Introduction to the Program

Corporate sustainability reporting has gained critical importance in the modern business environment. According to a report by the Global Sustainable Investment Alliance, sustainable investments reached \$35.3 trillion in the last year, representing 36% of total assets under management worldwide. Living in a world that is increasingly aware of the importance of the environment, TECH has developed this Postgraduate Certificate that will offer a comprehensive approach to all related aspects. Using a 100% online methodology and an innovative syllabus, specialists will address global regulatory frameworks, including the United Nations Sustainable Development Goals and the European Union's Green Taxonomy, among others.

“

This Postgraduate Certificate will turn you into an expert who will guide companies towards a more responsible future. Enroll now and access a 100% online methodology that will allow you to progress at your own pace”

Corporate Sustainability Reporting has become an essential tool for companies seeking to communicate their commitment to the environment, society and governance (ESG). As stakeholders demand greater transparency, organizations must learn to effectively communicate their sustainability efforts. Therefore, this field is essential for companies that want to remain competitive and aligned with international standards.

In this context, TECH's Postgraduate Certificate in Corporate Sustainability Reporting is the ideal option for addressing all aspects related to this field. Through a comprehensive and up-to-date approach, the program will address essential topics such as measuring the environmental or social impacts of companies, preparing sustainable reports and analyzing data to present clear and accurate information. In this way, professionals will develop key competencies in the creation of sustainability strategies that reinforce organizational culture.

Based on this, graduates will be prepared to lead sustainability processes within companies, which will give them access to new job opportunities in key sectors. In fact, they will acquire a highly competitive profile in the global market, having the ability to perform both in large corporations and in startups seeking to improve their sustainable practices.

In addition, the program will be delivered 100% online, allowing access to the content from anywhere and at any time. This will be complemented by the Relearning methodology, which ensures that key concepts are assimilated effectively through constant repetition. This flexibility, together with the quality of the content, ensures a unique experience, adapted to the needs of the students.

In addition, a number of prestigious International Guest Directors will deliver comprehensive Masterclasses.

This **Postgraduate Certificate in Corporate Sustainability Reporting** contains the most complete and up-to-date educational program on the market. Its most notable features are:

- ♦ Development of case studies presented by experts in sustainability
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Special emphasis on innovative methodologies in Corporate Sustainability
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Renowned international Guest Directors will offer intensive Masterclasses to delve into the latest trends in Corporate Sustainability Reporting"

“

Thanks to the Relearning methodology, you will retain the most important concepts in a practical and effective way. Enroll now at TECH and get ready to make a difference in the business world"

Its teaching staff includes professionals from the field of sustainability, who bring their work experience to this program, as well as renowned specialists from leading companies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive learning experience designed to prepare for real-life situations.

This program is designed around Problem-Based Learning, whereby the student must try to solve the different professional practice situations that arise throughout the program. For this purpose, the professional will be assisted by an innovative interactive video system created by renowned and experienced experts.

This program will offer you a comprehensive syllabus on ESG strategies, alignment with the SDGs and international regulations.

Enroll today and lead the change towards a more sustainable future!

You will learn from the best sustainability experts and receive specialized lessons that will boost your skills in sustainable reporting.

02

Why Study at TECH?

TECH is the world's largest online university. With an impressive catalog of more than 14,000 university programs, available in 11 languages, it is positioned as a leader in employability, with a 99% job placement rate. In addition, it has a huge faculty of more than 6,000 professors of the highest international prestige.

“

Study at the largest online university in the world and ensure your professional success. The future begins at TECH”

The world's best online university, according to FORBES

The prestigious Forbes magazine, specialized in business and finance, has highlighted TECH as "the best online university in the world" This is what they have recently stated in an article in their digital edition in which they echo the success story of this institution, "thanks to the academic offer it provides, the selection of its teaching staff, and an innovative learning method oriented to form the professionals of the future".

