## 05 Structure and Content

This Postgraduate Certificate in Financial Management in Event Management proposes an exclusive syllabus based on the study of the economic elements and variables to be analyzed within the framework of the organization of an event; with a structure and methodology that allow the professional to advance effectively in their training. On the other hand, the intervention of teachers who are active professionals in the sector, show real cases, which enrich the student's experience. Through a modern virtual campus with multiple multimedia resources, which allow progressive and natural learning, without large investments of time.

GG

Relearning, an innovative study methodology promoted by TECH, provides effectiveness and efficiency in the memorization and understanding of concepts"

### tech 20 | Structure and Content

### Syllabus

Making an event return on investment for your organization or company is a guarantee of success. Obtaining the expected results and also having the estimated economic resources to carry out what was planned is part of an effective execution of financial management. This Postgraduate Certificate aims to develop financial and analytical competencies for the decision making of today's professional in the face of tomorrow's new challenges.

A training that gives them the necessary tools and the most important and at the same time, the most useful knowledge to develop professionally in the area of events and therefore, to develop the competencies that will allow them to manage an event company or activities related to the environment.

The content included on the program has been created by professional experts in the field, who are currently active and successful professionals with extensive backgrounds and experience, both in business and in academics or education. This gives the program a unique identity, with excellent contents and completely current practical cases.

Over the course of 150 hours or 6 weeks online training, students will analyze a variety of practical cases through individual and team work. It is, therefore, an authentic immersion in real business situations.

A curriculum that covers the knowledge, both theoretical and practical, required of any professional interested in leading a growing sector. Adopting more specific competencies such as financial analysis before, during and after the event.

This Postgraduate Certificate takes place over 6 weeks and it consists of 1 module:

#### Module 1 Financial Management in Event Management

### Structure and Content | 21 tech

### Where, When and How is it Taught?

TECH offers you the possibility to study this Postgraduate Certificate in Financial Management in Event Management completely online. During the 6 weeks of the program, the student will be able to access all the contents of this program at any time, which will allow them to selfmanage their study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

# 06 **Methodology**

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.** 

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

### tech 26 | Methodology

### TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

666 At TECH, you will experience a learning methodology that is shaking the foundation methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

## Methodology | 27 tech

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## tech 28 | Methodology

### **Relearning Methodology**

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

### Methodology | 29 tech

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

### tech 30 | Methodology

This program offers the best educational material, prepared with professionals in mind:

#### **Study Material**

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

30%

10%

8%

3%

#### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

#### **Management Skills Exercises**

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

#### **Additional Reading**

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

### Methodology | 31 tech

#### **Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

#### **Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

30%

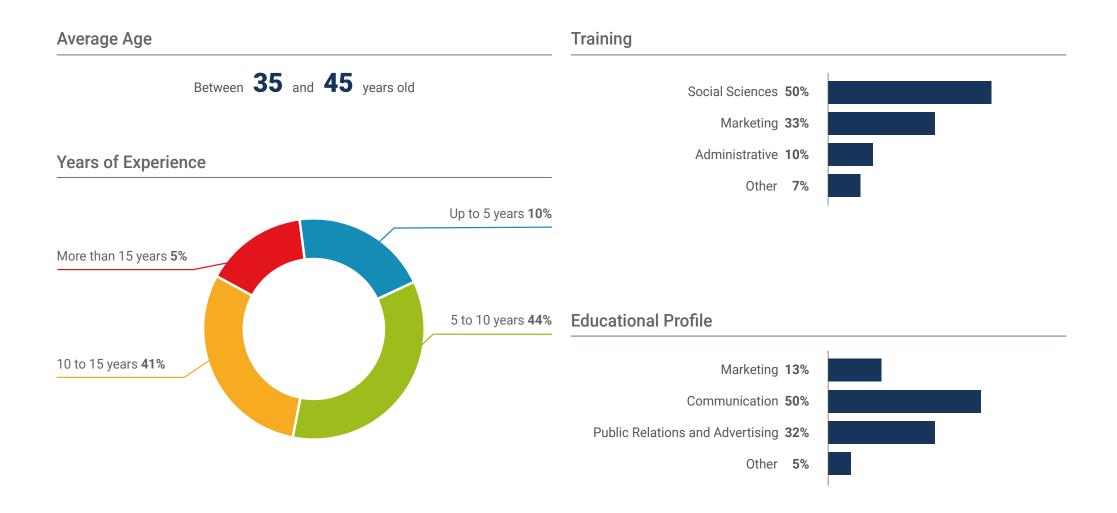

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

## 07 Our Students' Profiles

This program is aimed at professionals in the corporate or particular sector who are enthusiastic about event organization, and who wish to make a qualitative leap in their professional careers. Even creating their own event agency, giving them the necessary tools to direct or manage events with a strategic, innovative, multidisciplinary vision and high experiential value.

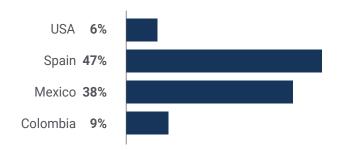

5 Training yourself in specific subjects will add exponential value to your professional profile"
