed a rigorous academic pathway aligned with the latest trends in the sector. Throughout the program, physiotherapists will gain a global perspective of the sports environment, covering everything from the legal and organizational framework to the most innovative tools in leadership, Big Data, eSports, and financial management. In addition, the syllabus integrates a strategic and executive approach that will enable professionals to advance their careers and take on high-level leadership roles within the sports industry.

“

With this specialized syllabus, you will analyze the legal regulations governing sports facilities and their proper application in management projects”

Module 1. Introduction to Sports Law and Management

- 1.1. The Sports Environment
 - 1.1.1. Historical Background of Sports Law

 - 9.1.3. The Role of the Board of Directors in the Corporate Governance Framework
- 9.2. *Cross-Cultural Management*
 - 9.2.1. Cross-Cultural Management Concept
 - 9.2.2. Contributions to Knowledge of National Cultures
 - 9.2.3. Diversity Management
- 9.3. Business Ethics
 - 9.3.1. Ethics and Morality
 - 9.3.2. Business Ethics
 - 9.3.3. Leadership and Ethics in Companies
- 9.4. Sustainability
 - 9.4.1. Sustainability and Sustainable Development
 - 9.4.2. The 2030 Agenda
 - 9.4.3. Sustainable Companies
- 9.5. Corporate Social Responsibility
 - 9.5.1. International Dimensions of Corporate Social Responsibility
 - 9.5.2. Implementing Corporate Social Responsibility
 - 9.5.3. The Impact and Measurement of Corporate Social Responsibility

- 9.6. Responsible Management Systems and Tools
 - 9.6.1. CSR: Corporate Social Responsibility (CSR)
 - 9.6.2. Essential Aspects for Implementing a Responsible Management Strategy
 - 9.6.3. Steps for the Implementation of a Corporate Social Responsibility Management System
 - 9.6.4. CSR Tools and Standards
- 9.7. Multinationals and Human Rights
 - 9.7.1. Globalization, Multinational Corporations and Human Rights
 - 9.7.2. Multinational Corporations and International Law
 - 9.7.3. Legal Instruments for Multinationals in the Area of Human Rights
- 9.8. Legal Environment and Corporate Governance
 - 9.8.1. International Rules on Importation and Exportation
 - 9.8.2. Intellectual and Industrial Property
 - 9.8.3. International Labor Law

Module 10. People and Talent Management

- 10.1. Human Resources Management by Competencies
 - 10.1.1. Analysis of the Potential
 - 10.1.2. Remuneration Policy
 - 10.1.3. Career/Succession Planning
- 10.2. Performance Evaluation and Performance Management
 - 10.2.1. Performance Management
 - 10.2.2. Performance Management: Objectives and Process
- 10.3. Innovation in Talent and People Management
 - 10.3.1. Strategic Talent Management Models
 - 10.3.2. Talent Identification, Training and Development
 - 10.3.3. Loyalty and Retention
 - 10.3.4. Proactivity and Innovation

- 10.4. Motivation
 - 10.4.1. The Nature of Motivation
 - 10.4.2. Expectations Theory
 - 10.4.3. Needs Theory
 - 10.4.4. Motivation and Financial Compensation
- 10.5. Developing High-Performance Teams
 - 10.5.1. High-Performance Teams: Self-Managed Teams
 - 10.5.2. Methodologies for the Management of High-Performance Self-Managed Teams
- 10.6. Change Management
 - 10.6.1. Change Management
 - 10.6.2. Type of Change Management Processes
 - 10.6.3. Stages or Phases in the Change Management Process
- 10.7. Executive Communication
 - 10.7.1. Internal and External Communication in the Corporate Environment
 - 10.7.2. Communication Departments
 - 10.7.3. The Person in Charge of Communication of the Company. The Profile of the Dircom
- 10.8. Productivity, Attraction, Retention and Activation of Talent
 - 10.8.1. Productivity
 - 10.8.2. Talent Attraction and Retention Levers