Forbes

The best online university in the world

The most complete
syllabus

The most complete syllabuses on the university scene

TECH offers the most complete syllabuses on the university scene, with programs that cover fundamental concepts and, at the same time, the main scientific advances in their specific scientific areas. In addition, these programs are continuously updated to guarantee students the academic vanguard and the most demanded professional skills. and the most in-demand professional competencies. In this way, the university's qualifications provide its graduates with a significant advantage to propel their careers to success.

The best top international faculty

TECH's faculty is made up of more than 6,000 professors of the highest international prestige. Professors, researchers and top executives of multinational companies, including Isaiah Covington, performance coach of the Boston Celtics; Magda Romanska, principal investigator at Harvard MetaLAB; Ignacio Wistumba, chairman of the department of translational molecular pathology at MD Anderson Cancer Center; and D.W. Pine, creative director of TIME magazine, among others.

TOP
international faculty

The most effective methodology

A unique learning method

TECH is the first university to use Relearning in all its programs. This is the best online learning methodology, accredited with international teaching quality certifications, provided by prestigious educational agencies. In addition, this innovative academic model is complemented by the "Case Method", thereby configuring a unique online teaching strategy. Innovative teaching resources are also implemented, including detailed videos, infographics and interactive summaries.

The world's largest online university

TECH is the world's largest online university. We are the largest educational institution, with the best and widest digital educational catalog, one hundred percent online and covering most areas of knowledge. We offer the largest selection of our own degrees and accredited online undergraduate and postgraduate degrees. In total, more than 14,000 university programs, in ten different languages, making us the largest educational institution in the world.

World's No.1

The World's largest online university

The official online university of the NBA

TECH is the official online university of the NBA. Thanks to our agreement with the biggest league in basketball, we offer our students exclusive university programs, as well as a wide variety of educational resources focused on the business of the league and other areas of the sports industry. Each program is made up of a uniquely designed syllabus and features exceptional guest hosts: professionals with a distinguished sports background who will offer their expertise on the most relevant topics.

Leaders in employability

TECH has become the leading university in employability. Ninety-nine percent of its students obtain jobs in the academic field they have studied within one year of completing any of the university's programs. A similar number achieve immediate career enhancement. All this thanks to a study methodology that bases its effectiveness on the acquisition of practical skills, which are absolutely necessary for professional development.

Google Premier Partner

The American technology giant has awarded TECH the Google Premier Partner badge. This award, which is only available to 3% of the world's companies, highlights the efficient, flexible and tailored experience that this university provides to students. The recognition not only accredits the maximum rigor, performance and investment in TECH's digital infrastructures, but also places this university as one of the world's leading technology companies.

The top-rated university by its students

Students have positioned TECH as the world's top-rated university on the main review websites, with a highest rating of 4.9 out of 5, obtained from more than 1,000 reviews. These results consolidate TECH as the benchmark university institution at an international level, reflecting the excellence and positive impact of its educational model.

03 Syllabus

The syllabus for this qualification covers a wide range of key topics, such as alignment with the United Nations Sustainable Development Goals (SDGs), the implementation of global regulations such as the European Union's Green Taxonomy, and advanced techniques for measuring and communicating the environmental and social impacts of companies. In this way, professionals will know how to prepare reports under the most recognized frameworks. In addition, they will master the integration of sustainability in financial reports and the creation of strategies that favor decision making.

“

A very complete syllabus that will prepare you to lead sustainability processes in any organization, making you a reference in an increasingly demanded field”

