01 Welcome

The success of a company today depends on its ability to offer a satisfactory customer experience through multiple digital tools. The integration of mobile applications, communication through social networks or the use of Chatbots are indispensable in this area. In this way, being able to generate unique sensations is a challenge for professionals who want to succeed in the business sector. To further facilitate progression in this field, TECH has designed this 100% online program that provides advanced knowledge about the shopping experience, the most current strategies for consumer loyalty and the systems used for Target analysis. All this, with the best didactic material and a first class teaching staff.

Postgraduate Diploma in Customer Experience
TECH Technological University

“

*Create a memorable user experience with this
100% online Postgraduate Diploma”*

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

20

Identify how *Influencers* and celebrities can be used to deliver an emotionally connected customer experience

05

Structure and Content

The Postgraduate Diploma in Customer Experience is a program whose syllabus has been designed to offer intensive, hands-on learning right from the start. In this way, the professional who attends this program will be able to incorporate the most effective techniques and strategies to improve the customer experience. All, in addition, with numerous teaching resources in which TECH has used the latest technology applied to university teaching.

“

You have a virtual library, accessible 24 hours a day from any digital device with an Internet connection”

Syllabus

The Postgraduate Diploma in Customer Experience offers the graduate a complete learning on the generation of value through personalized experiences, the implementation of loyalty strategies in order to increase customer satisfaction.

To achieve these goals, students will delve into the selection of metrics and the identification of each consumer profile in order to analyze the sentiment that generates the purchase and the detection of opportunities. In addition, thanks to video summaries of each topic, videos in detail, readings and case studies, the graduate will delve dynamically into the Shopping Experience and the different types of digital channels to create an optimal service.

Likewise, with the Relearning method, students will advance more naturally through the syllabus, consolidating the new concepts addressed and thereby reducing the long hours of study and memorization.

Undoubtedly, an excellent opportunity for professionals who wish to combine quality teaching with their daily activities. This program offers flexibility and adapts to the real needs of graduates, without the need for classroom attendance or classes with fixed schedules.

This Postgraduate Diploma in Customer Experience is developed over 6 months and is divided into 3 modules:

Module 1

Customer Experience Analytics

Module 2

Shopping Experience

Module 3

Digital Platforms Experience

Where, When and How is it Taught?

 - 1.1.2.1. Requirements to Maintain a System Interpretable by the Different Layers of the Organization over Time
- 1.1.3. Decision Making
 - 1.1.3.1. Interpretation and Action

1.2. NPS, Customer Loyalty

- 1.2.1. NPS: what Does It Calculate and How?
- 1.2.2. Use of NPS as a Reference KPI Pros and Cons
- 1.2.3. Examples and Sectorial References

1.3. CSAT Customer Satisfaction

- 1.3.1. CSAT: what Does It Calculate and How?
- 1.3.2. Use of CSAT as a Reference KPI Pros and Cons
- 1.3.3. Examples and Sectorial References

1.4. Complementary KPIs

- 1.4.1. CES: Customer Satisfaction with the Degree of Difficulty of a Given Action
- 1.4.2. CLV: Customer Lifetime Value
- 1.4.3. Attrition and Retention Rates
- 1.4.4. Sector Specifics

1.5. Online Reputation Importance of Internet Semantic Data

- 1.5.1. Active Listening on the Internet: Analysis of Brand Reputation on Social Networks, Comparison Sites and Your Website
- 1.5.2. Response Strategy: Interaction as a Brand Reputation Management Tool
- 1.5.3. Platforms for Listening and Management

1.6. Contact Center. The Telephone, a Powerful Lever for Taking the Customer's Pulse

- 1.6.1. Illustration of the Role of the CX in the Development of an Innovation Product
- 1.6.2. Essential Steps
- 1.6.3. Common Errors

1.7. Keys to Achieving a Holistic View of Customer Feedback

- 1.7.1. Selecting Your Optimal KPIs
- 1.7.2. Optimization of the Timing of the Journey for Feedback Collection
- 1.7.3. Identification of Customer Experience by Customer Profile Typology

