Introduction to the Program

Corporate transparency and sustainability have become fundamentally important in the global context, driven by the growing demand for accurate information on environmental, social and governance (ESG) performance. According to data from the Global Reporting Initiative (GRI), more than 73% of the world's 250 largest companies use its standards to disclose their economic, social and environmental impact. Living in a world where sustainability and transparency are essential for business success, TECH has designed this Postgraduate Certificate that will provide key content based on a 100% online methodology.

“

You will master the most widely used global standard in sustainability and become an expert in ESG reporting. With the 100% online modality, you will learn at your own pace and access opportunities in leading companies. Enroll now!”

Corporate sustainability has become a key element for the success and reputation of organizations. In this context, the Global Reporting Initiative (GRI) Methodology has established itself as the most widely used international standard for the preparation of sustainability reports, allowing companies to measure and communicate their environmental, social and economic impact in a transparent manner. Therefore, understanding and applying these standards not only guarantees regulatory compliance, but also strengthens the trust of stakeholders and improves strategic decision-making.

To respond to this growing demand, TECH has developed this Postgraduate Certificate in Global Reporting Initiative Methodology that will provide professionals with the knowledge and tools necessary to prepare reports aligned with international standards. Through a comprehensive and dynamic approach, key aspects such as materiality analysis, the identification of significant impacts, the collection of relevant data and the preparation of reports aligned with the Sustainable Development Goals (SDGs) and the Corporate Sustainability Reporting Directive (CSRD) will be addressed.

By acquiring knowledge in this field, graduates will find new job opportunities in consulting, auditing and sustainability management within multinational companies, government agencies and NGOs. In this way, they will be able to lead corporate transparency strategies, advise on the implementation of sustainability policies and contribute to the development of more responsible business models. In short, this qualification will enable them to stand out in a job market that is increasingly focused on compliance with ESG criteria.

Likewise, this program will be taught in a 100% online modality, which provides total flexibility to combine education with their work and personal life. In turn, the implementation of the innovative Relearning methodology, based on the reiteration of key concepts, will optimize the assimilation of knowledge and improve academic performance.

In addition, prestigious International Guest Directors will deliver comprehensive Masterclasses.

This **Postgraduate Certificate in Global Reporting Initiative Methodology** contains the most complete and up-to-date educational program on the market. Its most notable features are:

- ♦ Development of case studies presented by experts in sustainability
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Special emphasis on innovative methodologies in Global Reporting Initiative Methodology
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Renowned International Guest Directors will provide intensive Masterclasses to delve into the Global Reporting Initiative Methodology"

“

Want to become an expert in corporate sustainability? This Postgraduate Certificate will help you achieve your goals, enabling you to access new opportunities in the business sector"

Its teaching staff includes professionals from the field of sustainability, who bring their work experience to this program, as well as renowned specialists from leading companies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive learning experience designed to prepare for real-life situations.

This program is designed around Problem-Based Learning, whereby the student must try to solve the different professional practice situations that arise throughout the program. For this purpose, the professional will be assisted by an innovative interactive video system created by renowned and experienced experts.

This program will provide you with key knowledge in materiality analysis, sustainability indicators and international regulations. All with the flexibility of an advanced online methodology.

This TECH Postgraduate Certificate will connect you with specialized professors and an up-to-date syllabus in Global Reporting Initiative (GRI) Methodology. Enroll now and transform your career with the best!

02

Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs, available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it has a huge faculty of more than 6,000 professors of the highest international prestige.

“

Study at the largest online university in the world and ensure your professional success. The future begins at TECH”

The world's best online university, according to FORBES

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

The best top international faculty

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

The most complete syllabuses on the university scene

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

A unique learning method

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

Google Premier Partner

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

The top-rated university by its students

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

03 Syllabus

Throughout a specialized syllabus, professionals will analyze the principles and structure of GRI, understanding its materiality-based approach and information quality criteria. They will also delve into impact identification and assessment, exploring double materiality analysis and alignment with regulatory frameworks such as CSRD. Finally, they will delve into the main environmental, social and governance (ESG) performance indicators, learning to establish key metrics and measure corporate impact with precision.

