Introduction

One of the most common therapeutic interventions in the psychologist's office is the one that affects the emotional and consequently motivational areas. In order to be able to intervene safely, the professionals need to be constantly updated and of high quality. This Postgraduate Certificate represents a unique opportunity to develop your skills in the field, in a practical and rigorous way, thanks to the online mode on which this program is based.

“

This Postgraduate Certificate will broaden your horizons as a psychologist and will allow you to grow personally and professionally”

This Postgraduate Certificate provides extensive knowledge in Anthropological Models in Psychology. For this, you will have a teaching faculty that stands out for its extensive professional experience in the different fields in which psychology has developed and in different sectors of the population.

Throughout this program, you will learn the current and newest approaches on this topic. You will learn how to manage the acquired skills and put them into practice with total security.

We will not only take you through the theoretical knowledge we offer, but we will introduce you to another way of studying and learning, one which is simpler, more organic and more efficient. We will work to keep you motivated and to develop your passion for learning, helping you to analyze and to develop critical thinking skills.

A high-level step that will become a process of improvement, not only on a professional level, but also on a personal level.

This **Postgraduate Certificate in Anthropological Models in Psychology** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of 100 case studies presented by experts in Developmental Psychology
- ♦ The graphic, schematic, and practical contents provide students with scientific and practical information on the disciplines that are essential for Psychologist
- ♦ New developments and innovations in the different areas of psychology
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Algorithm-based interactive learning system for decision-making in the situations that are presented to the student
- ♦ Special emphasis on cutting-edge methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

An educational program created for professionals who aspire for excellence, and that will enable you to acquire new skills and strategies easily and effectively"

“

An approach that is totally focused on capacitative effectiveness, which will allow you to learn in a real, constant and efficient way”

Increase your confidence as a psychologist, updating your knowledge through this Postgraduate Certificate.

This Postgraduate Certificate makes the difference between a professional with a lot of knowledge and a truly competent professional.

It includes a very broad teaching staff made up of experts in psychology, who share their work experience in this program, as well as recognized specialists from leading communities and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive program designed to learn in real situations.

This program is designed around Problem-Based Learning, where the student must try to solve the different professional practice situations that arise during the course. For this purpose, the professional will be assisted by an innovative interactive video system created by renowned and experienced research experts.

02

Objectives

The objectives of this program have been established as a guide for the development of all training, with the specific mission of offering the students a very intensive education that really drives their professional progression. A journey of personal growth that will take you to the top in your intervention as a psychologist.

“

If your goal is to improve in your profession, to acquire a qualification that will enable you to compete among the best, then look no further. This training will give your career the boost it needs”

General Objective

- ♦ Train qualified professionals for the practice of psychology who can intervene with real working capacity and optimal results, supported by the complete management of ethics and deontology, with the most updated and useful theoretical and practical knowledge

This Postgraduate Certificate is aimed at psychologists who are looking for an increase in their assistance capacity and a boost to their career"

Specific Objectives

- ♦ Possess knowledge about the persons and the societies in which they develop
- ♦ Contrast with the different anthropological schools that are presented
- ♦ Learn basic knowledge derived from philosophical anthropology, cultural anthropology, and ethnology
- ♦ Describe the timeline of the dynamics occurring in the person of anthropology
- ♦ Learn how the person is a creation of culture and a creator of culture and the specific role of psychology in this regard
- ♦ Understand cultural differences and their contributions to a broader understanding of the person and society

03

Structure and Content

The contents of this comprehensive training program have been developed by the sector's most competent professionals, with a high quality criterion at every stage of the course. For this purpose, the most relevant and comprehensive topics have been selected, with the latest and most interesting updates.

“

This Postgraduate Certificate in Anthropological Models in Psychology contains the most complete and up-to-date scientific program on the market”

Module 1. Anthropological Models in Psychology

- 1.1. Nature and history of anthropology
 - 1.1.1. Definition. Branches in Anthropology
 - 1.1.2. History of Anthropology
 - 1.1.3. Anthropology in the 20th Century
 - 1.1.4. Anthropology in modern times
- 1.2. Cultural Anthropology
 - 1.2.1. Cultural Anthropology
 - 1.2.2. Ethnocentrism, Cultural Relativism and Human Rights
 - 1.2.3. Universality, Generality and Particularity
 - 1.2.4. Culture change mechanisms
 - 1.2.5. Multiculturalism
 - 1.2.6. Paradigm of cultural relativism
- 1.3. The Human Person
 - 1.3.1. The person as an end in itself
 - 1.3.2. The person in space and time
 - 1.3.3. The person as a capable being
 - 1.3.4. Human nature
- 1.4. Affectivity and human dynamics
 - 1.4.1. Emotions, feelings and passions
 - 1.4.2. Classification of emotions, passions and feelings
 - 1.4.3. Temperament, character and personality
 - 1.4.4. Nature and object of the will
 - 1.4.5. Understanding and will
 - 1.4.6. The voluntary act
- 1.5. Life as ornament: the sentimental dimension
 - 1.5.1. The superficial: living from the epidermis
 - 1.5.2. The problems of sentimentalism
 - 1.5.3. Infantilism
 - 1.5.4. Sentimental pathologies: haste, success and noise
 - 1.5.5. Virtue as sense
- 1.6. Character typologies
 - 1.6.1. The three elementary factors of character
 - 1.6.2. The active character
 - 1.6.3. Kretschmer's typologies
 - 1.6.4. Sheldon's typology
- 1.7. Language and Communication
 - 1.7.1. The anthropological foundation of language
 - 1.7.2. Linguistic conditions and foundations of language
 - 1.7.3. Differences between animal language and human language
- 1.8. Man, as a social being
 - 1.8.1. Elements and purposes of society
 - 1.8.2. Ethics as a social bond
 - 1.8.3. Approaches to society since modern times
- 1.9. Emotional Learning
 - 1.9.1. Emotional Intelligence
 - 1.9.2. Emotional literacy
 - 1.9.3. Conclusions
- 1.10. Evolution and literacy
 - 1.10.1. Rhythm and its importance in the emotional evolution
 - 1.10.2. The preventive function of emotional literacy
 - 1.10.3. Conclusions

“

Our syllabus has been designed with teaching effectiveness in mind: so that you learn faster, more efficiently, and on a more permanent basis”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization”

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH the psychologist experiences a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a “case”, an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the psychologist's professional practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Psychologists who follow this method not only master the assimilation of concepts, but also develop their mental capacity by means of exercises to evaluate real situations and apply their knowledge.
2. Learning is solidly translated into practical skills that allow the psychologist to better integrate knowledge into clinical practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The psychologist will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

This methodology has trained more than 150,000 psychologists with unprecedented success in all clinical specialties. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

*Relearning will allow you to learn with less effort
and better performance, involving you more
in your training, developing a critical mindset,
defending arguments, and contrasting opinions: a
direct equation for success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Latest Techniques and Procedures on Video

TECH introduces students to the latest techniques, to the latest educational advances, to the forefront of current psychology. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

05

Certificate

The Postgraduate Certificate in Anthropological Models in Psychology guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program and
receive your university qualification without
having to travel or fill out laborious paperwork”*

This **Postgraduate Certificate in Anthropological Models in Psychology** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Anthropological Models in Psychology**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
