# 01 Welcome

To protect cultural documentation is to preserve the history and valuable facts of a society, which may not perceive its transcendence at the moment, but which in the future will gain importance both for society and in the field of research. In this scenario, it is essential that the professionals in charge of leading such projects implement a methodology and an appropriate system through the latest tools used for information management. In this line, TECH provides specialists and managers with intensive learning in this area, so that they can effectively develop their functions and lead actions aimed at preserving culture, disseminating it and bringing it closer to the general public. All this will be possible thanks to this 100% online academic option with the most exhaustive content elaborated by a teaching team specialized in cultural documentation cataloging.

Postgraduate Certificate in Cultural Documentation.  
TECH Technological University

“

*This 100% online Postgraduate Certificate  
will lead you to create pioneering cultural  
documentation projects in this sector"*

02

# Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

*TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"*

## At TECH Technological University

### Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

*"Microsoft Europe Success Story"*, for integrating the innovative, interactive multi-video system.

### The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

**95%** | of TECH students successfully complete their studies

### Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

**+100.000.**  
managers trained every year

**+200**  
different nationalities

### Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

**+500** | collaborative agreements with leading companies

### Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

### Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

### Learn with the best

---

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

*At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"*

### Analysis

---

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

### Academic Excellence

---

TECH offers students the best online learning methodology. The university combines the Relearning methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

### Economy of Scale

---

TECH is the world's largest online university. It has a portfolio of more than 10,000 university programs. And in today's new economy, **volume + technology = a ground-breaking price.** This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

# Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

*We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”*

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

### A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

*70% of students achieve positive career development in less than 2 years.*

02

### Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

*Our global vision of companies will improve your strategic vision.*

03

### Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

*You will work on more than 100 real senior management cases.*

04

### You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

*45% of graduates are promoted internally.*

05

### Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

*You will find a network of contacts that will be instrumental for professional development.*

06

### Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

*20% of our students develop their own business idea.*

07

### Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

*Improve your communication and leadership skills and enhance your career.*

08

### You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

*We give you the opportunity to study with a team of world-renowned teachers.*

# 04 Objectives

TECH has designed this university program with the main objective of offering managers, directors and professionals in the cultural sector, the most advanced and comprehensive learning on Cultural Documentation. To this end, this academic institution provides innovative pedagogical tools that can be accessed 24 hours a day, from any electronic device with an Internet connection.

In this way, the specialists will have access to the most current information, which will allow them to establish the most efficient documentary systems in public and/or private entities, while allowing them to advance professionally in this sector, where highly qualified profiles are in demand.

Consolidate your leadership.

“

*Apply in your cultural entity the latest tools  
used to implement information management"*

**TECH makes the goals of their students their own goals too**  
**Working together to achieve them**

The **Postgraduate Certificate in Cultural Documentation**: Cataloging and Research will enable the student to:

01

Identify the processes of information management

02

Learn about the different platforms for the dissemination of existing collections and projects

03

Learn about mediation and participatory experiences

04

Value the role of museums and galleries in education

05

Delve into Sociomuseology

06

Deepen the documentation related to museum objects

05

# Structure and Content

The professional who enters into this academic teaching will have at their disposal multimedia capsules (video summaries, videos in focus), complementary readings or simulated scenarios, which will lead them to acquire a theoretical-practical learning and of direct application in their daily professional performance in the work of Cultural Documentation. Likewise, thanks to the Relearning system, based on the reiteration of content, students will reduce the hours of study and memorization so frequent in other teaching methods.

“

*If you have an electronic device with an Internet connection you will be able to access 24 hours a day to the study plan of this Postgraduate Certificate"*

## Syllabus

The syllabus of this Postgraduate Certificate has been designed by a teaching team versed in Cultural Documentation that has poured all its knowledge, as well as the latest developments in this field, to offer the professional the most advanced and recent information in this field.

In this way, students who enter this program will obtain throughout the 150 teaching hours that make up this program, intensive learning, which will lead them to know the most effective systems and methodologies for cataloging, information management and approach to heritage and museums through participatory and educational experiences.

A whole academic journey that will take place over 6 weeks, where the specialist, through multimedia resources, the students will delve in a much more dynamic and progressive way into the standards of documentary quality and the application of information and communication technologies.

An innovative program designed and conceived for specialists to progress in their field of work and/or implement successful initiatives for the preservation of cultural documentation.

This Postgraduate Certificate is developed over a period of 6 weeks and consists of 1 module:

### Module 1

#### Cultural Documentation: Cataloging and Research

### Where, When and How is it Taught?

TECH offers you the opportunity to study this Postgraduate Certificate in Museums, Galleries and Exhibition Management completely online. During the 6 weeks of the specialization, the student will be able to access all the contents of this program at any time, which will allow them to self-manage their study time.

*A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.*

### 1.4. Documentary System II

- 1.4.1. Documentation
  - 1.4.1.1. Graph
  - 1.4.1.2. Technique
  - 1.4.1.3. Restoration
- 1.4.2. Documentary Movements and Funds
- 1.4.3. Administrative Documentation and Filing

### 1.5. Documentary Standardization

- 1.5.1. Terminological Control Tools
  - 1.5.1.1. Hierarchical Lists
  - 1.5.1.2. Dictionaries
  - 1.5.1.3. Thesauri
- 1.5.2. Quality Standards
- 1.5.3. ICT Applications

### 1.6. Museum Investigation

- 1.6.1. Theoretical Framework
- 1.6.2. Documentation vs. Investigation
- 1.6.3. Information Management Processes

### 1.7. Dissemination Platforms of Collections and Projects

- 1.7.1. Transmission of Knowledge
- 1.7.2. Social media
- 1.7.3. Media

### 1.8. Education in the Context of Heritage and Museums

- 1.8.1. Didactics of Museums
- 1.8.2. Role of the Museums and Galleries in Education
- 1.8.3. Theoretical Framework of Learning
  - 1.8.3.1. Formal
  - 1.8.3.2. No formal
  - 1.8.3.3. Informal

### 1.9. Mediation and Participatory Experiences

- 1.9.1. Education for Equality and Integrity
- 1.9.2. Proposals of Awareness and Respect for the Environment
- 1.9.3. Sociomuseology

### 1.10. Divisions of Education and Cultural Action

- 1.10.1. History
- 1.10.2. Structure
- 1.10.3. Functions

“

*This program gives you the learning you will need to set up participatory experiences in the cultural field"*

# 06 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

*This program prepares you to face business challenges in uncertain environments and achieve business success.*

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

**“** *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

#### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

#### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

#### Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

#### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

# Our Students' Profiles

This Postgraduate Certificate in Cultural Documentation is aimed at university graduates, postgraduates and degree holders who have previously completed any of the following programs in the fields of Social and Legal Sciences, Humanities and Economics.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.