Module 11. Economic and Financial Management

- 11.1. Economic Environment
 - 11.1.1. Macroeconomic Environment and the National Financial System
 - 11.1.2. Financial Institutions
 - 11.1.3. Financial Markets
 - 11.1.4. Financial Assets
 - 11.1.5. Other Financial Sector Entities
- 11.2. Executive Accounting
 - 11.2.1. Basic Concepts
 - 11.2.2. The Company's Assets
 - 11.2.3. The Company's Liabilities
 - 11.2.4. The Company's Net Worth
 - 11.2.5. Results Research
- 11.3. Information Systems and Business Intelligence
 - 11.3.1. Fundamentals and Classification
 - 11.3.2. Cost Allocation Phases and Methods
 - 11.3.3. Choice of Cost Center and Impact
- 11.4. Financial Management
 - 11.4.1. The Company's Financial Decisions
 - 11.4.2. Financial Department
 - 11.4.3. Cash Surpluses
 - 11.4.4. Risks Associated with Financial Management
 - 11.4.5. Financial Administration Risk Management
- 11.5. Financial Planning
 - 11.5.1. Definition of Financial Planning
 - 11.5.2. Actions to Be Taken in Financial Planning
 - 11.5.3. Creation and Establishment of the Business Strategy
 - 11.5.4. The Cash Flow Table
 - 11.5.5. The Working Capital Table
- 11.6. Corporate Financial Strategy
 - 11.6.1. Corporate Strategy and Sources of Financing
 - 11.6.2. Financial Products for Corporate Financing
- 11.7. Strategic Financing
 - 11.7.1. Self-Financing
 - 11.7.2. Increase in Equity
 - 11.7.3. Hybrid Resources
 - 11.7.4. Financing Through Intermediaries
- 11.8. Financial Analysis and Planning
 - 11.8.1. Analysis of the Balance Sheet
 - 11.8.2. Income Statement Analysis
 - 11.8.3. Profitability Analysis
- 11.9. Analyzing and Solving Cases/Problems
 - 11.9.1. Financial Information on Industria de Diseño y Textil, S.A. (INDITEX)

Module 12. Commercial and Strategic Marketing Management

- 12.1. Commercial Management
 - 12.1.1. Conceptual Framework of Commercial Management

 - 13.3.3. Quality Management
- 13.4. Public Speaking and Spokesperson Education
 - 13.4.1. Interpersonal Communication
 - 13.4.2. Communication Skills and Influence
 - 13.4.3. Communication Barriers
- 13.5. Personal and Organizational Communications Tools
 - 13.5.1. Interpersonal Communication
 - 13.5.2. Interpersonal Communication Tools
 - 13.5.3. Communication in the Organization
 - 13.5.4. Tools in the Organization
- 13.6. Communication in Crisis Situations
 - 13.6.1. Crisis
 - 13.6.2. Phases of the Crisis
 - 13.6.3. Messages: Contents and Moments

- 13.7. Preparation of a Crisis Plan
 - 13.7.1. Analysis of Possible Problems
 - 13.7.2. Planning
 - 13.7.3. Adequacy of Personnel
- 13.8. Emotional Intelligence
 - 13.8.1. Emotional Intelligence and Communication
 - 13.8.2. Assertiveness, Empathy and Active Listening
 - 13.8.3. Self-Esteem and Emotional Communication
- 13.9. Personal Branding
 - 13.9.1. Strategies for Personal Brand Development
 - 13.9.2. Personal Branding Laws
 - 13.9.3. Tools for Creating Personal Brands

You will understand the legal aspects related to the organization of sports events, from civil liability to criminal liability"

04

Teaching Objectives

This university program is designed to prepare physiotherapists with a strong theoretical and practical foundation, capable of leading and managing sports organizations in an increasingly competitive and professionalized environment. Throughout this Professional Master's Degree, professionals will develop the competencies needed to face the most demanding challenges in the sports sector—not only from a strategic and organizational perspective, but also through an ethical and sustainability-focused approach. In doing so, they will acquire in-depth knowledge of sports entity management, including team leadership, financial planning, sports marketing, and event management.

