01 Welcome

In an era characterized by digitization, advanced operations in DeFi and Passive Income have several benefits for institutions. Among them, the diversification of their revenues and access to global finance stand out. Given this, Blockchain experts need to both update their content and apply the latest technological trends in the crypto world. In this context, TECH offers an educational program to provide students with the most advanced strategies in staking and maximizing rewards to face challenges in the decentralized finance ecosystem. In addition, the syllabus will provide them with new skills to generate passive income with insight. Moreover, it should be noted that it is based on a 100% online methodology, providing great flexibility to the professional.

Postgraduate Diploma in Advanced Trading in DeFi and Passive Income
TECH Technological University

“

You will control the tool of leverage thanks to the technical tools that only the world's best online university according to Forbes can provide you with”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

This syllabus, developed by a prestigious teaching staff, will turn students into experts in advanced operations in DeFi. The syllabus delves into the operation of lending and staking, with an emphasis on the risks involved in these practices. In addition, the program will delve into the yield farming strategy for investors to maximize returns. In this way, students will develop specialized knowledge while exploring opportunities and challenges in an international context. Upon completion of the program, graduates will have the opportunity to make a difference through the most innovative strategies.

“

You will achieve your objectives thanks to TECH's teaching tools, including explanatory videos and interactive summaries"

TECH makes the goals of their students their own goals too
Working together to achieve them

The **Postgraduate Diploma in Advanced Trading in DeFi and Passive Income** will enable students to:

01

Acquire the skills necessary to maximize passive income through the effective implementation of DeFi strategies

04

Apply the latest yield farming trends and participation in DAOs

02

Get an in-depth understanding of advanced DeFi and passive income strategies in the cryptocurrency and blockchain ecosystem

03

Identify DeFi's advantages, including global access and transparency, and analyze challenges, such as security and regulation

05

Master a variety of digital wallets, executing rigorous security practices

06

Be able to research case studies of hacks and losses of funds related to digital wallets to learn from common mistakes

08

Master the most popular lending and staking platforms, using them efficiently

09

Gain control of the essential strategies and tools used in yield farming in order to maximize returns from cryptocurrency investments

07

Understand the fundamental concepts of cryptocurrency lending, including the process, types of loans and interest rates

10

Apply the most commonly used DEX protocols such as Uniswap, SushiSwap and PancakeSwap

11

Understand the legal or regulatory implications of DEX and its relationship with financial and supervisory authorities

12

Acquire specialized knowledge on how to evaluate and select suitable assets for tokenization

13

Gain insight into how DeFi is redefining financial transactions, economic inclusion, and traditional intermediation

14

Assess risks, challenges and opportunities in the crypto space considering legal, ethical and sustainable aspects

05

Structure and Content

The Postgraduate Diploma in Advanced Trading in DeFi and Passive Income is based on a 100% online methodology in order to adapt to the schedules of the graduates. Therefore, students will adapt the schedules and evaluation chronograms to their personal circumstances. In addition, the syllabus is supplemented with a library of multimedia resources to strengthen their learning with explanatory videos, interactive summaries and infographics.

“

*With the Relearning system
you will integrate the concepts
in a natural and progressive
way. Forget about memorizing!”*

Syllabus

This program is a source of knowledge on decentralized financial technology. Organized in 3 modules, the syllabus will delve into advanced factors of the cryptocurrency and blockchain ecosystem. Thanks to this, the professional will maintain their digital assets while generating passive income and participating in the decentralized economy.

In this sense, students will delve into the most popular platforms used in yield farming, where Compound stands out. Likewise, the educational itinerary will analyze optimal trading methods with cryptographic options. In this way, graduates will apply hedging strategies in cutting-edge operations.

Through 6 months of online learning, students will be highly qualified to evaluate risks, challenges and opportunities in the world of cryptocurrencies. It should be noted that the teaching staff will consider the legal, ethical and sustainable aspects related to this practice. In this way, users will gain both transparency and confidence in the disclosure of information.

