01 Welcome

Managers, entrepreneurs and other business professionals need to have a multidisciplinary profile in different fields, as well as a broad knowledge of the regulations related to their field of action. These usually contain legal language that is difficult to understand and, if the documents are in English, the difficulty increases. This TECH program offers students the possibility of learning all that simple legal vocabulary that will be essential to achieve a better understanding of regulatory documents, and it does so with a program of the highest quality, developed by a team of experts in the field and with the best educational methodology around.

Postgraduate Certificate in Legal English.
TECH Technological University

“

Learning legal English will allow you to understand the regulations specific to your job, which will add value to your résumé”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

The main objective of TECH's Postgraduate Certificate in Legal English is to ensure that students know, at a basic level, all the terminology and specific aspects of legal English that will be essential to understand the different agreements or regulations of their daily practice. This way, by passing the program, they will be better able to easily communicate in this language, as well as to understand any regulatory document.

“

*TECH puts all its tools at your disposal
so that you can comfortably improve
your English level"*

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The **Postgraduate Certificate in Legal English** qualifies students to:

01

Solve basic and simple communicative tasks in order to fulfil their functions both in a work environment and in everyday situations

02

Interact and express yourself in these situations in an independent and adequate manner, in a standard register in written and oral communication

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships

04

Use the linguistic resources necessary to get by in communication situations in the work environment

05

Develop resources and tools that enable them to assess and improve their own learning and use of the language

06

Be able to understand the main points of clear, standard-language texts on familiar matters, whether in work study or leisure situations

07

Know how to cope in most of the situations that may arise in the workplace where English is used as the lingua franca

08

Be able to produce simple and coherent texts on topics that they are familiar with in the work or in which they have a personal interest

09

Be able to describe work experiences, events, wishes and aspirations, as well as briefly justify their opinions or explain their work plans

10

Be able to understand Legal and Business Law-related vocabulary and its context

11

Understand the difference between key concepts related to the legal field

12

Communicate information in a general way about International Law, without going into specific topics

13

Understand different common Legal Textual Typologies

14

Know how to fill in simple documents, such as licenses, and authorizations, even using other resources, such as dictionaries

05

Structure and Content

TECH's Postgraduate Certificate in Legal English is focused on the broad public who work in the business sector and who wish to improve their level of English in order to become more competent in their daily work. It has a completely up to date syllabus with the main fields that business professionals must face during their professional practice. To this purpose, teachers of this program have elaborated the most up to date educational content on relevant aspects of legal English.

“

Knowing the most relevant aspects of legal English will allow you to handle yourself all the issues related to your company's hiring in international environments"

Syllabus

Companies are increasingly operating in globalized environments, with customers, suppliers and partners in different parts of the world. For this reason, there are many companies that demand professional profiles that are able to adequately handle English. But, in addition, obtaining specific knowledge in legal English will open the doors to a field full of job opportunities, where positions have a better pay.

For this reason, nowadays, there are numerous English studies focused on professional profiles, with specific syllabuses for the different situations that professionals may face during their work practice.

This is one of those programs that is aimed at a specific audience, who need to understand legal terminology in order to be more competent in their daily practice. And, to that end, TECH offers a comprehensive curriculum, ranging from recruitment and HR generalities to simple legal terminology on sales, non-compliance and penalties.

A highly valuable program that will provide a competitive advantage to anyone wishing to work in international environments where English is the lingua franca that enables business and collaborative relationships.

This Postgraduate Certificate takes place over 6 weeks, and it consists of 1 module:

Module 1

Legal English

1.9. General Corporate Terminology	1.10. Simple Application for Licenses and Authorizations		

This TECH program will teach you how to write agreements in English without any spelling or grammatical errors"

06 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The profile of the students of this TECH Postgraduate Certificate is that of business professionals who have a basic knowledge of the English language, but who, for their own interest and that of their companies, seek higher studies with which to learn all those details of legal English that will be essential to read and understand regulations, agreements or licenses of their day to day, achieving greater performance and knowledge of the market.

“

If you want to expand your business to the international market, but you are afraid of not understanding your partners, suppliers or customers in English. Don't worry, this Postgraduate Certificate will teach you all the specific terminology that will be essential for your professional development"

Gonzalo Santamarta

Entrepreneur

"Legal language is extremely complicated in any language, and it couldn't be less so in English. Therefore, I was looking for a program with which I could learn about these very specific concepts, which are fundamental to control all the agreements that my company carries out in the international environment. Without a doubt, it has been a unique opportunity to improve my English and boost my career"

08

Impact on Your Career

Learning English is a great asset for anyone's résumé when working in international companies. This TECH program offers students the possibility of learning this legal terminology, in a simple way, allowing them to apply it to their professional environment, achieving greater momentum in their careers and, therefore, improving their chances of promotion and personal and professional success. Undoubtedly, it is an opportunity that they cannot let slip away.

“

*Knowing legal terminology in English
will help you establish agreements
in international environments”*

Are you ready to take the leap? Excellent professional development awaits you

TECH's Postgraduate Certificate in Legal English is a complete and intensive program that prepares students to face challenges and decisions in the field of business. Its main objective is to promote students' personal and professional growth. Helping students achieve success.

Obtaining a specific knowledge of legal aspects in English will be essential to understand all the regulations applicable to your field of activity.

Studying this TECH program will help you improve your job position in a short time.

When the change occurs

Type of change

Salary increase

This program represents a salary increase of more than **23.65%** for our students

09

Benefits for Your Company

Companies operating in globalized environments use English as their main language of communication. However, it is not only necessary for professionals to have general knowledge of the language that allows them to engage in conversations about their work, it is also really important to acquire that specific knowledge of legal English that will help them to understand, in an easy way, the regulations and agreements specific to their area of activity, which will be a great added value for any company.

“

Businesses operate in complex environments in which specific regulations often have to be used. Learning English will be essential to give your business a boost”

Developing and retaining talent in companies is the best long-term investment.

01

Intellectual Capital and Talent Growth

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets of the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R&D or Business Development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

10 Certificate

The Postgraduate Certificate in Legal English guarantees students, in addition to the most rigorous and up to date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program and
receive your university qualification without
having to travel or fill out laborious paperwork"*

The **Postgraduate Certificate in Legal English** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra (**official bulletin**). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.
