# 01

# Welcome

The international nature and the speed with which the foreign exchange market operates makes this scenario a complex and versatile field of action, which requires a very high level of knowledge in order to work safely, minimizing losses and, of course, increasing profits. Therefore, the trader must have a perfect command of techniques such as technical or fundamental analysis, as well as financial trading of ranges or trends. And so that you can achieve this effectively, TECH has developed a complete program focused on this field. This is a 100% online degree that delves into the main Forex trading techniques through 300 hours of the best theoretical, practical and additional content.

Postgraduate Certificate in Forex Trading Strategies.  
TECH Technological University

“

*Become an expert in scalping through the use of tick charts, time management and fast decision making with TECH and this Postgraduate Certificate"*

02

# Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

*TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"*

## At TECH Technological University

### Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

### The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

**95%** | of TECH students successfully complete their studies

### Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

**+100000**

executives prepared each year

**+200**

different nationalities

### Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

**+500**

collaborative agreements with leading companies

### Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

### Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

### Analysis

---

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

### Academic Excellence

---

TECH offers students the best online learning methodology. The university combines the Relearning methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

### Economy of Scale

---

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, volume + technology = a ground-breaking price. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

### Learn with the best

---

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

*At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"*

03

# Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

*We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”*

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

**01**

### A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

*70% of students achieve positive career development in less than 2 years.*

**02**

### Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

*Our global vision of companies will improve your strategic vision.*

**03**

### Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

*You will work on more than 100 real senior management cases.*

**04**

### You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

*45% of graduates are promoted internally.*

05

### Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

*You will find a network of contacts that will be instrumental for professional development.*

06

### Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

*20% of our students develop their own business idea.*

07

### Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

*Improve your communication and leadership skills and enhance your career.*

08

### You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

*We give you the opportunity to study with a team of world-renowned teachers.*

# 04 Objectives

TECH and its team of financial experts have developed this Postgraduate Certificate in Forex Trading Strategies with the aim of bringing together, in a single program, all the information necessary to perfectly master the activity in the foreign exchange market, through the course of a degree focused on this field. In addition, the degree is designed as a multidisciplinary and intensive academic experience, with which the graduate will be able to achieve his or her most demanding goals.

“

*Go deeper into the advantages and disadvantages of the main Forex trading strategies will help you to know which one to use in which contexts in order to always obtain the maximum profit"*

TECH makes the goals of their students their own goals too.  
Working together to achieve them.

The **Postgraduate Certificate in Forex Trading Strategies** will enable the student to:

01

Analyze the fundamentals of trading in different time frames

04

Acquire knowledge about the different types of derivatives used in trading and how to operate with them

02

Apply techniques and tools for technical and fundamental analysis in trading

03

Develop skills for capital management in trading, including position sizing and risk management

05

Analyze market environments

06

Identify the right prices to be able to enter the market

07

Define the most suitable assets and schedules to work with

08

Detecting market transactions by interpreting trading volume

05

# Structure and Content

TECH guarantees the best content in each of its degrees. The team works dozens of hours to compile it, searching and contrasting the information, as well as selecting only what is truly relevant so that the graduate can take advantage of it during the academic experience. As a result, it offers dynamic, multipurpose, multidisciplinary and highly professionalizing programs, perfect for gaining detailed knowledge of the area of interest.

“

*TECH's Online Campus is compatible with any device with internet connection, so you can connect wherever you want, without timetables or limits"*

## Syllabus

The Postgraduate Certificate in Forex Trading Strategies syllabus has been developed by the teaching team, which has invested dozens of hours to create the best content. For this purpose, in addition to taking as a reference their own trajectory, as well as the context in which they currently operate, they have selected the most innovative information, as well as everything necessary for any trader who wants to master the foreign exchange market and its activity.

Thanks to their predisposition and meticulous work, it has been possible to create 300 hours of diverse content, theoretical, practical and additional material that is housed in a comfortable and flexible online platform, which the graduate can access from any device with an internet connection. This content is mainly based on delving into Forex trading, as well as technical analysis applied to currency trading in the current environment.

All of this without schedules, on-site classes or connection limits. Thus, the graduate can organize the academic calendar with flexibility, without stress and allowing him/her to combine the program with any other activity. It is, therefore, a safe bet to orient your professional career towards a booming area through a complete, dynamic and perfect program.

This Postgraduate Certificate takes place over 12 weeks and is divided into 2 modules:

### Module 1

Forex Trading

### Module 2

Technical analysis applied to Forex

### Where, when, and how it is taught

TECH offers the possibility of developing this Postgraduate Certificate in Forex Trading Strategies completely online. During the 12 weeks of the specialization, the student will be able to access all the contents of this program at any time, which will allow the students to self-manage their study time.

*A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.*

- 2.3.1. Confluence
- 2.3.2. Types of confluences
- 2.3.3. Layout of the confluence zones
- 2.3.4. Price behaviour on confluence

**2.4. Market environments**

- 2.4.1. Upward trending market environment
- 2.4.2. Bearish market environment
- 2.4.3. Sideways market environment

**2.5. Price Dynamics Analysis: graphing**

- 2.5.1. Reference chart above. Diary
- 2.5.2. Market environment chart. 4H
- 2.5.3. Analysis chart. 30 minutes
- 2.5.4. Trigger graph. 5 minutes

**2.6. Chartism**

- 2.6.1. Chartism Principle. The trend
- 2.6.2. Trend Continuation Charts
- 2.6.3. Trend Exhaustion Charts

**2.7. Operating hours**

- 2.7.1. European stock market hours
- 2.7.2. US stock market hours
- 2.7.3. Asian stock market hours

**2.8. Asset selection**

- 2.8.1. Asset selection. How it helps the trader
- 2.8.2. *Screeners*
- 2.8.3. Main search filters

**2.9. Candlestick patterns**

- 2.9.1. How to read a Japanese candle
- 2.9.2. Patterns of trend change
- 2.9.3. Patterns of continuation

**2.10. Market volume. Importance**

- 2.10.1. Trading volume
- 2.10.2. How volume accompanies the trend
- 2.10.3. Volume in the different assets

*Thanks to the Relearning methodology, you won't have to invest extra hours in memorizing, and you will learn dynamically and gradually without even realizing it!"*

# 06

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”*

*This program prepares you to face business challenges in uncertain environments and achieve business success.*

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

### Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

# Our Students' Profiles

TECH does not direct its degrees towards a specific student profile, but rather it offers programs that adapt to the demands of any professional. In this way it can offer academic experiences for everyone, being primordial, as it cannot be otherwise, that you are interested in the area in which it is based, in this case the financial and stock market advice focused on Forex Trading Strategies.

“

*The only requirement for this degree is that you want to become an expert in Forex Trading Strategies"*

### Average Age

---

Between **35** and **45** years old

### Years of Experience

---

### Education

---

### Educational Profile

---

## Geographical Distribution

---

## Francisco Mendoza

---

CEO and stock market analyst

*"I think TECH does a very good job with their degrees. This is not the first time I have chosen this university to take a program and, once again, they have met all my requirements. Complete and updated syllabus, variety of content, dynamic and diverse material, personalized attention... I can't ask for more"*

08

# Course Management

The teaching staff of this program has been formed, as it could not be otherwise, by selecting the best professionals, specialists in Forex Trading with enough experience to transmit the most accurate knowledge through a degree like this. As a result, graduates will be able to keep abreast of the best strategies in this sector under the guidance of professionals of the highest level.

“

*Having the support of a teaching team specialized in Forex Trading Strategies will allow you to implement their own successful techniques in your practice”*
