Introduction to the Program

The approach to suicidal behavior represents a challenge in the field of mental health, especially in crisis and emergency situations, where the complexity of the risk factors requires specialized responses. In view of this, several studies have shown an increase in the incidence of self-injurious behaviors in highly vulnerable contexts. Faced with this reality, specialists need to develop specific intervention protocols based on the most recent scientific postulates to optimize the overall well-being of individuals. In order to facilitate this task, TECH launches a revolutionary university program focused on Intervention in Suicidal Behavior in Crises and Emergencies. In addition, it is delivered in a convenient and fully online modality.

“

Through this 100% online Postgraduate Certificate, you will master the most innovative techniques for addressing Suicidal Behavior in Crisis and Emergency Situations”

According to a new report prepared by the World Health Organization, every year there are approximately 800,000 deaths due to suicide at the international level. At the same time, the document shows that, in the face of completed cases, there are numerous attempts that aggravate the mental health crisis in society. For this reason, psychologists have the responsibility to design and implement comprehensive and accessible strategies that address these self-injurious behaviors in a holistic manner. However, to do so, professionals need to have a multidisciplinary framework that combines the identification of warning signs with immediate response actions.

With this in mind, TECH has created an innovative Postgraduate Certificate in Intervention in Suicidal Behavior in Crises and Emergencies. Designed by leaders in this sector, the curriculum will delve into aspects ranging from modern techniques for establishing trusting relationships or the fundamentals of pharmacological management in complex crises to the most sophisticated psychological interventions to treat self-harm attempts. In this way, graduates will develop advanced clinical skills to act in a timely and effective manner in the face of emergencies. In this way, they will contribute to improve the quality of life of patients in the long term.

On the other hand, this university program is based entirely on a 100% online modality, making it easier for psychologists to plan their own study schedules in order to experience a completely efficient update. In addition, professionals will enjoy a wide variety of multimedia resources designed to promote a dynamic and natural updating of knowledge. In this sense, to access the Virtual Campus, the only thing that professionals will need is a device with Internet access (even their own cell phone). They will also be supported at all times by an experienced teaching staff, who will resolve all the doubts that may arise during their academic itinerary.

This **Postgraduate Certificate in Intervention in Suicidal Behavior in Crises and Emergencies** contains the most complete and up-to-date scientific program on the market. Its most notable features are:

- ♦ The development of case studies presented by experts in Intervention in Suicidal Behavior in Crises and Emergencies
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Special emphasis on innovative methodologies in the Intervention in Suicidal Behavior in Crises and Emergencies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

You will use cutting-edge technological tools to monitor the real-time status of users with suicidal ideation and apply advanced emotional containment techniques"

“

Thanks to TECH's revolutionary Relearning methodology, you will integrate all the knowledge in an optimal way to experience a remarkable leap in quality in your career as a psychologist”

It includes in its teaching staff professionals belonging to the field of Intervention in Suicidal Behavior in Crises and Emergencies, who pour into this program the experience of their work, in addition to recognized specialists from reference societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive learning experience designed to prepare for real-life situations.

This program is designed around Problem-Based Learning, whereby the student must try to solve the different professional practice situations that arise throughout the program. For this purpose, the professional will be assisted by an innovative interactive video system created by renowned and experienced experts.

You will delve into the management of pharmacological treatment during Suicidal Crises, addressing underlying medical conditions.

You will manage Dialectical Behavioral Therapy to help individuals address intense emotions without resorting to self-injurious behaviors.

02

Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs, available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it has a huge faculty of more than 6,000 professors of the highest international prestige.

“

Study at the largest online university in the world and ensure your professional success. The future begins at TECH”

The world's best online university, according to FORBES

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

The most complete syllabuses on the university scene

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

The best top international faculty

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

A unique learning method

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

Google Premier Partner

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

The top-rated university by its students

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

03

Syllabus

The didactic contents that integrate this Postgraduate Certificate have been elaborated by renowned experts in Intervention in Suicidal Behavior in Crisis and Emergencies. The academic itinerary will delve into subjects ranging from the most innovative strategies to quickly build confidence in patients or the most effective emotional rehabilitation techniques for self-injurious behavior to the establishment of techniques to prevent possible relapses. Therefore, graduates will gain advanced clinical skills to design and implement personalized therapeutic plans, tailored to the specific needs of the individual, to promote their long-term emotional well-being.