At the same time, the syllabus is designed to adapt the students to the current needs in the passive income system. Therefore, the program emphasizes the latest trends in DeFi and analyzes the most effective resources. Over the course of 450 teaching hours, the program will provide a unique and stimulating experience, thereby laying the foundation for success in this ever-expanding profession.

This Postgraduate Diploma takes place over 6 months and is divided into 3 modules:

Module 1

Loans and Staking applied to DeFi

Module 2

Yield Farming applied to DeFi

Module 3

Cryptocurrency Derivatives and Advanced Trading Strategies

Where, When and How is it Taught?

TECH Technological University offers you the possibility to study this Postgraduate Diploma in Advanced Trading in DeFi and Passive Income completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Loans and Staking applied to DeFi

1.1. Lending Mechanisms in Cryptocurrencies

- 1.1.1. Collateralized Loans
- 1.1.2. Uncollateralized Loans (Flash Loans)
- 1.1.3. P2P Lending Platforms

1.2. Staking as Validation and Rewards

- 1.2.1. Staking Functioning
- 1.2.2. Participation in the Security of Blockchain Networks
- 1.2.3. Reward Generation

1.3. Economic Implications of Lending and Staking

- 1.3.1. Profitability and Risks
- 1.3.2. Comparison with Traditional Investments
- 1.3.3. Diversification of Digital Assets

1.4. Lending and Staking Platforms

- 1.4.1. Selection of Reliable Platforms
- 1.4.2. Registering and Setting Up Accounts
- 1.4.3. Participation in Loans and Staking

1.5. International Legal and Tax Considerations

- 1.5.1. International Jurisdictions and Regulations
- 1.5.2. International Cryptocurrency Related Taxes
- 1.5.3. International Regulatory Compliance

1.6. Examples of Successful Lending and Staking applied to DeFi

- 1.6.1. Examples of Successful Lending and Staking
- 1.6.2. Lessons Learned from Past Problems
- 1.6.3. Risks and Rewards in Practice

1.7. Advanced Staking Strategies

- 1.7.1. Maximizing Rewards
- 1.7.2. Diversification Strategies
- 1.7.3. Risk and Portfolio Management

1.8. Security and Private Key Practices

- 1.8.1. Private Key Protection in Staking
- 1.8.2. Secure Storage
- 1.8.3. Recovery of Funds

1.9. Liquidity and Yield Strategies

- 1.9.1. Liquidity Providers
- 1.9.2. Yield Aggregation Strategies
- 1.9.3. Profit Maximization in DeFi

1.10. Future of Lending and Staking

- 1.10.1. Emerging Trends in Lending and Staking
- 1.10.2. Integration with the Global Economy
- 1.10.3. Long-Term Outlook

Module 2. Yield Farming applied to DeFi**2.1. Yield Maximization Strategies**

- 2.1.1. Yield Farming with Tokens
- 2.1.2. Advanced Yield Farming Strategies
- 2.1.3. Optimization of Liquidity Provider
Reward Harvesting

2.2. Yield Farming Platforms and Protocols

- 2.2.1. Ethereum and Binance Smart Chain (BSC)
- 2.2.2. PancakeSwap, Uniswap and SushiSwap
- 2.2.3. Emerging Yield Farming Platforms

2.3. Risk Management in Yield Farming

- 2.3.1. Risks Inherent in Yield Farming
- 2.3.2. Risk Mitigation Strategies
- 2.3.3. Loss Case Studies in Yield Farming

2.4. Yield Maximization Strategies

- 2.4.1. Basic Yield Farm Strategies
- 2.4.2. Advanced Yield Farm Strategies
- 2.4.3. Yield Farming Tools and Services

2.5. International Tax and Regulatory Implications

- 2.5.1. DeFi and Tax Regulations
- 2.5.2. Tax Returns for Yield Farmers
- 2.5.3. Regulatory Compliance in Yield Farming

