# Introduction to the Program

According to UNESCO, 15% of students face some form of learning difficulty, with Language being one of the most determining factors in their educational development. Given this reality, it is essential that professionals in this field have updated tools for detecting and addressing these needs. To respond to this demand, TECH Global University has designed this university program focused on the role of Language as a key element in Learning. Through a 100% online curriculum, the program will provide broad flexibility, access to high-quality content, and guidance from industry experts. In this way, it offers a unique opportunity to update competencies and promote educational inclusion.

“

*You will master the key aspects of Language as an essential tool in addressing Learning Difficulties. Enroll now and take your professional career to the next level!”*

Language is a key tool in the cognitive and emotional development process of children, and its proper acquisition is crucial for learning. In this regard, related disorders represent one of the main indicators of academic difficulties, affecting not only verbal comprehension and expression but also the ability to interact and build knowledge. For this reason, the analysis of Language as the core of intervention in cases of Learning Difficulties has become an area of deep interest within the field of educational psychology.

Aware of this need, TECH Global University has designed this Postgraduate Certificate in Learning Difficulties. Language as a Key Element of Attention, which will provide a high level of scientific rigor. Throughout this program, topics such as child language development, Specific Language Impairment (SLI), Dyslexia, reading comprehension, phonological skills, and psychopedagogical assessment and intervention strategies will be addressed. All of this will be explored from a neuropsychological and didactic perspective, enabling professionals to gain an integrated and up-to-date understanding of the phenomenon.

Thanks to the depth of its content, graduates will be prepared to detect language disorders early, design personalized intervention plans, and collaborate effectively with teachers, families, and other professionals in the educational environment. Additionally, this specialization will open new career opportunities in schools, psychopedagogical centers, associations, and public and private institutions dedicated to the care of children and adolescents.

Furthermore, TECH will offer this university program in a 100% online format, allowing students to balance their studies with personal or professional responsibilities. Through the Relearning methodology, psychologists will be able to progress at their own pace, reviewing the content as many times as needed, with interactive and up-to-date multimedia resources that promote effective and lasting knowledge assimilation.

This **Postgraduate Certificate in Learning Difficulties: Language as an Element of Attention** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of practical cases presented by experts in Education and Psychology
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*This 100% online Postgraduate Certificate is the perfect opportunity to address Learning Difficulties through Language”*

“

*You will learn how to identify, assess, and intervene early in language disorders that affect educational performance”*

The faculty includes professionals from the fields of Education and Psychology, who contribute their practical experience to this program, along with renowned specialists from leading associations and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive learning experience designed to prepare for real-life situations.

This program is designed around Problem-Based Learning, whereby the student must try to solve the different professional practice situations that arise throughout the program. For this purpose, the professional will be assisted by an innovative interactive video system created by renowned and experienced experts.

*You will acquire innovative strategies to promote inclusion and equity in diverse educational environments.*

*You will also learn about the main Language and Speech Disorders, as well as their implications in the learning process.*

02

# Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs, available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it has a huge faculty of more than 6,000 professors of the highest international prestige.

“

*Study at the largest online university in the world and ensure your professional success. The future begins at TECH”*

**The world's best online university, according to FORBES**

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

**The most complete syllabuses on the university scene**

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

**The best top international faculty**

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistuba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

**A unique learning method**

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

**The world's largest online university**

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

### The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

### Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

### Google Premier Partner

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

### The top-rated university by its students

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

# 03 Syllabus

The content of this Postgraduate Certificate has been designed by specialists in Language and Inclusive Education, offering a comprehensive view of the relationship between language development and Learning Difficulties. The syllabus will cover the interaction between thought and language, the impact of language delays and disorders on academic performance, and the importance of early identification. Additionally, special emphasis will be placed on the main speech and oral language disorders, along with assessment techniques and intervention strategies from educational institutions.