You will proactively address Suicidal Behavior in a proactive manner in Crisis and Emergency contexts"

Module 1. Intervention in Suicidal Behavior in Crises and Emergencies

- 1.1. How to Establish the Bond and Assess the Suicidal Patient
 - 1.1.1. Techniques to Build Trust Quickly
 - 1.1.2. Identifying Non-Verbal and Verbal Signals
 - 1.1.3. Handling Silence and Resistance
 - 1.1.4. Initial Assessment of Suicidal Risk
- 1.2. Communication Skills and Clinical Interviewing
 - 1.2.1. Active Listening and Emotional Validation
 - 1.2.2. Open and Closed Questions in Crisis Situations
 - 1.2.3. Non-Violent Communication: How to Minimize the Risk of Escalating Interview Tension
 - 1.2.4. Adapting Language to Different Populations
- 1.3. Crisis Intervention
 - 1.3.1. Crisis Intervention Models
 - 1.3.2. Emotional Containment Interventions
 - 1.3.3. Development of a Safety Plan
 - 1.3.4. Referral to Specialized Services
- 1.4. The Hospital Emergency
 - 1.4.1. Psychiatric Emergency Admission Protocols
 - 1.4.2. Initial Assessment in the Emergency Department
 - 1.4.3. Immediate Intervention in High-Risk Patients
 - 1.4.4. Criteria for Hospitalization vs. Outpatient Follow-Up
- 1.5. Medical Intervention
 - 1.5.1. Pharmacological Management in Suicidal Crisis
 - 1.5.2. Treatment of Underlying Medical Conditions
 - 1.5.3. Prevention of Self-Harm in the Hospital: Strategies for Minimizing Risk during Hospital Stay
 - 1.5.4. Role of the Psychiatrist in the Multidisciplinary Team
- 1.6. Psychological Intervention
 - 1.6.1. Cognitive-Behavioral Therapy in Crises
 - 1.6.2. Solution-Focused Intervention: Focus on Immediate Goals and Short-Term Distress Management
 - 1.6.3. Therapies Based on Emotional Validation: the Example of Dialectical Behavior Therapy
 - 1.6.4. Relapse Prevention

- 1.7. Nursing Intervention
 - 1.7.1. Monitoring and Care in the First 24 Hours: Strategies for Continuous Observation of the Patient
 - 1.7.2. Nursing in Emotional and Physical Support
 - 1.7.3. Safety and Relapse Prevention Education
 - 1.7.4. Collaboration with the Multidisciplinary Team
- 1.8. Support and Treatment of Suicidal Behavior in Primary Care
 - 1.8.1. Early Detection in Primary Care
 - 1.8.2. Brief Interventions in the Office
 - 1.8.3. Referral to Higher Levels of Care: When and How to Refer to Specialized Mental Health Services
 - 1.8.4. Long-Term Follow-Up and Support
- 1.9. Support and Treatment of Suicidal Behavior from the Mental Health and Addictions Network
 - 1.9.1. Coordination between Mental Health and Addictions: Comprehensive Intervention in Cases with Dual Diagnosis
 - 1.9.2. Community Support Networks
 - 1.9.3. Outpatient Treatment Interventions
 - 1.9.4. Relapse Prevention and Rehabilitation
- 1.10. Role of Telephone Intervention
 - 1.10.1. Suicidal Crisis Helplines: How They Work and Their Effectiveness
 - 1.10.2. Telephone Crisis Intervention Techniques
 - 1.10.3. Follow-Up and Referral from Telephone Intervention: How to Manage the Transition to Face-to-Face or Specialized Care
 - 1.10.4. The Use of Technology for Suicide Prevention

You will offer accompaniment to family members and relatives after a completed suicide, facilitating the grieving and recovery process”

04

Teaching Objectives

Through this Postgraduate Certificate, psychologists will have a comprehensive understanding of Intervention in Suicidal Behavior in Crisis and Emergencies. In this sense, graduates will obtain advanced clinical skills to identify, assess and intervene effectively in life-threatening risk situations. In turn, experts will design personalized intervention plans according to patients' needs and provide them with comprehensive support that will significantly optimize their quality of life.