1.8. Technological Architecture Key Aspects

- 1.8.1. Security/Safety
- 1.8.2. Privacy
- 1.8.3. Integrity
- 1.8.4. Scales
- 1.8.5. Real Time

1.9. The Control Panel

- 1.9.1. Roles
 - 1.9.1.1. Who Interacts, Purpose and Frequency
- 1.9.2. Data Visualization
 - 1.9.2.1. Platforms
- 1.9.3. Assessment of the Implications of Integrations

1.10. Customer Experience from Different Starting Points: the Road to Excellence

- 1.10.1. Degree of Knowledge of Your Customer and Target Customer
- 1.10.2. Experience Management with External Teams
- 1.10.3. Resources, Time and Follow-Up
- 1.10.4. Evangelization from the Management/ Executive Team

Module 2. Shopping Experience

2.1. Shopping Experience 2.1.1. Shopping Experience 2.1.2. Generation of Experiences as a Way of Differentiation 2.1.3. Keys to Understand the Shopping Experience	2.2. The Buying Process and Sales Cycle 2.2.1. Consumer Psychology in Purchase Decision Making 2.2.2. The Sales Cycle Keys to Optimize the Sales Process 2.2.3. The Market and Buying Patterns	2.3. Excellence in Customer Service and After-Sales Service 2.3.1. Customer Service and After-Sales Service 2.3.2. Omnichannel Customer Service 2.3.3. Effective Customer Communication Techniques 2.3.4. Influence of Store Personnel on the Shopping Experience	2.4. Personalization of the User Experience 2.4.1. Personalization of the User Experience Relevance 2.4.2. Influence of Personalization on Purchase Decision Making 2.4.3. Personalization in Physical Customer Service
2.5. Customer Experience Design in the Physical Store 2.5.1. Store Layout Design to Improve Customer Experience 2.5.2. Use of the Senses to Generate Positive Emotions in the Consumer 2.5.3. Strategies to Improve the Physical Store Experience	2.6. In-Store Technology 2.6.1. Interactive Displays in Physical Stores 2.6.2. Geotargeting: Use of Beacons to Personalize the Shopping Experience 2.6.3. Data Analysis to Improve the Shopping Experience	2.7. Emotional Marketing in the Shopping Experience 2.7.1. Emotions in Purchase Decision Making Influence 2.7.2. Emotional Marketing Strategy Design 2.7.3. Use of Storytelling in the Shopping Experience	2.8. Sensory Marketing in the Shopping Experience 2.8.1. Sensory Marketing Relevance 2.8.2. Sensory Marketing Techniques 2.8.2.1. The Senses, Generators of Positive Consumer Emotions 2.8.3. Trends in Sensory Marketing Future
2.9. Shopping Experience Evaluation 2.9.1. Metrics 2.9.2. Collection of Customer Feedback 2.9.3. Actions and Techniques for Evaluation of the Physical Store Experience	2.10. Creating a Memorable Shopping Experience 2.10.1. Creating a Memorable Shopping Experience 2.10.2. Retail Trends 2.10.3. Accessible Shopping Experience		

Module 3. Digital Platforms Experience

3.1. Digital Channels

- 3.1.1. Industrial Internet of Things (IoT) and Its Role in Digital Channels
- 3.1.2. Digital Channel Types
- 3.1.3. Choosing the Right Digital Channels for Your Business

3.2. Web Channel

- 3.2.1. User Experience Analysis in the Web Channel
- 3.2.2. Search Engine Optimization (SEO)
- 3.2.3. Liquid Web Design: Adaptation to Mobile Devices

3.3. Mobile Applications and Social Networks

- 3.3.1. Mobile Application Types
- 3.3.2. Essential App Functions Implementation
- 3.3.3. Impact of Social Media on Customer Experience
 - 3.3.3.1. Efforts to Improve Customer Interaction and Satisfaction

3.4. Chatbots

- 3.4.1. Chatbots Types
 - 3.4.1.1. Rules-Based Chatbots
 - 3.4.1.2. Artificial Intelligence-Based Chatbots
 - 3.4.1.3. Hybrid Chatbots
- 3.4.2. Integration of Chatbots into Digital Channels to Improve Customer Service and Efficiency
- 3.4.3. Chatbot Design for an Intuitive and Effective User Experience

