Introduction

Psychogeriatrics in the 21st century cannot be a way of evaluating, labeling and, subsequently, performing occupational therapy so that the days go by in old age and the elderly person doesn't get in the way too much. Our way of intervening should be to stimulate in a preventive way so that the cognitive deterioration diseases do not occur due to the passage of time.

“

With this Postgraduate Diploma the psychologist will have the domain of the relational in the therapist-patient intervention, and therefore, of the norms that direct the subject's interaction with the world in the here and now"

This Postgraduate Diploma is unique in that it provides professionals with extensive training to intervene in the emotional root of the conflict and, in this way, to be able to get the patient out of the emotional isolation in which they find themselves.

Working on loneliness, boredom, physical pain and cognitive deficiencies is essential for psychologists to be effective in intervention in the elderly. But above all, the emotional management of each moment is perhaps the most interesting asset to ensure that the old people of tomorrow can continue to be in charge of their own lives.

This Postgraduate Diploma is unique in that it places psychopharmacology in the psychologist in order to intervene in a multidisciplinary way, in search of increasing the subjective well-being of the elderly.

This Postgraduate Diploma in Pharmacological and Psychotherapeutic Intervention in the Elderly contains the most complete and up-to-date scientific program on the market"

This **Postgraduate Diploma in Pharmacological and Psychotherapeutic Intervention in the Elderly** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Clinical cases presented by experts in the different specialties. The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ New developments in Pharmacological and Psychotherapeutic Intervention in the Elderly
- ♦ An algorithm-based interactive learning system for decision-making in the clinical situations presented throughout the course
- ♦ With special emphasis on evidence-based psychology and research methodologies in Psychology
- ♦ All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

“

This Postgraduate Diploma is the best investment you can make when selecting an up to date program for two reasons: in addition to updating your knowledge in Pharmacological and Psychotherapeutic Intervention in the Elderly, you will obtain a Postgraduate Diploma from TECH Technological University"

Forming part of the teaching staff is a group of professionals in the world of Psychology who bring to this specialization their work experience, as well as a group of renowned specialists, recognised by esteemed scientific communities.

Thanks to its multimedia content developed with the latest educational technology, they will allow the professional a situated and contextual learning, that is to say, a simulated environment that will provide an immersive learning programmed to prepare in real situations.

This program is designed around Problem-Based Learning, whereby the student will must try to solve the different professional practice situations that arise during the course. For this reason, you will be assisted by an innovative, interactive video system created by renowned and experienced experts in the field of psychology with extensive teaching experience.

Increase your decision-making confidence by updating your knowledge with this Postgraduate Diploma.

A path to achieve education and professional growth that will propel you towards a greater level of competitiveness in the labor market.

02 Objectives

The main objective of the program is the development of theoretical and practical learning, so that the psychologist can master in a practical and rigorous way the intervention with the elderly.

“

This updating program will provide you with a sense of confidence in the practice of psychology, which will help you grow both personally and professionally”

General Objectives

- Provide the student with knowledge of the infinite complexity of old age
- Provide skills to deal with the psychological state of the elderly
- Learn how to design multidisciplinary intervention protocols for old age
- Master evaluation, differential diagnosis and intervention in old age
- Provide the skills to support individuals in old age from the here and now
- Describe and teach the knowledge required to face illnesses related to ageing and their relationship with the life lived

Make the most of the opportunity and take the step to get up-to-date on the latest developments in Pharmacological and Psychotherapeutic Intervention in the Elderly”

Specific Objectives

Module 1. Pharmacological Intervention in the Elderly

- ♦ Describe and design protocols with patients who take multiple drugs for different chronic disorders
- ♦ Have the ability to include occupational therapy and psychomotor skills in all intervention protocols

Module 2. Psychotherapies and Intervention in the Elderly from a Clinical Psychology Perspective

- ♦ Learn the appropriate dynamics for intervention in the elderly
- ♦ Understand the elderly brain
- ♦ Reposition the therapy towards a regressive and not so much progressive direction in the patient's mental timeline

Module 3. Assessment of Health and Disease in Old Age

- ♦ Assess and diagnose, taking into account the social and affective surrounding in which the elderly person finds themselves
- ♦ Train in listening and managing silence with elderly patients

03

Course Management

This program includes highly regarded health professionals in the field of psychology in its teaching staff, who bring the experience of their work to this specialization.

In addition, renowned specialists, members of prestigious national and international scientific communities, are involved in designing and preparing the program.