Module 1. Corporate Sustainability Reporting

- 1.1. Corporate Sustainability Reporting
 - 1.1.1. Fundamentals of Sustainability Reporting
 - 1.1.2. Importance of Sustainability Reporting in the Business Context
 - 1.1.2.1. Triple Bottom Line of Sustainability Reporting: Financial, Social, Environmental
 - 1.1.3. Difference between Sustainability Reporting and Traditional Financial Reporting
- 1.2. Corporate Sustainability Reporting Directive
 - 1.2.1. Origin and Evolution of Corporate Sustainability Reporting
 - 1.2.2. Role of The Global Reporting Initiative (GRI). UN Global Compact
 - 1.2.3. Regulatory Changes and Stakeholder Pressure: Transparency
- 1.3. Implementability, Benefits and Scope of Corporate Sustainability Reporting
 - 1.3.1. Direct and Indirect Benefits of Implementing Corporate Reporting
 - 1.3.2. Implementability of Corporate Reporting in an Organization
 - 1.3.3. Scope of Sustainability Reports: Materiality, Comprehensiveness and Time Horizon
- 1.4. Sustainability Standards and Frameworks
 - 1.4.1. Sustainability Standard. Examples
 - 1.4.2. Sustainability Framework. Examples
 - 1.4.3. Differences and Similarities in Sustainability Standards
- 1.5. Main International Standards
 - 1.5.1. Global Reporting Initiative (GRI): History, Development and Current Use
 - 1.5.2. Sustainability Accounting Standards Board (SASB): Approach on Financial Materiality
 - 1.5.5. GHG Protocol
- 1.6. Main Sustainability Frameworks
 - 1.6.1. TFCF Task Force in Financial Carbon Disclosure
 - 1.6.2. IIRC (International Integrated Reporting Council)
 - 1.6.3. ISO 26000
- 1.7. Implementation Strategies and Challenges
 - 1.7.1. Integration of Sustainability Reporting in Organizations: Key Processes and Areas
 - 1.7.2. Challenges: Lack of Data, Lack of Consensus on Metrics, Associated Costs
 - 1.7.3. Supporting Technologies: Digital Tools and Reporting Software

- 1.8. Sustainability Reporting in Key Sectors
 - 1.8.1. Sectors with High Environmental Impact: Energy, Manufacturing, Transportation
 - 1.8.2. Technology and Service Industries. Sustainability Reporting
 - 1.8.3. Case Studies: Leading Companies in Sustainability Reporting
- 1.9. Role of Investors and Financial Markets
 - 1.9.1. ESG (Environmental, Social, Governance) Investment. Sustainability Reporting
 - 1.9.2. Influence of Sustainability on Investment Decisions
 - 1.9.3. Sustainability Indices
 - 1.9.3.1. Dow Jones Sustainability Index (DJSI)
 - 1.9.3.2. FTSE4Good
 - 1.9.4. Financial Impact of Sustainability Reporting: Relationship with Company Value
- 1.10. Trends in Sustainability Reporting
 - 1.10.1. Development of New Unified Global Standards. Role of the ISSB (*International Sustainability Standards Board*)
 - 1.10.2. Convergence Between Financial and Non-Financial Reporting
 - 1.10.3. Impact of the 2030 Agenda and the SDGs (Sustainable Development Goals)
 - 1.10.4. Future of Integrated Reporting: *Towards More Holistic and Mandatory Reporting*

Module 2. Strategic Implementation of Sustainability Reporting

- 2.1. Principles of Corporate Sustainability Reporting
 - 2.1.1. Objectives of Sustainability Reporting
 - 2.1.2. Principles of Transparency and Responsibility
 - 2.1.3. Sustainability Risk
- 2.2. Materiality in ESG Reporting
 - 2.2.1. Materiality According to GRI: Approach and Criteria
 - 2.2.2. Materiality According to SASB: Sector-Specific Focus
 - 2.2.3. Double Materiality Application
- 2.3. Sector-Specific Materiality in ESG Reporting
 - 2.3.1. Importance of Sector-Specific ESG Factors
 - 2.3.2. Examples of Sector-Specific Materiality in Different Sectors
 - 2.3.3. Sector-Specific Approaches according to SASB and GRI
- 2.4. Context of the Organization in the Sustainability Report
 - 2.4.1. Identification and Analysis of the Organizational Environment
 - 2.4.2. Internal and External Factors Affecting Reporting
 - 2.4.3. Adjustments to Reporting Based on Context
- 2.5. Temporal Scope of ESG Reporting
 - 2.5.1. Reporting Periods: Annual, Quarterly. Relevance
 - 2.5.2. Comparability and Evolution Over Time in Corporate Reporting
 - 2.5.3. Temporal Scope of Information in ESG Reporting
 - 2.5.4. Benefits of Strategic Planning. Short, Medium and Long Term
- 2.6. Stakeholders in Corporate Reporting *Stakeholders*
 - 2.6.1. Identification and Classification of Stakeholders
 - 2.6.2. Stakeholders' Expectations and Needs
 - 2.6.3. Tools for Managing Stakeholder Relations
- 2.7. Principles Regarding the Quality of the Report
 - 2.7.1. Principles of Content and Principles of Quality
 - 2.7.2. Accuracy and Balance
 - 2.7.3. Clarity, Comparability
 - 2.7.4. Reliability, Timeliness
- 2.8. Structure of the ESG Report
 - 2.8.1. Components of an ESG Report
 - 2.8.2. Standardization vs. Customization in Reports
 - 2.8.3. Integration of Qualitative and Quantitative Information
- 2.9. Measurement and Calculation Methodologies in Corporate Sustainability
 - 2.9.1. Key Performance Indicators (KPIs) in Sustainability
 - 2.9.2. Comparison between Qualitative and Quantitative Metrics
 - 2.9.3. Methods of Data Collection and Processing
- 2.10. Ethical and Sustainable Perspective
 - 2.10.1. Ethical Principles in Sustainability Reporting
 - 2.10.2. Reporting as a Driver for Change
 - 2.10.3. ESG as a Competitive Advantage
 - 2.10.3.1. ESG Criteria as Differentiating Elements in a Company in the Market Impact on Society