“

*You will apply marketing, communication,
and commercial management strategies
to enhance the visibility of Sports Entities”*

General Objectives

- ♦ Develop leadership and team management skills in sports entities
- ♦ Apply sports marketing strategies to promote sports organizations and events
- ♦ Effectively manage human resources within a sports organization
- ♦ Analyze and manage the financial aspects of sports entities
- ♦ Acquire knowledge of the legislation and regulations governing the sports sector
- ♦ Implement innovative technologies and Big Data to optimize sports management
- ♦ Manage sports events efficiently, from planning to execution
- ♦ Develop negotiation skills in the sports field to secure favorable agreements
- ♦ Create internationalization strategies for sports entities on a global scale
- ♦ Apply principles of social responsibility and sustainability in sports management
- ♦ Develop strategic decision-making skills in the leadership of sports organizations
- ♦ Foster a comprehensive vision of sports, considering its social, economic, and cultural impact

Specific Objectives

Module 1. Introduction to Sports Law and Management

- ♦ Understand the legal principles that underpin the sports sector
- ♦ Comprehend the legal framework that regulates sports activities

Module 2. Organizational Structure of International Sport

- ♦ Gain knowledge about the international sports ecosystem
- ♦ Understand the different actors involved in the sport at the international level

Module 3. Strategic Planning in Sports Organizations

- ♦ Understand the fundamentals of strategy applied to sport
- ♦ Develop skills to design strategic plans in sports organizations

Module 4. Financial Management and Tax Aspects in Sports

- ♦ Understand the regulatory framework that governs sports jurisdiction
- ♦ Analyze the role of jurisdiction in the resolution of sports-related conflicts

Module 5. Marketing and Communication in Sports

- ♦ Gain knowledge of sports marketing and the creation and development of a marketing plan
- ♦ Understand the importance of communication in sports

Module 6. Organization of Sports Events

- ♦ Get to know the steps and stages involved in organizing a sports event
- ♦ Organize efficient and successful sports events from planning to final evaluation

Module 7. New Trends in Sports: Big Data and Sports

- ♦ Ignite interest in innovation in Sports Entities Management
- ♦ Explore new trends in the Management of Sports Entities

Module 8. Leadership and People Management in Sports

- ♦ Enhance leadership skills within a Sports Entity
- ♦ Learn how to properly manage people in the sports sector

Module 9. Leadership, Ethics, and Corporate Social Responsibility

- ♦ Analyze the impact of globalization on corporate governance and corporate social responsibility
- ♦ Evaluate the importance of effective leadership in the management and success of companies
- ♦ Define cross-cultural management strategies and their relevance in diverse business environments
- ♦ Develop leadership skills and understand the current challenges faced by leaders

Module 10. People and Talent Management

- ♦ Determine the relationship between strategic direction and human resources management
- ♦ Delve into the competencies necessary for the effective management of human resources by competencies

Module 11. Economic and Financial Management

- ♦ Analyze the macroeconomic environment and its influence on the national and international financial system
- ♦ Define the information systems and Business Intelligence for financial decision making

Module 12. Commercial and Strategic Marketing Management

- ♦ Structure the conceptual framework and the importance of commercial management in companies
- ♦ Delve into the fundamental elements and activities of marketing and their impact on the organization
- ♦ Determine the stages of the strategic marketing planning process
- ♦ Evaluate strategies to improve corporate communication and the digital reputation of the company

Module 13. Executive Management

- ♦ Define the concept of General Management and its relevance in business management
- ♦ Analyze the importance of operations management and quality management in the value chain

05

Career Opportunities

This university program offers a unique opportunity for physiotherapists seeking to acquire an up-to-date and specialized perspective on the management and leadership of sports entities. Through strategic, financial, legal, and organizational knowledge, graduates will be fully prepared to lead projects, teams, and events in the sports sector. This Professional Master's Degree will drive their professional development, enhancing their profile in international markets.

“

*With access to top-tier academic materials,
you will apply analytical reasoning to highly
complex scenarios within the sports field”*

Graduate Profile

Graduates of this academic pathway will become experts equipped to take on leadership positions in Sports Entities Management. They will acquire in-depth knowledge of strategic planning, sports marketing, team leadership, talent management, and event organization. In addition, they will develop a comprehensive understanding of the sports ecosystem, both nationally and internationally, and will be able to make well-informed decisions grounded in financial, legal, and ethical principles.

You will identify the role of federations, leagues, and other bodies within the international organization of sport.

