# 01 Welcome

The medical division is fundamental in the entire healthcare process, where the paradigm of clinical management is becoming more and more prevalent, as it continuously pursues quality services. The best program for professionals who hold positions of responsibility in healthcare, whether as middle managers, care managers or medical and managerial directors, is a key element for the growth and better reputation of this type of institutions. The aim of this program is to offer the techniques and tools needed to ensure that all processes are carried out in compliance with the highest quality standards demanded by 21st century society.

Postgraduate Diploma in Medical Quality Management  
TECH Global University

“

*If you are a doctor, head of service or section, assistant, coordinator, director or manager in a medical center, and you want to update and develop your management skills to respond to the current reality and context in your professional future, this is the perfect postgraduate program for you”*

02

# Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

*TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"*

## At TECH Global University

### Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly evolving world, where innovation must be every entrepreneur's focus.

*"Microsoft Europe Success Story"*, for integrating the innovative, interactive multi-video system.

### The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

**95%** | of TECH students successfully complete their studies

### Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

**+100000**

executives trained each year

**+200**

different nationalities

### Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

**+500** | collaborative agreements with leading companies

### Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

### Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

### Learn with the best

---

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

*At TECH you will have access to Harvard Business School case studies."*

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

### Analysis

---

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

### Academic Excellence

---

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School *case studies*. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

### Economy of Scale

---

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

# Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

*We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level".*

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

### A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

*70% of students achieve positive career development in less than 2 years.*

02

### You will develop a strategic and global vision of companies.

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

*Our global vision of companies will improve your strategic vision.*

03

### Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

*You will work on more than 100 real senior management cases.*

04

### You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

*45% of graduates are promoted internally.*

05

### Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

*You will find a network of contacts that will be instrumental for professional development.*

06

### Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

*20% of our students develop their own business idea.*

07

### Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

*Improve your communication and leadership skills and enhance your career.*

08

### You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Global University community.

*We give you the opportunity to train with a team of world-renowned teachers.*

# 04 Objectives

The Postgraduate Diploma offers a detailed, state-of-the-art program from an eminently practical point of view, in a time where accredited knowledge is essential. In this way, at the end of the program, students will be able to conduct quality control in all medical procedures.

“

*Thanks to this program you will be able to effectively manage your resources, optimize quality and improve processes at your healthcare center”*

**TECH makes the goals of their students their own goals too.  
Working together to achieve them.**

The **Postgraduate Diploma in Medical Quality Management** trains students to:

01

Address clinical management using criteria such as effectiveness, efficiency, efficacy, equity, performance, and profitability, as well as problem-solving through the appropriate use of information systems

02

Lead quality and patient safety systems, applied to the context of clinical management units

03

Apply health accreditation approaches to different types of organizations and health centers

04

Develop methodological and instrumental capabilities to effectively use different healthcare information systems in decision-making and management of clinical units

05

Interpret and appropriately apply the most suitable tools in each context for clinical evaluation and decision-making

06

Describe the principles of clinical quality management that facilitate planning, organization, management and assessment at a center, service or care unit

07

Show and value advanced initiatives and experiences in clinical and health quality management

08

Analyze the theories and models of the organization and the way Welfare Systems work, focusing on their political, social, legal and economic foundations and their organizational structure

05

# Structure and Content

This program in Medical Quality Management has been designed with the academic needs of graduates in mind who wish to access management positions in the healthcare field. To this end, it offers top-level content where students will find tools that they can later apply to their daily practice. It is, without a doubt, an authentic immersion in real work situations, which will be fundamental for a more effective and efficient learning process.

“

*A comprehensive syllabus designed to successfully manage quality in medical services. We offer you the best specialized curriculum to boost your career”*

## Syllabus

The new challenges facing medical management, such as the approach to complexity and chronicity, relations between professional groups, the development of new healthcare technologies or the need to increase efficiency in the use of resources, all pose a great challenge for managers, as they have to ensure that all the processes are carried out in accordance with the highest quality standards.

