01
Welcome

The digital revolution and the development of technology have led to the growth of the crypto-economy, with which the concept of physical money has been volatilized, giving way to the emergence of digital assets that are nowadays traded at exorbitant prices. It is, therefore, a sector with ample business opportunities and in which incalculable profits can be obtained if you act safely. And for this, graduates can count on this program, which will provide them with all the information they need to master the crypto environment and new business models, as well as the *Compliance* to develop a good practice in the regulatory framework. All of this 100% online and through an educational experience that will help you succeed in the area of decentralized finance in a guaranteed way and in only six months of theoretical and practical training.

Postgraduate Diploma in Cryptoeconomics. TECH Technological University

A 100% online qualification that will undoubtedly mark a before and after in your professional career. Are you ready to walk the path to success in the crypto environment?"

02
Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+ executives trained each year

200+ different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03
Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05 Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06 Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07 Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08 Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

Objectives

TECH and its team of experts in Cryptoeconomics have developed this program with the objective of guiding the graduate on his or her way to becoming a true specialist in this environment. To this end, it will provide you with the most exhaustive and innovative information, supported by hours of high-quality additional material presented in different formats. In addition, you will have the best and most innovative academic tools, which will make the course of this program a dynamic, enjoyable and highly empowering experience.

You will be able to reach even your most ambitious goals thanks to the very high level of support and all the tools that support and all the tools that this university will provide you with this Postgraduate Diploma"

**TECH makes the goals of their students their own goals too.
Working together to achieve them.**

The **Postgraduate Diploma in Cryptoeconomics** enables the student to:

01 Evaluate a decentralized governance model and its obstacles

02 Conduct an analysis of identified risks
03 Generate specialized knowledge on consumer and investor protection

04 Examine the effectiveness and impact on monetary policy

05 Determine financial instability risks

A unique, key and decisive educational experience and decisive to boost your professional development and make the definitive leap.

Module 1. Cryptoeconomics

1.1. Cryptocurrencies and Money
1.1.1. Fiat Money. Operation
1.1.2. Bitcoin vs. Ethereum. The Rest
1.1.3. The Role of Stable Currencies

1.2. Central Banks and CBDCs
1.2.1. CBDCs
1.2.2. The Digital Yuan Case
1.2.3. Bitcoin vs. CBDCs
1.2.4. El Salvador

1.3. Blockchain Evaluation and Valorization
1.3.1. Cash Flow Method
1.3.2. Country Method
1.3.3. Technical Analysis vs. Fundamental Analysis

1.4. Wallets
1.4.1. Wallets. Key Elements
1.4.2. Protected Wallets
1.4.3. Unprotected Wallets
1.4.4. Wallets Promoted by Countries

1.5. Tokenomics
1.5.1. Tokenomics. Importance
1.5.2. NFTs or Tokens
1.5.3. Type of Tokens Utility vs Security vs. Governance

1.6. Web3 Economics
1.6.1. Cryptocurrencies. New Economy Basis
1.6.2. NFTs and Games
1.6.3. NFTs and Communities
1.6.4. Combined Models of NFTs and Tokens

1.7. Digital Identity
1.7.1. Cryptos as a Paradigm of Digital Identity
1.7.2. Digital Identity and DeFi
1.7.3. Soul Bound NFTs

1.8. New Banking
1.8.1. Crypto Banks
1.8.2. Crypto Loans
1.8.3. Crypto Interests
1.8.4. Banking System Evolution

1.9. Crypto Project Launch
1.9.1. ICO
1.9.2. IDO
1.9.3. ILO
1.9.4. NFTs
1.9.5. Tokenomics and Superfluid

1.10. Medium-Term Paradigms
1.10.1. Quantum Computing
1.10.2. Big Data and Blockchain
1.10.3. Decentralization Utopia

Module 2. New Crypto Business Models Protocols

2.1. DeFi Protocol Analysis on Bitcoin
2.1.1. DeFi on Bitcoin
2.1.2. Lightning Network
2.1.3. RSK

2.2. Analysis of Landing Protocols
2.2.1. Main Landing Protocols
2.2.2. Case Uses
2.2.3. Landing in Crypto Projects vs. Non-Crypto

