tech 06 | Presentation

As professionals know, working with special educational needs students is not limited to intervention. Educational psychologists must take into account many other factors and agents, such as the school, families and peers. In this sense, this program approaches the subject from different perspectives to offer a complete learning process.

It focuses on the regulatory framework governing special needs, on the most common difficulties faced by students and on the development of learning competencies, based on the latest related studies and research. The intent is for professionals to provide quality care adapted to the needs of today's society.

The syllabus and content will be available 100% online with no fixed schedules from the start of the course. This will allow students to take on the course load wherever, whenever and however they wish. All they need is a device with an Internet connection.

The Postgraduate Certificate in Psychoeducational Attention to Special Educational Needs at School contains the most complete and up-to-date academic program on the market. Its most notable features are:

- Practical cases presented by experts in special educational needs at school
- The graphic, schematic, and practical contents with which they are created, provide scientific
 and practical information on the disciplines that are essential for professional practice
- Practical exercises where self-assessment can be used to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Psychopedagogy applied to school settings has evolved enormously in recent years. Take this 100% online Postgraduate Certificate update"

Learning difficulties are evolving as different social contexts evolve. Enroll and identify new changes so you can address them"

The program's teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive specialization programmed to learn in real situations.

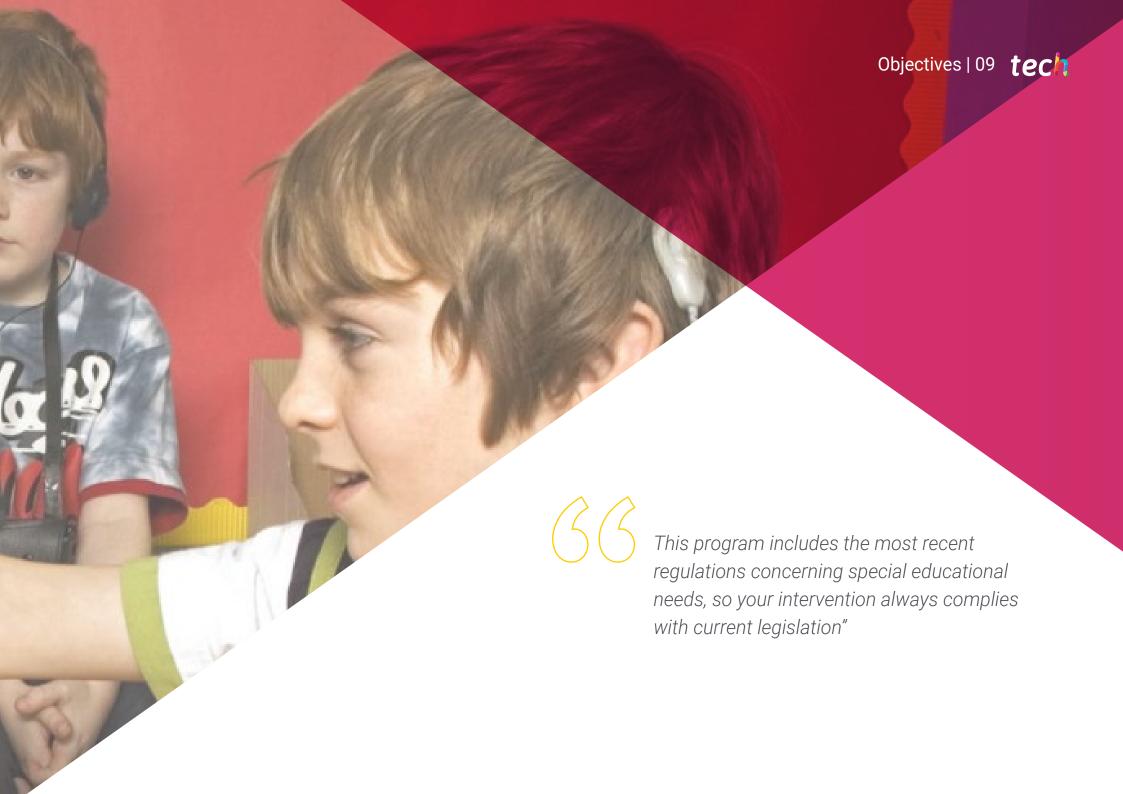

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. For this purpose, the student will be assisted by an innovative interactive video system created by renowned and experienced experts.

By taking this course, you will be able to expand your knowledge in psychopedagogy and become a multidisciplinary professional.