This high-level program features a review of health systems and policies, as well as administrative processes, and then addresses factors within the care and medical divisions and their role in the system. Over the course of 400 hours, the student analyzes a plethora of practical cases through individual and teamwork. It is, therefore, an authentic immersion in real business situations.

Nowadays, it is increasingly essential

that those responsible for healthcare processes begin to acquire managerial skills. This program is therefore aimed at training Heads of Service and those responsible for the medical management of hospital centers, developing skills and techniques that boost leadership momentum.

In the area of service management, the following stand out: health care services clinical management, human resources management, talent and professional management and investment and financial management. These are fundamental aspects in the daily activity of health managers and must be applied in compliance with the quality levels currently required.

This Postgraduate Diploma is developed over 6 months and is divided into 4 modules:

**Module 1** Clinical Management

**Module 2** Quality Management

**Module 3** Quality Accreditation in Healthcare

**Module 4** Patient Safety

### Where, When and How is it Taught?

TECH offers you the opportunity to study this Postgraduate Diploma completely online. Throughout the 6 months of training, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

*Raising the quality levels of healthcare services will favor better patient quality of life.*

## Module 1. Clinical Management

### 1.1. Patient Classification Systems

- 1.1.1. Diagnosis-Related Groups (DRGs)
- 1.1.2. Patient Classification Systems
- 1.1.3. Essential Resources

### 1.2. Definition and Regulation of Clinical Management

- 1.2.1. Definition of Clinical Governance
- 1.2.2. Evolution of Clinical Management in the National Health System
- 1.2.3. The Contract-Program and Clinical Management
- 1.2.4. Current Status and Controversies

### 1.3. Clinical Management Processes and Protocols. Management of Scientific Evidence

- 1.3.1. Variability in Medical Practice
- 1.3.2. Scientific Evidence
- 1.3.3. Clinical Management
- 1.3.4. Processes, Procedures, Clinical Pathways and Clinical Management Units

### 1.4. Clinical Management Models and Units: Interhospital Units

- 1.4.1. What Can Be Considered in a Clinical Management Unit: Inter-Hospital
- 1.4.2. Requirements of Inter-Hospital Clinical Management Units
- 1.4.3. Importance of Leadership in Inter-Hospital Clinical Management Units
- 1.4.4. Human Resources, Continuing Education, Research and Teaching
- 1.4.5. Patients and Companions. Humanization in Healthcare Assistance
- 1.4.6. Processes in Interhospital Clinical Management Units
- 1.4.7. The Indicators of these Interhospital Units
- 1.4.8. Management by Objectives and Improvement

### 1.5. Prudent Drug Prescription. Electronic Prescription

- 1.5.1. Good Prescribing Standards
- 1.5.2. Principles for Prudent Prescribing
- 1.5.3. Tools for Prudent Pharmacological Prescribing
- 1.5.4. Prescribing Quality Indicators

### 1.6. Prescription Complementary Tests

- 1.6.1. Management of Requests
- 1.6.2. Information Systems Integration Model for the Management of Diagnostic Tests
- 1.6.3. Benefits of a Request Manager
- 1.6.4. Lean Method

## Module 2. Quality Management

### 2.1. Quality in Healthcare

- 2.1.1. Quality Care
- 2.1.2. Health and Quality Activity Records

### 2.2. Quality of Healthcare Programs

- 2.2.1. Quality of Care

## Module 3. Quality Accreditation in Healthcare

### 3.1. Accreditation in Healthcare

- 3.1.1. Quality Management Systems: Accreditation, Certification and Excellence Models

### 3.2. Joint Commission International

- 3.2.1. History
- 3.2.2. The Joint Commision International

### 3.3. EFQM Model

- 3.3.1. Criteria in Models for Excellence
- 3.3.2. The Reder Logic Scheme
- 3.3.3. Update of the EFQM Excellence Model

### 3.4. ISO Accreditation

- 3.4.1. Rules Are Used as a Standard for Certification
- 3.4.2. Healthcare System Accreditation Status
- 3.4.3. Accreditation in Perspective:  
Main Theoretical-Practical Conflicts