04 Teaching Objectives

The main objective of this Postgraduate Certificate is to provide professionals with the necessary skills to develop high-quality corporate sustainability reports, aligned with international standards and market demands. To achieve this, the program will offer comprehensive and practical learning in all the fundamental aspects of corporate reporting. Graduates will therefore be able to understand how these regulations influence business strategies and how they can be effectively integrated into corporate reports.

“

You will not only acquire theoretical knowledge, but also practical skills that will position you as an expert in the field of Corporate Sustainability Reporting”

General Objectives

- ♦ Develop the conceptual foundations of Corporate Sustainability Reporting
- ♦ Define key roles and actors in the generation of sustainability reports
- ♦ Understand ESG Reporting, background, evolution and current status
- ♦ Manage the concepts of governance and organization of the general reporting system
- ♦ Establish the importance of international regulatory frameworks in the context of ESG reporting
- ♦ Manage the main regulatory frameworks (GRI, SASB, TCFD) and their characteristics
- ♦ Master the fundamental conceptual axes of corporate reporting
- ♦ Present, explain and define the Sustainable Development Goals
- ♦ Analyze the context in which new approaches to corporate sustainability emerge
- ♦ Understand the benefits and advantages of incorporating these methodologies into a sustainability report
- ♦ Lay a solid conceptual foundation regarding carbon and climate change reporting and existing tools
- ♦ Explain the main existing tools related to climate change reporting
- ♦ Determine the main characteristics of the most relevant corporate reporting standards and frameworks
- ♦ Determine a conceptual structure regarding types of companies and types of corporate reports
- ♦ Present in depth the key components of the GRI Standards, including how to correctly apply the principles and standards
- ♦ Identify and prioritize material issues that reflect the significant economic, environmental and social impacts of an organization
- ♦ Define the SASB conceptual framework and its importance in the field of corporate sustainability reporting
- ♦ Evaluate this corporate reporting methodology and its effectiveness for different industries
- ♦ Identify the regulatory framework of the different corporate sustainability reporting standards
- ♦ Question the implications of the main supranational corporate reporting standards

Specific Objectives

- ♦ Provide a complete understanding of the principles and objectives of sustainability reporting in companies
- ♦ Learn how to use the tools and methodologies for the preparation of sustainability reports aligned with the expectations of stakeholders
- ♦ Design and implement a sustainability reporting strategy within the organizational structure of a company
- ♦ Integrate sustainability reports into business management processes and make strategic decisions based on the results obtained

You will enjoy a world-class educational experience that is tailored to your needs and the demands of a constantly evolving professional environment. Enroll now!"