3.5. Voice Technology

- 3.5.1. The Voice Technology Case Uses
- 3.5.2. Virtual Assistants to Improve Customer Experience
- 3.5.3. Voice Technology in the Customer Experience Trends and Future

3.6. Customer Experience in Digital Channels

- 3.6.1. Customer Experience in Digital Channels
- 3.6.2. Web Design as a Driver for Improving User Experience
- 3.6.3. Efficiency as Part of the Experience

3.7. Design for Channels

- 3.7.1. Omnichannel Design
- 3.7.2. Design Management to Enhance the Experience across Channels
- 3.7.3. Design Systems: *Atomic Design and Design System*

3.8. Working with Channels

- 3.8.1. Content Marketing
 - 3.8.1.1. Creation of Valuable and Relevant Content for the Customer in Digital Channels
- 3.8.2. Optimization of Digital Channels to Improve Positioning in Search Results
- 3.8.3. Use of Influencers and Celebrities to Provide an Emotionally Connected Customer Experience

3.9. Personalization

- 3.9.1. Omnichannel Personalization Personalized User Experience
- 3.9.2. Artificial Intelligence
 - 3.9.2.1. Clustering and Hyperpersonalization
- 3.9.3. Personalization to Create Relevant and Attractive Offers and Promotions for Each Customer

3.10. Omnichannel and Frictionless

- 3.10.1. The Frictionless Concept and the Impact on Customer Experience
- 3.10.2. Customer Friction Identification and Management

“

Increase customer satisfaction and brand engagement ratios with the latest digital trends in Customer Experience”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Diploma is aimed at university graduates, who have previously completed any program in the field of Social, Administrative and Business Sciences.

The diversity of participants with different academic profiles and from multiple nations makes up the multidisciplinary approach of this program.

The Postgraduate Diploma can also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of customer experience.

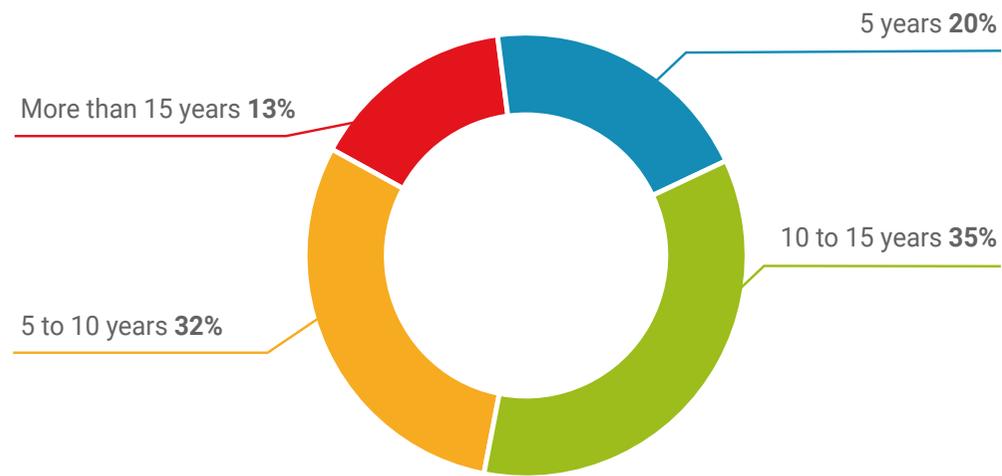

“

If you have experience in Marketing and are looking to progress in the area of customer acquisition, this is the program for you"

10

Benefits for Your Company

The Postgraduate Diploma in Customer Experience undoubtedly contributes to the student's mastery of the subject, but also to the company where they work. In this way, the entities increase their prestige by having highly qualified professionals who are constantly updating their knowledge and incorporating the latest trends in this field. An educational option that opens up a wide range of possibilities for both professionals and the companies of which they form part.

“

In the digital era, the Customer Experience professional must be aware of the latest trends. Get that update with this Postgraduate Diploma"

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11
