Introduction

Changes in the study program nowadays make it possible to complete an official program without the obligation to take a practicum. In most cases in which this happens, the academic entity does not even give the student the option to decide, but does not even include this possibility in the structure of the program. For this reason, there are millions of highly qualified professionals who do not manage to enter the labor market because companies, in most cases, require a minimum number of practical hours to demonstrate their skills. There is also the case of people who, after having completed a program, feel the need for a practical period to contextualize and fix the knowledge acquired during the course of theory.

Incorporate into your daily practice the most relevant advances in the area of Forensic Psychology thanks to a distinctive and unique practical experience in the academic landscape”

These two situations are what have motivated TECH to create this Internship Program in Forensic Psychology and Damage Assessment. The aim is to expand and strengthen the commitment to the professional growth of the graduate through the possibility of taking a practical stay in a leading company in the field of psychology. In this way, the graduate will have a guaranteed opportunity to share the day-to-day with professionals in the sector and learn, in detail, the latest developments in the working environment of the clinic.

Throughout the 3 weeks of training, the specialist will be able to perfect their skills and abilities in the clinical management of cases that require the participation of the forensic psychologist. Additionally, they will be able to actively participate in consultations, enhancing their work and professional skills.

With the course of this Internship Program, you will also be able to learn about the latest developments in the sector and deepen in the most current psychological praxis. All this tutored by a team of experts with years of experience in the area of forensic psychology and damage assessment, which will be committed so that the graduate can get the most out of the 120 hours of stay.

02

Why Study an Internship Program?

Forensic psychology professionals need unquestionable practice to be able to perform their duties with the utmost rigor and in compliance with current administrative procedures, all of which is key to the clarification of criminal acts. That is why TECH has created this Internship Program, which offers specialists the possibility of a practical stay of 3 intensive weeks in a relevant clinic. In this way, you will be able to see in situ and from the hand of real expert psychologists in this field, how they carry out the procedures for assessing the aptitude of victims and defendants of crimes. All this will provide you with a direct and real vision of the latest developments in this field, from the hands of the best professionals.

TECH gives you the opportunity to grow professionally in the field of Forensic Psychology, hand in hand with the best specialists"

1. Updating from the latest technology available

The evaluation processes have been improved in recent years, thanks to scientific studies and the daily practice of professionals in Forensic Psychology. For this reason, and with the objective of bringing the specialist closer to these techniques and procedures, TECH presents this Internship Program, where the professional will be able to obtain the most recent advances in this area, from the hand of authentic specialists.

2. Gaining In-Depth Knowledge from the Experience of Top Specialists

In this practical period, the professional will not be alone, as they will be tutored by a specialist, who will advise them on the methods and procedures used in the area of Forensic Psychology and Damage Assessment, and their current relevance in the resolution of legal cases. A unique opportunity that only TECH offers.

3. Entering Top-notch Environments

One of TECH's objectives is that the professional who attends this program obtains a learning experience that will allow them to progress in the field of Forensic Psychology. For this reason, it pays great attention to the selection process of clinical centers, where the practical stay will take place. In this way, students are guaranteed access to a first class professional environment.

4. Putting the acquired knowledge into daily practice from the very first moment

TECH puts the focus of this program on practical learning. Therefore, from the first moment, students will be immersed in a clinic, where they will be integrated with a team with extensive experience in Forensic Psychology and Damage Assessment. This will allow them to obtain an effective experience during the 3 weeks of duration.

5. Expanding the Boundaries of Knowledge

This academic institution offers the possibility of carrying out this Internship Program in cutting-edge centers, with national and international projection. In this way, students will be surrounded by the best experts in the area of Forensic Psychology and Damage Assessment. This, in turn, will provide them with a broader view of their professional career and the multiple options open to them after completing this program.

*You will have full practical immersion
at the center of your choice"*

03

Objectives

This program has been designed exclusively with the best interests of the graduate in mind. That is why, by accessing this Internship Program, you will be able to expand your knowledge in legal psychology and acquire a broad vision of forensic psychology, highlighting the ability to assess the different clinical cases that may be presented to you throughout your professional career. Additionally, the team of experts who will accompany you during your stay will provide you with all the necessary tools to perfect your skills in the management of patients in this area.