2.6. Recent Trends and Developments in DeFi

- 2.6.1. Innovations in DeFi
- 2.6.2. Layer Integration
- 2.6.3. Developments in the NFT Space and its
Relation to Yield Farming

2.7. Successful Case Studies

- 2.7.1. Case Study 1: Yearn Finance
- 2.7.2. Case Study 2: Compound Finance
- 2.7.3. Case Study 3: Aave

2.8. Future Outlook for Yield Farming

- 2.8.1. Scalability and Sustainability
- 2.8.2. Mergers and Acquisitions in the DeFi Space
- 2.8.3. Interoperability with Other Blockchains

2.9. Technical Challenges and Solutions in Yield Farming

- 2.9.1. Solving Impermanent Loss Problems
- 2.9.2. AMM (Automated Market Maker) and Slippage
Strategies
- 2.9.3. Innovations in DeFi Protocols

2.10. Practical Exercises of Yield Farming

- 2.10.1. Creating a DeFi Wallet
- 2.10.2. Participating in a Yield Farming Platform
- 2.10.3. Analysis of Results and Lessons Learned

Module 3. Cryptographic Derivatives and Advanced Trading Strategies

3.1. Cryptocurrency Options

- 3.1.1. Options Trading Strategies
- 3.1.2. Implementation and Management of Options in DeFi
- 3.1.3. Practical Examples

3.2. Cryptocurrency Perpetual Future Contracts

- 3.2.1. DeFi Futures Trading
- 3.2.2. Perpetuals and their Application in the Crypto Market
- 3.2.3. Advanced Strategies with Perpetual Future Contracts

3.3. Hedding Strategies and Risk Management

- 3.3.1. Hedding Strategies in Cryptocurrency Trading
- 3.3.2. Risk Management in the DeFi Ecosystem
- 3.3.3. Case Studies and Practical Examples

3.4. Leverage and Financing in DeFi

- 3.4.1. Leverage in Cryptocurrency Trading
- 3.4.2. Lending and Financing in DeFi for Advanced Strategies
- 3.4.3. Relevant Platforms and Protocols

3.5. Technological Developments and Trends in Cryptocurrency Derivatives

- 3.5.1. Technological Innovations in Derivatives
- 3.5.2. Emerging Trends in Advanced Trading
- 3.5.3. Interoperability and the Future of Derivatives in the Cryptocurrency Space

3.6. Risks and Challenges of Advanced Trading

- 3.6.1. Risks associated with Advanced Strategies
- 3.6.2. Legal and Regulatory Aspects of Cryptocurrency Trading
- 3.6.3. Safety Measures and Best Practices

3.7. Case Studies in Advanced Cryptocurrency Trading

- 3.7.1. Examples of Successful Strategies
- 3.7.2. Lessons Learned from Past Challenges
- 3.7.3. Risk and Reward Analysis in Advanced Trading

3.8. New Markets and Opportunities in Cryptocurrencies and DeFi

- 3.8.1. New Cryptocurrency Markets
- 3.8.2. Identification of Opportunities in the DeFi Ecosystem
- 3.8.3. Advanced Investment Strategies in Cryptocurrencies

3.9. Practices and Ethics in Advanced Trading

- 3.9.1. Best Practices in Advanced Trading
- 3.9.2. Ethics and Responsibility in Cryptocurrency Trading
- 3.9.3. Sustainable Strategies in the Cryptocurrency Space

3.10. Future Outlook and Challenges

- 3.10.1. Anticipated Developments in Advanced Trading
- 3.10.2. Challenges Facing the Cryptocurrency Space
- 3.10.3. Long-Term Outlook for Advanced Trading in Cryptocurrencies

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

This Postgraduate Diploma is oriented at university graduates who have previously completed any of the degrees in the field of Computer Science, Economics, Finance, Technology, Innovation or Blockchain research

The diversity of participants with different academic profiles and from multiple nationalities makes up the multidisciplinary approach of this program.

Professionals who, being university graduates in any area, have at least two years of work experience in the field of entrepreneurship and project development, may also take this Postgraduate Diploma.