## Module 4. Patient Safety

### 4.1. Patient Safety: Evolution over Time

- 4.1.1. Introduction and Definition Background and Current Situation
- 4.1.2. Unequivocal Patient Identification. Localization and Traceability Systems
- 4.1.3. Patients at Risk of Developing Pressure Ulcers (PUs)
- 4.1.4. Infection Risks Associated to Nursing Care. Venous Access Care
- 4.1.5. Fall Risks. Fall Prevention and Monitoring in Hospitalized Patients

### 4.2. Nosocomial Infections

- 4.2.1. Nosocomial Infections. Definition and Classification
- 4.2.2. Care for Nosocomial Infection
- 4.2.3. Hospital Infection Control and Surveillance Programs and Networks
- 4.2.4. Asepsis, Disinfection and Sterilization

### 4.3. Prevention of Adverse Effects of Healthcare

- 4.3.1. Primary and Secondary Prevention. Types and Examples
- 4.3.2. Prevention and Detection of Adverse Events Related to the Preparation and Administration of Medication
- 4.3.3. Screening Programs: Breast Cancer Management
- 4.3.4. Screening Programs: Colon Cancer. Management
- 4.3.5. Vaccination Program Management. Childhood Vaccination
- 4.3.6. Vaccination Program Management. Flu Vaccination
- 4.3.7. FMEA (Failure Mode and Effects Analysis). Root Cause Analysis

### 4.4. Notification and Registration System

- 4.4.1. Information and Record Systems
- 4.4.2. Adverse Event Reporting and Recording Systems

### 4.5. Secondary and Tertiary Victims

- 4.5.1. Health Professionals in the Face of Adverse Effects
- 4.5.2. Recovery Trajectory and Emotional Support
- 4.5.3. Impact on Corporate Image

# 06 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

At TECH Business School we use the Harvard case method.

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“ At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

We are the first online university to combine Harvard Business School case studies with a 100% online learning system based on repetition.

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

### A learning method that is different and innovative

This intensive program from TECH Global University School of Business prepares students to face all the challenges in this area, both nationally and internationally.

We are committed to promoting personal and professional growth, the best way to strive for success, that is why TECH uses Harvard *case studies*, with which we have a strategic agreement that allows us to provide our students with material from the best university the world.

“*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments*”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, students will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Relearning Methodology

Our university is the first in the world to combine Harvard University case studies with a 100%-online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance Harvard case studies with the best 100% online teaching method: Relearning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