The practicality of the contents on this program will allow you to quickly implement them in your work environment.

tech 10 | Objectives

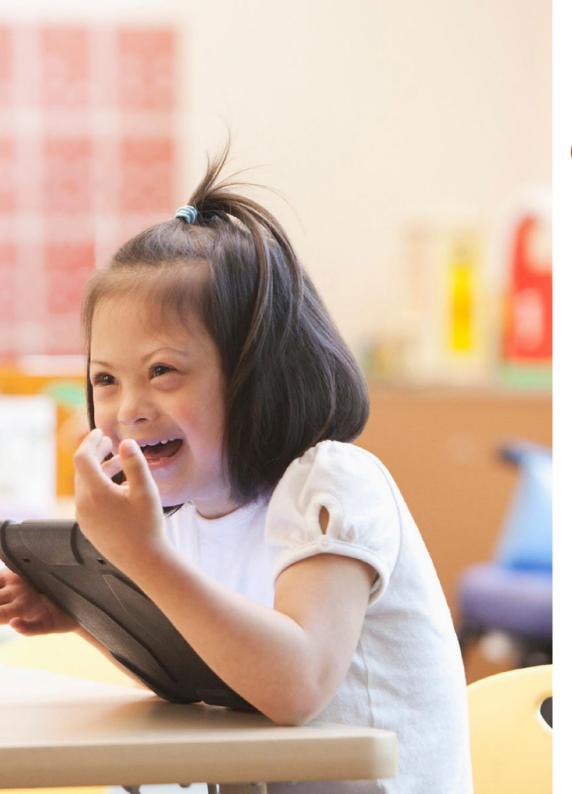

General Objectives

- Provide an updated vision of special educational needs in educational settings
- Provide the tools to properly address special educational needs

With this Postgraduate Certificate you will expand your knowledge to turn the psychopedagogical program at your center into a reference in the field"

Objectives | 11 tech

Specific Objectives

- Understand educational needs in the context of inclusion at school
- Analyze the regulatory framework on inclusive and special needs education
- Develop various types of special educational needs
- Define different learning difficulties in students with special educational needs

Management

Mr. Afonso Suárez, Álvaro

- Support Teacher for students with special educational needs
- Technician in Social and Health Care for Dependent People in Social Institutions
- Social Integration Technician: Design, Development, and Evaluation of Social Integration Interventions for people with Severe Mental Illnesses
- Degree in Psychopedagogy, University of La Laguna

tech 18 | Structure and Content

Module 1. Psychoeducational Attention to Special Educational Needs at School

- 1.1. Educational Needs in Inclusive Education and the Role Played by Psychopedagogy
 - 1.1.1. Psychoeducational Care and Psychopedagogical Intervention. Integration, Diversity, and Inclusive Education
 - 1.1.1.1. Psychoeducational and Psychopedagogical Care
 - 1.1.1.2. Integration, Diversity, and Inclusion
 - 1.1.1.3. Specific Educational Needs
- 1.2. Regulatory Framework for Attention to Diversity I: Guidance System and Action Plans
 - 1.2.1. Tutorial Action Plans and Academic and Vocational Guidance Plans
 - 1.2.1.1. Tutorial Attention Plans
 - 1.2.1.2. Academic and Vocational Guidance Plans
 - 1.2.2. Professional Structure: Educational and Psychopedagogical Guidance Teams and Guidance Department
 - 1.2.2.1. EOEP
 - 1.2.2.2. Guidance Departments
- 1.3. Regulatory Framework for Attention to Diversity II: Measures for Attention to Diversity
 - 1.3.1. Measures for Attention to Diversity: Resource Organization and Attention to Diversity Plans
 - 1.3.1.1. Resource Organization
 - 1.3.1.2. Attention to Diversity Plans
- 1.4. Learning Competency Development
 - 1.4.1. Concept of Learning and Study Competence. Emotional Intelligence and Social Competence at School
 - 1.4.1.1. Learning and Study Competence
 - 1.4.1.2. Emotional and Social Intelligence
- 1.5. Learning Difficulties
 - 1.5.1. Definition of Learning Difficulties. Historical Development
 - 1.5.1.1. Concept of Learning Difficulties
 - 1.5.1.2. Historical Development

