01 Welcome

The legal regime has the task of enforcing the regulations that guarantee the security of personal and organizational information. With the passage of time, the general regulatory framework has been greatly influenced by the General Data Protection Regulation, causing the institutional structures that initially settled their competences in the AEPD to be affected. A good executive lawyer must know how to differentiate and make the most of these changes to ensure transparent management at all times.

This program will comprehensively study the current sanctioning regime of the right to the protection of personal data, both the European Data Protection Regulation and the current Spanish Law and the already repealed LOPD to observe the differences and progress made in this matter.

Postgraduate Certificate in Civil Liability and Penalties Regime.
TECH Technological University

“

Get to know in depth the civil liability regime for data protection as an inevitable need for the professional in this sector”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success”

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

The program of this Postgraduate Certificate has been designed to develop a series of skills and competencies that will help you position yourself in the labor market as an agent of change. Upon completion, you will be able to address situations involving claims for damages before national courts.

“

Know the sanctions in the field of data protection and distinguish between the different laws that regulate them”

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The Postgraduate Certificate Civil Liability and Penalties Regime train you to:

01

Broaden knowledge of the legal regime of the civil liability system in data protection matters

02

Deepen in the special characteristics of the claim action and to be able to draft it

03

Detail the peculiarities of the information society service providers as responsible subjects in data protection matters

04

Distinguish the sanctioning terminology of both the RGPD and the LOPDGDD

05

Delve into the different infractions and the parties responsible for them in order to initiate a sanctioning procedure

06

Knowledge of the special rules for data processing in public administrations

05

Structure and Content

This Postgraduate Certificate has a complete and updated syllabus that will provide all the necessary knowledge to understand and assume the peculiarities of the service providers of the information society as responsible subjects in terms of data protection.

Learn about the regulations, principles and characteristics of the Right of Redress”

Syllabus

The Postgraduate Certificate in Civil Liability and Penalties Regime will become a unique opportunity to prepare students to face labor challenges from a classroom.

The content of the program is designed to enhance the managerial skills of legal professionals seeking to broaden their professional horizons.

In each class, you will have the opportunity to comprehensively study the current sanctioning regime of the right to the protection of personal data, both the European Data Protection Regulation and the current Spanish Law and the already repealed LOPD to observe the differences and advances produced in this matter.

On the other hand, it is important to highlight the importance of knowing the criminal offenses that may arise from non-compliance with data protection regulations.

The Postgraduate Certificate is designed for the professionals who seeks to achieve excellence in the field of management and business management. For this reason, it will understand the needs of the business through an innovative content, based on the latest trends and demands of this labor market.

This Postgraduate Certificate takes place over 6 weeks with 1 module of study:

- 1.10.2. Statute of limitations for infringements
- 1.10.3. Penalties

Learn about the complex regulatory framework of the sanctioning and civil liability regime”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization”

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Certificate is aimed at university graduates who have previously completed a qualification in law. In this way, they are students who understand the need to continue with academic training throughout their working life. All this, in order to continue advancing in the sector in which they work.

Likewise, professionals who, being university graduates in any area, have two years of work experience in the field of legal counseling, may also take the Postgraduate Certificate.

“

It deepens how a security incident response team is structured”

Average Age

Between **35** and **45** years

Years of Experience

Training

Educational Profile

Geographical Distribution

Matías Cisneros

Lawyer

"Knowing the sanctioning regime of the data protection law helps professionals involved in the law to enforce the law to its fullest extent. With this program we exercise the skills that lawyers must have to meet the demands of this work environment"

08

Course Management

In order to guarantee the excellence of the contents taught in the program, we have a team of highly qualified teachers with many years of experience in the sector of interest. For this reason, a qualified group has been carefully selected to ensure that those interested in this sector receive training in line with current market demands.

“

Don't miss the opportunity to acquire the best experience with the most outstanding professionals in this sector”

09

Impact on Your Career

Business professionals must adapt to the new times and, nowadays, data protection has arrived to lead the way. That is why the effort you put into this program becomes a professional and, of course, personal investment, of which we are aware.

The ultimate goal of carrying out this great effort should be to achieve professional growth in the students' field of interest.

“

*Apply in your work environment
the different laws that guarantee
the protection of personal data”*

Are you ready to take the leap? Excellent professional development awaits you

The Postgraduate Certificate in Civil Liability and Penalties Regime of TECH Technological University is an intensive and highly valuable program aimed at improving students' work skills in an area of broad competence. Undoubtedly, it is a unique opportunity to improve professionally, but also personally, as it involves effort and dedication.

Those who wish to improve themselves, achieve a positive change at a professional level and interact with the best, will find their place at TECH.

Take an academic journey that will enhance your professional profile in your work environment.

Take a radical turn in your career thanks to the specialization offered by this program.

Time of Change

Type of Change

Salary Increase

This program represents a salary increase of more than **25.22%** for our students

10

Benefits for Your Company

The implementation of this TECH program will be fundamental for the development of companies, since data protection is currently of great importance, due to the new regulations that have been introduced to promote the security of personal and confidential information.

Participating in this Postgraduate Certificate is a unique opportunity to access a powerful network of contacts in which to find future professional partners, customers or suppliers.

“

*This program will qualify you
as one of the best in the legal
industry from the very first class”*

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11