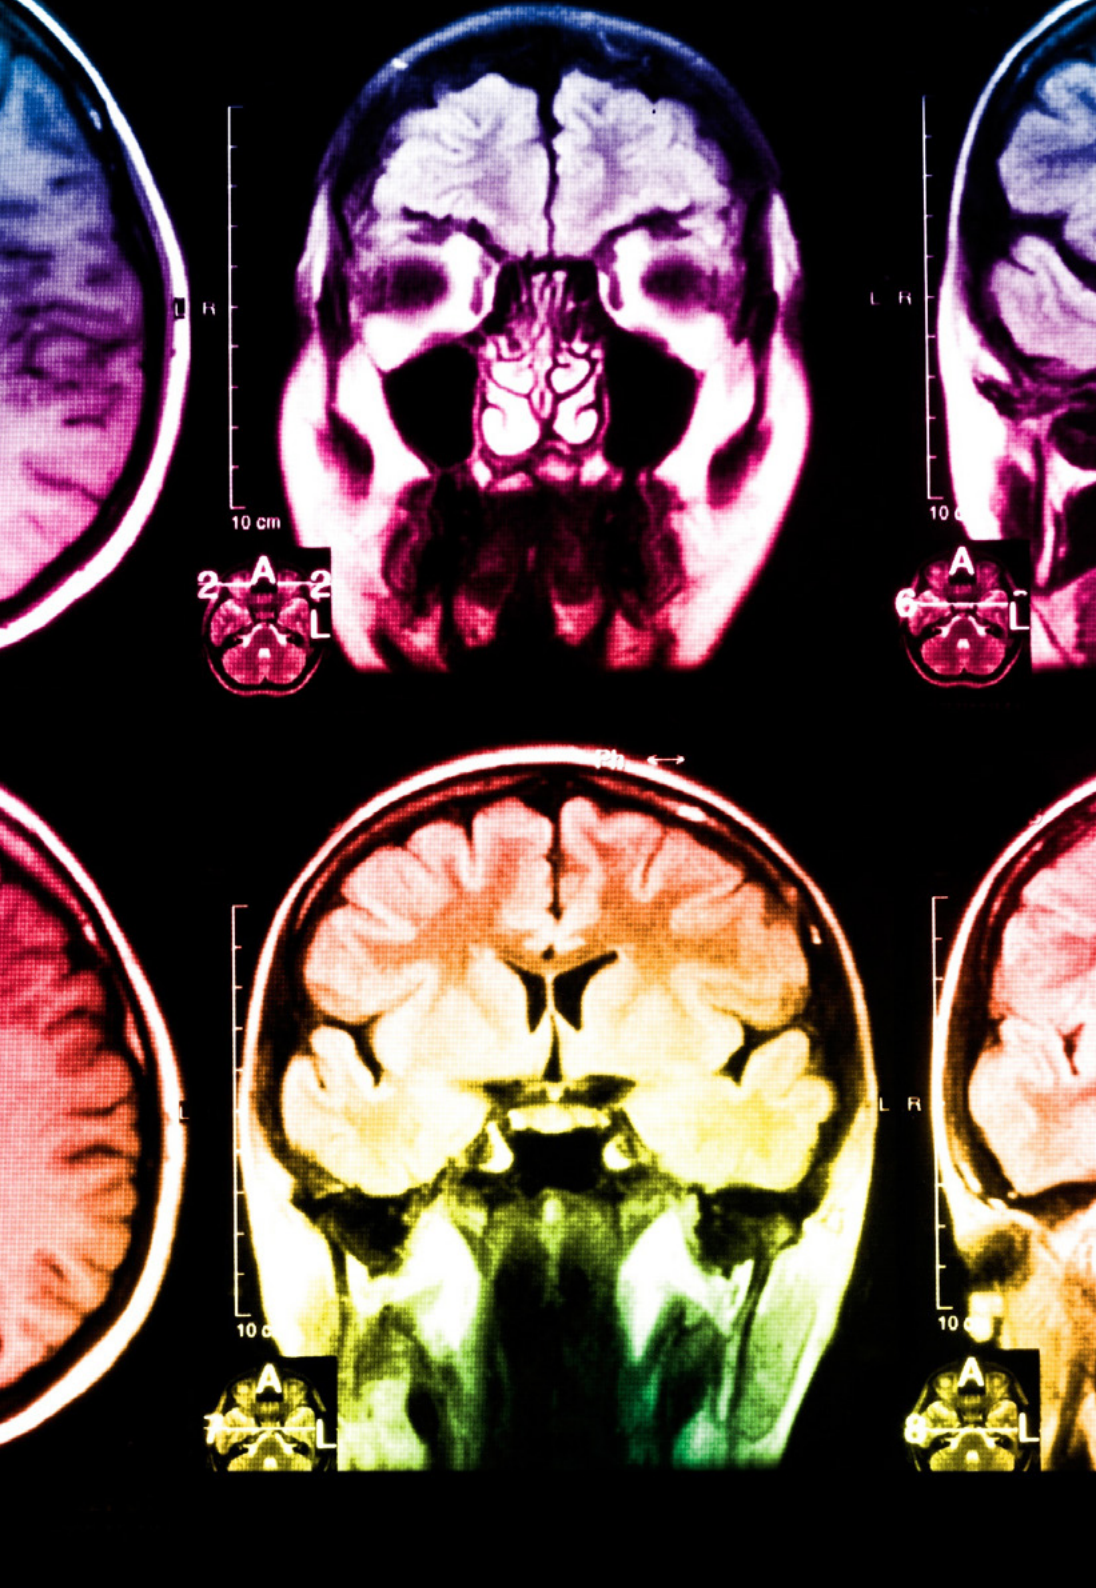

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

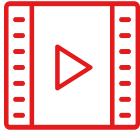

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

#### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then adapted in audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high-quality pieces in each and every one of the materials that are made available to the student.

#### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

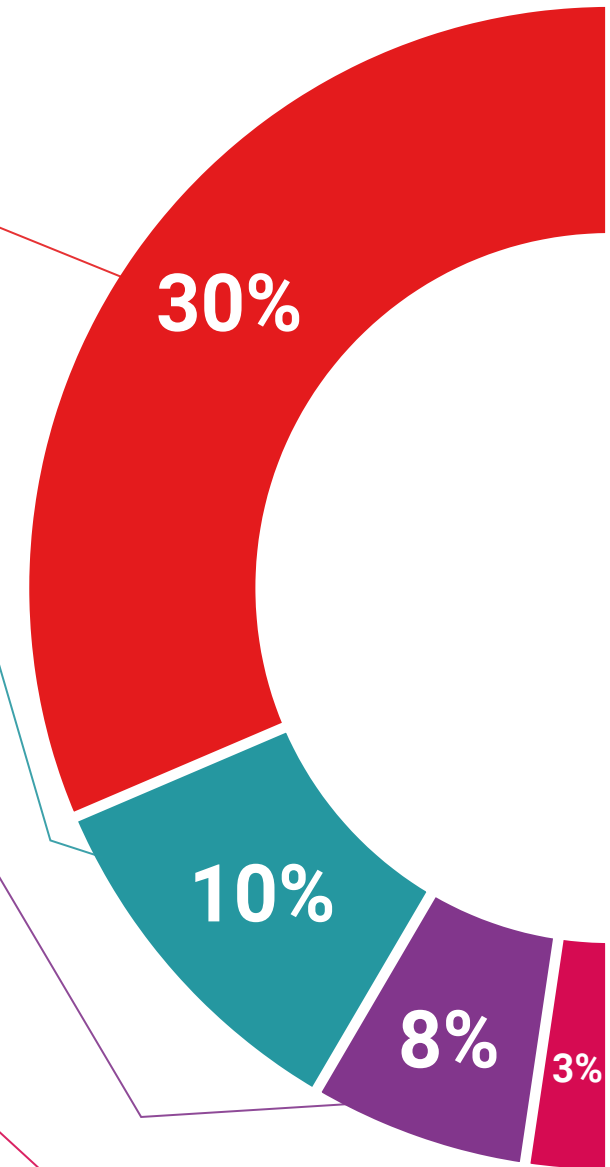

#### Management Skills Exercises

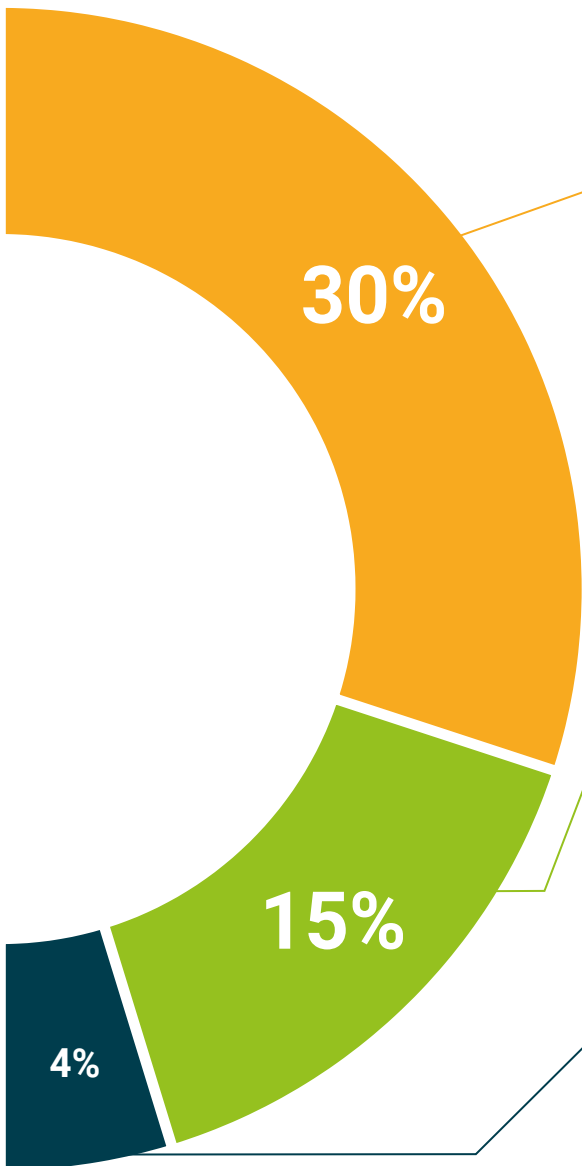

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

#### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

#### Case Studies

They will complete a selection of the best business cases used at Harvard Business School. Cases that are presented, analyzed, and supervised by the best senior management specialists in Latin America.

#### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

#### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