2.3. AMM Protocol Analysis
2.3.1. Main AMM Protocols
2.3.2. Case Uses
2.3.3. Differences Between Landing and AMM

2.4. DEX Protocol Analysis
2.4.1. Main DEX Protocols
2.4.2. Case Uses
2.4.3. BPO Vs. CEX

2.5. Information and Resource Silos
2.5.1. Information Silos
2.5.2. Crypto Silos Creation. Advantages
2.5.3. Real World Uses of Information Silos

2.6. Protocol Analysis Liquidity Mining and Yield Farming
2.6.1. 7.6 Protocol Analysis:
2.6.2. Yield Farming Under the Hook
2.6.3. Tactics of Use According to Asset

2.7. Insurance Protocol Analysis
2.7.1. Main Insurance Protocols
2.7.2. Case Uses
2.7.3. Secure Protocol Creation

2.8. Investment Funds
2.8.1. Investment Funds
2.8.2. Crypto Investment Fund Analysis
2.8.3. Crypto Investment Fund Analysis

2.9. Composite Strategies
2.9.1. Cryptocurrency Trading
2.9.2. Strategy Analysis
2.9.3. Use Criteria for Strategies

2.10. Portfolio Analysis, Balancing and Protection
2.10.1. Cryptocurrency Wallets
2.10.2. Asset Analysis
2.10.3. Balancing and Protection Strategies

Module 3. Compliance. Regulations and Crypto Privacy

3.1. Digital Identity
3.1.1. Digital Identity Transformation
3.1.2. Self Sovereign Identity
3.1.3. Regulatory Framework in the Different International Legal Systems

3.2. Digital Signature
3.2.1. Electronic Signature
3.2.2. Digital Certificate
3.2.3. Certification Authorities

3.3. Compliance
3.3.1. Compliance
3.3.2. Blockchain Compliance
3.3.3. Compliance Models

3.4. Cryptos and Icos Legality
3.4.1. Regulatory Framework
3.4.2. ICOS Launch
3.4.3. From ICOS to IDOS

3.5. Taxation Cryptos
3.5.1. Tax Treatment of Cryptoassets in the European Union Legal System
3.5.2. Crypto-Asset Taxation Consultations
3.5.3. Tax Accounting Treatment in the European Union

3.6. International Regulation in the Different Jurisdictions Regarding the Holding of Cryptoassets. Special Treatment in the Americas
3.6.1. MICA
3.6.2. DORA
3.6.3. EIDAS
3.6.4. The Future of Cryptos According to the European Commission

3.7. Cybersecurity
3.7.1. Cybersecurity in Blockchain
3.7.2. Decentralization
3.7.3. Blue Team

3.8. Ethics and Digital Errors
3.8.1. Good Faith in the Legality of U.S. Projects
3.8.2. Digital Transformation Mistakes
3.8.3. Structuring Parameters in the Organization

3.9. Regtech and Legaltech Solutions
3.9.1. REGTECH Solutions
3.9.2. LEGALTECH Solutions
3.9.3. Practical Examples

3.10. Blockchain Certificates
3.10.1. Blockchain Certification
3.10.2. Sector Business Opportunity
3.10.3. BlockTac

The perfect program to delve into the new banking and how the banking system will evolve in the coming years in order to be prepared"

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

> *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Our Students' Profiles

The program is aimed at graduates and university graduates who have previously completed any of the following qualifications in the fields of Social and Legal Sciences, Administration and Economics.

This program uses a multidisciplinary approach as the students have a diverse set of educational profiles and represent multiple nationalities.

The Postgraduate Diploma can also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of cybersecurity policy management.

Raul Gimenez

Consultant and Managing Partner in a major digital assets company

"I had been interested in the field of Cryptocurrency for some time, but it was not until a colleague at work recommended this Postgraduate Diploma that I decided to specialize in this field. Now I know that it was the best decision I could have made, because thanks to TECH and the incredible work of its teaching team I have been able to immerse myself in this environment and dedicate my activity to it, achieving everything I had previously proposed"

08

Course Management

TECH selects the teaching staff of all its qualifications taking into consideration: their educational curriculum, work experience and human qualities. Thanks to this, it is possible to create a faculty of the highest level, with which graduates can embark on their path to professional success hand in hand with the best. An example of this is this Postgraduate Diploma, which has included a group of specialists in the crypto environment who, in addition, have successfully started their own businesses. In this way, students will be able to learn from their most effective and beneficial strategies and apply them to their own projects to increase their guarantee and value.

You will be supported by a teaching team versed in Cryptoeconomics to hone your management skills in the decentralized finance environment"
