01 **Welcome**

The COVID-19 pandemic forever changed the Event Management industry. In this new era, there is a need for a renewed leadership that provides new strategies in terms of communication, online management, digitalization and multidisciplinary marketing, among many other areas of urgent interest. Thus, the manager who masters Corporate Communication will have an indisputable advantage to lead the best work teams, as well as the necessary skills to successfully carry out any kind of event or communication campaign in this new paradigm. For this reason, this program explores in depth those aspects that the manager must perfect to adapt to the new times, at the same time that it delves into the keys to distinguish themselves as a solvent leader and capable of facing a multitude of situations. In addition, the 100% online format of the program allows for a unique flexibility in that you do not need to sacrifice any aspect of your professional or personal life to continue to enhance your own career.

tech 08 | Why Study at TECH?

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95%

of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+

200+

executives trained each year

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

Why Study at TECH? | 09 tech

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

tech | Why Our Program?

This program will provide students with a multitude of professional and personal advantages, particularly the following:

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

tech 16 | Objectives

TECH makes the goals of their students their own goals too. Working together to achieve them.

The Advanced Master's Degree in Corporate Communications and Event Management will enable students to:

Acquire and understand knowledge that provides expertise or an opportunity to be original in the development and/or application of ideas, often in a research context

Seek and manage information from sources to make decisions that contribute to the achievement of the organization's objectives

Communicate your conclusions and arguments to specialized and non-specialized audiences in a clear and unambiguous manner

03

Develop interpersonal relationship skills to manage multidisciplinary and multicultural work teams

Define objectives, strategies and commercial policies in the MICE market in order to establish adequate policies in line with the objectives and strategies of the event management company in the field of tourism

Evaluate the operating procedures in the field of business tourism and events to make a complete analysis of its production process in terms of excellence and quality of service

Master the digitalization of the event, the most used tools today and new trends

09

Understand the importance and organization of hybrid events

In-depth knowledge of current trends in event organization

Understand the different ways of sponsoring an event, the deontological, legal and compliance environment of the different sectors

Know the MICE sector, its scope of action and who is part of it

Understand different techniques and tools involved in Event Design

Differentiate each type of event according to objective and need

03

Manage projects from information gathering through to presentation

Master all elements of event planning, from protocol, security, logistics, guests, speakers, transportation, timing, among others

Know the protocol to be followed in the event of an emergency

Execute a strategic communication planning and marketing plan according to the proposed objective

09

Understand the new communication technologies and their importance for the generation of hybrid or digital events

Apply fundamental concepts for budget planning and its implementation

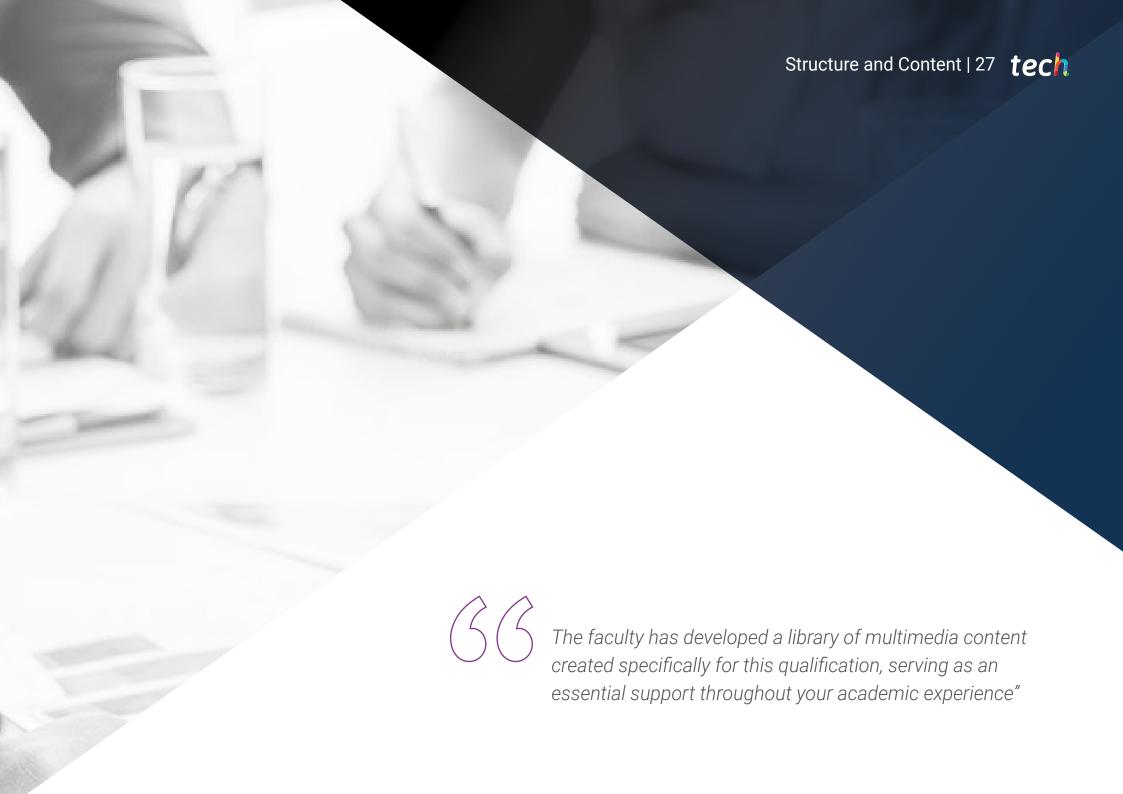

Learn about social networks and the importance of live events in the communication of an event

