01

Welcome

Today, it is essential that teachers in schools master certain skills to ensure quality education. With proper qualifications, teachers can even attain prestigious management positions. This TECH program raises the educational quality of its students to turn them into true experts in academic counseling. As a result, they will be able to achieve their professional goals by being the most avant-garde and successful leaders in the educational field. All of this will eventually result in an undeniable salary and promotional improvement.

Postgraduate Certificate in Education Quality Advisor
TECH Technological University

“

Aspire to a management position that will allow you to make positive changes in the educational quality of a school"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04

Objectives

This Postgraduate Certificate is designed to consolidate the knowledge of students who wish to specialize as consultants in educational quality, but aspire to go a step further in their careers and manage a research department or an educational center. At the end of the program, the teacher will be able to analyze the school context and propose strategies to help improve it.

“

Generate high-quality educational strategies to be a teacher of higher reputation and prestige"

The professionals' goals are TECH's goals

TECH works together with its students to help them achieve their goals

The Postgraduate Certificate in Education Quality Advisor will enable students to:

01

Know the organization of the educational system

03

Manage the administrative aspects of the educational system

02

Discover the place that the teaching profession occupies within your organization

04

Know the different educational Laws

05

Learn the mandatory documents of an educational center:
PEC, PGA and RRI

07

Understand the importance of participation in school
improvement processes

06

Acquire the necessary tools for student organization

08

Discuss the responsibility of schools in the evaluation and
improvement processes

05

Structure and Content

This Postgraduate Certificate is designed for students who wish to advance in their professional path, raising the educational quality of a school. The program has a duration of 6 weeks and can be done online, giving the student the possibility of adapting the theoretical content to their own needs.

“

It's important that you don't stop pursuing your goals. Use the best educational content at your fingertips to be the best educational consultant you can be"

Syllabus

The Postgraduate Certificate in Education Quality Advisor will open the doors to teachers who wish to improve the educational quality of the young people in their charge, either as a tutor or as a director.

The content of the Postgraduate Certificate has been designed to promote the managerial skills of students who seek to broaden their professional horizons and for this they need to know how the current educational context works.

During each lesson, they will have the opportunity to master the legislative aspects and the legal regime of educational organizations, as well as to understand the school organization, the levels of curricular concretion and freedoms of the educational field, among others.

This will give way to the second part of the Postgraduate Certificate, where teachers will focus on teaching how the quality policies of educational organizations work, their discourses and practices, as well as the assessment systems of today's education.

The program is designed for the professional who seeks to achieve academic excellence in young people. For this reason, they will understand the current needs of this environment and will be able to propose new strategies based on theoretical knowledge.

This program is developed over 6 weeks with 2 study modules:

Module 1

Legislation and Legal Regime of Education Organizations

Module 2

Quality Policies in Education Organizations

Where, when and how is it taught?

TECH offers the possibility of developing this Postgraduate Certificate in Education Quality Advisor completely online. Over the course of 6 weeks, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Legislation and Legal Regime of Education Organizations

1.1. School Organization

- 1.1.1. Complexity of School Organization
- 1.1.2. School Organization and Its Elements
- 1.1.3. School Organization and Education Legislation

1.2. Policy and Education Administration in Spain

- 1.2.1. Educational Policy in Spain
- 1.2.2. The Education Administration in Spain: Its Levels and Distribution of Competences

- 1.5.1. General Concepts of the European Union and Education
- 1.5.2. European Higher Education and Its Elements
- 1.5.3. Other Education Systems of the European Union

1.6. The Configuration of the Spanish Education System

- 1.6.1. The Organization Chart of the Current Education System: the LOE, the LOMCE and the LOMLOE
- 1.6.2. The Essential Elements of the Education System in Spain
- 1.6.3. The Basic Characteristics of Early Childhood Education and Primary Education

1.7. Rights and Freedoms of the Education Field

- 1.7.1. The Rights and Freedoms of the Sphere in the Spanish Constitution
- 1.7.2. The Right to Education
- 1.7.3. Freedom of Education

1.8. Structure and Organization of Education Centers: The PEC, the PGA and the RRI

- 1.8.1. School Structures
- 1.8.2. School Organization
- 1.8.3. Pedagogical-Normative Documents: The PEC, the PGA and the RRI

1.9. Fundamental Aspects of Schools

- 1.9.1. The School Calendar and Timetable
- 1.9.2. The School Building and Classrooms

1.10. Other Essential Ideas about Organization in Schools

- 1.10.1. Student Organization
- 1.10.2. School Promotion
- 1.10.3. Attention to Diversity
- 1.10.4. Tutoring
- 1.10.5. School Assessments
- 1.10.6. Educational Environment

Module 2. Quality Policies in Education Organizations**2.1. The Quality of Education: Discourses, Policies and Practices**

- 2.1.1. Introduction: Quality and Education
- 2.1.2. Education Quality and Neoliberalism
- 2.1.3. Education Policy Discourses
- 2.1.4. Right to Quality Education

2.2. Debates on the Quality of Education

- 2.2.1. Introduction
- 2.2.2. Quality and Public Schools
- 2.2.3. Dispute on Education Quality
- 2.2.4. Conclusions

2.3. Contemporary Political Discourses on the Quality of Education at the International Level

- 2.3.1. Introduction
- 2.3.2. Discursive Changes in Education
- 2.3.3. Quality and Economic Development
- 2.3.4. Concept of Human Development
- 2.3.5. International Discourses on Education Quality

2.4. Policies, Plans and Programs for the Improvement of the Quality of Education

- 2.4.1. Concept and Background of the School Quality Improvement Movement
- 2.4.2. Historical Evolution of School Quality
- 2.4.3. Contributions of School Quality Improvement Policies
- 2.4.4. Stages of the School Quality Improvement process

2.5. Quality and Education Assessment Systems

- 2.5.1. Introduction: Quality and Assessment
- 2.5.2. Quality Indicators
- 2.5.3. Assessments at Education Centers
- 2.5.4. Conclusions

2.6. Perspectives on the Assessment of Education Quality

- 2.6.1. Assessment as an Agent of Improvement
- 2.6.2. Global, Integral Assessment Approach
- 2.6.3. Potential Risks of Assessment
- 2.6.4. Conclusions

2.7. Contemporary Education Quality Improvement Practices

- 2.7.1. Education Quality Policies in Spain
- 2.7.2. Education Quality Policies in Ibero-America
- 2.7.3. Education Quality Policies in France

2.8. Gender Approach and Quality of Education

- 2.8.1. Gender and Education Quality
- 2.8.2. Gender as an Element of Quality
- 2.8.3. Conclusions

2.9. Citizen Focus and Education Quality

- 2.9.1. Citizen Participation and Improvement of Education Quality
- 2.9.2. Democracy and Quality
- 2.9.3. Conclusions

2.10. University and Education Quality

- 2.10.1. University Quality: Concept and Dimensions
- 2.10.2. The Mass University
- 2.10.3. Educational Stakeholders in Quality
- 2.10.4. Research, Quality and University
- 2.10.5. Conclusions

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

This Postgraduate Certificate is aimed primarily at educators seeking a better management position in their institution or to improve the results of their own educational project. It is also suitable for pedagogues or social science professionals who want to orient their career towards a remarkable professional improvement through educational quality.