“

Thanks to a combination of theory and practice, you will develop strategic competencies to advise companies on the implementation of sustainability policies”

Module 1. Global Reporting Initiative Methodology

- 1.1. GRI Standards. Fundamentals
 - 1.1.1. History and Context of the GRI Foundation: Context of Creation and Purpose of the GRI Standards. Changes Over the Years
 - 1.1.2. Relationship of GRI to Other Sustainability Frameworks
 - 1.1.2.1. Highlights and Differences from Other Tools
 - 1.1.2.2. Benefits of Aligning GRI with Other International Frameworks
 - 1.1.3. Conceptual and Methodological Structure: General Structure of the GRI Standards
 - 1.1.3.1. Differentiation between Universal, Sectoral and Specific Standards. Function and Scope of Each Type of Standard
- 1.2. Sustainability in GRI Standards. Fundamentals and Strategies
 - 1.2.1. Corporate Sustainability: Principles. Importance for the Corporate Context
 - 1.2.2. Sustainability Management Approaches. Integration of Sustainable Objectives into Corporate Goals
 - 1.2.3. Sustainability Evaluation and Monitoring: Continuous Evaluation Tools and Practices
- 1.3. Preparation of a GRI Report (GRI 101)
 - 1.3.1. Key Principles: Accuracy, Comparability, Balance, Transparency, Timeliness and Clarity
 - 1.3.2. Tools and Resources for Reporting: GRI Official Guides, Tools and Resources
 - 1.3.3. Analysis of Real Cases of GRI Reports. Examples of Reports from Prominent Companies
- 1.4. Principles in GRI Reporting
 - 1.4.1. General Process for Preparing a GRI Report. Stages in the Development of a Sustainability Report
 - 1.4.2. GRI 101 and GRI 102 Forms
 - 1.4.3. Tools and Resources for Identifying Stakeholders
- 1.5. Identification of Material Topics according to GRI
 - 1.5.1. Materiality According to GRI: Definition of Material Topics and their Role in Reports
 - 1.5.2. Methodology for the Identification of Material Topics: How to Carry out a Materiality Analysis to Identify Key Topics. Tools
 - 1.5.3. Prioritization of Material Topics and Hierarchy: Strategies for Prioritizing Issues According to Their Relevance

- 1.6. Structure of the GRI Sustainability Report
 - 1.6.1. Key Sections of a GRI Report: Organizational Context, Performance and Objectives
 - 1.6.2. Writing and Presentation of Content: Writing Strategies to Ensure Clarity and Cohesion
 - 1.6.3. Report Format and Design: Best Practices for Articulating and Making the Sustainability Report Accessible
- 1.7. Definition and Monitoring of Sustainability Indicators (KPIs)
 - 1.7.1. Identification of Key Performance Indicators (KPIs) According to GRI
 - 1.7.2. Types of KPIs and their Importance in Reflecting Sustainability Performance
 - 1.7.3. Methodologies for Data Collection and Validation: Techniques for the Collection of Accurate and Verifiable Data
 - 1.7.4. Tools for Monitoring and Evaluation of KPIs: Tools and Practices for the Monitoring of Indicators
- 1.8. Management and Verification of Data in GRI Reports
 - 1.8.1. Data Verification and Quality Control Methods: How to Guarantee the Accuracy and Consistency of the Data Reported
 - 1.8.2. Sustainability Information Audit: Internal and External Audit Processes to Validate the Report
 - 1.8.3. Data Management for Continuous Improvement
- 1.9. Communication and Dissemination of GRI Reports
 - 1.9.1. Communication Strategies for Sustainability Reports: Communication Strategies to Improve the Visibility of the Report
 - 1.9.2. Adapting the Information for Different Audiences: How to Adapt the Report to the Needs of Investors, Employees, the Community
 - 1.9.3. Report Dissemination Platforms and Media: Use of Digital Platforms and Accessible Formats for Better Dissemination
- 1.10. Continuous Evaluation and Improvement in Sustainability Reports
 - 1.10.1. Evaluation of Results and Feedback. Evaluation Methods to Identify Strengths and Areas for Improvement in Reports
 - 1.10.2. Use of GRI Reports for Strategic Decision Making. How the Results of the Reports Can Guide Strategic Decisions on Sustainability
 - 1.10.3. Continuous Improvement Plan for Sustainability Reports

04 Teaching Objectives

This Postgraduate Certificate is designed to equip professionals with the necessary skills to lead the preparation of sustainability reports aligned with the most demanding international standards. Throughout the program, they will develop an in-depth understanding of the GRI Standards, enabling them to apply its principles in the assessment of environmental, social and governance impacts within any organization. Based on this, graduates will know how to develop strategies aligned with global regulations and use advanced technological tools for the collection, analysis and automation of ESG data.