05 Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“*TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want*”

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the teaching quality, the quality of the materials, the structure of the program and its objectives is excellent. Not surprisingly, the institution became the top-rated university by its students according to the global score index, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

06

Teaching Staff

This academic itinerary has a top-level teaching staff, made up of highly qualified experts in the field of corporate sustainability. Thanks to their experience in leading companies, regulatory bodies and academic institutions, these professionals provide a comprehensive and up-to-date view of market demands and best practices in sustainability reporting. Similarly, the mentors not only have a solid theoretical knowledge, but have also participated in the implementation of sustainability strategies in international companies.

“

Thanks to this excellent teaching staff, you will develop key skills to excel in a field in constant evolution and growing demand. What are you waiting for to enroll?"

International Guest Director

With over 20 years of experience in designing and leading global **talent acquisition teams**, Jennifer Dove is an expert in **technology recruitment** and **strategy**. Throughout her career, she has held senior positions in several technology organizations within **Fortune 50 companies** such as **NBCUniversal** and **Comcast**. Her track record has allowed her to excel in competitive, high-growth environments.

As **Vice President of Talent Acquisition** at **Mastercard** she is responsible for overseeing talent onboarding strategy and execution, collaborating with business leaders and **HR Managers** to meet operational and strategic hiring objectives. In particular, she aims to **build diverse, inclusive and high-performing teams** that drive innovation and growth of the company's products and services. In addition, she is adept at using tools to attract and retain the best people from around the world. She is also responsible for **amplifying** Mastercard's **employer brand** and **value proposition** through publications, events and social media.

Jennifer Dove has demonstrated her commitment to continuous professional development by actively participating in networks of **Human Resources** professionals and contributing to the onboarding of numerous employees at different companies. After earning her bachelor's degree in **Organizational Communication** from the University of Miami, she has held management positions in recruitment for companies in various areas.

On the other hand, it has been recognized for its ability to lead organizational transformations, **integrate technologies** into **recruitment processes** and develop leadership programs that prepare institutions for future challenges. She has also successfully implemented **wellness programs** that have significantly increased employee satisfaction and retention.

Ms. Dove, Jennifer

- Vice President of Talent Acquisition at Mastercard, New York, United States
- Director of Talent Acquisition at NBCUniversal Media, New York, USA
- Head of Recruitment at Comcast
- Director of Recruiting at Rite Hire Advisory, New York, USA
- Executive Vice President of the Sales Division at Ardor NY Real Estate
- Director of Recruitment at Valerie August & Associates
- Account Executive at BNC
- Account Executive at Vault
- Degree in Organizational Communication from the University of Miami

“

Thanks to TECH, you will be able to learn with the best professionals in the world"

International Guest Director

A technology leader with decades of experience in major technology multinationals, Rick Gauthier has developed prominently in the field of cloud services and end-to-end process improvement. He has been recognized as a leader and manager of highly efficient teams, showing a natural talent for ensuring a high level of engagement among his employees.

He possesses innate gifts in strategy and executive innovation, developing new ideas and backing his success with quality data. His background at Amazon has allowed him to manage and integrate the company's IT services in the United States. At Microsoft he led a team of 104 people, responsible for providing corporate-wide IT infrastructure and supporting product engineering departments across the company.

This experience has allowed him to stand out as a high-impact manager with remarkable abilities to increase efficiency, productivity and overall customer satisfaction.

Mr. Gauthier, Rick

- Regional IT Director at Amazon, Seattle, United States
- Senior Program Manager at Amazon
- Vice President of Wimmer Solutions
- Senior Director of Productive Engineering Services at Microsoft
- Degree in Cybersecurity from Western Governors University
- Technical Certificate in Commercial Diving from Divers Institute of Technology
- Degree in Environmental Studies from The Evergreen State College

“

Take the opportunity to learn about the latest advances in this field to apply it to your daily practice”

International Guest Director

Romi Arman is a renowned international expert with more than two decades of experience in **Digital Transformation, Marketing, Strategy and Consulting**. Through that extended trajectory, he has taken different risks and is a permanent **advocate** for **innovation** and **change** in the business environment. With that expertise, he has collaborated with CEOs and corporate organizations from all over the world, pushing them to move away from traditional business models. In this way, he has helped companies such as Shell Energy become **true market leaders**, focused on their **customers** and the **digital world**.