# Our Students' Profiles

Students who complete this program will be better able to implement strategies that promote improving the quality of medical procedures. These are people with previous experience in the field, but who are looking to improve their station through intensive programs like this one, where they will find the most detailed information of the moment, which they can study comfortably from their own homes and at their own pace.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

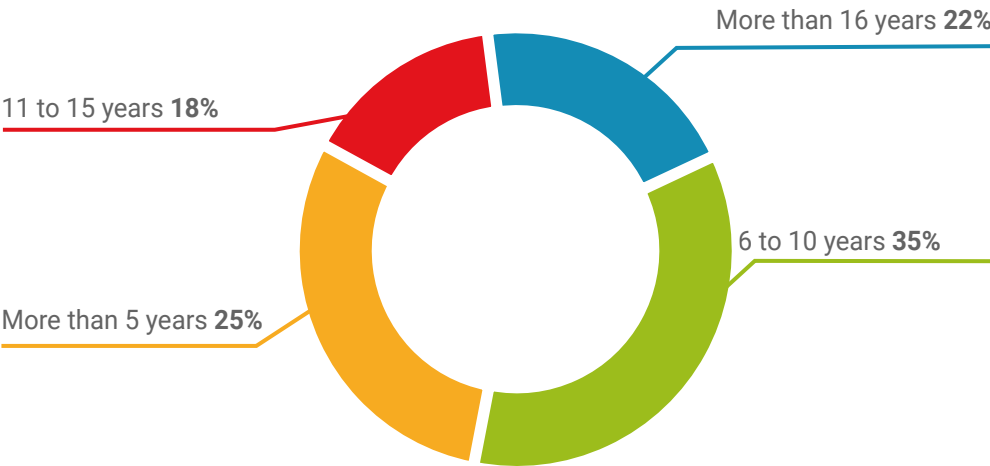

“

*Develop management skills that will help you access managerial or executive positions in the healthcare sector”*