“

TECH will not only provide you with the most relevant methodologies in the industry, but also a guide of teachers with extensive experience in the sustainable area"

General Objectives

- ♦ Understand the principles and standards of the Global Reporting Initiative (GRI) methodology for the preparation of sustainability reports
- ♦ Identify the GRI requirements and guidelines for applying best practices in the disclosure of business information
- ♦ Analyze the structure and essential components of a sustainability report according to GRI standards
- ♦ Apply methodologies for the collection, measurement and presentation of data in sustainability reports
- ♦ Develop skills for the interpretation and effective communication of environmental, social and governance (ESG) performance indicators
- ♦ Implement transparency and accountability strategies aligned with GRI standards
- ♦ Evaluate the impact of sustainability on business decision-making and stakeholder relations
- ♦ Integrate GRI reports into corporate management systems to improve organizational sustainability
- ♦ Use digital and technological tools to optimize the preparation and dissemination of sustainability reports
- ♦ Adapt GRI principles to different sectors and business contexts to improve competitiveness and corporate responsibility

Specific Objectives

- ♦ Understand the Global Reporting Initiative (GRI) standards for sustainability reporting
- ♦ Apply principles of transparency and accountability in the disclosure of business information according to GRI
- ♦ Analyze environmental, social and governance (ESG) performance indicators for correct interpretation and reporting
- ♦ Implement data collection and presentation strategies aligned with GRI guidelines
- ♦ Integrate GRI reports into corporate management to strengthen sustainability and business reputation
- ♦ Assess the impact of sustainability on strategic decision-making and on stakeholder relations

Only TECH will provide you with the key knowledge to handle the Global Reporting Initiative Methodology and become a highly sought-after professional. Enroll now and take the next step towards professional success!"

05 Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“

TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want”

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule"

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

06

Teaching Staff

The teaching staff is made up of a team of experts with outstanding experience in corporate sustainability, ESG reporting and international regulations. Thanks to their experience in consulting, auditing and sustainability reporting management, the mentors will provide a practical and up-to-date approach, aligned with market demands and the latest global regulations. In addition, the faculty is made up of active professionals who have worked with leading companies in the application of the GRI Standards, which allows students to access real cases, innovative methodologies and effective strategies for reporting.

“

If you want to be a pioneer in corporate sustainability, this Postgraduate Certificate is the ideal option for you. TECH will provide you with the skills that will make a difference in your career. Enroll now!”

International Guest Director

With over 20 years of experience in designing and leading global **talent acquisition teams**, Jennifer Dove is an expert in **technology recruitment** and **strategy**. Throughout her career, she has held senior positions in several technology organizations within **Fortune 50 companies** such as **NBCUniversal** and **Comcast**. Her track record has allowed her to excel in competitive, high-growth environments.

As **Vice President of Talent Acquisition** at **Mastercard** she is responsible for overseeing talent onboarding strategy and execution, collaborating with business leaders and **HR Managers** to meet operational and strategic hiring objectives. In particular, she aims to **build diverse, inclusive and high-performing teams** that drive innovation and growth of the company's products and services. In addition, she is adept at using tools to attract and retain the best people from around the world. She is also responsible for **amplifying** Mastercard's **employer brand** and **value proposition** through publications, events and social media.

Jennifer Dove has demonstrated her commitment to continuous professional development by actively participating in networks of **Human Resources** professionals and contributing to the onboarding of numerous employees at different companies. After earning her bachelor's degree in **Organizational Communication** from the University of Miami, she has held management positions in recruitment for companies in various areas.

On the other hand, it has been recognized for its ability to lead organizational transformations, **integrate technologies** into **recruitment processes** and develop leadership programs that prepare institutions for future challenges. She has also successfully implemented **wellness programs** that have significantly increased employee satisfaction and retention.

Ms. Dove, Jennifer

- Vice President of Talent Acquisition at Mastercard, New York, United States
- Director of Talent Acquisition at NBCUniversal Media, New York, USA
- Head of Recruitment at Comcast
- Director of Recruiting at Rite Hire Advisory, New York, USA
- Executive Vice President of the Sales Division at Ardor NY Real Estate
- Director of Recruitment at Valerie August & Associates
- Account Executive at BNC
- Account Executive at Vault
- Degree in Organizational Communication from the University of Miami

“

Thanks to TECH, you will be able to learn with the best professionals in the world"

International Guest Director

A technology leader with decades of experience in major technology multinationals, Rick Gauthier has developed prominently in the field of cloud services and end-to-end process improvement. He has been recognized as a leader and manager of highly efficient teams, showing a natural talent for ensuring a high level of engagement among his employees.

