01 Introduction

Online commerce has been a significant business revolution, which in recent decades has seen a progression in the purchase of products over the Internet: a scenario that forces professionals to be aware of the latest trends in order to draw up effective commercial strategies. Given this reality, TECH has created this program that provides the professional with a practical and real vision of the management of this area. This will be possible thanks to a 3-week internship in the development of digital and offline commercial alliances and planning at a prestigious company.

With this Internship Program, you will obtain a much more direct and real vision of the current transformation of a company's Sales and Commercial area"

Globalization has enabled spectacular commercial development in recent decades, driven by e-commerce and the mastery of logistical complexity in an interconnected world. Progress allows businesses to have a much more international and expansive approach.

Given this scenario, professionals who wish to keep up-to-date with current trends in the commercial and sales field need to do so through a real immersion in this area. For this reason, TECH has designed this program, which offers a 3-week stay in a leading company in the business world and which perfectly masters the strategies to be developed in a sector influenced by both technological and socio-economic changes.

This is an intensive internship where the professional will be able to see firsthand how the work is developed daily by specialists in the management of sales and sales teams: a task that also involves putting into practice excellent communication skills with suppliers and customers in different phases of product marketing. TECH offers a unique experience in the academic panorama, which seeks to boost the careers of professionals who wish to prosper in this area or start their own businesses.

02

Why Study an Internship Program?

Professionals who develop their daily activity in commercial areas or have the knowledge to start their own business, demand to be able to update themselves through a real experience, in a first level business environment. For this reason, TECH has designed this program, which responds to the real needs of all those who aspire to manage the Sales and Commercial area or their own entity. Therefore, a three-week internship has been designed in a leading company in charge of implementing strategic business plans and applying the latest technology available in this field. In this way, the professional will obtain a direct and real vision of the methods and procedures used by the best experts in this field.

For 3 weeks, you will be accompanied by the best specialists in commerce and sales of a leading company in strategic business planning"

1. Updating from the latest technology available

Undoubtedly, new technologies have transformed the current commercial panorama, being the present and future. Therefore, all companies have incorporated digital tools to establish marketing strategies, control, and sales tracking. For this reason, and with the aim of bringing the professional closer to this technology, TECH has created this Internship Program, where you will enter an innovative business environment, accessing the latest technology applied to the Commercial and Sales area.

2. Gaining In-Depth Knowledge from the Experience of Top Specialists

During this Internship Program, the professional will not be alone since they will be accompanied by an expert specialized in the commercial and sales area of the company where the internship takes place. This will allow you to see, in situ, the development of the most current techniques, methods, and strategies in this field in a first-class professional environment.

3. Entering first-class environments

The professional who wishes to do a practical immersion in Sales and Commercial Management can do so through the relevant companies that TECH makes available: entities selected after a meticulous and rigorous procedure, with which this academic institution guarantees the graduate access to a leading company in this area.

4. Putting the acquired knowledge into daily practice from the very first moment

In this Internship Program, TECH moves away from the purely theoretical concept to offer the professional an internship in a first-class business environment. Thanks to this philosophy, the graduate will be able, in just 3 weeks, to integrate the most innovative processes and methods in the Commercial and Sales area and thus prosper in their career.

5. Expanding the Boundaries of Knowledge

This Internship Program provides a renewed and current vision of the Commercial and Sales area. Thanks to this perspective, the professional who attends this program will be able to include in his daily performance the most effective and innovative commercial strategies or develop them in the business project he has in mind: a unique opportunity that only TECH, the largest digital university in the world, could offer.

*You will have full practical immersion
at the center of your choice"*

03 Objectives

06 General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.