The strategies designed by Arman have a latent impact, as they have enabled several corporations **to improve the experiences of consumers, staff and shareholders** alike. The success of this expert is quantifiable through tangible metrics such as **CSAT**, **employee engagement** in the institutions where he has practiced and the growth of the **EBITDA financial indicator** in each of them.

Also, in his professional career, he has nurtured and **led high-performance teams** that have even received awards for their **transformational potential**. With Shell, specifically, the executive has always set out to overcome three challenges: meeting **customers'** complex **decarbonization** demands **supporting a “cost-effective decarbonization”** and **overhauling** a fragmented **data, digital and technology** landscape. Therefore, his efforts have shown that in order to achieve sustainable success, it is essential to start from the needs of consumers and lay the foundations for the transformation of processes, data, technology and culture.

In addition, the executive stands out for his mastery of the **business applications of Artificial Intelligence**, a subject in which he holds a postgraduate degree from the London Business School. At the same time, he has accumulated experience in **IoT** and **Salesforce**.

Mr. Arman, Romi

- Digital Transformation Director (CDO) at Shell Energy Corporation, London, UK
- Global Director of E-Commerce and Customer Service at Shell Energy Corporation
- National Key Account Manager (OEM and automotive retailers) for Shell in Kuala Lumpur, Malaysia
- Senior Management Consultant (Financial Services Sector) for Accenture based in Singapore
- Bachelor's Degree from the University of Leeds
- Postgraduate Degree in Business Applications of AI for Senior Executives from the London Business School
- CCXP Customer Experience Professional Certification
- Executive Digital Transformation Course by IMD

Do you want to update your knowledge with the highest educational quality? TECH offers you the most updated content in the academic market, designed by authentic experts of international prestige"

International Guest Director

Manuel Arens is an experienced data management professional and leader of a highly qualified team. In fact, Arens holds the position of **global purchasing manager** in Google's Technical Infrastructure and Data Center division, where he has spent most of his professional career. Based in Mountain View, California, he has provided solutions for the tech giant's operational challenges, such as master **data integrity**, **vendor data updates** and **vendor prioritization**. He has led data center supply chain planning and vendor risk assessment, generating improvements in vendor risk assessment, resulting in process improvements and workflow management that have resulted in significant cost savings.

With more than a decade of work providing digital solutions and leadership for companies in diverse industries, he has extensive experience in all aspects of strategic solution delivery, including **Marketing**, **media analytics**, **measurement** and **attribution**. In fact, he has received a number of accolades for his work, including the **BIM Leadership Award**, the **Search Leadership Award**, the **Lead Generation Export Program Award** and the **Export Lead Generation Program Award** and the **EMEA Best Sales Model Award**.

Arens also served as **Sales Manager** in Dublin, Ireland. In this role, he built a team of 4 to 14 members over three years and led the sales team to achieve results and collaborate well with each other and cross-functional teams. He also served as **Senior Industry Analyst**, in Hamburg, Germany, creating storylines for over 150 clients using internal and third party tools to support analysis. He developed and wrote in-depth reports to demonstrate his mastery of the subject matter, including understanding the macroeconomic and political/regulatory factors affecting technology adoption and diffusion.

He has also led teams at companies such as Eaton, Airbus and Siemens, where he gained valuable account management and supply chain experience. He is particularly noted for continually exceeding expectations by **building valuable customer relationships** and **working seamlessly with people at all levels of an organization**, including stakeholders, management, team members and customers. His data-driven approach and ability to develop innovative and scalable solutions to industry challenges have made him a prominent leader in his field.

Mr. Arens, Manuel

- Global Procurement Manager at Google, Mountain View, USA
- Senior Manager, B2B Analytics and Technology, Google, USA
- Sales Director at Google, Ireland
- Senior Industry Analyst at Google, Germany
- Accounts Manager at Google, Ireland
- Accounts Payable at Eaton, UK
- Supply Chain Manager at Airbus, Germany