He possesses innate gifts in strategy and executive innovation, developing new ideas and backing his success with quality data. His background at Amazon has allowed him to manage and integrate the company's IT services in the United States. At Microsoft he led a team of 104 people, responsible for providing corporate-wide IT infrastructure and supporting product engineering departments across the company.

This experience has allowed him to stand out as a high-impact manager with remarkable abilities to increase efficiency, productivity and overall customer satisfaction.

Mr. Gauthier, Rick

- Regional IT Director at Amazon, Seattle, United States
- Senior Program Manager at Amazon
- Vice President of Wimmer Solutions
- Senior Director of Productive Engineering Services at Microsoft
- Degree in Cybersecurity from Western Governors University
- Technical Certificate in Commercial Diving from Divers Institute of Technology
- Degree in Environmental Studies from The Evergreen State College

“

Take the opportunity to learn about the latest advances in this field to apply it to your daily practice”

International Guest Director

Romi Arman is a renowned international expert with more than two decades of experience in **Digital Transformation, Marketing, Strategy and Consulting**. Through that extended trajectory, he has taken different risks and is a permanent **advocate** for **innovation** and **change** in the business environment. With that expertise, he has collaborated with CEOs and corporate organizations from all over the world, pushing them to move away from traditional business models. In this way, he has helped companies such as Shell Energy become **true market leaders**, focused on their **customers** and the **digital world**.

The strategies designed by Arman have a latent impact, as they have enabled several corporations **to improve the experiences of consumers, staff and shareholders** alike. The success of this expert is quantifiable through tangible metrics such as **CSAT**, **employee engagement** in the institutions where he has practiced and the growth of the **EBITDA financial indicator** in each of them.

Also, in his professional career, he has nurtured and **led high-performance teams** that have even received awards for their **transformational potential**. With Shell, specifically, the executive has always set out to overcome three challenges: meeting **customers'** complex **decarbonization** demands **supporting a “cost-effective decarbonization”** and **overhauling** a fragmented **data, digital and technology** landscape. Therefore, his efforts have shown that in order to achieve sustainable success, it is essential to start from the needs of consumers and lay the foundations for the transformation of processes, data, technology and culture.

In addition, the executive stands out for his mastery of the **business applications of Artificial Intelligence**, a subject in which he holds a postgraduate degree from the London Business School. At the same time, he has accumulated experience in **IoT** and **Salesforce**.

Mr. Arman, Romi

- Digital Transformation Director (CDO) at Shell Energy Corporation, London, UK
- Global Director of E-Commerce and Customer Service at Shell Energy Corporation
- National Key Account Manager (OEM and automotive retailers) for Shell in Kuala Lumpur, Malaysia
- Senior Management Consultant (Financial Services Sector) for Accenture based in Singapore
- Bachelor's Degree from the University of Leeds
- Postgraduate Degree in Business Applications of AI for Senior Executives from the London Business School
- CCXP Customer Experience Professional Certification
- Executive Digital Transformation Course by IMD

Do you want to update your knowledge with the highest educational quality? TECH offers you the most updated content in the academic market, designed by authentic experts of international prestige"

International Guest Director

Manuel Arens is an experienced data management professional and leader of a highly qualified team. In fact, Arens holds the position of **global purchasing manager** in Google's Technical Infrastructure and Data Center division, where he has spent most of his professional career. Based in Mountain View, California, he has provided solutions for the tech giant's operational challenges, such as master **data integrity**, **vendor data updates** and **vendor prioritization**. He has led data center supply chain planning and vendor risk assessment, generating improvements in vendor risk assessment, resulting in process improvements and workflow management that have resulted in significant cost savings.

With more than a decade of work providing digital solutions and leadership for companies in diverse industries, he has extensive experience in all aspects of strategic solution delivery, including **Marketing**, **media analytics**, **measurement** and **attribution**. In fact, he has received a number of accolades for his work, including the **BIM Leadership Award**, the **Search Leadership Award**, the **Lead Generation Export Program Award** and the **Export Lead Generation Program Award** and the **EMEA Best Sales Model Award**.

Arens also served as **Sales Manager** in Dublin, Ireland. In this role, he built a team of 4 to 14 members over three years and led the sales team to achieve results and collaborate well with each other and cross-functional teams. He also served as **Senior Industry Analyst**, in Hamburg, Germany, creating storylines for over 150 clients using internal and third party tools to support analysis. He developed and wrote in-depth reports to demonstrate his mastery of the subject matter, including understanding the macroeconomic and political/regulatory factors affecting technology adoption and diffusion.