General Objectives

- ♦ Master the latest techniques for the completion of psychological studies, which are key to the realization of judicial expert's reports
- ♦ Incorporate into the daily work the methods and procedures required for the accurate completion of an expertise from the perspective of the forensic psychologist
- ♦ Know the processes required for the assessment of a patient in case of abuse

Specific Objectives

- Analyze the most relevant aspects of child issues, custody assessment and sexual assault
- Analyze adolescent psychology and criminal careers, as well as the application of the penal code at early ages of growth
- Conduct a psychological - forensic study on gender violence, role understanding and sexual aggressions
- Conduct a study of personality traits as applied to the study of forensic psychology
- Apply psychometric tests commonly used in the field of forensic psychology
- Make an expert report to be presented in court

Accessing this training will give you the possibility of witnessing and actively participating in the damage assessment of possible victims of sexual assault and gender violence".

04

Educational Plan

The Internship Program consists of a practical stay in a prestigious center, a 3-week period, from Monday to Friday with 8 consecutive hours of work with an attending specialist. This experience will allow the graduate to know in detail the day to day of the profession and to work in real situations alongside an expert and reference team within the area of Forensic Psychology.

In this training proposal, completely practical in nature, the activities are aimed at developing and perfecting the skills necessary for the provision of psychological care in areas and conditions that require a high level of qualification, and which are oriented to the specific training for the exercise of the activity, in an environment of safety for the individual and high professional performance.

The practical education will be carried out with the active participation of the student performing the activities and procedures of each area of skill (learning to learn and learning to do), with the accompaniment and guidance of teachers and other fellow trainees who facilitate teamwork and multidisciplinary integration as transversal skills for the praxis of Forensics psychology (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the training, and their implementation will be subject to the center's own availability and workload, the proposed activities being the following:

Module	Practical Activity
Assessment of minors in court	Conducting interviews with minors
	Evaluating the precise conditions for the disputed custody and guardianship
	Assess sexual assaults in an appropriate manner, and from the point of view of the psychologist
	Assessing violent behavior of minors in the courts
Detection of cases of abuse	Evaluate the profile of a male abuser, applying methods used in Psychology
	Detect the dynamics of the abusive relationship through different techniques
	Applying the SALS (<i>Sexual Abuse Legitimacy</i>), scale, to determine the credibility of the parties involved in the case of abuse
	Detection of impulse control and personality disorders
Psychometric Tests	Conducting the CUIDA questionnaire for the evaluation of adopters
	Apply the impulsivity questionnaire and evaluate the suicide risk scale
	Perform the PAI psychopathological screening, for the comprehensive assessment of psychopathology in adults
	Carry out the MMSE questionnaire for the assessment of dementia
Judicial Expertise-Psychological Assessment	Identify injuries through the forensic psychological assessment
	Identify the after-effects of the assaulted person
	Collaborate in the realization of forensic psychological report
	Evaluate the emergent damage, from the point of view of the psychologist

General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the Internship Program period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship program agreement shall be as follows:

- 1. TUTOR:** During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.
- 2. DURATION:** The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.
- 3. ABSENCE:** If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.
- 4. CERTIFICATION:** Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.
- 5. EMPLOYMENT RELATIONSHIP:** The Internship Program shall not constitute an employment relationship of any kind.
- 6. PRIOR EDUCATION:** Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.
- 7. DOES NOT INCLUDE:** The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed. However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

07 Certificate

This **Hybrid Professional Master's Degree in Forensic Psychology and Damage Assessment** contains the most complete and up-to-date program on the professional and educational field.

After the student has passed the assessments, they will receive their corresponding Hybrid Professional Master's Degree diploma issued by TECH Technological University via tracked delivery*.

In addition to the diploma, students will be able to obtain an academic transcript, as well as a certificate outlining the contents of the program. In order to do so, students should contact their academic advisor, who will provide them with all the necessary information.