“

*You will access a syllabus designed by experts with an interdisciplinary approach, grounded in scientific evidence”*

**Module 1. Language as a Determining Factor in the Attention to Learning Difficulties**

- 1.1. Introduction
- 1.2. Thought and Language: Their Relationships
  - 1.2.1. Theories Explaining Its Development
  - 1.2.2. Interdependence Between Thought and Language
  - 1.2.3. The Place of Language in Learning
- 1.3. Relationship of Language With Learning Difficulties
  - 1.3.1. Communication, Language, Speech and Language
  - 1.3.2. General Aspects of Language Development
  - 1.3.3. Language Impairment Prevention
- 1.4. Language Development Delay and Its Implications for Learning Difficulties
  - 1.4.1. Conceptualization of Language Development Delay and Its Characterization
  - 1.4.2. Causes of Delayed Language Development
  - 1.4.3. Importance of Early Identification and Care at School
  - 1.4.4. Delayed Language Development as a Risk Factor for Learning Difficulties
- 1.5. Most Common Language Disorders in Students
  - 1.5.1. Concepts and Delimitations
  - 1.5.2. Speech Disorders. Their Manifestations in the Different Components: Phonetics, Phonology, Morpho-Lexical, Syntax, Semantics and Pragmatics
  - 1.5.3. Speech Disorders: Dyslalia, Dysarthria, Rhinolalia, Dysphonia and Stuttering
- 1.6. Language Assessment
  - 1.6.1. Assessment Tools
  - 1.6.2. Components to Be Assessed
  - 1.6.3. Evaluation Report
- 1.7. Attention to Language Disorders in Educational Institutions
  - 1.7.1. Language Disorders
  - 1.7.2. Speech Disorders
- 1.8. Activities for the Integration of Knowledge and Its Practical Application
- 1.9. Recommending Readings
- 1.10. Bibliography

“ You will develop practical competencies to apply educational solutions tailored to the real needs of students”

# 04

# Teaching Objectives

This Postgraduate Certificate is designed to equip psychologists with the knowledge and tools needed to effectively address Learning Difficulties with a focus on language as a key element. To achieve this, the program will cover everything from the theoretical and methodological foundations of Attention to Diversity to innovative pedagogical strategies that promote inclusion and equity. Additionally, the university program will enhance the competencies required for diagnosis, assessment, and educational intervention. In this way, graduates will develop inclusive and sustainable proposals that respond to the current challenges in the school environment.

“

*You will enjoy a 100% online methodology,  
flexible and accessible from any device  
with an internet connection”*

## General Objectives

---

- Understand the theoretical, methodological, and contextual foundations that support Attention to Diversity and intervention in Learning Difficulties
- Analyze the different types of Learning Difficulties from a critical, integrative, and multidisciplinary perspective
- Develop skills for diagnosis, assessment, and educational intervention tailored to the specific needs of students
- Apply innovative pedagogical strategies that promote inclusion and equity in the school environment
- Integrate knowledge of language development, reading, writing, and mathematical thinking as key components of learning
- Design inclusive and sustainable educational proposals, grounded in evidence and adapted to contemporary challenges

### Specific Objectives

---

- ♦ Analyze the role of language in cognitive development and learning processes
- ♦ Identify early signs of Language Disorders that interfere with academic performance

“

*A unique, essential and decisive learning experience to boost your professional development”*

05

# Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

*TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”*

### The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes  
(which you might not be able to attend)”*

### The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“

*TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want”*

## Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

## Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

## A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

*The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule”*

### The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

### The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

*Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.*

*You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.*

As such, the best educational materials, thoroughly prepared, will be available in this program:

#### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

#### Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

#### Interactive Summaries

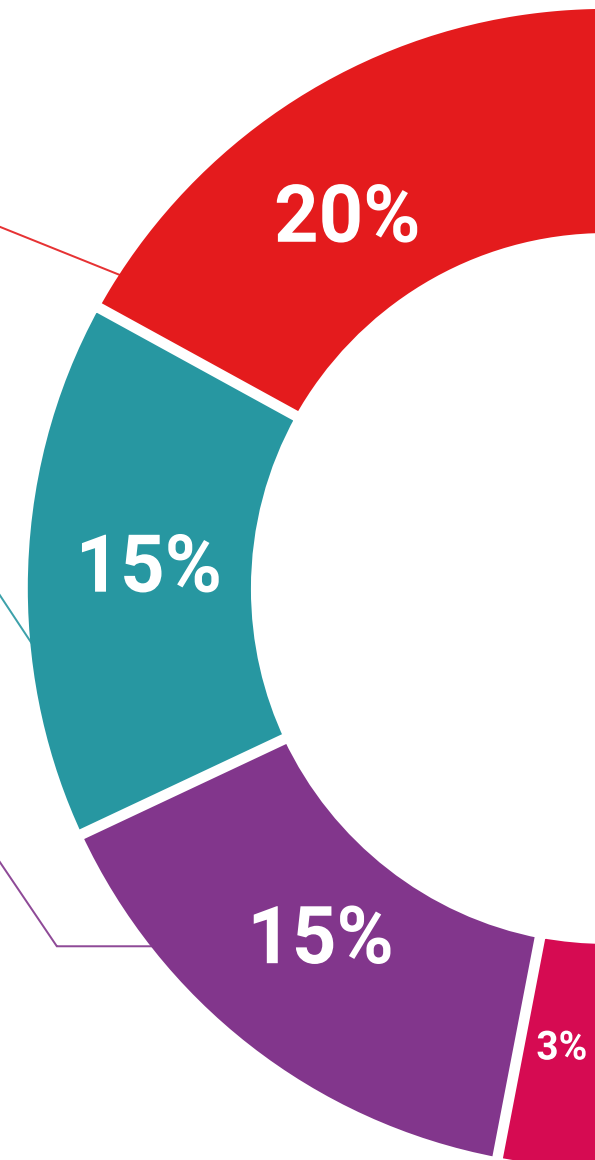

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

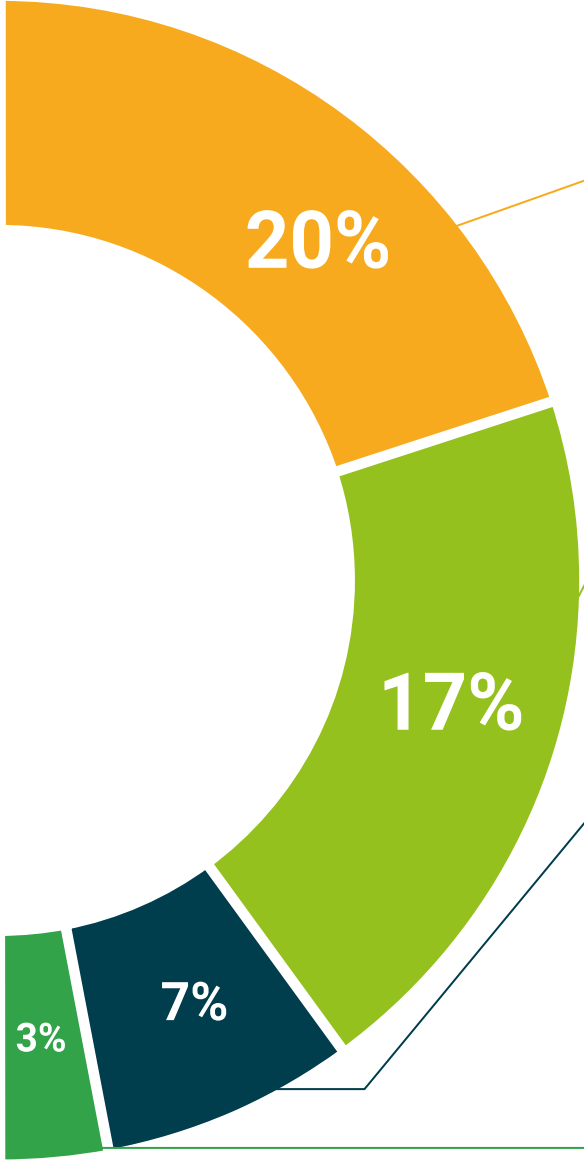

#### Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

**Case Studies**

Students will complete a selection of the best case studies in the field. Cases that are presented, analyzed, and supervised by the best specialists in the world.