“

Learn the latest advances in Pharmacological and Psychotherapeutic Intervention in the Elderly from leading professionals"

Management

Mr. Anasagasti, Aritz

- ♦ European specialist psychologist in Psychotherapy from the EFPA at the CEP health center in Bilbao
- ♦ President of Emotional Network
- ♦ Master's Degree in Time-Limited Psychotherapy and Health Psychology
- ♦ Psychogeriatrics Specialist. Creator of the home-based intervention
- ♦ Member of the Basque Association of Gestalt Therapy
- ♦ Reciprocal Interaction Psychotherapist
- ♦ Specialist in neurodegenerative diseases from the University of the Basque Country
- ♦ Responsible for the computer development of Emotional Management and Treatment in the Elderly

Coordinator

Mr. Aguado Romo, Roberto

- ♦ Psychologist specializing in Clinical Psychology
- ♦ European Specialist in Psychotherapy by the EFPA, President of the European Institute for Time Limited Psychotherapy
- ♦ Author with patents in psychotherapy models and techniques
- ♦ Director of the Evaluation and Psychotherapy Center of Talavera, Bilbao and Madrid
- ♦ Director of the scientific journal Psinapsis
- ♦ Master's Degree in Clinical and Health Psychology from the Spanish Society of Psychosomatic Medicine and Health Psychology
- ♦ Tutor of the Basic Psychology course at the UNED

Professors

Dr. Fernández Sánchez, Angel

- ♦ European specialist psychologist in Psychotherapy from the EFPA
- ♦ Health Psychologist. Master's Degree in Clinical and Health Psychology
- ♦ Director of the Evaluation and Psychotherapy Center of Madrid
- ♦ Tutor in charge of the Psychodiagnosis and Psychological Intervention area of the CEP
- ♦ Author of the TEN technique
- ♦ Head of studies on the Professional Master's Degree in Time-Limited Psychotherapy and Health clinica
- ♦ Specialist in Clinical Hypnosis and Relaxation

Dr. Martínez-Lorca, Manuela

- ♦ Doctorate in Psychology from the University of Castilla-La Mancha
- ♦ Health Psychologist. Lecturer at the Department of Psychology at the UCLM
- ♦ Master's degree in Time-Limited Psychotherapy and Health Psychology by the European Institute of Time-Limited Psychotherapies
- ♦ Specialist in Clinical Hypnosis and Relaxation

Dr. Roldan, Lucia

- ♦ Health Psychologist
- ♦ Cognitive-behavioral intervention specialist
- ♦ Master's Degree in Time-Limited Psychotherapy and Health Psychology
- ♦ Expert in energy therapy intervention

Dr. Otero, Veronica

- ♦ European specialist psychologist in Psychotherapy at the CEP health center in Bilbao
- ♦ Head of the children and youth area of intervention with PTL in the CEP of Bilbao
- ♦ Master's Degree in Time-Limited Psychotherapy and Health Psychology
- ♦ Child and Adolescent Specialist

Dr. Zabala-Baños, María Carmen

- ♦ PhD in Psychology from University of Castilla La Mancha
- ♦ Health Psychologist. Master's Degree in Clinical and Health Psychology
- ♦ Master's Degree in Time-Limited Psychotherapy and Health Psychology
- ♦ Psychosocial and Work Rehabilitation Specialist
- ♦ UCLM European specialist psychologist in psychotherapy. EFPA
- ♦ Specialist in Clinical Hypnosis and Relaxation

04

Structure and Content

The structure of this contents has been designed by a team of professionals who recognise the implications of this program in the daily praxis of psychologists, aware of the relevance of current knowledge to treat the patient with psychological disorders and are committed to quality teaching using new educational technologies.

A hand holding a black pen is positioned over a document with horizontal lines. The background is split diagonally into a light blue and white area on the left, and a magenta and white area on the right. A large, stylized yellow quotation mark graphic is positioned to the left of the text.

“

This Postgraduate Diploma in Pharmacological and Psychotherapeutic Intervention in the Elderly contains the most complete and up-to-date scientific program on the market”