- ♦ **Mastery of the Global Sports Environment:** Analyze and manage the dynamics of sport at the national and international levels by applying effective organizational models
- ♦ **Leadership and Team Management:** Lead individuals and teams within sports organizations, fostering high performance and organizational development
- ♦ **Strategic and Financial Capability:** Master key tools for planning, executing, and evaluating strategies in the economic and commercial dimensions of sport
- ♦ **Legal and Ethical Vision of Sport:** Navigate the regulatory and jurisdictional frameworks of the sports sector, with the ability to make responsible and sustainable decisions

After completing the university program, you will be able to apply your knowledge and skills in the following positions:

- 1. Director of Professional Sports Entities:** Leader and coordinator of the strategic and administrative operations of clubs, federations, or academies
- 2. Sports Event Manager:** Responsible for planning, organizing, and evaluating sporting competitions, conferences, or events, with a focus on profitability and audience experience
- 3. Sports Marketing and Communications Manager:** Developer of branding strategies, institutional communication, and sponsorship initiatives within the sports sector
- 4. Sports Management Consultant:** Expert advisor collaborating with sports institutions in processes of improvement, expansion, or the professionalization of their organizational structures
- 5. Business Development Manager in Sports:** In charge of identifying growth opportunities, strategic partnerships, and innovation within the sports market
- 6. Human Resources Director in Sports Organizations:** Manager of human capital in clubs, federations, and other entities, focused on team motivation and performance optimization
- 7. Coordinator of Social Responsibility Projects in Sport:** Responsible for designing and implementing social programs linked to sport, aligning institutional actions with ethical and sustainable commitments
- 8. Entrepreneur in the Sports Sector:** Leader of innovative business models, products, or services in the sports industry, driven by entrepreneurial and technological perspectives

06

Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“*TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want*”

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule"

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

International Guest Director

With over 20 years of experience in designing and leading global talent acquisition teams, Jennifer Dove is an expert in recruitment and technology strategy. Throughout her career, she has held senior positions in several technology organizations within *Fortune 500* companies such as NBC Universal and Comcast. Her background has allowed her to excel in competitive, high-growth environments.

As Vice President of Talent Acquisition at Mastercard she is responsible for overseeing talent onboarding strategy and execution, collaborating with business leaders and Human Resources Managers to meet operational and strategic hiring objectives. In particular, she aims to build diverse, inclusive and high-performing teams that drive innovation and growth of the company's products and services. In addition, she is adept at using tools to attract and retain the best people from around the world. She is also responsible for amplifying Mastercard's employer brand and value proposition through publications, events and social media.

Jennifer Dove has demonstrated her commitment to continuous professional development by actively participating in networks of Human Resources professionals and contributing to the onboarding of numerous employees at different companies. After earning her bachelor's degree in Organizational Communication from the University of Miami, she has held management positions in recruitment for companies in various areas.

On the other hand, it has been recognized for its ability to lead organizational transformations, integrate technologies into recruitment processes and develop leadership programs that prepare institutions for future challenges. She has also successfully implemented occupational wellness programs that have significantly increased employee satisfaction and retention.

Ms. Dove, Jennifer

- Vice President of Talent Acquisition at Mastercard, New York, United States
- Director of Talent Acquisition at NBCUniversal Media, New York, USA
- Head of Recruitment at Comcast
- Director of Recruiting at Rite Hire Advisory, New York, USA
- Executive Vice President of the Sales Division at Ardor NY Real Estate
- Director of Recruitment at Valerie August & Associates
- Account Executive at BNC
- Account Executive at Vault
- Degree in Organizational Communication from the University of Miami

“

TECH has a distinguished and specialized group of International Guest Directors, with important leadership roles in the leading companies in the global market”

International Guest Director

A technology leader with decades of experience in **major technology multinationals**, Rick Gauthier has developed prominently in the field of **cloud services** and end-to-end process improvement. He has been recognized as a leader and manager of highly efficient teams, showing a natural talent for ensuring a high level of engagement among his employees.

He possesses innate gifts in strategy and executive innovation, developing new ideas and backing his success with quality data. His background at **Amazon** has allowed him to manage and integrate the company's IT services in the United States. At **Microsoft** he led a team of 104 people, responsible for providing corporate-wide IT infrastructure and supporting product engineering departments across the company.

This experience has allowed him to stand out as a high-impact manager with remarkable abilities to increase efficiency, productivity and overall customer satisfaction.