He has also led teams at companies such as Eaton, Airbus and Siemens, where he gained valuable account management and supply chain experience. He is particularly noted for continually exceeding expectations by **building valuable customer relationships** and **working seamlessly with people at all levels of an organization**, including stakeholders, management, team members and customers. His data-driven approach and ability to develop innovative and scalable solutions to industry challenges have made him a prominent leader in his field.

Mr. Arens, Manuel

- Global Procurement Manager at Google, Mountain View, USA
- Senior Manager, B2B Analytics and Technology, Google, USA
- Sales Director at Google, Ireland
- Senior Industry Analyst at Google, Germany
- Accounts Manager at Google, Ireland
- Accounts Payable at Eaton, UK
- Supply Chain Manager at Airbus, Germany

“

Bet on TECH! You will have access to the best didactic materials, at the forefront of technology and education, implemented by internationally renowned specialists in the field”

International Guest Director

Andrea La Sala is an experienced **Marketing** executive whose projects have had a **significant impact** on the **Fashion environment**. Throughout his successful career he has developed different tasks related to **Product, Merchandising and Communication**. All of this linked to prestigious brands such as **Giorgio Armani, Dolce&Gabbana, Calvin Klein**, among others.

The results of this **high-profile international executive** have been linked to his proven ability to **synthesize information** in clear frameworks and execute **concrete actions** aligned to **specific business objectives**. In addition, he is recognized for his **proactivity** and **adaptability to fast-paced** work rhythms. To all this, this expert adds a **strong commercial awareness,, market vision** and a **genuine passion for products**.

As **Global Brand and Merchandising Director** at **Giorgio Armani**, he has overseen a variety of **Marketing strategies** for **apparel and accessories**. His tactics have also focused on the **retail environment** and **consumer needs and behavior**. In this role, La Sala has also been responsible for shaping the commercialization of products in different markets, acting as **team leader** in the **Design, Communication and Sales departments..**

Furthermore, in companies such as **Calvin Klein** or **Gruppo Coin**, he has undertaken projects to boost the **structure, and development of different collections**. In turn, he has been in charge of creating **effective calendars** for buying and selling **campaigns**.

He has also been in charge of the **terms, costs, processes and delivery times** of different operations.

These experiences have made Andrea La Sala one of the main and most qualified **corporate leaders** in **Fashion and Luxury**. A high managerial capacity with which he has managed to effectively **implement the positive positioning of different brands** and redefine their key performance indicators (KPIs).

Mr. La Sala, Andrea

- Global Brand & Merchandising Director of Armani Exchange at Giorgio Armani, Milan, Italy
- Merchandising Director at Calvin Klein
- Brand Manager at Gruppo Coin
- Brand Manager at Dolce&Gabbana
- Brand Manager at Sergio Tacchini S.p.A.
- Market Analyst at Fastweb
- Degree in Business and Economics from the University of Eastern Piedmont

“

The most qualified and experienced professionals at international level are waiting for you at TECH to offer you a first class teaching, updated and based on the latest scientific evidence. What are you waiting for to enroll?"

International Guest Director

Mick Gram is synonymous with innovation and excellence in the field of **Business Intelligence** internationally. His successful career is linked to leadership positions in multinationals such as **Walmart** and **Red Bull**. Likewise, this expert stands out for his vision to **identify emerging technologies** that, in the long term, achieve an everlasting impact in the corporate environment.

On the other hand, the executive is considered a **pioneer in the use of data visualization techniques** that simplified complex sets, making them accessible and facilitating decision-making. This ability became the pillar of his professional profile, transforming him into a desired asset for many organizations that bet on **gathering information** and **generating concrete actions** from them.

One of his most outstanding projects in recent years has been the **Walmart Data Café platform**, the largest of its kind in the world that is anchored in the **cloud** aimed at **Big Data** analysis. In addition, he has held the position of **Director of Business Intelligence** at **Red Bull**, covering areas such as **Sales, Distribution, Marketing** and **Supply Chain Operations**. His team was recently recognized for its constant innovation regarding the use of Walmart Luminate's new API for Shopper and Channel insights.

As for his training, the executive has several Masters and postgraduate studies at prestigious centers such as the **University of Berkeley**, in the United States, and the **University of Copenhagen**, in Denmark. Through this continuous updating, the expert has attained cutting-edge skill. Because of this, he has come to be considered a **born leader** of the **new global economy**, centered on the drive for data and its infinite possibilities.

Mr. Gram, Mick

- Director of Business Intelligence and Analytics at Red Bull, Los Angeles, United States
- Business Intelligence Solutions Architect for Walmart Data Café
- Independent Business Intelligence and Data Science Consultant