Module 1. Pharmacological Intervention in the Elderly

- 1.1. Geriatric Psychopharmacology (Dr. Luis F. Agüera Ortiz)
- 1.2. Fragility and Vulnerability of the Elderly Person
- 1.3. Polypharmacy in the Elderly
- 1.4. Pharmacokinetic Changes
 - 1.4.1. Lowering of Body Water Levels
 - 1.4.2. Reduced Protein Binding
 - 1.4.3. More Time Taken to Reach Peak Plasma Levels
 - 1.4.4. Greater Variability in Achieving Stable Plasma Levels
 - 1.4.5. Reduced Hepatic Metabolism
 - 1.4.6. Reduced Renal Clearance
 - 1.4.7. Risk of Interactions
 - 1.4.8. New Pharmacodynamics
- 1.5. Pharmacological Treatment for Anxiety of Elderly People
 - 1.5.1. Benzodiazepines
 - 1.5.2. ISRS
 - 1.5.3. Atypical Antidepressants
- 1.6. Pharmacological Treatment for Depression in Elderly People
 - 1.6.1. ISRS
 - 1.6.2. Non-Tricyclic Antidepressants
 - 1.6.3. Dual Antidepressants
- 1.7. Pharmacological Treatment for Bipolar Disorder in the Elderly
 - 1.7.1. Lithium
 - 1.7.2. Anti-Convulsants
- 1.8. Antiseizure Medications
- 1.9. Medications for Agitation in the Elderly
- 1.10. Pharmacology of Confusion
- 1.11. Drugs for Dementia
- 1.12. Medication Against Deficiencies
- 1.13. Pharmacological Intervention in Somatization

Module 2. Psychotherapies and Intervention in the Elderly from a psychological Perspective

- 2.1. Common and Differential Elements in Psychotherapy of Elderly People
- 2.2. Different Types of Conflicts and Models that Explain Health and Illness Behaviors
- 2.3. Competent Scenarios and Motivational Interviewing
- 2.4. Behavior Modification and Time-Limited Psychology in Old Age
- 2.5. Functional Analysis
- 2.6. Systemic Therapy
- 2.7. MRI: Problem-Focused Brief Therapy
- 2.8. SFBT: Solution-Focused Brief Therapy
- 2.9. Family Sculpting
- 2.10. Narrating Metaphoric Stories
- 2.11. Prescriptions: Healing Processes
- 2.12. Original Prescriptions
- 2.13. Strategic Therapy and Constructivism
 - 2.13.1. Bonding and Framing of the Elderly Patient in Psychotherapy

Module 3. Assessment of Health and Disease in Old Age

- 3.1. Physical and Mental Health Aging
- 3.2. Physical Evaluation
 - 3.2.1. Medical History
 - 3.2.2. General Physical Examination
 - 3.2.3. Analysis
 - 3.2.4. Neurological Examination
 - 3.2.5. Other Explorations
- 3.3. Psychic Assessment
 - 3.3.1. Medical History
 - 3.3.2. Life History
 - 3.3.3. Cognitive Assessment
 - 3.3.4. Assessment of Memory and Attention
 - 3.3.5. Behavioral Assessment
 - 3.3.6. Evaluation of the Most Common Psychological Disorders in Old Age

- 
- 3.4. Social Assessment
 - 3.4.1. Social Network Shared
 - 3.4.2. Belonging to a Group
 - 3.4.3. How Many Friends Do They Have at This Moment?
 - 3.4.4. How Many Friends Did They Previously Have?
 - 3.4.5. Economic Capacity
 - 3.4.6. Recent and Previous Relationships
 - 3.4.7. Social Implication
 - 3.5. Physical Aging
 - 3.6. Physical Activity
 - 3.6.1. Autonomy of Movement
 - 3.6.2. Capacity to Travel or Move Around
 - 3.6.3. Motor Coordination
 - 3.6.4. Level of Tiredness and Fatigue
 - 3.6.5. Daily Life Activities
 - 3.7. Mental Activity
 - 3.7.1. Ability to Read
 - 3.7.2. Ability to Have a Discussion
 - 3.7.3. Flexibility/Rigidity in Reasoning
 - 3.7.4. Creativity in Old Age
 - 3.8. Problem Solving Activities
 - 3.8.1. Ability to Maintain a Conversation
 - 3.8.2. Break Out of the Monologue
 - 3.8.3. Empathize
 - 3.8.4. Conflict Resolution
 - 3.8.5. Allow Win-Win Relationships

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH the psychologist experiences a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gervas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the psychologist's professional practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Psychologists who follow this method not only master the assimilation of concepts, but also develop their mental capacity by means of exercises to evaluate real situations and apply their knowledge.
2. Learning is solidly translated into practical skills that allow the psychologist to better integrate knowledge into clinical practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The psychologist will learn through real cases and by solving complex situations in simulated learning environments.

These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

This methodology has trained more than 150,000 psychologists with unprecedented success in all clinical specialties. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

*Relearning will allow you to learn with less effort
and better performance, involving you more
in your training, developing a critical mindset,
defending arguments, and contrasting opinions: a
direct equation for success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Latest Techniques and Procedures on Video

TECH introduces students to the latest techniques, to the latest educational advances, to the forefront of current psychology. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

06

Certificate

The Postgraduate Diploma in Pharmacological and Psychotherapeutic Intervention in the Elderly guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Diploma in Pharmacological and Psychotherapeutic Intervention in the Elderly** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