**Testing & Retesting**

We periodically assess and re-assess your knowledge throughout the program. We do this on 3 of the 4 levels of Miller's Pyramid.

**Classes**

There is scientific evidence suggesting that observing third-party experts can be useful.  
Learning from an expert strengthens knowledge and memory, and generates confidence for future difficult decisions.

**Quick Action Guides**

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical and effective way to help students progress in their learning.

# 06

# Teaching Staff

The faculty selected by TECH Global University for this Postgraduate Certificate has an outstanding academic and professional background in Learning Difficulties and Language. In fact, their experience integrates knowledge from education, psychology, and related fields, offering a transdisciplinary and practical perspective on the content. Additionally, these professionals have participated in educational innovation projects focused on diversity support and school inclusion, providing evidence-based solutions. Thanks to their research work and experience in various educational contexts, they ensure updated training that meets the demands of the educational sector.

“

*This Postgraduate Certificate will connect you with expert instructors and up-to-date content in Learning Difficulties and Language as a Key Element of Attention”*

## Management

### Dr. Moreno Abreu, Milagros Josefina

- ♦ Pedagogue specializing in Learning Difficulties
- ♦ Organizational Consultant, Los Sauces Medical and Surgical Unit
- ♦ Speech therapist. Private Clinic
- ♦ Master's Degree in Health Education
- ♦ Diploma in Research Methodology
- ♦ Degree in Education with a specialization in Learning Difficulties and Preschool
- ♦ PhD in Pedagogical Sciences
- ♦ Higher University Technician in Speech Therapy
- ♦ Graduate Professor: Research Methodology I, Design of measurement and evaluation instruments.
- ♦ Graduate Professor. Academic Reading and Writing

“

*A unique, essential and decisive learning experience to boost your professional development”*

07

# Certificate

The Postgraduate Certificate in Learning Difficulties. Language as an Element of Attention guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

*Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”*

This private qualification will allow you to obtain a **Postgraduate Certificate in Learning Difficulties. Language as an Element of Attention** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

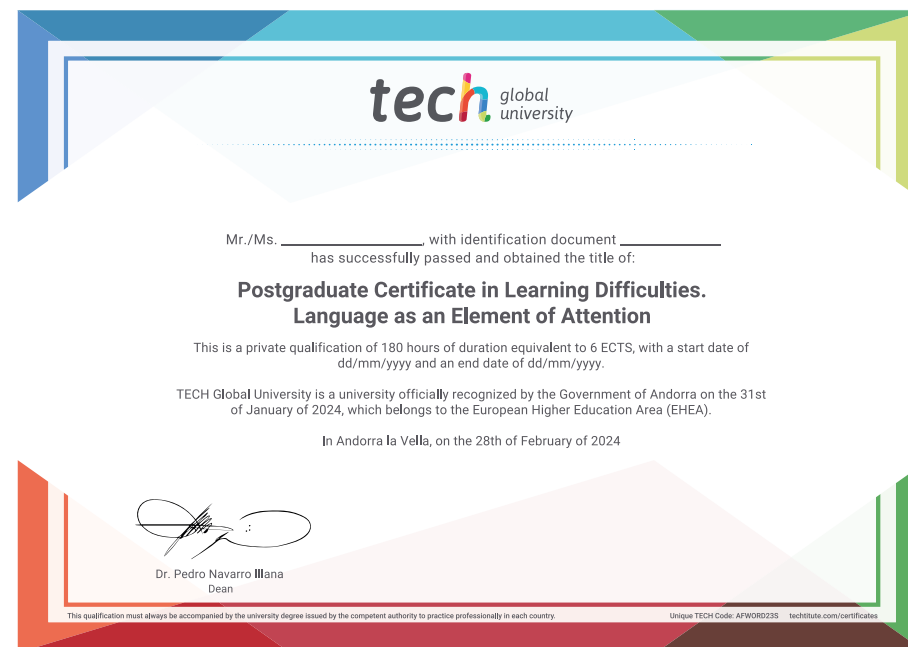

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