- 1.6. Learning Difficulties in Literacy
 - 1.6.1. Reading Difficulties. Dyslexia and Dysorthography
 - 1.6.1.1. Concept of Learning Difficulties in Reading
 - 1.6.1.1. Dyslexia
 - 1.6.1.2. Dysorthography
- 1.7. Learning Difficulties in Mathematics
 - 1.7.1. Definition of Learning Difficulties in Mathematics. Evaluation, Diagnosis, and Intervention
 - 1.7.1.1. Concept of Learning Difficulties in Mathematics
 - 1.7.1.2. Evaluation
 - 1.7.1.3. Diagnosis
 - 1.7.1.4. Intervention
- 1.8. Attention Deficit Hyperactivity Disorder (ADHD) Students
 - 1.8.1. Attention Deficit Hyperactivity Disorder (ADHD) Profile
 - 1.8.2. Evaluating ADHD Needs and Educational Intervention
 - 1.8.2.1. Evaluating Needs in ADHD
 - 1.8.2.2. Educational Intervention in ADHD
- 1.9. High Intellectual Capacity Students
 - 1.9.1. High Intellectual Capacity Profile
 - 1.9.2. Evaluating Needs in High Intellectual Capacities and Educational Intervention
 - 1.9.2.1. Evaluation
 - 1922 Intervention
- 1.10. Late Entry Students in the Education System and the Educational Compensation System
 - 1.10.1. Concept of Late Entry into the Education System and the Need for Compensatory Education. Educational Compensation Measures
 - 1.10.1.1. Concept of Late Entry into the Education System
 - 1.10.1.2. Concept of Compensatory Need
 - 1.10.1.3. Educational Compensation Measures

Structure and Content | 19 tech

1.11. Students with Behavioral Disorders

1.11.1. Profile of Autism Spectrum Disorder (ASD) within Severe Behavioral Disorders. Evaluation and Intervention

1.11.1.1. ASD Profile

1.11.1.2. ASD Evaluation

1.11.1.3. Intervention

1.12. Disabled Students

1.12.1. Intellectual, Sensory, and Motor Disabilities

1.12.1.1. Intellectual Disability

1.12.1.2. Sensory Disability

1.12.1.3. Motor Disability

The Relearning methodology employed at TECH will allow you to assimilate the lessons without the need for excessive hours of study"

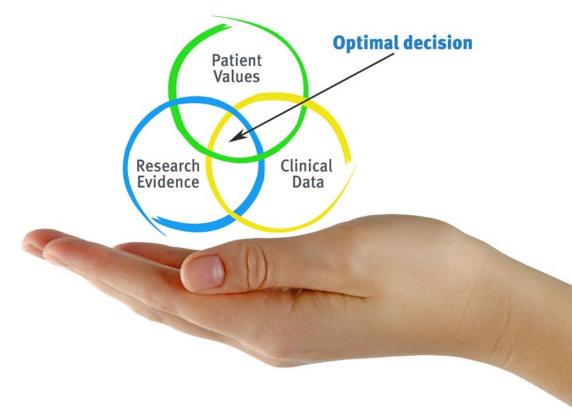

tech 22 | Methodology

At TECH, we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH the psychologist experiences a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the psychologist's professional practice.

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental achievements:

- 1. Psychologists who follow this method not only master the assimilation of concepts, but also develop their mental capacity by means of exercises to evaluate real situations and apply their knowledge.
- 2. Learning is solidly translated into practical skills that allow the psychologist to better integrate knowledge into clinical practice.
- 3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
- 4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

tech 24 | Methodology

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

The psychologist will learn through real cases and by solving complex situations in simulated learning environments.

These simulations are developed using state-of-the-art software to facilitate immersive learning.

Methodology | 25 tech

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

This methodology has trained more than 150,000 psychologists with unprecedented success in all clinical specialties. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

tech 26 | Methodology

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Latest Techniques and Procedures on Video

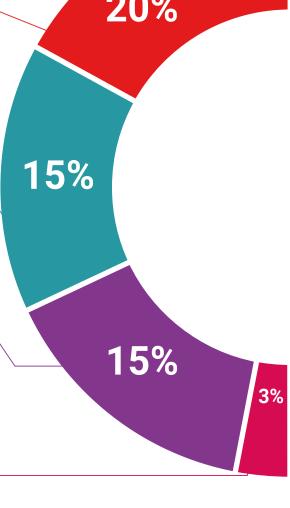

TECH introduces students to the latest techniques, to the latest educational advances, to the forefront of current psychology. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Testing & Retesting reledge throughout the

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

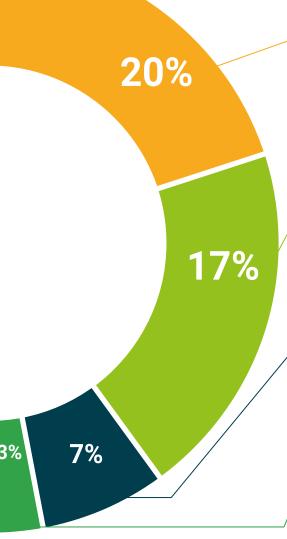

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

tech 30 | Certificate

This Postgraduate Certificate in Psychoeducational Attention to Special Educational Needs at School contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.