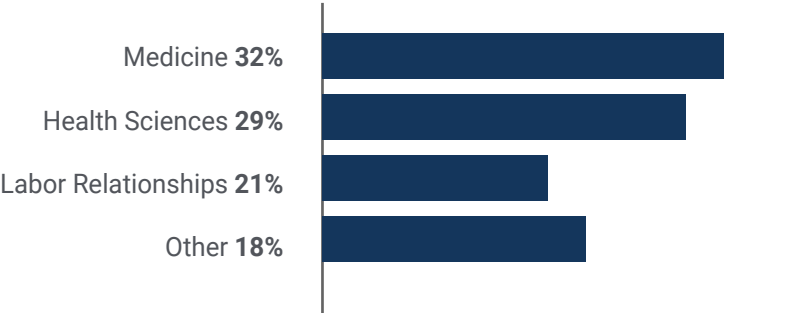

Average Age

Between **35** and **45** years old

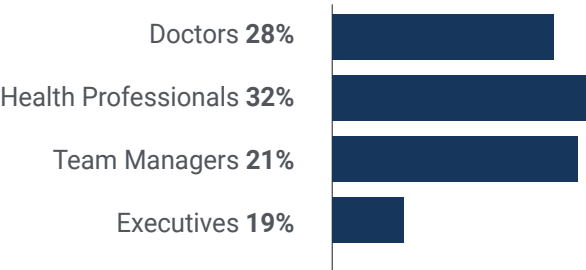

Years of Experience

Training

### Hospital Manager

*"Completing the program was a great opportunity for me, and it allowed me to develop the precise skills I needed to build my career. Without a doubt, it was the right choice to improve my employment situation. That's why I recommend this training to all those who, like me, are looking for a new opportunity in the field."*

08

# Course Management

This academic program includes the most specialized teaching staff in the current educational market. They are specialists selected by TECH to develop the whole syllabus. In this way, starting from their own existence and the latest evidence, they have designed the most up-to-date content that provides a guarantee of quality in such a relevant subject.

“

*TECH offers the most specialized teaching staff in the field of study. Enroll now and enjoy the quality you deserve”*

## International Guest Director

Pauline Maisani is a leading professional in the field of clinical management and medical direction. As a specialist in the improvement of quality and safety in health services, her career has focused on the implementation of strategic projects and health planning. In addition, her interests include the financial management of hospital institutions, as well as the planning and development of continuous improvement strategies in healthcare.

Throughout her career, she has held important positions in institutions in France and Canada. In fact, she has been Deputy General Director at the Pitié-Salpêtrière Hospital, where she has led key initiatives in health care improvement and resource management. She has also served as Director of Strategic Planning at the University of Montreal Hospital Centre, where she has overseen the implementation of major projects and the optimization of hospital services. She has also rendered great service to the Paris Public Assistance and University Hospitals, working as Head of the Health Care Quality and Safety Department at their headquarters, as well as Deputy Director of Finance and Medical Affairs.

Internationally, she has been recognized for her leadership skills and her ability to manage complex projects in the hospital sector. In this respect, her work in different countries and her collaboration with multidisciplinary teams have earned her a reputation as an expert in healthcare management. Pauline Maisani has contributed to several publications and studies on hospital management and strategic planning in health systems. Her innovative approach and commitment to excellence have earned her the respect of her colleagues and recognition within the healthcare sector.

## Ms. Maisani, Pauline

This program represents a salary increase of more than **25%** for our students.

10

# Benefits for Your Company

The Postgraduate Diploma in Medical Quality Management at TECH will not only bring significant benefits to the students who study it, but also to all the institutions where they work. Professionals will be able to apply strategies to improve procedures and achieve that higher level of quality demanded by patients and society in general. Thus, through a job well done, hospitals and healthcare centers will benefit from an improved reputation.

“

*Analyze your company and apply the strategies you will learn at TECH to improve the quality of all medical procedures”*

Developing and retaining talent in companies is the best long-term investment.

01

### **Intellectual Capital and Talent Growth**

The executive will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

---

02

### **Retaining high-potential executives to avoid talent drain**

This program strengthens the link between the company and the executive and opens new avenues for professional growth within the company.

03

### **Building agents of change**

The manager will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

---

04

### **Increased international expansion possibilities**

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

### **Project Development**

The manager can work on a current project or develop new projects in the field of R&D or Business Development within their company.

---

06

### **Increased competitiveness**

This Postgraduate Diploma will equip students with the skills to take on new challenges and drive the organization forward.

# 11 Certificate

The Postgraduate Diploma in Medical Quality Management guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Global University.

“

*Successfully complete this program  
and receive your university qualification  
without having to travel or fill out laborious  
paperwork”*

This program will allow you to obtain your **Postgraduate Diploma in Medical Quality Management** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