28 | Structure and Content

19.4. Planning, Execution and Measurement of SEM Campaigns

- 19.4.1. Search Engine Marketing
- 19.4.2. Conversion of Traffic to Qualified Traffic
- 19.4.3. SEM Project Management

19.5. Metrics and Results Analysis in Public Digital Campaigns

- 19.5.1. Ad servers
- 19.5.2. Traditional Metrics and Digital GRPs
- 19.5.3. CrossMedia and Interactions

19.6. Display Advertising, Rich Media and Viral Publicity

- 19.6.1. Media, Formats and Supports
- 19.6.2. The Conversion Cycle
- 19.6.3. Buzz Marketing and WOM

19.7. Mobile Marketing, Geo-Localization and Internet TV

- 19.7.1. New Mobile Marketing Applications
- 19.7.2. Geo-Localization
- 19.7.3. Applications which Integrate Websites, Geotagging and Mobile

19.8. Advertising Effectiveness

- 19.8.1. Research Techniques and Tracking Campaigns
- 19.8.2. Coverage and Effective Frequency Analysis
- 19.8.3. Notoriety and Time Distribution Patterns of Advertising Pressure

Module 20. Customer Relationship Management

20.1. CRM and Relational Marketing

- 20.1.1. Business Philosophy or Strategic Orientation
- 20.1.2. Customer Identification and Differentiation
- 20.1.3. The Company and its Stakeholders
- 20.1.4. Clienting

20.2. Database Marketing and Customer Relationship Management

- 20.2.1. Database Marketing Applications
- 20.2.2. Laws and Regulations
- 20.2.3. Information Sources, Storage, and Processing

20.3. Consumer Psychology and Behavior

- 20.3.1. The Study of Consumer Behavior
- 20.3.2. Internal and External Consumer Factors
- 20.3.3. Consumer Decision Process
- 20.3.4. Consumerism, Society, Marketing, and Ethics

20.4. Consumer Centric Marketing

- 20.4.1. Segmentation
- 20.4.2. Profitability Analysis
- 20.4.3. Customer Loyalty Strategies

20.5. CRM Management Techniques

- 20.5.1. Direct Marketing
- 20.5.2. Multichannel Integration
- 20.5.3. Viral Marketing

20.6. Advantages and Risks of Implementing CRM

- 20.6.1. CRM. Sales and Costs
- 20.6.2. Customer Satisfaction and Loyalty
- 20.6.3. Technology Implementation
- 20.6.4. Strategic and Management Errors

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

tech 44 | Methodology

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

tech 46 | Methodology

Relearning Methodology

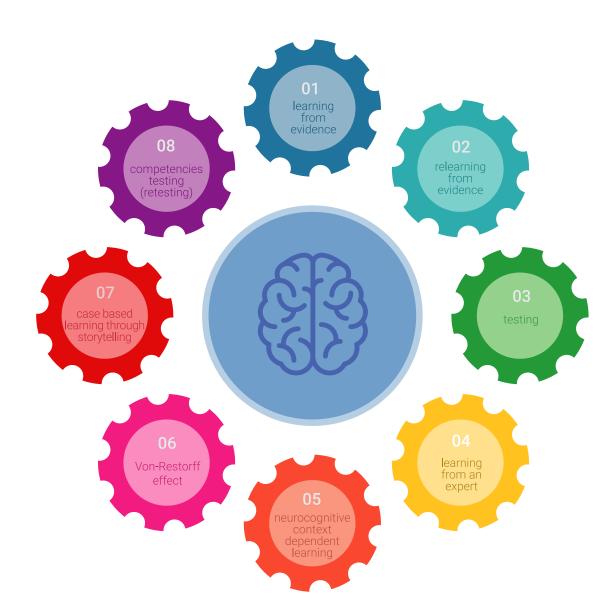

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

Methodology | 47 tech

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

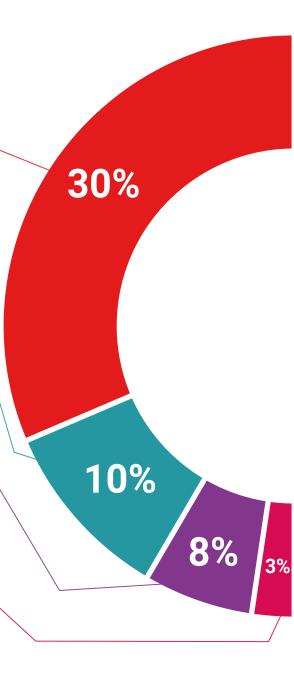

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

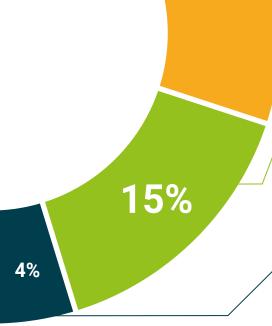

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

 (\wedge)

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.