“

You will master the most modern techniques to determine the severity and urgency of Suicidal Behavior, facilitating informed decision making”

General Objectives

- ♦ Delve into the risk factors, underlying causes, and warning signs of Suicide, both at the individual and societal level
- ♦ Identify early signs of risk and apply effective interventions that prevent Suicide in a variety of settings, including clinical, educational and community
- ♦ Delve into postvention support management, providing tools to help people affected by the suicide of a loved one
- ♦ Provide psychological care to patients with suicidal thoughts, using therapeutic approaches such as cognitive-behavioral therapy and other validated interventions
- ♦ Manage educational and preventive strategies to promote awareness and reduce stigma related to Suicide and Mental Disorders
- ♦ Master techniques to help families and communities cope with bereavement following suicide, promoting resilience and emotional well-being in those affected

Specific Objectives

- ♦ Apply suicide crisis intervention protocols in a variety of contexts
- ♦ Obtain skills to manage high-risk situations with immediacy and efficacy
- ♦ Implement de-escalation strategies to reduce imminent suicide risk
- ♦ Coordinate crisis intervention actions with health and emergency services teams

The interactive summaries that you will find in the Virtual Campus will allow you to consolidate in a more dynamic way the concepts related to the prevention of self-inflicted injuries in the hospital"

05

Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want”

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

06

Teaching Staff

TECH's priority is to make available to everyone the most complete and up-to-date university programs on the academic scene. For this reason, it carries out a meticulous process to establish each of its teaching staff. Thanks to this effort, the present Postgraduate Certificate has the participation of the most outstanding specialists in the area of Intervention in Suicidal Behavior in Crises and Emergencies. In this way, they have created a variety of didactic materials that stand out for their high quality and full applicability to the demands of the labor market.

“

You will have the support of the teaching staff, integrated by authentic references in the Intervention in Suicidal Behavior in Crisis and Emergencies”

Management

Dr. Alberdi Páramo, Iñigo

- ♦ Area Specialist in Psychiatric Hospitalization Unit/Psychogeriatrics at the Institute of Psychiatry and Mental Health of the San Carlos Clinical Hospital
- ♦ Area Specialist in Outpatient Psychiatry Liaison Psychiatry and Specialized Service in Mental Health in Intellectually Handicapped at the University Hospital La Princesa
- ♦ Area Specialist of Psychiatry in CSM Chamberí - Carabanchel
- ♦ Author and co-author of numerous scientific articles and book chapters
- ♦ Professor in undergraduate and postgraduate university studies.
- ♦ Doctor in Medicine - Psychiatry by the Complutense University of Madrid
- ♦ University Specialist in Clinical and Psychoanalytic Psychotherapy by the Pontifical University of Comillas

Professors

Ms. Pérez Luna, Laura

- ♦ Clinical Psychologist at the University Hospital Infanta Leonor
- ♦ Expert in Systemic Intervention
- ♦ Responsible for the Perinatal Intervention Program
- ♦ Degree in Psychology from the Autonomous University of Madrid

07

Certificate

This Postgraduate Certificate in Intervention in Suicidal Behavior in Crises and Emergencies guarantees, in addition to the most rigorous and up-to-date program, access to an Postgraduate Certificate diploma issued by TECH Global University.

“

*Successfully complete this program
and receive your university qualification
without having to travel or fill out
laborious paperwork”*

This private qualification will allow you to obtain a diploma for the **Postgraduate Certificate in Intervention in Suicidal Behavior in Crises and Emergencies** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification, is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