Mr. Gauthier, Rick

- Regional IT Director at Amazon, Seattle, United States
- Senior Program Manager at Amazon
- Vice President of Wimmer Solutions
- Senior Director of Productive Engineering Services at Microsoft
- Degree in Cybersecurity from Western Governors University
- Technical Certificate in Commercial Diving from Divers Institute of Technology
- Degree in Environmental Studies from The Evergreen State College

“

Take the opportunity to learn about the latest advances in this field to apply it to your daily practice”

International Guest Director

Romi Arman is a renowned international expert with more than two decades of experience in **Digital Transformation, Marketing, Strategy and Consulting**. Through that extended trajectory, he has taken different risks and is a permanent **advocate** for **innovation** and **change** in the business environment. With that expertise, he has collaborated with CEOs and corporate organizations from all over the world, pushing them to move away from traditional business models. In this way, he has helped companies such as Shell Energy become **true market leaders**, focused on their **customers** and the **digital world**.

The strategies designed by Arman have a latent impact, as they have enabled several corporations to **improve the experiences of consumers, staff and shareholders** alike. The success of this expert is quantifiable through tangible metrics such as **CSAT, employee engagement** in the institutions where he has practiced and the growth of the **EBITDA financial indicator** in each of them.

Also, in his professional career, he has nurtured and **led high-performance teams** that have even received awards for their **transformational potential**. With Shell, specifically, the executive has always set out to overcome three challenges: meeting **customers'** complex **decarbonization** demands **supporting** a “**cost-effective decarbonization**” and **overhauling** a fragmented **data, digital and technology** landscape. Therefore, his efforts have shown that in order to achieve sustainable success, it is essential to start from the needs of consumers and lay the foundations for the transformation of processes, data, technology and culture.

In addition, the executive stands out for his mastery of the **business applications** of **Artificial Intelligence**, a subject in which he holds a postgraduate degree from the London Business School. At the same time, he has accumulated experience in **IoT** and **Salesforce**.

Mr. Arman, Romi

- Digital Transformation Director (CDO) at Shell Energy Corporation, London, UK
- Global Director of E-Commerce and Customer Service at Shell Energy Corporation
- National Key Account Manager (OEM and automotive retailers) for Shell in Kuala Lumpur, Malaysia
- Senior Management Consultant (Financial Services Sector) for Accenture based in Singapore
- Bachelor's Degree from the University of Leeds
- Postgraduate Degree in Business Applications of AI for Senior Executives from the London Business School
- CCXP Customer Experience Professional Certification
- Executive Digital Transformation Course by IMD

“

Do you want to update your knowledge with the highest educational quality? TECH offers you the most updated content in the academic market, designed by authentic experts of international prestige”

International Guest Director

Manuel Arens is an experienced data management professional and leader of a highly qualified team. In fact, Arens holds the position of **global purchasing manager** in Google's Technical Infrastructure and Data Center division, where he has spent most of his professional career. Based in Mountain View, California, he has provided solutions for the tech giant's operational challenges, such as master **data integrity**, **vendor data updates** and **vendor** prioritization. He has led data center supply chain planning and vendor risk assessment, generating improvements in vendor risk assessment, resulting in process improvements and workflow management that have resulted in significant cost savings.

With more than a decade of work providing digital solutions and leadership for companies in diverse industries, he has extensive experience in all aspects of strategic solution delivery, including **Marketing**, **media analytics**, **measurement** and **attribution**. In fact, he has received a number of accolades for his work, including the **BIM Leadership Award**, the **Search Leadership Award**, the **Lead Generation Export Program Award** and the **Export Lead Generation Program Award** and the **EMEA Best Sales Model Award**.

Arens also served as **Sales Manager** in Dublin, Ireland. In this role, he built a team of 4 to 14 members over three years and led the sales team to achieve results and collaborate well with each other and cross-functional teams. He also served as **Senior Industry Analyst**, in Hamburg, Germany, creating storylines for over 150 clients using internal and third party tools to support analysis. He developed and wrote in-depth reports to demonstrate his mastery of the subject matter, including understanding the macroeconomic and political/regulatory factors affecting technology adoption and diffusion.

He has also led teams at companies such as Eaton, Airbus and Siemens, where he gained valuable account management and supply chain experience. He is particularly noted for continually exceeding expectations by **building valuable customer relationships** and **working seamlessly with people at all levels of an organization**, including stakeholders, management, team members and customers. His data-driven approach and ability to develop innovative and scalable solutions to industry challenges have made him a prominent leader in his field.

Mr. Arens, Manuel

- Global Procurement Manager at Google, Mountain View, United States
- Senior Manager, B2B Analytics and Technology, Google, United States
- Sales Director at Google, Ireland
- Senior Industry Analyst at Google, Germany
- Accounts Manager at Google, Ireland
